Global Indian Diasporas Gijbert Oonk.2007 Global Indian Diasporas discusses the relationship between South Asian emigrants and their homeland, the reproduction of Indian culture abroad, and the role of the Indian state in reconnecting emigrants to India. Focusing on the limits of the diaspora concept, rather than its possibilities, this volume presents new historical and anthropological research on South Asian emigrants worldwide. From a comparative perspective, examples of South Asian emigrants in Suriname, Mauritius, East Africa, Canada, and the United Kingdom are deployed in order to show that in each of these regions there are South Asian emigrants who do not fit into the Indian diaspora concept—raising questions about the effectiveness of the diaspora as an academic and sociological index, and presenting new and controversial insights in diaspora issues.

Harrod's Librarians' Glossary and Reference Book Ray Prytherch.2016-04-15 Listing over 10,000 entries, Harrod's Librarians' Glossary and Reference Book spans everything from traditional printing terms to search engines and from book formats to URLs. Revisions for this tenth edition have centred in particular on the Information Society and its ramifications, on the general shift towards electronic resources, and on e-commerce, e-learning and e-government, whilst at the same time maintaining key areas predating the IT revolution. Web terminology, URLs and IT terms have been checked and updated, and coverage of terms relating to digitization and digital resources, portals, multimedia and electronic products has been revised or expanded as necessary. Harrod's Glossary now includes Knowledge Management terms, and this edition has also focused on developments in the field of intellectual property, copyright,

patents, privacy and piracy. It gives wide international coverage of names, addresses and URLs of major libraries and other important organizations in the information sector, of professional associations, fellowships, networks, government bodies, projects and programmes, consortia and institutions, influential reports and other key publications. Entries are included on classification and file coding, on records management and archiving and on both the latest and the most enduring aspects of library and information skills. Even with the Web at your fingertips Harrod's Librarians' Glossary and Reference Book remains a quicker reference for explaining specialist terms, jargon and acronyms, and for finding the URLs you need, whether you are working in a print-based or digital library, in archiving, records management, conservation, bookselling or publishing.

Kenya, Uganda and Zanzibar Great Britain. Foreign Office. Historical Section.1920 In preparation for the peace conference that was expected to follow World War I, in the spring of 1917 the British Foreign Office established a special section responsible for preparing background information for use by British delegates to the conference. Kenya, Uganda, and Zanzibar is Number 96 in a series of more than 160 studies produced by the section, most of which were published after the conclusion of the 1919 Paris Peace Conference. As explained in an editorial note, in 1920 the British East Africa Protectorate became a colony and its name was changed to Kenya. Unlike the cover and the title page, the text was not updated and still refers to the protectorate. The book contains sections on physical and political geography, political history, social and political conditions, and economic conditions. The historical discussion covers the 19th-century rivalry between

Great Britain and Germany for control of territories in East Africa claimed by the sultan of Zanzibar. The Anglo-German agreement of 1886 left the sultan only the island of Zanzibar and a narrow strip of the mainland. The vast hinterland was divided between British and German commercial interests and eventually became, in the south, German East Africa, and in the north, the East Africa Protectorate. In 1890, Zanzibar itself (part of present-day Tanzania) became a British protectorate, in exchange for which Germany acquired the North Sea island of Heligoland. The section on economic conditions discusses the prospects for economic development and profitable investment in Kenya and Uganda, focusing on three factors: useful products, which it concluded existed in abundance; labor, which it concluded existed in bare sufficiency; and transport facilities, said to be inadequate for progress. The appendix includes tables of economic statistics and extracts from the Anglo-German agreements relating to these territories.

Language and Society in South Asia Michael C.

