How to Write a Good Advertisement Victor O. Schwab.2015-10-28 This book might well have carried

the subtitle *Or 44 Years in the Copy Department* instead of its present one. Even a copywriter, whose breed is not noteworthy for arithmetical prowess, could not escape arriving at the conclusion that the number of years from 1917 to 1961 totals forty-four. And, Heaven help me!, for that seeming aeon of time the major interest of the author has been advertising copy— good, bad, and indifferent. That a large measure of this past experience has been associated with a particularly demanding kind of advertising copy may, as will be explained, be an advantageous circumstance for the reader of this book, regardless of what type of copywriting job confronts him. For the subject of the book is not the writing of mail-order copy. Its sole purpose is to lend a hand to any copywriter (or student of copy-writing) whose ambition is to create advertisements which are more resultful, no matter what the product is or how and where it is sold. As to why the author's background of experience may represent an advantageous circumstance for such copywriters, I will leave to an infinitely more capable pen than mine—that of no less an authority than Claude G. Hopkins, one of the greatest copywriters of "general" advertising who ever lived: "Mail-order advertising is difficult. But it is educational. It keeps one on his mettle. It fixes one's viewpoint on cost and result. The advertising-writer learns more from mail-order advertising than from any other." Therefore, if you are looking for guidance specifically concerned with the writing of mail-order advertising, this is not your book. On the other hand, if in the writing of any type of advertising you want more of your copy to achieve the selling effectiveness imperative for any mail-order man who wants to continue eating heartily, this book may prove helpful to you. At any rate, you are the person for whom it was written. Much of its information will probably recall to your mind the aphorism, "We need not so much to be instructed as to be reminded." And that's all to the good. Finally, and appertaining to the passages which are reminiscent in nature, the author has tried to avoid any necessity for later having to

admit, like Mark Twain, that “When I was very young I could remember anything, whether it happened or not. But now I am older and I can only remember the latter.” Victor O. Schwab

**Long Way Down** Jason Reynolds.2017-10-24 “An intense snapshot of the chain reaction caused by pulling a trigger.” —Booklist (starred review) “Astonishing.” —Kirkus Reviews (starred review) “A tour de force.” —Publishers Weekly (starred review) A Newbery Honor Book A Coretta Scott King Honor Book A Printz Honor Book A Time Best YA Book of All Time (2021) A Los Angeles Times Book Prize Winner for Young Adult Literature Longlisted for the National Book Award for Young People’s Literature Winner of the Walter Dean Myers Award An Edgar Award Winner for Best Young Adult Fiction Parents’ Choice Gold Award Winner An Entertainment Weekly Best YA Book of 2017 A Vulture Best YA Book of 2017 A BuzzFeed Best YA Book of 2017 An ode to Put the Damn Guns Down, this is New York Times bestselling author Jason Reynolds’s electrifying novel that takes place in sixty potent seconds—the time it takes a kid to decide whether or not he’s going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That’s what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That’s where Will’s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother’s gun. He gets on the elevator, seventh floor, stoked. He knows who he’s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that’s when Will sees that one bullet is missing. And

the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

**Party in the Street** Michael T. Heaney, Fabio Rojas.2015-02-02 Party in the Street explores the interaction between political parties and social movements in the United States. Examining the collapse of the post-9/11 antiwar movement against the wars in Iraq and Afghanistan, this book focuses on activism and protest in the United States. It argues that the electoral success of the Democratic Party and President Barack Obama, as well as antipathy toward President George W. Bush, played a greater role in this collapse than did changes in foreign policy. It shows that how people identify with social movements and political parties matters a great deal, and it considers the Tea Party and Occupy Wall Street as comparison cases.

*Labor-based Grading Contracts* Asao B. Inoue.2023 In the second edition of *Labor-Based Grading Contracts*, Asao B. Inoue refines his exploration of labor-based grading contracts in the writing classroom. Drawing on antiracist teaching practices, he argues that labor-based grading contracts offer a compassionate approach that is strongly grounded in social justice work. Updated with a new foreword and revised chapters, the book offers a meditation on how Inoue's use of Freirean problem-posing led him to experiment with grading contracts. The result is a robust Marxian theory of labor that considers Hannah Arendt's theory of labor-work-action and Barbara Adam's concept of timescapes. The heart of the book details the theoretical and practical ways labor-based grading contracts can be used and assessed for effectiveness in classrooms and programs. Inoue concludes his exploration of labor-based grading by moving outside the classroom, considering how assessing writing in the socially just ways he offers in the book may provide a way to address the violence and discord seen in the world today.

**Public Procurement of Energy Efficiency Services** Jas Singh,Dilip R. Limaye,Brian

Henderson, Xiaoyu Shi. 2009-12-17 The current universal concerns about global energy security, competitiveness, and environmental protection make energy efficiency more important than ever. However, realizing large-scale savings has proven a significant challenge due to many barriers. 'Public Procurement of Energy Efficiency Services' looks at a largely untapped energy efficiency market the public sector. While the efficiency potential in this sector is substantial, the implementation of energy savings programs has been complicated by a number of factors, such as insufficient incentives to lower energy costs, rigid budgeting and procurement procedures, and limited access to financing. The book looks at energy savings performance contracts (ESPCs) as a means of overcoming some of these barriers. Because public facilities can outsource the full project cycle to a commercial service provider, ESPCs can enable public agencies to solicit technical solutions, mobilize commercial financing, and assign performance risk to third parties, allowing the agency to pay from a project's actual energy savings. The recommendations in this book stem from case studies that identified approaches, models, and specific solutions to ESPC procurement, including budgeting, energy audits, and bid evaluation. Such an approach also offers enormous potential to bundle, finance, and implement energy efficiency projects on a larger scale in the public sector, which can yield further economies of scale. ESPCs can also serve as an attractive element for fiscal stimulus packages and efforts by governments to 'green' their infrastructure, which can create local jobs, reduce future operating costs, and mitigate their carbon footprint. Lower energy bills, in turn, help to create fiscal space in future years to meet other critical investment priorities. Bundled public sector energy efficiency projects can help stimulate local markets for energy efficiency goods and services and 'lead by example', demonstrating good practices and providing models to the private sector.

**Designing Experiences** J. Robert Rossman, Mathew D. Duerden.2019-07-23 In an increasingly experience-driven economy, companies that deliver great experiences thrive, and those that do not

die. Yet many organizations face difficulties implementing a vision of delivering experiences beyond the provision of goods and services. Because experience design concepts and approaches are spread across multiple, often disconnected disciplines, there is no book that succinctly explains to students and aspiring professionals how to design them. J. Robert Rossman and Mathew D. Duerden present a comprehensive and accessible introduction to experience design. They synthesize the fundamental theories and methods from multiple disciplines and lay out a process for designing experiences from start to finish. Rossman and Duerden challenge us to reflect on what makes a great experience from the user's perspective. They provide a framework of experience types, explaining people's engagement with products and services and what makes experiences personal and fulfilling. The book presents interdisciplinary research underlying key concepts such as memory, intentionality, and dramatic structure in a down-to-earth style, drawing attention to both the macro and micro levels. Designing Experiences features detailed instructions and numerous real-world examples that clarify theoretical principles, making it useful for students and professionals. An invaluable overview of a growing field, the book provides readers with the tools they need to design innovative and indelible experiences and to move their organizations into the experience economy. Designing Experiences features a foreword by B. Joseph Pine II.

**Dark Ecology** Timothy Morton.2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.
