The Path of Flowering Thorn Makoto Ueda.1998 Yosa Buson (1716-83) is a towering figure in the history of haiku. A painter by profession, Buson took delight in the natural beauty of colors and forms as well as in the artistic beauty of composition. A seeker of ideals that were more aesthetic than religious or moral, he freely let his imagination wander into a land of exotic beauty far removed from contemporary society, often evoking ancient China, Heian Japan, and the world of the supernatural. This book presents an overview of Buson's life and poetry, beginning with speculations on the mysterious circumstances of his birth and then tracing the various stages of his career as poet. In the process, the author cites some 180 of Buson's haiku in English translation, and analyzes them from a predominantly biographical point of view. The book is illustrated with twelve examples of Buson's work as painter and calligrapher.

Writing Ground Zero John Whittier Treat.1995 Treat summarizes the Japanese contribution to such ongoing international debates as the crisis of modern ethics, the relationship of experience to memory, and the possibility of writing history. This Japanese perspective, he shows, both confirms and amends many of the assertions made in the West on the shift that the death camps and nuclear weapons have jointly signaled for the modern world and for the future.

Chinese Society in the Age of Confucius (1000-250 BC) Lothar von Falkenhausen.2006-12-31 Winner of the 2009 Society for American Archaeology Book Award Chinese Society in the Age of Confucius is based on the most up-to-date archaeological discoveries. It introduces new data, as well as new ways to think about them - modes of analysis that, while familiar to archaeological practitioners in the West and in Japan, are herein applied to evidence from the Chinese Bronze Age for the first time. The treatment of social stratification, clan and lineage organisation, as well as gender and ethnic differences will be of interest to those involved in the general or comparative analysis of grand themes in the Social Sciences.

Confucian Political Ethics Daniel A. Bell.2010-04-24 For much of the twentieth century, Confucianism was condemned by Westerners and East Asians alike as antithetical to modernity. Internationally renowned philosophers, historians, and social scientists argue otherwise in *Confucian Political Ethics*. They show how classical Confucian theory--with its emphasis on family ties, self-improvement, education, and the social good--is highly relevant to the most pressing dilemmas confronting us today. Drawing upon in-depth, cross-cultural dialogues, the contributors delve into the relationship of Confucian political ethics to contemporary social issues, exploring Confucian perspectives on civil society, government, territorial boundaries and boundaries of the human body and body politic, and ethical pluralism. They examine how Confucianism, often dismissed as backwardly patriarchal, can in fact find common ground with a range of contemporary feminist values and need not hinder gender equality. And they show how Confucian theories about war and peace were formulated in a context not so different from today's international system, and how they can help us achieve a more peaceful global community. This thought-provoking volume affirms the enduring relevance of Confucian moral and political thinking, and will stimulate important debate among policymakers, researchers, and students of politics, philosophy, applied ethics, and East Asian studies. The contributors are Daniel A. Bell, Joseph Chan, Sin Yee Chan, Chenyang Li, Richard

Madsen, Ni Lexiong, Peter Nosco, Michael Nylan, Henry Rosemont, Jr., and Lee H. Yearley.

Syntagmatia Dirk Sacré, Jan Papy. 2009 This collective volume has been dedicated to two distinguished scholars of Neo-Latin Studies on the occasion of their retirement after a long and fruitful academic career, one at the Université catholique Louvain-la-Neuve, the other at the internationally renowned Seminarium Philologiae Humanisticae of Leuven University. Both the rich variety of subjects dealt with and the international diversity of the scholars authoring contributions reflect the wide interests of the celebrated Neo-Latinists, their international position, and the actual status of the discipline itself. Ranging from the Trecento to the 21st century, and embracing Latin writings from Italy, Hungary, The Netherlands, Germany, France, Poland, the New World, Spain, Scotland, Denmark and China, this volume is as rich and multifaceted as it is voluminous, for it not only offers studies on well-known figures such as Petrarch, Lorenzo Valla, Erasmus, Vives, Thomas More, Eobanus Hessus, Lipsius, Tycho Brahe, Jean de la Fontaine and Jacob Cats, but it also includes new contributions on Renaissance commentaries and editions of classical authors such as Homer, Seneca and Horace; on Neo-Latin novels, epistolography and Renaissance rhetoric; on Latin translations from the vernacular and invectives against Napoleon; on the teaching of Latin in the 19th century; and on the didactics of Neo-Latin nowadays.

