**Freedom in the World 2015** Freedom House.2015-12-24 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

**The Power of Public Investment Management** Kai Kaiser, Tuan Minh Le, Jay-Hyung Kim, Jonas Frank.2014-10-17 Public resources - if invested well in public infrastructure and services - can catalyze private and community efforts and unleash an inclusive growth and development process. But public investment attracts political interest, usually of the kind that undermines efficiency. Too

often public projects are poorly designed, under-funded, long-delayed, or badly implemented, with little benefit to the population. This is a critical challenge for many countries, both rich and poor. Paradoxically, some countries are even unable to spend their limited investment budgets while others lack “shovel ready” projects for a fiscal stimulus. The quality of institutions is fundamental. This book identifies eight key institutional features that countries need to adopt to ensure that public investments support growth and development. Very broadly, the eight stages correspond to a disciplined system for guiding, appraising, reviewing and selecting projects that are most likely to stimulate inclusive development, and following through to ensure that they are implemented, adjusted, operated and evaluated to deliver the public services that citizens and the private sector expect. A review of over 30 countries suggests that these eight features are present in all countries that manage resources efficiently but most countries are missing key features. Not surprisingly, those weaknesses contribute to poor investment and development outcomes. Strengthening institutions for public investment management is critical to developmental success. This book provides a clear, non-technical discussion on approaches to improving project appraisal, dealing with uncertainty (an issue that is likely to grow in importance with the effects of climate change), integrating procurement skills into project design and implementation, and of managing the decision on public private partnerships. By providing a simple but comprehensive framework and global experience, the book provides policy makers the guidance to adopt good functional principles in the design of institutions to strengthen public investment management.

**Cultural Politics of Emotion** Sara Ahmed. 2014-06-11 Emotions work to define who we are as well as shape what we do and this is no more powerfully at play than in the world of politics. Ahmed considers how emotions keep us invested in relationships of power, and also shows how this use of emotion could be crucial to areas such as feminist and queer politics. Debates on international terrorism, asylum and migration, as well as reconciliation and reparation, are explored through topical case studies. In this book the difficult issues are confronted head on. The Cultural Politics of Emotion is in dialogue with recent literature on emotions within gender studies, cultural studies, sociology, psychology and philosophy. Throughout the book, Ahmed develops a theory of how emotions work, and the effects they have on our day-to-day lives. New for this edition A substantial 15,000-word Afterword on 'Emotions and Their Objects' which provides an original contribution to the burgeoning field of affect studies A revised Bibliography Updated throughout.

**FDA Investigations Operations Manual** Food and Drug Administration.2003 Available now to FDA-regulated organizations, this manual allows facility managers to look at their operation's regulatory compliance through the eyes of the government. Because this is the primary reference manual used by FDA personnel to conduct field investigation activities, you can feel confident you are preparing appropriate planning or action. This manual includes revised instructions regarding the release of information and covers FDA's policies and expectations on a comprehensive range of topics: FDA's authority to enter and inspect, inspection notification, detailed inspection procedures, recall monitoring, inspecting import procedures, computerized data requests, federal/state inspection relationships, discussions with management regarding privileged information, seizure and

prosecution, HACCP, bioengineered food, dietary supplements, cosmetics, bioterrorism, and product disposition. The manual also includes a directory of Office of Regulatory Affairs offices and divisions.

*Pan-African Banks* Mr. Charles Enoch, Mr. Paul Henri Mathieu, Mr. Mauro Mecagni, Mr. Jorge Iván Canales Kriljenko. 2015-04-30 Pan-African banks are expanding rapidly across the continent, creating cross-border networks, and having a systemic presence in the banking sectors of many Sub-Saharan African countries. These banking groups are fostering financial development and economic integration, stimulating competition and efficiency, introducing product innovation and modern management and information systems, and bringing higher skills and expertise to host countries. At the same time, the rise of pan-African banks presents new challenges for regulators and supervisors. As networks expand, new channels for transmission of macro-financial risks and spillovers across home and host countries may emerge. To ensure that the gains from cross border banking are sustained and avoid raising financial stability risks, enhanced cross-border cooperation on regulatory and supervisory oversight is needed, in particular to support effective supervision on a consolidated basis. This paper takes stock of the development of pan-African banking groups; identifies regulatory, supervisory and resolution gaps; and suggests how the IMF can help the authorities address the related challenges.

Freedom in the World 2014 Freedom House. 2014-12-11 The methodology of this survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

*Foreign Policy In A Transformed World* Mark Webber, Michael Smith. 2014-01-14 For 2nd and 3rd year courses in international politics and foreign policy. This text examines foreign policy in relation

to 'change and transformation.' It discusses traditional assumptions about foreign policy and foreign policy making, and develops a framework to facilitate analysis of the challenges faced by foreign policy makers in the late 1990s. The central elements of the framework are the foreign policy arena, decision-making and implementation. The book then applies the framework to a set of regional case studies, to explore the global and regional arenas and the challenges to which they give rise. Finally, specific case studies of two countries per region highlight the range of impacts for the changing global and regional context, to focus on the analysis of decision-making and implementation, and to illustrate the benefits of comparative analysis.