Shapiro, Harold F. Schiffman. 2008-09-30 During the past two decades there has been a significant amount of research and publication concerning the sociolinguistics of South Asian languages. *Language and Society in South Asia* is the first major attempt to assess the impact of this new literature. It expounds the methodological and theoretical assumptions of sociolinguistic descriptions of south Asian languages, and contrasts them with the assumptions of earlier characterizations of these languages. An important feature of this book is its detailed examination of numerous schools of linguistic analysis within which most past descriptive work on South Asian languages has been carried out. This is done in language accessible both to the professional linguist and to non-linguists interested in social aspects of language use in South Asia. Among the topics treated in this book are traditional taxonomies of South Asian languages, South Asia as a linguistic area, social dialectology, bi- and multilingualism in

South Asia, pidginization, creolization, and South Asian English, ethnographic semantics, and the ethnography of speaking. The work also contains an extensive bibliography of the scholarly literature pertinent to the study of South Asian languages in their social contexts.

The Wrestler's Body Joseph S. Alter.1992-08-03 The Wrestler's Body tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health. Everyone is called on to become a wrestler and build collective strength through self-discipline.

Science And Human Behavior B.F Skinner.2012-12-18 The psychology classic—a detailed study of scientific theories of human nature and the possible ways in which human behavior can be predicted and controlled—from one of the most influential behaviorists of the twentieth century and the author of *Walden Two*. “This is an important book, exceptionally well written, and logically consistent with the basic premise of the unitary nature of science. Many students of society and culture would take violent issue with most of the things that Skinner has to say, but even those who disagree most will find this a stimulating book.”

perspective. Despite sharing many historical and geological similarities, dialogue between the young democracies of Latin America and the Indian subcontinent is still extremely scarce. The volume builds a common research agenda for the economic development of the Global South. It offers Latin American insights and highlights novelties and commonalities the region shares with India's economic development. It pays special attention to the (geo)political, technological, financial, and institutional aspects related to the specific geographical and demographical features of the Indian subcontinent. A step towards strengthening the dialogue on economic development in the Global South, this book will be of interest to scholars and researchers of heterodox economics, Indian economy, comparative economics, macroeconomics, political economy, economic history, development studies, Latin American studies, and South Asian studies.

The Dark Zone Anjal Prakash. 2005 Over the past twenty years in Gujarat, technological changes in agricultural and intensive use of groundwater have led to a spurt in water markets. The development of competitive markets, dependent on the sinking of tubewells, has been advocated on the basis of efficiency and accessibility to the resource. However, this has generally been done without unpacking nuances of unequal social relationships, ecological and historical functions that shape groundwater access and use. The Dark Zone aims to fill this gap. It focuses on the politics of groundwater markets and its interrelation with social differentiation and class-caste relations. Based on an intensive social anthropological study of a village in north Gujarat, the book investigates the factors that shaped unrestrained use of groundwater and the responses of various social groups to this process. Using a triadic framework of the theory of agrarian institutions, ecological variables in agrarian change and the influence of the state, Prakash locates the study in the larger political economy of Gujarat. Drawing upon rich empirical

The Fingerprint U. S. Department Justice.2014-08-02 The idea of The Fingerprint Sourcebook originated during a meeting in April 2002. Individuals representing the fingerprint, academic, and scientific communities met in Chicago, Illinois, for a day and a half to discuss the state of fingerprint identification with a view toward the challenges raised by Daubert issues. The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). One recommendation that came out of that meeting was a suggestion to create a sourcebook for friction ridge examiners, that is, a single source of researched information regarding the subject. This sourcebook would provide educational, training, and research information for the international scientific community.

Shyamji Krishnavarma Harald Fischer-Tine.2015-10-15 This book is the first critical biography on Shyamji Krishnavarma — scholar, journalist and national revolutionary who lived in exile outside India from 1897 to 1930. The work delves into a fascinating range of issues such as colonialism and knowledge, political violence, cosmopolitanism, and diaspora. economic and political processes in the country. Linking the structural characteristics with the broader sociological context, the book emphasizes the strong influence of sociological issues on politics, such as social milieu shaping and the articulation of the political in day-to-day events. Political events are connected with the ever-changing social, economic and political processes in order to provide an analytical framework to explain 'peculiarities' of Indian politics. Bidyut Chakrabarty argues that three major ideological influences of colonialism, nationalism and democracy have provided the foundational values of Indian politics. Structured thematically and chronologically, this work is a useful resource for students of political science, sociology and South Asian studies.
