**Soap Making From Scratch** April Weatherly.2014-01-23 Natural soap is a great way to keep yourself clean without exposing your skin to harsh chemicals, dyes, and scents. Making that natural soap at home is a great way to ensure that you are getting exactly what you want in your soap. However, not everyone wants to make their own soap. Lye, a caustic chemical used in making soap can be extremely dangerous and frightening for inexperienced soap makers. Luckily there is a way to make natural soap at home without using lye. If you want to learn the secrets of the art then Soap Making from Scratch by April Weatherly is the best book for you to use to get started. Commercial soap is full of chemicals that are hard to pronounce. Chemicals are added in to create lather, add shine, give the soap color and scent, and preserve the bar for longer times. On the other side, natural soaps are made from things you can both pronounce and understand like goat's milk, olive oil, and your favorite essential oils. April learned that lye that is commonly used in soaps is dangerous. It is poisonous if accidentally swallowed by young children or pets. It can also cause serious chemical burns if spilled. This is why many people are looking for ways to make natural soaps without lye. Unfortunately, there is no true soap without lye, yet you can skip the lye process by using melt and pour soaps. There are several melt and pour glycerin soap kits that you can use to make your own natural soaps. Learn the trade secrets of making safe soap in Soap Making from Scratch.

**How to Make Melt and Pour Soap Base from Scratch** Kayla Fioravanti.2011-05-01 This is the first book published with recipes, methodology and tips on how to make Melt and Pour Soap from Scratch. It is written from the perspective of a Cosmetic Formulator on the production of the popular cosmetic base known as, Melt and Pour Soap. Whether you are a crafter, hobbyist or business owner this book has everything that you need. This book give you guidance on how, as a small home based business, you can follow the regulations, labeling laws and industry standards for selling soap and cosmetics. My entire journey into the cosmetic industry started with Melt and Pour Soap shortly after I discovered aromatherapy. The roots of our business, Essential Wholesale, all started in December of 1998. Over the years we moved from our home kitchenette to a 600 square foot space, to a 2500 square foot building, to a 10,000 square foot space in a bigger building, and from there we have expanded into 30,000 square feet of that same building. In 2011 our business will be moving to an even larger 58,000 square foot building. As our business expanded we began to focus on natural cosmetics and personal care products. However, I never lost my curiosity and fascination with Melt and Pour Soap. Our relationship with Melt and Pour Soap changed over the years. At first we sold retail customized Melt and Pour Soaps. We then bought and sold the company Critter Soaps. Later we sold thousands of pounds worth of wholesale Melt and Pour Soap base and eventually discontinued selling Melt and Pour Soap because the price kept rising. At the time Melt and Pour Soap was the only cosmetic base we sold that we didn't manufacture ourselves. It simply didn't make sense to wholesale someone else's base when our business model had changed to selling only the bases we manufactured ourselves. It was at this point in our business that I decided it was time to formulate our own Melt and Pour Soap ourselves. It didn't take long to have working formulas, but at that moment we were using up every inch of space in our 30,000 square foot building. We were bursting at the seams and couldn't accommodate the manufacturing and cooling of the Melt and Pour Soap Base in bulk. Our space was so tight we couldn't possibly cool an 8,000 lb batch of Melt and Pour Soap base into multiple 1 lb, 20 lb and 40 lb blocks to sell in bulk. But we got continued requests to manufacture and sell Melt

and Pour Soap base. My solution is this book. I decided to share these basic recipes with you to give you the freedom to make your own Melt and Pour base in the quantities that work best for your business. These recipes will teach you the foundational information that you need and give you tips on how to customize your base.

*Ultimate Guide To Making Colorful Natural Home-made Soaps- An Easy-to-follow Guide For First-timer* Sherri Sundin.2021-01-04 These days, the soaps, shampoos, and household cleaning products that you use are often loaded with chemicals. While they may claim to be healthy to use, do you really want to take a chance? These products can be especially unhealthy for anyone who has scent allergies or sensitive skin. It is a lot better when you can make your own soaps and household cleaners, and it is relatively easy to do. Here in this Soap Making Guide Book, we will teach you all. This book includes: - Term to know for soap making. - Explanation on each style of soap making so that you can quickly determinate which one suits you best. - A list of necessary materials you'll need for soap making including equipment, lye, as well as oils and fats. - A list of fragrances and colorants which you can use, depending on the purpose of the soap you're making. - Simple precautions for keeping your craft a safe and enjoyable experience - Step by step technique to make soap using the cold processed method. - Step by step technique to make soaps using the melt and pour method. - 21 great recipes, including, to name just a few, the basic soap formula, Kitchen and Bath Hand Soap, the Sweet Honey Bar, the Invigorating Foot Soap, the Summer Lime Bar, the Winter Facial Bar and Herbal Shampoo Bar and for all kinds of needs. - Included are also some tips on making your own soap recipes. With this book, you'll be able to master this old craft with ease thanks to the clearly explained step by step approach to soap making.

