

Eternal Craving

Radix Naturalis Craig Cramm.2020-10-30 The substance of this present work is liberation semiology. The world's own principle is love (agape). Our fellow creatures are co-symbols of emancipation from human violence. Creation is not, as influential modern thinkers envision, mere material, mere nature, to commodify and dominate for the freedom of an exclusive constituency of our species. The ecological crisis emerges from a tragic misfit between experiments with secular sovereignty and the continuance of Christian historicity. Either the Christian form of life (of time) is replaced, revealing a new ecological worldview, or we revive Christian sovereignty as a creative fit with the actuality of Christian historicity. This work wagers on the latter: Christian civilization is coextensive with ecological civilization.

Christian Moral Theology in the Emerging Technoculture Brent Waters.2016-05-23 We are living in an emerging technoculture. Machines and gadgets not only weave the fabric of daily life, but more importantly embody philosophical and religious values which shape the contemporary moral vision—a vision that is often at odds with Christian convictions. This book critically examines those values, and offers a framework for how Christian moral theology should be formed and lived-out within the emerging technoculture. Brent Waters argues that technology represents the principal cultural background against which contemporary Christian moral life is formed. Addressing contemporary ethical and religious issues, this book will be of particular interest to students and scholars exploring the ideas of Heidegger, Nietzsche, Grant, Arendt, and Borgmann.

Kierkegaard and the Staging of Desire Carl S. Hughes.2014-07-02 Theology in the modern era often assumes that the consummate form of theological discourse is objective prose—ignoring or condemning apophatic traditions and the spiritual eros that drives them. For too long, Kierkegaard has been read along these lines as a progenitor of twentieth-century neo-orthodoxy and a stern critic of the erotic in all its forms. In contrast, Hughes argues that Kierkegaard envisions faith fundamentally as a form of infinite, insatiable eros. He depicts the essential purpose of Kierkegaard's writing as to elicit ever-greater spiritual desire, not to provide the satisfactions of doctrine or knowledge. Hughes's argument revolves around close readings of provocative, disparate, and (in many cases) little-known Kierkegaardian texts. The thread connecting all of these texts is that they each conjure up some sort of performative "stage setting," which they invite readers to enter. By analyzing the theological function of these texts, the book sheds new light on the role of the aesthetic in Kierkegaard's authorship, his surprising affinity for liturgy and sacrament, and his overarching effort to conjoin eros for God with this-worldly love.

Beginnings S. Bodhesako.2008-01-01 This book contains all the known published and unpublished essays by S. Bodhesako: Beginnings, Change, The Buddha and Catch-22, The Myth of Sisyphus, Faith, and Being and Craving. In the first essay, Beginnings, the author discusses the authenticity and relevance of the Buddhist Canon. The second essay, Change, investigates the concepts of change, impermanence and time in relation to experience and argues against equating them with the concept of flux or continuous change. In the third essay, The Buddha and Catch-22, the similarities between Joseph Heller's novel and the Buddha's Teaching are discussed. The next essay, The Myth of Sisyphus, is a Buddhist reinterpretation of the Greek myth of Sisyphus, which is symbolizing the endless, recurring nature of our tasks. Ven. Bodhesako also discusses Albert Camus' interpretation of this myth. The essay Faith investigates the relevance of faith in the Buddha's Teaching, while the last essay, Being and Craving, deals with the Buddhist concept of craving and its traditional interpretation.

Nietzsche's Mirror Linda L. Williams.2002-07-15 Nietzsche's Mirror introduces the reader to one of the most central and pervasive themes in Friedrich Nietzsche's works—will to power. The book traces Nietzsche's use of the terms 'power,' 'will,' and 'will to power' as they are presented in both the works he authorized for publication and his literary remains, called the Nachlass. The author demonstrates that will to power as it is presented in the Nachlass differs from the way it is presented in the works Nietzsche authorized for publication before his collapse in 1889. Then it is argued that the problems that the Nachlass poses for scholars suggests that the Nachlass material should not be held in the same regard as the works Nietzsche authorized for publication. Because of the discrepancy between the published and unpublished writings, will to power should not be interpreted as a metaphysical principle operating behind the world, since the metaphysical-sounding passages are located in the Nachlass, but rather as a tool for interpreting relations, especially human relations, within the world. The final chapter examines Nietzsche's unique style of writing, which the author calls 'mirror writing.' Mirror writing is a technique Nietzsche deliberately employs in order to have such visionary themes as will to power, master morality, and eternal recurrence reflect the reader's values back to himself. Since this book is meant to be an introduction to will to power, at the end of each chapter is a list of additional books, so that the reader can delve further into the themes presented in the chapter, such as Nietzsche's biography, ethics, writings on truth, and eternal recurrence.

