

Neighboring Faiths A Christian Introduction To World Religions

Neighboring Faiths David Nirenberg.2014-10-20 This book represents the culmination of David Nirenberg's ongoing project; namely, how Muslims, Christians, and Jews lived with and thought about each other in the Middle Ages, and what the medieval past can tell us about how they do so today. There have been scripture based studies of the three religions of the book" that claim descent from Abraham, but Nirenberg goes beyond those to pay close attention to how the three religious neighbors loved, tolerated, massacred, and expelled each other--all in the name of God--in periods and places both long ago and far away. Whether Christian Crusaders and settlers in Islamic-ruled lands, or Jewish-Muslim relations in Christian-controlled Iberia, for Nirenberg, the three religions need to be studied in terms of how each affected the development of the other over time, their proximity of religious and philosophical thought as well as their overlapping geographies, and how the three neighbors" define (and continue to define) themselves and their place in the here-and-now--and the here-after--in terms of one another. Arguing against exemplary histories, static models of tolerance versus prosecution, or so-called Golden Ages and Black Legends, Nirenberg offers here instead a story that is more dynamic and interdependent, one where Muslim, Jewish, and Christian communities have re-imagined themselves, not only as abstractions of categories in each other's theologies and ideologies, but by living with each other every day as neighbors jostling each other on the street. From dangerous attractions leading to interfaith marriage, to interreligious conflicts leading to segregation, violence, and sometimes extermination, to strategies of bridging the interfaith gap through language, vocabulary, and poetry--Nirenberg aims to understand the intertwined past of the three faiths as a way for their heirs to coproduce the future.

Towards The True Kinship Of Faiths The Dalai Lama.2010-09-02 No country, no culture, no person today is untouched by what happens in the rest of the world, and globalization presents many challenges. The Dalai Lama understands that the essential task of humanity in the twenty-first century must be to cultivate peaceful coexistence. In this book the Dalai Lama shows how in our globalized world, nations, cultures and individuals can find opportunities to connect through their shared human nature. All faiths turn to compassion as a guiding principle for living a good life. It is the responsibility of all people with an aspiration to spiritual perfection to help develop a deep recognition of the value of other faiths, and it is on that basis alone that we can cultivate genuine respect and cooperation. *Towards the True Kinship of Faiths* is a hopeful yet realistic look at how humanity can embrace a harmonious future.

God among Sages Kenneth Richard Samples.2017-01-31 Was Jesus just a spiritual leader, like Buddha, Krishna, Confucius, and Muhammad? Or is he something more--something else entirely? In *God among Sages*, apologist Ken Samples offers readers a biblical and historical portrait of Jesus, grounded in the claims Jesus makes about himself. Then Samples compares and contrasts Jesus with Buddha, Krishna, Confucius, and Muhammad using eight relevant categories of evaluation. He also helps readers understand the competing philosophies of religious pluralism, inclusivism, and exclusivism. The result is a clearer understanding of what sets Jesus apart as not simply a teacher to follow but God himself, worthy of our full allegiance and worship. Christians who struggle to answer claims that Jesus was just a good teacher, as well as those haven't quite made up their minds about Jesus's claims to divinity, will value this accessible introduction to comparative religions.

Now Choose Life Gary Millar.2000-10-02 Though written thousands of years ago, the book of Deuteronomy is unmatched in its relevance for the affluent Western church of today. Moses' words were meant to equip God's people for living godly lives in a prosperous, pluralistic world. The cultural changes now taking place in our own social setting make the parallel between Israel and the church—and what Deuteronomy has to say—both pertinent and instructive. This New Studies in Biblical Theology volume offers a significant study of Deuteronomy that recovers this Scripture's vibrant message for the contemporary Christian community. Showing the major contribution that Deuteronomy makes to our understanding of the Bible as a whole, J. Gary Millar explores Deuteronomy's ethical teaching in the light of its most important theological themes:

covenant, journey, law, the nations and human nature. His perceptive analysis reveals the power with which Deuteronomy calls God's covenant people, from ancient Israelites to modern-day Christians, to hear God's voice and do his will. Whether read for its critical study of Scripture or for its practical insights into living faithfully today, this book will be a valuable resource for school, church and home. Addressing key issues in biblical theology, the works comprising *New Studies in Biblical Theology* are creative attempts to help Christians better understand their Bibles. The NSBT series is edited by D. A. Carson, aiming to simultaneously instruct and to edify, to interact with current scholarship and to point the way ahead.

