Alkaline Earth Hydroxides in Water and Aqueous Solutions I. Lambert, H.L. Clever. 2013-10-22 This volume contains evaluated data on the solubility of beryllium hydroxide, magnesium hydroxide, calcium hydroxide, strontium hydroxide and barium hydroxide in water and in a number of electrolyte and nonelectrolyte solutions in water. The alkaline earth hydroxides can be divided into two groups depending on the hydration of the solid. First, the sparingly soluble anhydrous beryllium, magnesium and calcium hydroxides, whose freshly precipitated solids are poorly crystalline and show decreasing solubility with aging, and whose solubility in water decreases with increasing temperature. Second, the soluble strontium and barium hydroxide octahydrates that form crystalline precipitates which do not show changes in solubility on aging, and whose solubility in water increases with increasing temperature.

Tales from the Dew Drop Inne Kenneth Weene. 2012-01 Tales from the Dew Drop Inne reads like a darkly humorous sitcom. The tone is both heartfelt and deliciously irreverent, showing that one does not need to hate humanity to appreciate the humor of life. Here are tales of drifters, alcoholics, religious renegades, veterans, and drag queens set in pub that is at once a confessional, a circus, and a psychiatric hospital. --Marina Julia Neary, author of Martyrs & Traitors: a Tale of 1916

Chemistry OpenStax. 2014-10-02 This is part one of two for Chemistry by OpenStax. This book covers chapters 1-11. Chemistry is designed for the two-semester general chemistry course. For many students, this course provides the foundation to a career in chemistry, while for others, this may be their only college-level science course. As such, this textbook provides an important opportunity for students to learn the core concepts of chemistry and understand how those concepts apply to their lives and the world around them. The text has been developed to meet the scope and sequence of most general chemistry courses. At the same time, the book includes a number of innovative features designed to enhance student learning. A strength of Chemistry is that instructors can customize the book, adapting it to the approach that works best in their classroom. The images in this textbook are grayscale.

Chemistry Steven S. Zumdahl, Susan A. Zumdahl. 2008-12-19 The Lab Manual for CHEMISTRY, 8th Edition, is a valuable tool designed to enhance your classroom experience. Lab activities, objectives, materials lists, step-by-step procedures, illustrations, review questions and more are all included.

Bob and Tom Get a Dog Cecilia Minden. 2021 Siblings Bob and Tom get a dog with spots. This A-level story uses decodable text to raise confidence in early readers. Chemistry & Chemical Reactivity John C. Kotz, Paul Treichel, Gabriela C. Weaver. 2006 Chapter Goals and Chapter Goals Revisited are two new features in this revision. Each chapter starts with a list of goals that allows students to see what is ahead. The chapter concludes with a repetition of that list with summary information added. General Chemistry Now is correlated to this list. New to this edition are dozens of Active Figures to help students visualize chemistry in action. These animated versions of text art help students master key concepts from the book. Active Figures can be used as demonstrations in the classroom and each figure is paired with a guided exploration and exercise to ensure students understand the concept being illustrated. In-text worked Examples follow a four-part structure: Problem statement, Strategy for approaching the problem, fully worked Solution, and, where appropriate, a Comment on the problem and solution. Through this approach, students learn how to approach a problem rather than merely learning to memorize problem types and memorized solution approaches. Exercises appear throughout the text so students can check their comprehension of the material. Answers are in an appendix. Problem-Solving Tips provide readers tips for determining how to approach and solve problems. Chemical Perspectives are essays that bring relevance and perspective to a study of chemistry. In order to put chemistry in its historical context, Historical Perspective essays describe the people who were key to developing the concepts of the chapter. A Closer Look essays describe ideas that form the background to material under discussion or provide another dimension of the subject. - Publisher.

Chemistry Steven S. Zumdahl, Susan A. Zumdahl. 2012 Steve and Susan Zumdahl's texts focus on helping students build critical thinking skills through the process of becoming independent problem-solvers. They help students learn to think like a chemists so they can apply the problem solving process to all aspects of their lives. In CHEMISTRY: AN ATOMS FIRST APPROACH, 1e, International Edition the Zumdahls use a meaningful approach that begins with the atom and proceeds through the concept of molecules, structure, and bonding, to more complex materials and their properties. Because this approach differs from what most students have experienced in high school courses, it encourages them to focus on conceptual learning early in the course, rather than relying on memorization and a plug and chug method of problem solving that even the best students can fall back on when confronted with familiar material. The atoms first organization provides an opportunity for students to use the tools of critical thinkers: to ask questions, to apply rules and models and to

Doublewide, Texas Jessie Jones, Nicholas Hope, Jamie Wooten. 2016-05-13 THE STORY: In this hilarious, fast-paced comedy, the inhabitants of one of the smallest trailer parks in Texas—four doublewides and a shed—are thrown for a loop when they realize the nearby town of Tugaloo is determined to annex them. And it's not as if they don't already have enough to deal with. Joveeta Crumpler has had it up to here, having been passed over again for a promotion at work. On top of this, she has an ongoing battle to keep her feisty mother, Caprice, out of the local bar and worries that her good-ol'-boy brother, Baby Crumpler, is taking his participation in a womanless beauty pageant way too seriously. Joveeta's big-hearted best friend, Georgia Dean Rudd, is struggling to keep her diner and finances afloat, but she just can't curb her impulse to take in every stray cat, possum, and armadillo that wanders by. Then there's Big Ethel Satterwhite, who's nobody's fool. But tough as she is, she's continually frustrated by her clients at Stairway To Heaven Retirement Village as well as her mule-headed husband, O.C., who shows far more affection for his BarcaLounger than he does for Big Ethel. And all the residents are plagued by Haywood Sloggett, the curmudgeon from across the road, who loathes their "trailer-trash" ways, especially their keeping a life-size illuminated nativity scene up year 'round. But these friends, enemies, and neighbors realize they'll have to work together to defeat the encroaching annexation if they—and their way of life—have a snowball's chance to survive being swallowed up by "the big guys." The rollicking mayhem of this flat-out funny Jones Hope Wooten comedy escalates as the residents attempt to secede from Texas, discover a traitor in their midst, and turn the tables in a surprising and side-splitting finale. So grab your Stetson and come on over to Doublewide, Texas, where life is double the fun, double the joy, and where audiences double over with laughter!