Semiotics of Animals in Culture Gianfranco Marrone, Dario Mangano. 2018-12-28 To place animals within the realm of nature, means inserting them among the articulations of culture and the social. Semiotics has never avoided this chiasmus, choosing to deal from the outset with the problem of the languages of animals following the old admonition of Montaigne: it is not that animals do not talk, it is us who do not understand them. Recent research in the field of the anthropology of nature and sociology of sciences and techniques allow to think about the Zoosemiotic issue in a different way. Instead of transplanting the language structures - gestures, LIS, etc. - for a semiotic study of the forms of the human and social meaning, it seems more apt to look at their discourse, and as such, the actual interactions, communicative and scientific as well as practical and functional, between humans and non-humans. This book aims to investigate precisely this hypothesis, known here as Zoosemiotics 2.0, working on several fronts and levels: · Anthropology · Languages of the image and visual representations, from art history to cinema · Old and new media. From literature to comics, from cartoons to TV documentaries but also advertising, music, Web and social networks. All those cultural products that talk about the role of human and non-human in society implicitly proposing (and in some way imposing) a form of articulation of such a relationship. · Food and feeding rites · Animalist, vegetarian and vegan movements · Philosophy: metaphysics, ethics, aesthetics

Orthodoxy Paul Evdokimov.2011 Originally published in 1965, Evdokimov's *Orthodoxy* presents a synthesis of the essential elements of Orthodox traditions as they appear throughout Church history - revealing the fruit born from the Russian diaspora in Western Europe and the interface of Orthodoxy with both the Christian and atheist West. Evdokimov quotes the 'Father' in order to bring their wisdom to bear on the modern spirit and in modern discourse. Rooting things in the anthropological teaching that 'God became human so that humans might become God,' Evdokimov considers asceticism, mysticism, ecclesiology, the faith of the Church, the prayer of the Church, and Eschaton or 'Last Things.' In his preface to the 1979 edition, Olivier Clément wrote that Evdokimov's descriptions of the Last Things show that the 'eschatological process is already at work' and that 'the Parousia will not be the return of Christ into the world but the passing over of the world into Christ ... Evdokimov appeals to a saintliness that is both kenotic and creative, humble but capable of radiating life into all the complexity of history ... [He speaks] to all who desire not accommodations between churches, whether diplomatic or whatever people are willing to settle for, but the centre where the Lines converge.' Book jacket.

Architecture, Mysticism and Myth W. R. Lethaby.2019-01-09 This classic explores the symbolism of classical architecture. A milestone in relating mysticism to design, it shows the correlation between mythology and the design of St. Paul's Cathedral, the Taj Mahal, the Palace of Versailles, and other architectural masterpieces. This delightful book describes the symbolism of real-world architecture, as well as architecture described in fiction, myth and folklore. Lethaby believed that architecture reflected the macrocosm. He speculated that many of the seemingly ornamental details of classical buildings actually represented aspects of the land, the sea and the sky. This is one of those books like the *Golden Bough* or the *White Goddess* (albeit shorter and a less challenging read) that will turn you on to the mythopoetic side of reality, no matter whether you agree with its conclusions.

Holy Anorexia Rudolph M. Bell.2014-05-09 Is there a resemblance between the contemporary anorexic teenager counting every calorie in her single-minded pursuit of thinness, and an ascetic medieval saint examining her every desire? Rudolph M. Bell suggests that the answer is yes. Everyone interested in anorexia nervosa . . . should skim this book or study it. It will make you realize how dependent upon culture the definition of disease is. I will never look at an anorexic patient in the same way again.—Howard Spiro, M.D., *Gastroenterology* [This] book is a first-class social history and is well-documented both in its historical and scientific portions.—Vern L. Bullough, *American Historical Review* A significant contribution to revisionist history, which re-examines events in light of feminist thought. . . . Bell is particularly skillful in describing behavior within its time and culture, which would be bizarre by today's norms, without reducing it to the pathological.—Mary Lassance Parthun, *Toronto Globe and Mail* Bell is both enlightened and convincing. His book is impressively researched, easy to read, and utterly fascinating.—Sheila

Colour Rudolf Steiner.2013-04-03 Building on the achievements of Goethe in his Theory of Colour, Rudolf Steiner shows how colour affects us in many areas of life, including our health, our sense of well-being, and our feelings. Distinguishing between 'image' and 'lustre' colours, he lays the foundation, based on his spiritual-scientific research, for a practical technique of working with colour that leads to a new direction in artistic creativity. His many penetrating remarks on some of the great painters of the past are supplemented by a deep concern to see a cultural, spiritual renewal emerge in the present time. 'If you realize', he states, 'that art always has a relation to the spirit, you will understand that both in creating and appreciating it, art is something through which one enters the spiritual world.' This volume is the most comprehensive compilation of Rudolf Steiner's insights into the nature of colour, painting and artistic creation. It is an invaluable source of reference and study not only for artists and therapists but for anyone interested in gaining an appreciation of art as a revelation of spiritual realities.