The Abrahamic Religions: a Very Short Introduction Charles L. Cohen.2020-01-08 In the book of Genesis, God bestows a new name upon Abram--Abraham, a father of many nations. With this name and his Covenant, Abraham would become the patriarch of three of the world's major religions: Judaism, Christianity, and Islam. Connected by their mutual--if differentiated--veneration of the One God proclaimed by Abraham, these traditions share much beyond their origins in the ancient Israel of the Old Testament. This Very Short Introduction explores the intertwined histories of these monotheistic religions, from the emergence of Christianity and Islam to the violence of the Crusades and the cultural exchanges of al-Andalus. Each religion continues to be shaped by this history but has also reacted to the forces of modernity and politics. Movements such as the Reformation and that led by seventh-century Kharijites have emerged, intentioned to reform or restore traditional religious practice but quite different in their goals and effects. Relationships with states, among them Israel and Saudi Arabia, have also figured importantly in their development. *The Abrahamic Religions: A Very Short Introduction* brings these traditions together into a common narrative, lending much needed context to the story of Abraham and his descendants. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Sharing Jesus Holistically with the Buddhist World David S. Lim, Steve Spaulding.2005 This book contains the works of a group of Evangelical mission reflective practitioners, who are committed to developing ways to evangelize the Buddhist peoples of the world. As various forms of Buddhism gain popularity, this network tries to disclose creative approaches to reach them with the gospel communicated in culturally sensitive ways and with transformational impact. The five major dimensions of a holistic witness among Buddhist peoples discussed in this book are: experiential dialogue, intellectual dialogue, biblical exposition, cultural sensitivity, and economic development. We invite readers to gain access to the first volume, *Sharing Jesus in the Buddhist World*, which consists of nine papers that provide the framework and some concrete models of cultural-sensitive contextualized witness to peoples of Buddhist faith. It will serve as a rich resource for those concerned with the issues raised in this book.

A Tapestry of Faiths Winfried Corduan.2009-06-01 Christians find themselves in an increasingly diverse world. The new place of worship in our neighborhood might just as likely be a Hindu temple or a Muslim mosque as a church or a synagogue. How should we view other world religions, and more important, how should we engage our religiously oriented neighbors in conversation? Do all religions teach the same thing? Or are there significant differences? Do we try to minimize differences and just get along? Or do we hold out the Christian faith as the one true hope for all the world? Drawing on his wide experience and knowledge of other religions and how they are actually lived, Winfried Corduan helps us sort through the complex tapestry of faiths around the globe. He contends that there are common threads of understanding that can serve to link us in meaningful

discussion. From these common threads we can go on to explore genuine differences. Through the course of the book, Corduan leads readers to explore the important issues of revelation and truth, morality and guilt, grace and redemption, eschatology and hope. Ultimately, Jesus Christ, he argues, stands unique among religious figures and Christianity unique among the world's religions. This is a book that strengthens Christians in their convictions while encouraging them to engage their neighbors with humility, love, and discernment.

Encountering World Religions Irving Hexham.2019-05-21 The diversity of the world's religions has come to the West, but believers are often ill-equipped for any kind of serious engagement with non-Christians. Hexham outlines key beliefs and practices in each religion, while also providing guidance on how to think critically about them from the standpoint of Christian theology. Accessible and clear, *Encountering World Religions* will provide formal and lay students alike with a useful Christian introduction to the major faiths of our world.

Faiths in Conflict? Vinoth Ramachandra.2000-08-28 In this fascinating and ground-breaking study, Vinoth Ramachandra explores the complex nature of conflict among the major world religions of Islam, Hinduism, Buddhism and Christianity, and also between them and the rising tide of secularism.

Christianity and Religious Diversity Harold A. Netland.2015-05-12 This book explores how religions have changed in a globalized world and how Christianity is unique among them. Harold Netland, an expert in philosophical aspects of religion and pluralism, offers a fresh analysis of religion in today's globalizing world. He challenges misunderstandings of the concept of religion itself and shows how particular religious traditions, such as Buddhism, undergo significant change with modernization and globalization. Netland then responds to issues concerning the plausibility of Christian commitments to Jesus Christ and the unique truth of the Christian gospel in light of religious diversity. The book concludes with basic principles for living as Christ's disciples in religiously diverse contexts.