**Melt & Mold Soap Crafting** C. Kaila Westerman.2012-12-26 Cook colorful, whimsical, eye-catching soaps right in your microwave! It's easy and fun with C. Kaila Westerman's guide to creative soap making. Westerman's recipes are free of harsh chemicals and she encourages you to play with colors, scents, and shapes that the whole family will enjoy — from rubber duckies to sailboats, stars, and gemstones. *Melt and Pour Soapmaking* Marie Browning.2002-03 Just take commercially available glycerine or coconut-oil base, cut it up, and melt it in the microwave. Pour the liquid into moulds to set - and let the real fun begin. This text offers information on different types of aromatics and essential oils.

**DIY Natural Hot & Cold Process Soap Crafting: Ultimate Guide to Making & Selling Colorful Natural Soaps - Recipes Included** Molly Barrett.2019-02-10 DIY Natural Hot & Cold Process Soap Crafting Ultimate Guide to Making & Selling Colorful Natural Soaps (Recipes Included) Dioxane, Sulfate, Diethanolamine are some of the ingredients in commercial soap that I never questioned until I began making soap at home. That's when my curiosity got the best of me. After finding just these three, I wanted to call a truce to look for dangerous additives in what I used (and worse yet, my children used) to clean. That's when I thought I found the fourth one. Fragrance! How in the world could something that sounds as harmless as fragrance possibly damage your skin? How wrong I was. The definition of fragrance was a far cry in meaning than the one on the soap label. I began making soap because it was a fun hobby I could share with my children. I continued because it morphed into a successful small business. But I'm now compelled to continue knowing that I'm contributing to the health of my family. I wanted to arrange the chapters in a logical order. So you are not confused as I was when I first started. This book is divided into Two Parts. In the first part, it is all about how to master the art of soap making using the Hot Process Method. In the second Part, I show how you can master the soap crafting using the Cold Process Method. At the end of each part, I give you a few recipes to try out your newly acquired skill, but no worries, these recipes are designed to guide you through each and every step from start to finish. And lastly, in chapter 16, it is all about how to start, run and grow your soap business right from home. After reading the book, you will become a master on how to make homemade soap using both Hot & Cold Process methods. You will also learn about all soap making supplies, my favorite soap making recipes and most importantly you will know the difference between store bought commercial soap vs. all natural and organic soap made right at home. If you have any question, I have added my personal email address at the end of the book, so you can contact me.