Japanese Animal-wife Tales Fumihiko Kobayashi.2015 By re-examining the gender-specific behaviors of both the animal-woman and her human spouse, this book recovers the sociocultural and historical contexts that underlay their behaviors to demonstrate the actual gender characteristics that shaped the original Japanese Animal-Wife tales, highlighting the assertive, rather than naive, personality of women in early Japanese folktale tradition.

Japanese Textiles Anna Jackson,Victoria and Albert Museum.2000 This illustrated volume presents highlights from the Victoria & Albert Museum's extensive collection of Japanese textiles and dress. Ranging from embroidered kimono and woven actor's robes to the indigo-dyed textiles of rural Japan, this book explores the various patterning techniques that have been employed by Japanese textile artists from the seventeenth century to the present day. Spiritual Theology Jordan Aumann.2019-11-12 The first part of Prof Jordan Aumann's magisterialSpiritual Theology is concerned with the theological principles of Christian holiness, while the second and major part derives from those principles' practical directives for the individual Christian's 'growth in holiness'. Based firmly on the work of three classical masters - St Thomas Aquinas, St John of the Cross, and St Teresa of Avila - this text has already proved of great benefit to contemporary students and general readers seeking to inform and develop their own spiritual lives.

American Sacred Space David Chidester,Edward T. Linenthal.1995-11-22 In a series of pioneering studies, this book examines the creation—and the conflict behind the creation—of sacred space in America. The essays in this volume visit places in America where economic, political, and social forces clash over the sacred and the profane, from wilderness areas in the American West to the Mall in Washington, D.C., and they investigate visions of America as sacred space at home and abroad. Here are the beginnings of a new American religious history—told as the story of the contested spaces it has inhabited. The contributors are David Chidester, Matthew Glass, Edward T. Linenthal, Colleen McDannell, Robert S. Michaelsen, Rowland A. Sherrill, and Bron Taylor.

Translation and Translation Studies in the Japanese Context Nana Sato-Rossberg.2012-08-09 Japan is often regarded as a 'culture of translation'. Oral and written translation has played a vital role in Japan over the centuries and led to a formidable body of thinking and research. This is rooted in a context about which little information has been available outside of Japan in the past. The chapters examine the current state of translation studies as an academic discipline in Japan and a range of

historical aspects (for example, translation of Chinese vernacular novels in early modern times, the role of translation in Japan's modernization, changes in stylistic norms in Meiji-period translations, 'thick translation' of indigenous Ainu place names), as well as creative aspects of translation in modern and postwar Japan. Other chapters explore contemporary phenomena such as the intralingual translation of Japanese expressions embedded in English texts emanating from diasporic contexts, the practice of pre-translation or writing for an international audience from the outset, the innovative practice of reverse localization of Japanese video games back into Japanese, and community interpreting practices and research.

Empire: A Very Short Introduction Stephen Howe.2002-08-22 A great deal of the world's history is the history of empires. Indeed it could be said that all history is colonial history, if one takes a broad enough definition and goes far enough back. And although the great historic imperial systems, the land-based Russian one as well as the seaborne empires of western European powers, have collapsed during the past half century, their legacies shape almost every aspect of life on a global scale. Meanwhile there is fierce argument, and much speculation, about what has replaced the old territorial empires in world politics. Do the United States and its allies, transnational companies, financial and media institutions, or more broadly the forces of 'globalization', constitute a new imperial system? Stephen Howe interprets the meaning of the idea of 'empire' through the ages, disentangling the multiple uses and abuses of the labels 'empire', 'colonialism', etc., and examines the aftermath of imperialism on the contemporary world. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

What Did Jesus Look Like? Joan E. Taylor.2018-02-08 Jesus Christ is arguably the most famous man who ever lived. His image adorns countless churches, icons, and paintings. He is the subject of millions of statues, sculptures, devotional objects and works of art. Everyone can conjure an image of Jesus: usually as a handsome, white man with flowing locks and pristine linen robes. But what did Jesus really look like? Is our popular image of Jesus overly westernized and untrue to historical reality? This question continues to fascinate. Leading Christian Origins scholar Joan E. Taylor surveys the historical evidence, and the prevalent image of Jesus in art and culture, to suggest an entirely different vision of this most famous of men. He may even have had short hair.

