Much of its collection was seeded by Project Gutenberg back in the mid-2000s, but has since taken on an identity of its own with the addition of thousands of self-published works that have been made available at no charge. With a collection of more than 45,000 free e-books, Project Gutenberg is a volunteer effort to create and share e-books online. No registration or fee is required, and books are available in ePub, Kindle, HTML, and simple text formats. Ebooks are available as PDF, EPUB, Kindle and plain text files, though not all titles are available in all formats. Most free books on Google Play are new titles that the author has self-published via the platform, and some classics are conspicuous by their absence; there's no free edition of Shakespeare's complete works, for example.