Between One Faith and Another Peter Kreeft.2017-07-07 How do we make sense of the world's different religions? In today's globalized society, religion is deeply intertwined with every issue we see on the news. But talking about multiple religions can be contentious. Are different faiths compatible somehow? And how can we know whether one religion is more true than another? In this creative thought experiment, Peter Kreeft invites us to encounter dialogues on the world's great faiths. His characters Thomas Keptic and Bea Lever are students in Professor Fesser's course on world religions, and the three explore the content and distinctive claims of each. Together they probe the plausibility of major religions, from

Hinduism and Buddhism to Christianity and Islam. Along the way they explore how religions might relate to each other and to what extent exclusivism or inclusivism might make sense. Ultimately Kreeft gives us helpful tools for thinking fairly and critically about competing religious beliefs. If the religions are different kinds of music, do they together make harmony or cacophony? Decide for yourself.

Can Evangelicals Learn from World Religions? Gerald R. McDermott. 2010-02-26 A 2001 Christianity Today Award of Merit winner! Arguably, the church's greatest challenge in the next century will be the problem of the scandal of particularity. More than ever before, Christians will need to explain why they follow Jesus and not the Buddha or Confucius or Krishna or Muhammed. But if, while relating their faith to the faiths, Christians treat non-Christian religions as netherworlds of unmixed darkness, the church's message will be a scandal not of particularity but of arrogant obscurantism. . . . Recent evangelical introductions to the problem of other religions have built commendably on foundations laid by J. N. D. Anderson and Stephen Neill. Anderson and Neill opened up the heathen worlds to the evangelical West, showing that many non-Christians also seek salvation and have personal relationships with their gods. In the last decade Clark Pinnock and John Sanders have argued for an inclusivist understanding of salvation, and Harold Netland has shed new light on the question of truth in the religions. Yet no evangelicals have focused—as nonevangelicals Keith Ward, Diana Eck and Paul Knitter have done—on the revelatory value of truth in non-Christian religions. Anderson and Neill showed that there are limited convergences between Christian and non-Christian traditions, and Pinnock has argued that there might be truths Christians can learn from religious others. But as far as I know, no evangelicals have yet examined the religions in any sort of substantive way for what Christians can learn without sacrificing, as Knitter and John Hick do, the finality of Christ. This book is the beginning of an evangelical theology of the religions that addresses not the question of salvation but the problem of truth and revelation, and takes seriously the normative claims of other traditions. It explores the biblical propositions that Jesus is the light that enlightens every person (Jn 1:9) and that God has not left Himself without a witness among non-Christian traditions (Acts 14:17). It argues that if Saint Augustine learned from Neo-Platonism to better understand the gospel, if Thomas Aquinas learned from Aristotle to better understand the Scriptures, and if John Calvin learned from Renaissance humanism, perhaps evangelicals may be able to learn from the Buddha--and other great religious thinkers and traditions—things that can help them more clearly understand God's revelation in Christ. It is an introductory word in a conversation that I hope will go much further among evangelicals. —Gerald McDermott, in the

introduction to Can Evangelicals Learn from World Religions?

The Encyclopedia of World Religions Robert S. Ellwood.2008 Contains nearly 600 brief entries on the world's religious traditions.

Reasonable Faith Winfried Corduan.1993 The apostle Peter urged his readers to give a reason for the hope that is within them. In a day when even the concept of truth is questioned, Corduan gives reasons for the truth of historic Christian faith and argues that being able to give reasons for one's faith is possible, desirable, and something laypersons can learn.

Christianity at the Religious Roundtable Timothy C. Tennent.2002-11-01 Argues that Christian dialogue with other faiths is an integral part of our call to proclaim the message of Christ.

A God of Many Understandings Todd Miles.2010-10-01 Western Christianity's interaction with world religions used to be, for the most part, overseas. Today, "religious others" often live next door. At a changing time when one public prayer spoken during the 2009 U.S. presidential inauguration festivities was addressed to "O god of our many understandings," the evangelical Christian church should do more than simply dismiss non-Christian religions as pagan without argument or comment. The Church needs a theology of religions that is Christ-honoring, biblically faithful, intellectually satisfying, compassionate, and that will encourage Spirit-powered mission. Oregon-based theology professor Todd L. Miles writes to that end in *A God of Many Understandings?*, attempting, as the scholar Veli-Matti Kärkkäinen puts it, "to think theologically about what it means for Christians to live with people of other faiths and about the relationship of Christianity to other religions."

Christianity & World Religions Derek Cooper.2012-11 An introduction to the worlds major faiths.

