Education Dianne Dredge, David Airey, Michael J.

Gross. 2014-10-03 Tourism is much more than an economic sector, it is also a social, cultural, political, and environmental force that

It takes as its central focus a dynamic curriculum space shaped by internal and external factors from global to local scales, a variety of values and perspectives contributed by a range of stakeholders, and shifting philosophies about education policy, pedagogy and teaching practice. A benchmark for future curriculum design and development, it critically reviews the development of conceptual and theoretical approaches to tourism and hospitality education. Pacific history—why and how they came to it in the first place. Almost without exception, they did not choose Pacific history but rather stumbled into the field through serendipity. They came from forays into African, Indian, East Asian, French, British imperial, and other fields, and were enticed into Pacific history through chance or the efforts of kindly mentors. All this is evident in the values and understandings they bring to the subject. The one commonality that binds them is a love of the islands that have been the center of their lifetime work. Many distinguished Pacific historians of the last four to five decades are represented in this collection. Serendipity presents fourteen autobiographical chapters in which the contributors trace their paths as Pacific historians. They offer their sources of inspiration, supporters, and publications that shaped them as historians. With a significant focus on the importance of teaching and mentoring that they both received and provided, their writing not only illuminates their lives, but the state of Pacific history as an academic field. The experiences of the contributors are moving, replete with sorrows and regrets, as well as of achievements and satisfactions. Part of these careers were spent working in areas other than scholarship, such as high school teaching, consultancies, volunteering, teaching English as a second language, or doing menial jobs just to keep going. Serendipity is a pathbreaking form of historiography and essential to the Pacific history field.
