The Common Core Approach to Building Literacy in Boys Liz Knowles, Martha Smith. 2014-05-27 Written with a focus on the English Language Arts Common Core Standards, this book provides a complete plan for developing a literacy program that focuses on boys pre-K through grade 12. Despite the fact that reading and literacy among boys has been an area of concern for years, this issue remains unresolved today. Additionally, the emphasis and focus have changed due to the implementation of the English Language Arts Common Core Standards. How can educators best encourage male students to read, and what new technologies and techniques can serve this objective? *The Common Core Approach to Building Literacy in Boys* is an essential resource and reference for teachers, librarians, and parents seeking to encourage reading in boys from preschool to 12th grade. Providing a wide array of useful, up-to-date information that emphasizes the English Language Arts Common Core Standards, the bibliographies and descriptions of effective strategies in this book will enable you to boost reading interest and performance in boys. The chapters cover 16 different topics of interest to boys, all accompanied by a complete bibliography for each subject area, discussion questions, writing connections, and annotated new and classic nonfiction titles. Information on specific magazines, annotated professional titles, books made into film, websites, and apps that will help you get boys interested in reading is also included.

Kumak's House Michael Bania.2015-08-01 At the edge of a great frozen river, Kumak and his family lived in their house by the willows. Though their house was warm and cozy, Kumak was not happy. His wife was not happy. His sons and daughters were not happy. His wife's mother was not happy. Too small, this house, said Kumak. I will go to see Aana Lulu. She will know what to do. Set in an Inupiat Eskimo village in the northwest Arctic, KUMAK'S HOUSE is a folktale that conveys a humorous lesson on life with Kumak as the foil. As Kumak treks again and again to elder Aana Lulu for advice, the book's charming illustrations incite laughter and introduce children to traditional Inupiat activities and animals of the Arctic.

Kumak's River Michael Bania.2012-09-15 In the Arctic, before winter gives way to buds and flowers, breakup occurs—the moment when the ice of a frozen river suddenly breaks apart in a spectacular sight and sound show. Massive chunks of ice crunch and pound against one another, pushing

their way down river towards the sea. "That river will come to visit us today," said Kumak. The water starts rising. It spills out of the river banks, up over the sandy beach, and begins flowing up past the fish racks and boats. As the waters sweep through his village, Kumak and his family take refuge on the roof of his house. "Look!" said Kumak's wife, "There goes Uncle Aglu's oil drum." "Look!" said Kumak's wife's mother, "There goes Aana Lulu's fish tubs and net floats!" "Look!" said Kumak's sons and daughters, "There goes Little Nate's basketball!" Just as Kumak and his family are feeling all is lost, "just like someone pulled a plug in a bathtub", the water recedes. "Just in time!" shout the villagers. "What has the river done with our things!" In an effort to recover as many of their belonging as possible, Kumak and the village practice the value of community and working together. In this light hearted, playful adventure, the villagers show respect for nature's immense power as Kumak brings them together to rescue their supplies, toys, household goods, and, finally, Kumak's dogs. Through lively art, humorous text, and informative endnotes, author Michael Bania conveys authentic details on Inupiat village life and provides young readers with a fascinating window into another culture as the life of hapless, yet lovable Kumak continues. Bania's first book, KUMAK'S HOUSE was a 2003 Children's Book Council Notable Trade Book in Social Studies. Her second book, KUMAK'S FISH was a Notable Social Studies Trade Book, 2005 Children's Book Council. Both books were chosen for the Alaska Association of School Libraries "Battle of the Books" for First Grade. KUMAK'S FISH was an honor book for the first Wanda Gág Read Aloud Book Award.

Kumak's Fish Michael Bania.2015-08-01 On a beautiful Arctic morning, Kumak looks out the window of his house at the sun rising over the frozen river. Ahhh, spring, says Kumak to his family. The days are long, the nights are short, and the ice is still hard. Good day for fish. Eager to give Uncle Aglu's amazing hooking stick a try, Kumak packs up his family and heads out to go ice fishing. Good day for fish! they all agree. Hapless Kumac is the only one in his family without fish until the tug at the other end of his line incites a mighty battle. A clever ending reveals that the whale-sized fish that Kumak imagined was actually a line of small fish in tug o' war position. Kumak reigns, and there's plenty for everybody. Authentic details throughout the playful art and text, as well as endnotes on Inupiat fishing, provide young readers with a fascinating window into another culture in this follow up to KUMAK'S HOUSE a 2003 Children's Book Council Notable Trade Book in Social Studies

Old Wisdom and New Horizon Manoj Kumar Pal.2008 This book by an internationally reputed Indian scientist traces the developments of Science, Religion and Philosophy in human civilization through the ages. The common underlying bond-more specifically, a linkage of philosophy with both science and religion-has been examined incisively. All the three sub-areas of human culture have been presented from a holistic point of view, and at the same time, stressing some of their irreconcilable basic differences in scope and outlook. Meant primarily for general readers, the book achieves a fine balance between basic concepts, historical evolution and a critical unbiased analysis of rituals, dogmas, unresolved queries and it leads to an enlightened view of 'humanism', 'Nature', 'Unity of man', need for a new paradigm of social and political order transcending globalization and control of resources of weaker nations by supremacy in global power equation. The book reviews the wisdom of the ancient Hindus, Buddhism, Jainism and of the three semitic religions-Judaism, Christianity and Islam. It presents a concise account of the Indian Vedas, Vedangan, Saddarsana, the two epics and the Bhagavadgita, of the philosophy and science of the Greeks, science and technology of ancient Egypt, Babylonia and China. A valuable special feature is a summary of the status of present-day science, starting with the classical phase, and ending with the developments in the last century comprising the Theory of Relativity, quantum physics, genetics, various aspects of human consciousness, modern astronomy, astrophysics and

cosmology. Last but not least, the author critically reviews some of the presentday fashionable discourses on 'science as the best way to reach God' and leads the readers to an appraisal of the on-going researches on the unification of the four fundamental interactions of physical sciences. He ends with the inexorable conclusion that this unification, when fully achieved, would still not strictly identify the unique force as 'God as conceived in different religions.