*Homemade Soaps Recipes: Natural Handmade Soap, Soapmaking Book with Step by Step Guidance for Cold Process of Soap Making ( How to Make Hand M* Olivia Garden.2019-01-13 Do you know what is the advantage of natural handmade soaps and why more and more people create organic handmade soap at home with their own hands? First of all, it is a creative product, with a piece of your heart and soul. Soap crafting is an occupation for your soul and it brings joy and pleasure for those people who are engaged in this process. Soap produced in large volumes, in chemical industries, cleans so well, that it washes, along with dust and dirt, all the protective oils from our skin. And we end up with dry, prematurely aging skin. Our book with handmade soap recipes will teach you how to create the best handmade soap - a soap that contains natural oils and organic additives - honey, oats, calendula flowers, chocolate and more. Homemade soap is enriched with oils such as olive, sea buckthorn, peach, wheat germ oil and many more oils that have a moisturizing, rejuvenating and anti-cellulite effect. Easy natural homemade soap is a great and original gift, which hardly anyone could remain indifferent about. Natural ingredients, the basis of which skin handmade soap is created, have a beneficial effect on the skin. Natural handmade soap is devoid of drawbacks. Cleansing the skin with organic soap, you can get rid of peeling and dryness. By experimenting with different oils, you can create a soap that is suitable for your skin. Scrub effect, moisturizing effect, vitaminizing effect, anti-cellulite effect-all this is achieved by simply adding an ingredient. The aesthetic side is also important. With our recipes for homemade soap, you will find out how to create any shape: heart, flower, oval, car and so on. In addition, mixing colored masses, adding dry flower petals, using other methods of decoration, you can create a truly unique soap that will delight others and will be a real decoration of your bathroom. Homemade soap can be a powerful means of aromatherapy, because it often includes natural essential oils. Now it will not be difficult to create a soap with your favorite smell. Vanilla and lavender, Lily of the valley and lilac - the smell of soap made with your own hands, will be totally unlike the chemical smells of soap made industrially. So once again the advantages of natural handmade soap include: 1. Clear skin; 2. Hydration and nutrition, thanks to natural oils; 3. Aromatherapy while using soap; 4. Aesthetic pleasure; 5. Making your own choices in creating handmade soap, you are able to choose an eco-friendly product. **Soap Making Business Startup** Floy Sweeney.2022-01-25 Have you recently come across information that ordinary people are making organic soaps at home, even without having any certifications relating to the use of various chemicals? And have you been curious to know the process involved in making soap and want to make your first batch of soap to explore this new world of making soap at home, but haven't found a comprehensive guide that addresses everything? If you've answered YES, keep reading! You Are About To Discover Exactly How To Make Your Very Own Organic Soap Using Readily Available Ingredients, Just Like The Pros! Even though we don't like admitting it, most of us know that commercial soap that comes in different names like beauty bar and deodorizing bar isn't really soap, but a detergent made with synthetic ingredients, agents and chemicals you'd not fancy pronouncing. Such soap is often harsh to our precious skin, which is notorious for absorbing anything that is placed on it. On the other hand, natural soap is made with rich, natural fats and oils that are nourishing to the skin, through a very simple, interesting process. So basically, making your own soap is not only cost-effective, but healthy and salutary especially if you love exciting DIY projects that yield magnificent results. But what if you've never done it before, how do you get started? What if you want to go large-scale and make a business out of it? What if you heard that it's risky? What if you're looking for a way to improve your current soap making processes? If you're (or have been) having such thoughts and concerns, then you landed on the right page. This simple beginners' guide to making your own natural soap has your back, adequately armed with all the answers tips and techniques that characterize any master soap-maker. More precisely, you'll learn: The basic essentials of making soap, including the equipment, tools and chemical compounds you require The different forms of making soap The precautions you need to take while making organic soap How to conduct soap mixing using different methods Why it's important to make natural and organic soaps The most important things to consider while choosing your homemade soap recipe The common mistakes in homemade soap making that you can avoid How to be creative in your homemade soap making process How to cure and cut your cold process soap The different soap making recipes to take advantage of today ...And much more! Are you looking for simple, amazing soap recipes to diversify your production? Or are you targeting certain body or mental ailments that you can fight with topical applications? If you've answered YES, this book is for you! What's more, this book takes an easy to follow structure, and a practical approach that will enable you to put what you learn into action, even if you've never done anything like this before!

**Diy Natural Melt and Pour Soap Crafting** Molly Barrett.2017-10-13 DIY Natural Melt and Pour Soap Crafting Ultimate Guide to Making & Selling Colorful Natural Soaps Paraben, Sulfate and Triclosan are some of the ingredients in commercial soap that I never questioned until I began making soap at home. That's when my curiosity got the best of me. After finding just these three, I wanted to call a truce to look for dangerous additives in what I used (and worse yet, my children used) to clean. That's when I thought I found the fourth one. Fragrance! How in the world could something that sounds as harmless as fragrance possibly damage your skin? How wrong I was. The definition of fragrance was a far cry in meaning than the one on the soap label. I began making soap because it was a fun hobby I could share with my children. I continued because it morphed into a successful small business. But I'm now compelled to continue knowing that I'm contributing to the health of my family. Before we get into the actual soap making, I do share my findings about just these four potentially harmful ingredients found in too many soaps and body washes. I am sure you will be shocked to read it. But let's move on and talk about what more is in this book. I wanted to arrange the chapters in a logical order. So you are not confused as I was when I first started. I start off with what and how commercial soap can harm you and your family, I dug deep and found out the truth. Then I explain all three soap making process and why Melt and Pour method is the best and easiest to use. Next, I show you what supplies and equipment you will need and their approximate cost. In the next chapter I guide you through a step by step soap making process (chapter 4). After that we discuss everything under the sun about molds you can use and all of their different variations and types (chapter 5). Chapter 6 is all about adding colors and how to use the color wheel. Next up is essential oils which give your soap its scent and a great natural healing power (Chapter 7). After that it is all about my favorite recipes (chapter 8), next I share 15 soap coloring tricks that may truly surprise you, yes they are that good really! (chapter 9). And lastly, in chapter 10, it is all about how to start, run and grow your soap business right from home. After reading the book, you will become a master on how to make homemade soap using melt pour soap making method. You will also learn about all soap making supplies, my favorite soap making recipes and most importantly you will know the difference between store bought commercial soap vs. all natural and organic soap made right at home. If you have any question, I have added my personal email address at the end of the book so you can contact me.