Mysticism Winfried Corduan.2009-07-01 Mysticism is a controversial topic that all too frequently receives one-sided coverage. On the one hand there are many enthusiasts who are willing to defend mysticism at almost any cost, including sacrificing logical and theological integrity. On the other hand there are philosophers and theologians who see mysticism as not much more than an evil to be stamped out. This book takes a careful look at the philosophical and theological questions involved and attempts to locate a modest place for mysticism within a genuine evangelical framework.

Questions addressed in this book include such matters as: Is mysticism a perennial philosophy that appears in different guises but is always the same underneath? Can we argue for an objective reality behind all mystical experience? How can we understand the fact that mystics talk about something that they say is beyond language? How has mysticism shown up in various Christian traditions? Can we reconcile mysticism with the New Testament? The conclusion of this book is based on an understanding of mysticism as an unmediated link to an absolute. In that sense there is a form of mysticism taught in the New Testament, but it is a mysticism that does not require ecstatic experience and does not constitute a separate source of revelation. Nevertheless, this New Testament mysticism describes an integral part of biblical spirituality.

The Closing of the Muslim Mind Robert R. Reilly.2023-06-20 Islam's Intellectual Suicide—and the Threat to Us All People are shocked and frightened by the behavior coming out the Islamic world—not only because it is violent, but also because it is seemingly inexplicable. While there are many answers to the question of "what went wrong" in the Muslim world, no one has decisively answered why it went wrong. Until now. In this eye-opening new book, foreign policy expert Robert R. Reilly uncovers the root of our contemporary crisis: a pivotal struggle waged within the Muslim world nearly a millennium ago. In a heated battle over the role of reason, the side of irrationality won. The deformed theology that resulted, Reilly reveals, produced the spiritual pathology of Islamism, and a deeply dysfunctional culture. Terrorism—from 9/11, to London, Madrid, and Mumbai, to the Christmas 2009 attempted airline bombing—is the most obvious manifestation of this crisis. But Reilly shows that the pathology extends much further. *The Closing of the Muslim Mind* solves such puzzles as: · why peace is so elusive in the Middle East · why the Arab world stands near the bottom of every measure of human development · why scientific inquiry is nearly dead in the Islamic world · why Spain translates more books in a

single year than the entire Arab world has in the past thousand years · why some people in Saudi Arabia still refuse to believe man has been to the moon · why Muslim media frequently present natural disasters like Hurricane Katrina as God's direct retribution Delving deeper than previous polemics and simplistic analyses, *The Closing of the Muslim Mind* provides the answers the West has so desperately needed in confronting the Islamist crisis.

Handmaid to Theology Winfried Corduan.2009-07-01 A most needed and creative beginning in theological prolegomena, says Norman L. Geisler of *Handmaid to Theology*. In this work the long-neglected use of philosophy in evangelical theology is overcome. Philosophical Prolegomena does not in this case constitute an introduction to theology, preliminary material of which one must dispose before delving into the actual content of divine revelation. Instead it constitutes a handmaid to theology, the philosophical categories that necessarily help to shape each doctrine. In addition to demonstrating the inevitable reliance of theology on certain philosophical concepts, the author pleads for a clear distinction between biblical theology and systematic theology within the evangelical tradition. Particularly helpful . . . says Geisler, is the emphasis on the need to use biblically compatible concepts in order to construct a systematic theology. After two introductory chapters (*What Is Prolegomena?* and *Prolegomena: The Starting Point*), the author devotes two chapters to the doctrine of man, as many to the doctrine of revelation, three to the doctrine of God, and a final chapter to the doctrine of regeneration. This book turns over new ground in theological prolegomena, concludes Geisler. Its pace-setting insights could, and I hope will, signal a return to a proper harmony between philosophy and biblical theology in the practice of systematic theology among evangelicals.

God Is Not One Stephen Prothero.2010-04-20 In *God is Not One: The Eight Rival Religions That Run the World*, New York Times bestselling author of *Religious Literacy* and religion scholar Stephen Prothero argues that persistent attempts to portray all religions as different paths to the same God overlook the distinct problem that each tradition seeks to solve. Delving into the different problems and solutions that Islam, Christianity, Buddhism, Judaism, Confucianism, Yoruba Religion, Daoism and Atheism strive to combat, *God is Not One* is an indispensable guide to the questions human beings have asked for millennia—and to the disparate paths we are taking to answer them today. Readers of Huston Smith and Karen Armstrong will find much to ponder in *God is Not One*.

In the Beginning God Winfried Corduan.2013 This study about the origin of religion concludes that evidence for monotheism (the belief in one true God who created the world and holds people morally accountable) outweighs the popular view of animism (religion born from the veneration of spirits).
