Written by an expert in this field of study. Environmental pressures have been increasing on businesses over many years. New legislation has forced companies to look at their impact on the environment through such issues as use of resources, emissions, energy use, transport and waste management. Accidents such as the recent pollution incident by BP in the Gulf of Mexico grab the attention of the media and bring it into the public domain. In addition to its focus on the NEBOSH course, this book covers all of the essential elements managers will need to understand correct environmental health and safety management, including the broad legal framework, risk assessment and pointers to relevant standards. Brian Waters has 15 years' experience in the water supply industry, and 13 years of experience in senior management roles with the National Rivers Authority and the Environment Agency. He has subsequently worked in training and consultancy, giving him a wealth of experience in this area.

**The A Level Mindset** Steve Oakes, Martin Griffin. 2016-02-26 In *The A Level Mindset*, Steve Oakes and Martin Griffin share the secrets of coaching students to develop the characteristics, habits and mindsets which will help them realise their potential. Those students who make real and sustained progress at A level aren't necessarily the ones with superb GCSEs. Some students leap from average results aged 16 to outstanding results aged 18. Others seem to hit a ceiling. But why? It was in trying to answer this question that the VESPA system emerged. Steve and Martin have cut through the noise surrounding character development and identified five key characteristics that all students need to be successful: vision, effort, systems, practice and attitude. These characteristics beat cognition hands down. Successful students approach their studies with the right behaviours, skills and attitudes: they understand how to learn and revise effectively, they're determined and organised, they give more discretionary effort and they get top results. Success at A level is a result of character, not intelligence. Much has been written about growth mindsets and character development in recent years, but teachers are still left wondering how to apply these ideas in their contexts: how can these theories help learners in practice? Taking cues from the work of Peter Clough, Carol Dweck and Angela Lee Duckworth, and informed by their collective 30 plus years of teaching and coaching, Steve and Martin have spent years researching how character and behaviours affect student outcomes in their sixth form. After identifying the core traits that contributed to student success, they developed practical activities to help every student develop the A Level Mindset. Discover 40 concrete, practical and applicable tools and strategies that will supercharge learners' ambition, organisation, productivity, persistence and determination. Suitable for teachers, tutors, heads of sixth form or anyone else who wants to help A level students achieve their potential, *The A Level Mindset* offers 40 easy-to-use activities to develop students' resilience, commitment, buoyancy, motivation and determination. It could be your key to transforming student outcomes.

**The Professional Teacher in Further Education** Keith Appleyard, Nancy Appleyard. 2014-04-08

This essential text provides an accessible and up to date critical analysis of professionalism for student teachers and practitioners within the Further Education (FE) sector. Professional values, knowledge, understanding and skills form the core of the standards against which teachers are measured and the framework for the teacher's development, starting with initial qualifications and progressing through a career long process of continual professional development (CPD). The book introduces a range of theoretical models and examples of professionalism. It examines the critical importance of self-awareness and understanding of others as the basis for effective professional relationships with learners. The application of professional values, knowledge and skills, both in the teaching role and in the wider academic community, is discussed. Throughout the reader is encouraged to relate the theories to their own professional values and practice and to reflect on their own levels of professionalism and CPD requirements.

*Health and Safety, Environment and Quality Audits* Stephen Asbury. 2023-11-21 Internal auditing is an essential tool for managing compliance and for initiating and driving continual improvement in any organization's systematic HSEQ performance. Health and Safety, Environment and Quality Audits includes the latest health and safety, environmental and quality management system standards—ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018. It delivers a powerful and proven approach to risk-based auditing of business-critical risk areas using ISO, or your organization's own management systems. It connects the 'PDCA' approach to implementing management systems with auditing by focusing on the organization's context and the needs and expectations of its interested parties. The novel approach leads HSEQ professionals and senior and line managers alike to concentrate on the most significant risks (Big Rocks and Black Swans) to their objectives. It provides a step-by-step route through The Audit Adventure™ to provide a high-level, future-focused audit opinion. The whole approach is aligned to the international standard guidance for auditing management systems, ISO 19011:2018. With thousands of copies now sold, this unique guide to HSEQ and operations integrity auditing has become the standard work in the field over four editions, while securing bestseller status in Australasia, Europe, North America, and South Africa. It is essential reading for senior managers and auditors alike. It remains the 'go-to' title for those who aspire to drive a prosperous and thriving organization based on world-class HSEQ management and performance. Dr Stephen Asbury is the author of seven books on safety, risk management, and decision-making for Taylor & Francis. He is Chartered Fellow of the Institution of Occupational Safety and Health (CFIOSH), an Emeritus Professional of the American Society of Safety Professionals (ASSP), and a Fellow of the Institute of Environmental Management and Assessment (FIEMA). He has almost 40 years' experience from assignments in over sixty countries on six continents.

*International Health and Safety at Work Revision Guide* Ed Ferrett.2012 This Guide has been designed to be used together with the NEBOSH International General Certificate syllabus and the textbook. Introduction to International Health and Safety at Work by Hughes and Ferrett. The guide gives only a basic summary of the NEBOSH International General Certificate course and a full explanation of all the topics is given in the text book. The Revision Guide has the following features; It follows the latest NEBOSH International General Certificate syllabus; Revision notes for each of the elements of the two units IGC1 Management of international health and safety and IGC2 Controlling international workplace risks; A summary of the learning outcomes and key points is given for each element; Important diagrams are included to help revision; There is a final section to advise on preparation for the examination and some specimen answers to both long and short answer questions taken from recent NEBOSH examination papers. The Revision Guide will also be useful to those who work outside the UK and have specific health and safety responsibilities in their jobs and those who are studying on other courses that include important health and safety elements, for example courses in Engineering, Business Studies, the Health Services and Retail and Hotel

Management. The compact size of the Revision Guide ensures that they can be easily carried and used for revision at any time or place. They should be used throughout the course alongside the textbook and course hand-outs--Provided by publisher.

International Health and Safety at Work Phil Hughes, Ed Ferrett. 2013-05-07 The second edition of International Health and Safety at Work has been specially written in simple English for the thousands of students who complete the NEBOSH International Certificate in Health and Safety each year. Fully updated and matched to the March 2011 syllabus, this course book provides students with all they need to tackle the course with confidence. Full colour pages and over 200 illustrations bring health and safety to life. Each chapter starts with learning outcome summaries and ends with questions taken from recent NEBOSH examinations. Specimen answers and a study skills chapter are also included to aid exam preparation. Endorsed by NEBOSH for the International General Certificate in Occupational Health and Safety. Provides all the material students need for the course including tables, forms and checklists that can be used for health and safety activities such as risk assessment Gives a unique summary of Occupational Health and Safety legal frameworks in over 20 countries including the EU and USA plus details of several ILO conventions and recommendations which are useful to students and a wide range of managers This NEBOSH-endorsed textbook introduces the reader to the fundamentals of health and safety in the workplace from an international perspective. The book not only meets the needs of students on the NEBOSH course but remains a useful reference for all managers who work to international standards and need to adapt them to local needs and practice. Phil Hughes MBE, MSc, CFIOSH, is a former Chairman of NEBOSH (1995-2001), former President of IOSH (1990-1991) and runs his own consultancy.
