Operation Arcana John Joseph Adams.2015-02-16 In the realms of fantasy, the battlefield is where heroism comes alive, magic is unleashed, and legends are made and unmade. From the War of the Ring, Tolkien's epic battle of good versus evil, to The Battle of the Blackwater, George R.R. Martin's grim portrait of the horror and futility of war, these fantastical conflicts reflect our highest hopes and darkest fears, bringing us mesmerizing visions of silver spears shining in the sun and vast hordes of savage beasts who threaten to destroy all that we hold dear. Now acclaimed editor John Joseph Adams is sounding the battle cry and sixteen of today's top authors are reporting for duty, spinning never-before-published, spellbinding tales of military fantasy, including a Black Company story from Glen Cook, a Paksenarrion story from Elizabeth Moon, and a Shadow Ops story by Myke Cole. Within these pages you'll also find World War I trenches cloaked in poison gas and sorcery, modern day elite special forces battling hosts of the damned, and steampunk soldiers fighting for their lives in a world torn apart by powers that defy imagination. The Fire Outside My Window Sandra Millers Younger.2013-09-03 The Fire Outside My Window: A Survivor Tells the True Story of California's Epic Cedar Fire is both a poignant memoir and a veteran journalist's narrative nonfiction account of a catastrophic event that crippled postcard-perfect San Diego and dominated international headlines in October 2003. Author Sandra Millers Younger's miraculous saga of escape, ruin and renewal unifies a tapestry of experiences woven from more than 100 interviews with firefighters, survivors and the families of those who died. The fire itself, one of the biggest and most destructive in California history, is the main character in this epic story—a rampaging monster, framed within historical context, battled by understaffed, under-equipped firefighters, and confronted from the rare perspective of terrified civilians caught in its path. Timing, location and weather conspired against air tankers, fire engines and bulldozers, enabling a lost hunter's signal fire to gather strength in the mountains east of San Diego. Overnight, a swelling wind sent flames galloping toward the Pacific, killing 15 people, 12 of them the author's neighbors; incinerating more than 2,200 homes, including hers; and creating a lunar landscape 20 times the size of Manhattan In this revealing narrative, Younger takes readers into the heart of an epic firefight, telling the stories of fire chiefs and air tanker pilots trying to combat a catastrophe bigger than they had ever imagined, and recounting both survivors' and victims' desperate efforts to escape flames moving faster than fire engines could drive. The Fire Outside My Window is a riveting and nuanced tale that captures the intensity of a runaway wildfire, honors those lost to its fury, and celebrates the human spirit's innate capacity to triumph over adversity.

Virtual Summits For Authors Ray Brehm.2020-07-24 Don't fall for this diabolical myth about your book!If you already have, you know it hurts. The myth is the idea that you're going to publish this book and you're going to earn passive income, meet influencers and build your email list. Your business will be on autopilot. You're going to make huge royalties, and pretty soon you'll quit your day job and all that stuff.This myth is just not true. The A to Z of Fantasy Literature Brian Stableford.2009-08-13 Once upon a time all literature was fantasy, set in a mythical past when magic existed, animals talked, and the gods took an active hand in earthly affairs. As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present, fantasy was temporarily marginalized until the late 20th century, when it enjoyed a spectacular resurgence in every stratum of the literary marketplace. Stableford provides an invaluable guide to this sequence of events and to the current state of the field. The chronology tracks the evolution of fantasy from the origins of literature to the 21st century. The introduction explains the nature of the impulses creating and shaping fantasy literature, the problems of its definition and the reasons for its changing historical fortunes. The dictionary includes cross-referenced entries on more than 700 authors, ranging across the entire historical spectrum, while more than 200 other entries describe the fantasy subgenres, key images in fantasy literature, technical terms used in fantasy criticism, and the intimately convoluted relationship between literary fantasies, scholarly fantasies, and lifestyle fantasies. The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature, through bibliographies and accounts of the fantasy literature of different nations, to individual author studies and useful websites.