Farthest Field: An Indian Story of the Second World War Raghu Karnad.2015-08-24 "I have not lately read a finer book than this—on any subject at all. . . . A masterpiece." —Simon Winchester, *New Statesman* The photographs of three young men had stood in his grandmother's house for as long as he could remember, beheld but never fully noticed. They had all fought in the Second World War, a fact that surprised him. Indians had never figured in his idea of the war, nor the war in his idea of India. One of them, Bobby, even looked a bit like him, but Raghu Karnad had not noticed until he was the same age as they were in their photo frames. Then he learned about the Parsi boy from the sleepy south Indian coast, so eager to follow his brothers-in-law into the colonial forces and onto the front line. Manek, dashing and confident, was a pilot with India's fledgling air force; gentle Ganny became an army doctor in the arid North-West Frontier. Bobby's pursuit would carry him as far as the deserts of Iraq and the green hell of the Burma battlefield. The years 1939-45 might be the most revered, deplored, and replayed in modern history. Yet India's extraordinary role has been concealed, from itself and from the world. In riveting prose, Karnad retrieves the story of a single family—a story of love, rebellion, loyalty, and uncertainty—and with it, the greater revelation that is India's Second World War. *Farthest Field* narrates the lost epic of India's war, in which the largest volunteer army in history fought for the British Empire, even as its countrymen fought to be free of it. It carries us from Madras to Peshawar, Egypt to Burma—unfolding the saga of a young family amazed by their swiftly changing world and swept up in its violence.

Blisters on Their Feet Samir Kumar Das.2008-05-09 This book is a comprehensive study on India's North East where violence, development and natural disasters that lead to eviction and displacement of `citizens` within a country produce more Internally Displaced Persons (IDPs) than refugees. Dwelling upon this debate, the book discusses the two major sources of displacement, conflict and development, and presents a compendium of case studies drawn from Arunachal Pradesh, Assam, Manipur and Tripura—the four worst-affected states of the region. The Introduction to the book highlights the silenced aspects of displacement, drawing upon the implications of the case studies presented and bringing them to the centre of any future theoretical enquiry into the society and politics of the region. Blisters on their Feet: Tales of Internally Displaced Persons in India's North East provides contrasting perspectives on what is often considered a simple answer to displacement, and views the phenomenon as a logical culmination of a package of policies initiated and undertaken in the region, particularly in the age of globalization. The case studies display rare insight, human rights sensitivity and commitment, sans any theoretical pretensions. The book serves as a useful key in placing the North East in the newly emergent discourse on displacement and brings it to the forefront of the public agenda. It offers important insights for policy makers and analysts, research scholars, human rights activists, lawyers, developmental specialists, students and socially concerned citizens.

Agriculture and a Changing Environment in Northeastern India Sumi Krishna.2020-11-29 India's northeastern region, forged by a unique geological history and peopled by several waves of migration, is extraordinarily complex. Farming systems in the hills and the riverine plains are embedded in a heterogeneous environment, comprising forests, wetlands and fields, shaped over centuries by nature and people. Today, the environment and economy are undergoing rapid transformation, affecting peoples' lives, livelihoods and methods of food production. The essays in this volume bring a multi-disciplinary perspective to critical aspects of the process of agricultural change, examine the gender dimensions of agriculture, and explore initiatives for sustainable livelihood and ecological conservation. Part I analyses the impact of policies and people's own aspirations on the closely-intertwined ecology and economy of the region. Part II discusses the gender dynamics of farming, forestry and biodiversity in a socio-cultural context where women are primarily responsible for food production. Part III highlights some alternative farming interventions and community-based efforts for environmental conservation, sustainable resource management and improved livelihoods. This book will be useful to scholars and students of agriculture, economics, development, environment and gender studies, and to those involved in policy analysis, natural resource management and community organisation, as also general readers interested in India's northeastern region.

Weird Woods John Miller.2021-03 Woods play an important and recurring role in horror, fantasy, the gothic, and the weird. They are places in which strange things happen, where you often can't see where you are or what is around you. Supernatural creatures thrive in the thickets. Trees reach into underworlds of earth, myth, and magic. Forests are full of ghosts. In this new collection, immerse yourself in the whispering voices between the branches in Wistman's Wood on Dartmoor, witness an inexplicable death in Yorkshire's Strid Wood and prepare yourself for an encounter with malignant pagan powers in the dark of the New Forest. This edition also includes notes on the real locations and folklore which inspired these deliciously sinister stories.

Peoples of the Buddhist World Paul Hattaway.2004 In the past 20 years, Christians around the world have launched initiatives to reach Muslims,

Communists, Hindus and other major unreached people groups but the Buddhist world has largely been overlooked. Hundreds of millions of Buddhists continue to live and die without any exposure to the Gospel. In Peoples of the Buddhist World, researcher and author Paul Hattaway graphically presents prayer profiles of more than 200 Buddhist people groups around the world, beautifully illustrated with color pictures throughout. In addition, experts have contributed articles on various aspects of Buddhism, helping the reader to learn, pray and work until that day when the kingdom of the world has become the kingdom of our Lord and of his Christ and he will reign for ever and ever (Rev. 11:15).--From publisher's description.