*World Report 2018* Human Rights Watch.2018-01-30 The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken in 2016 by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

*United Nations Peacekeeping in Africa Since 1960* Norrie Macqueen.2014-07-30 United Nations Peacekeeping in Africa provides an exploration of United Nations military intervention in Africa, from its beginnings in the Congo in 1960 to the new operations of the twenty-first century. The scene is set by an examination of the theoretical bases both of United Nations peacekeeping and of Africa's post-independence politics and international relations. The peacekeeping project in Africa is then described on a region by region basis - Central Africa, Southern Africa, West Africa, the Horn and Trans-Saharan Africa - with comparisons and contrasts within and between each part of Africa highlighted throughout. A number of key questions are considered: how have developments in the

broader international system affected conflicts in Africa? what are the internal and external forces which have caused African states to 'fail' and 'collapse'? how have external powers 'used' UN Peacekeeping in pursuit of their own political agendas? what determines success and failure in African peacekeeping? are there African solutions to African problems which could supplant UN involvement? As well as providing an account of UN involvement, the book is concerned to explore the long historical origins of the African conflicts with which the UN has been engaged. Written in an engaging and accessible manner, United Nations Peacekeeping in Africa provides an invaluable examination of the complex issues surrounding UN interventions in Africa.

**Freedom in the World 2020** Freedom House.2021-01-22 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fifteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. *Curriculum Overload A Way Forward* OECD.2020-11-25 Schools are constantly under pressure to keep up with the pace of changes in society. In parallel, societal demands for what schools should teach are also constantly changing; often driven by political agendas, ideologies, or parental pressures, to add global competency, digital literacy, data literacy, environmental literacy, media literacy, social-emotional skills, etc. This “curriculum expansion” puts pressure on policy makers and schools to add new contents to already crowded curriculum.

**The ACP Group and the EU Development Partnership** Annita Montoute, Kudrat Virk.2017-01-01 This book constitutes a systematic and critical assessment of the nature, evolution, and prospects of the development partnership between the 79-member African, Caribbean, and Pacific (ACP) group of states and the 28-member European Union (EU). A core theme that runs through the work is that the ACP’s partnership with the EU remains an important framework for addressing development challenges in the African, Caribbean, and Pacific regions, but needs to adapt to changes in the global political economy, as well as internal developments in both the ACP and the EU, to sustain its relevance and effectiveness. This is crucial for the ACP group, in particular, given its origins in, and core focus on, development cooperation with Europe. The authors in this volume examine the history of the ACP-EU partnership since 1975; the EU’s relationship with the African, Caribbean, and Pacific regions individually; ACP experiences with economic partnership agreements with the EU; and new political issues, in particular, security, migration, and diasporas. Shedding light on the future prospects of this relationship, this book will be of interest to both scholars and policymakers working on the ACP-EU relationship and related development issues, including trade, aid, security, and migration.

Social Work and Social Development James Midgley,Amy Conley.2010-05-19 Social workers have been involved in social development for many years, but it is only recently that these ideas have been explicitly applied to social work practice. The result is that a new and distinctive approach to social work practice known as developmental social work has emerged. Developmental social work emphasizes the role of social investment in professional practice. These investments meet the material needs of social work's clients and facilitate their full integration into the social and economic life of the community. Developmental social workers believe that client strengths and capabilities need to be augmented with public resources and services if those served by the profession are to live productive and fulfilling lives. Although developmental social work is inspired by international innovations, particularly in the developing countries, it highly relevant to practice in the United States and other Western nations. In the first book to lay out a clear framework for developmental social work practice, chapters will focus on the traditional fields of social work practice, showing how social investment strategies can be adopted by social workers in their daily practice with populations including families and children, people with mental illness, homeless youth, people with disabilities, the elderly, and those in the correctional system. By facilitating clients' full social and economic participation through a variety of strategies, such as

microenterprise or asset-building programs, practitioners can help bring about meaningful changes in clients' lives and throughout their communities. The editors and contributors offer a highly original exposition of developmental social work theory and practice, providing a definitive guide to an emerging and exciting new approach to practice.

*The Handbook of Behavior Change* Martin S. Hagger, Linda D. Cameron, Kyra Hamilton, Nelli Hankonen, Taru Lintunen. 2020-07-15 Social problems in many domains, including health, education, social relationships, and the workplace, have their origins in human behavior. The documented links between behavior and social problems have compelled governments and organizations to prioritize and mobilize efforts to develop effective, evidence-based means to promote adaptive behavior change. In recognition of this impetus, *The Handbook of Behavior Change* provides comprehensive coverage of contemporary theory, research, and practice on behavior change. It summarizes current evidence-based approaches to behavior change in chapters authored by leading theorists, researchers, and practitioners from multiple disciplines, including psychology, sociology, behavioral science, economics, philosophy, and implementation science. It is the go-to resource for researchers, students, practitioners, and policy makers looking for current knowledge on behavior change and guidance on how to develop effective interventions to change behavior.