Train Your Brain Dana Wilde.2013-08-06 "Using Train Your Brain, in two years, I've gone from zero to a million dollars a year in my business and paid off \$30,000 in debt!" ~ Sarah Thomas, Basehor, KS When Dana Wilde began her direct-sales business, she realized that education for entrepreneurs typically consisted of endless "how-to" explanations: how to market, how to pick up the phone, how to manage your time, how to increase bookings or sales. There always seemed to be a new system to learn, a new surefire method or cutting-edge technique for entrepreneurs to master. In an effort to teach her team members a better and easier way, Dana Wilde created Train Your Brain, a tested and proven system combining elements of both mindset and action ... or as Dana likes to call it, Intentional Action. What Dana discovered by using Train Your Brain is that mindset can be "taught" and that learning simple mindset strategies not only allows you to understand how the brain works but also shows you how easy it is to change your thinking and, as a result, change your outcomes. In Train Your Brain, Dana breaks down the Cycle of Perpetual Sameness—the number one reason why most people only experience incremental change in their lives. More importantly, she also provides the much-needed blueprint to help you get off this counterproductive cycle quickly. Train Your Brain, with its twenty easy-to-implement "Mindware Experiments," gives you all the necessary tools needed to get off ... and stay off ... the Cycle of Perpetual Sameness, so you can transform your life and grow your business in record time!

The Cambridge History of Science Fiction Gerry Canavan, Eric Carl Link.2018-12-31 The first science fiction course in the American academy was held in the early 1950s. In the sixty years since, science fiction has become a recognized and established literary genre with a significant and growing body of scholarship. The Cambridge History of Science Fiction is a landmark volume as the first authoritative history of the genre. Over forty contributors with diverse and complementary specialties present a history of science fiction across national and genre boundaries, and trace its intellectual and creative roots in the philosophical and fantastic narratives of the ancient past. Science fiction as a literary genre is the central focus of the volume, but fundamental to its story is its non-literary cultural manifestations and influence. Coverage thus includes transmedia manifestations as an integral part of the genre's history, including not only short stories and novels, but also film, art, architecture, music, comics, and interactive media.

Patio and Pavilion Penelope Curtis.2008 This book examines the relationship between modern sculpture and architecture in the mid-twentieth century, an interplay that has laid the ground for the semi-sculptural or semi-architectural works by architects such as Frank Gehry and artists such as Dan Graham. The first half of the book looks at how the addition of sculpture enhanced several architectural projects, including Mies van der Rohe's Barcelona Pavilion (1929) and Eliel Saarinen's Cranbrook Campus (1934). The second half of the book uses several additional case studies, including Philip Johnson's sculpture court for New York's Museum of Modern Art (1953), to explore what architectural spaces can add to the sculpture they are designed to contain. Curtis argues that it was in the middle of the twentieth century, before sculptural and architectural forms began to converge, that the complementary nature of--though essential difference between--the two art forms began to clearly emerge: how figurative sculpture highlighted the modernist architectural experience and how the abstract qualities of that architecture imparted to sculpture a heightened role.

Drawing Down the Moon Margot Adler.2006-10-03 The essential text and classic study of Neo-Paganism Since its original publication, *Drawing Down the Moon* continues to be the only detailed history of the burgeoning but still widely misunderstood Neo-Pagan subculture. Margot Adler attended ritual gatherings and interviewed a diverse, colorful gallery of people across the United States, people who find inspiration in ancient

deities, nature, myth, even science fiction. In this edition, featuring an updated resource guide of newsletters, journals, books, groups, and festivals, Margot Adler takes a fascinating and honest look at the religious experiences, beliefs, and lifestyles of modern America's Pagan groups.

Dr. Anne Good Health at Hand Anne Martha Seifert.2020-08 Most healthy weight control programs, although good, are just too difficult to follow. What Dr. Anne offers in this book is an easy and flexible food-based portion control program. She made it easy by not insisting on calorie counting or weighing foods or gram content. In 1982 Dr. Anne introduced and brought to national attention the concept of using your hand to measure portions. Many other programs have adopted this idea since then but this program remains the first and only program relying completely on the hand for food measure. This book is an abbreviated version of her previous books. It immediately instructs the reader on how to create a personalized MagicHand-- a fun way to visualize and count hand portions for weight control. Divided in three parts, each part addresses a practice for good health: Part1-Apportion- describes how to keep healthy weight control. Part 2-Move- tells how to find joyful exercising. Part 3-Silence- uses meditation to visualize results. Each part contains three Point chapters for lifelong well-being. Ending each chapter is a Practice page to help personalize the reader's journey to good health.