Nightmare Japan Jay McRoy.2008-01-01 Over the last two decades, Japanese filmmakers have produced some of the most important and innovative works of cinematic horror. At once visually arresting, philosophically complex, and politically charged, films by directors like Tsukamoto Shinya (Tetsuo: The Iron Man [1988] and Tetsuo II: Body Hammer [1992]), Sato Hisayasu (Muscle [1988] and Naked Blood [1995]) Kurosawa Kiyoshi (Cure [1997], Séance [2000], and Kairo [2001]), Nakata Hideo (Ringu [1998], Ringu II [1999], and Dark Water [2002]), and Miike Takashi (Audition [1999] and Ichi the Killer [2001]) continually revisit and redefine the horror genre in both its Japanese and global contexts. In the process, these and other directors of contemporary Japanese horror film consistently contribute exciting and important new visions, from postmodern reworkings of traditional avenging spirit narratives to groundbreaking works of cinematic terror that position depictions of radical or 'monstrous' alterity/hybridity as metaphors for larger socio-political concerns, including shifting gender roles, reconsiderations of the importance of the extended family

as a social institution, and reconceptualisations of the very notion of cultural and national boundaries.

Japanese Woman Sumiko Iwao.1998-10-01 Westerners and Japanese men have a vivid mental image of Japanese women as dependent, deferential, and devoted to their families--anything but ambitious. In fact, the author shows, Japanese women hold equal and sometimes even more powerful positions than men in many spheres.

The Religious and the Political Bryan S. Turner.2013-04-18 While the relationships between ethics and religion, and violence and politics, are of enduring interest, the interface between religion and violence is one of the most problematic features of the contemporary world. Following in the tradition of Max Weber's historical and comparative study of religions, this book explores the many ways in which religion and politics are both combined and separated across different world religions and societies. Through a variety of case studies including the monarchy, marriage, law and conversion, Bryan S. Turner explores different manifestations of secularization, and how the separation of church and state is either compromised or abandoned. He considers how different states manage religion in culturally and religiously diverse societies and concludes with a discussion of the contemporary problems facing the liberal theory of freedom of religion. The underlying theoretical issue is the conditions for legitimacy of rule in modern societies experiencing global changes.

Foundations of Confucian Thought Yuri Pines.2002-01-31 This ambitious work focuses on the world of Chinese thought during the two and a half centuries directly preceding and partly overlapping the time of Confucius. Ideas developed by Chunqiu statesmen and thinkers formed the intellectual milieu of Confucius and his disciples and contributed directly to the intellectual flowering of the Zhanguo (Warring States) era (453-221 B.C.E.), the formative period of the Chinese intellectual tradition. This study is the first attempt to systematically reconstruct major intellectual trends in pre-Confucian China. *Foundations of Confucian Thought* is based on an exploration of the Zuo zhuan, the largest pre-imperial historical text. Relying on meticulous textual and linguistic analysis, Yuri Pines argues that hundreds of the speeches of Chunqiu statesmen recorded in the Zuo zhuan were not invented by the compiler of the treatise but reproduced from earlier sources, thus making it an authentic reflection of the Chunqiu intellectual tradition. By tracing changes in ideas and concepts throughout the Chunqiu period, Pines reconstructs the dynamics of contemporary political and ethical discourse, distilling major intellectual impulses that Chunqiu thinkers bequeathed to their Zhanguo descendants.

Cultural Adaptation of the Liturgy Anscar J. Chupungco.2006-05-05 This is a work of first class liturgical scholarship, addressing itself to the pressing pastoral need of cultural adaptation. --Rev. Charles W. Gusmer author of *And You Visited Me: Sacramental Ministry to the Sick and the Dying* The work of Father Anscar Chupungco on the Cultural Adaptation of the Liturgy is an indispensable work at this time when each country, and especially the 'new' nations of the developing world, attempt to experiment with the adaptation (inculturation) of the liturgy in their own cultures. Without scientific understanding of the history and tradition, such attempts are doomed to either caprice or defeat. This book ought to become the manual of any adaptation. --Rev. Adrien Nocent, OSB Professor, Pontifical Liturgical Institute of St. Anselm, Rome In this wide-ranging study, Father Chupungco looks at the way the liturgy was adapted in various cultures in the past. For us, the Constitution on the Liturgy outlines the theological, liturgical, and cultural principles needed when

the people of God adapt liturgy to our many cultures in the modern world. --Rev. Patrick Byrne National Liturgical Office, Canadian Conference of Catholic Bishops In an historical overview, Chupungco first establishes how cultural adaptation is a part of the Roman Church's liturgical heritage. He goes on to articulate principles of adaptation from theological, liturgical, and cultural perspectives. His presentation is based on a blend of scholarly documentation and astute observation of current liturgical problems. The volume makes a solid contribution to both the theoretical and the practical dimensions of pastoral liturgy. --Rev. Gerald V. Lardner, SS St. John Vianney Church, Kenmore, Washington Anscar J. Chupungco, OSB, is the author of 'Liturgical Inculturation: Sacramentals, Religiosity, and Catechesis' and 'Shaping the Easter Feast'. He is also the editor of 'Handbook for Liturgical Studies'.