Philosophical Investigations into the Essence of Human Freedom F. W. J. Schelling.2006-09-28 Jeff Love and Johannes Schmidt offer a fresh translation of Schelling's enigmatic and influential masterpiece, widely recognized as an indispensable work of German Idealism. The text is an embarrassment of riches—both wildly adventurous and somberly prescient. Martin Heidegger claimed that it was one of the deepest works of German and thus also of Western philosophy and that it utterly undermined Hegel's monumental Science of Logic before the latter had even appeared in print. Schelling carefully investigates the problem of evil by building on Kant's notion of radical evil, while also developing an astonishingly original conception of freedom and personality that exerted an enormous (if subterranean) influence on the later course of European

philosophy from Schopenhauer and Kierkegaard through Heidegger to important contemporary theorists like Slavoj Žižek.

The Nietzschean Mind Paul Katsafanas. 2018-02-19 Friedrich Nietzsche (1844-1900) is widely acknowledged as one of the greatest thinkers of the nineteenth century. His work continues to have a significant influence on philosophy, cultural criticism and modern intellectual history. The Nietzschean Mind seeks to provide a comprehensive survey of his work, not only placing it in its historical context but also exploring its contemporary significance. Comprising twenty-eight chapters by a team of international contributors, the volume is divided into seven parts: • Major works • Philosophical psychology and agency • The self • Value • Culture, society and politics • Metaphysics and epistemology • The affirmation of life This handbook includes coverage of all major aspects of Nietzsche's thought, including his discussions of value, culture, society, the self, agency, action, philosophical psychology, epistemology and metaphysics; explorations of the philosophical and scientific influences upon Nietzsche's thought; and discussion of Nietzsche's major works. Essential reading for students and researchers in philosophy, Nietzsche's work is central to ethics, moral psychology and political philosophy.

Nietzsche's Philosophy of the Eternal Recurrence of the Same Karl Löwith. 2023-12-22 This long overdue English translation of Karl Löwith's magisterial study is a major event in Nietzsche scholarship in the Anglo-American intellectual world. Its initial publication was extraordinary in itself—a dissident interpretation, written by a Jew, appearing in National Socialist Germany in 1935. Since then, Löwith's book has continued to gain recognition as one of the key texts in the German Nietzsche reception, as well as a remarkable effort to reclaim the philosopher's work from political misappropriation. For Löwith, the centerpiece of Nietzsche's thought is the doctrine of eternal recurrence, a notion which Löwith, unlike Heidegger, deems incompatible with the will to power. His careful examination of Nietzsche's cosmological theory of the infinite repetition of a finite number of states of the world suggests the paradoxical consequences this theory implies for human freedom. How is it possible to will the eternal recurrence of each moment of one's life, if both this decision and the states of affairs governed by it appear to be predestined? Löwith's book, one of the most important, if seldom acknowledged, sources for recent Anglophone Nietzsche studies, remains a central text for all concerned with understanding the philosopher's work.

The Mirror of Relationship J Krishnamurti. 2019-01-01 Within the process of daily relations with people, with nature, and with society, our own causes of sorrow are revealed. 'In relationship the important thing to bear in mind is not the other but oneself,' states Krishnamurti, 'It is within oneself that harmony in relationship can be found, not in another, nor in environment.' (p. 160) This is not cause for isolation but the beginning of a process of self-revelation which creates the foundation for true relationship.

Eternity and Eternal Life Tibor Horvath. 1993-11-15 The Newtonian concept of time has been changed by Einsteinian insight. Yet the Einsteinian world view might make it difficult to appreciate traditional concepts of eschatology, like heaven and hell, death and immortality, life after death and resurrection, last day and final judgments, because these expressions presuppose a pre-Einsteinian view of the universe. Since theology cannot remain unaffected by the new research in concepts of time, *Eternity and Eternal Life* tries to express the eschatological faith of the Church by using the time language of our age. To achieve this it provides an overview on the research in the nature of time done in geology, cosmology, physics, biology, psychology, sociology, history and philosophy and proposes a notion of time for “timely” Christology and for “timely” eschatology. By using the singularity event as literary form, Horvath scrutinizes how Christ's time can lead to the times of all existing realities, through death to “eternity.” This is a pioneering work, one that needs to be tested in the community of interested readers. It is a communal search for an understanding of life, death and eternal life, not only in the light of abstract ideas and cultural linguistic doctrines in the world of religions, but also in the light of science and especially of a person as the horizon of understanding for both time and eternity. Christ as the eschatological union of time and eternity becomes the work's unifying focus and its paradigm, which solves recognized problems and opens our minds to new ones.

Jacob Boehme John Yost Stoudt. 2004-10-08 Jacob Boehme, the German religious mystic of the late sixteenth and early seventeenth centuries, had an astounding influence on the history of Western philosophy. The impact of his thought left its mark on such men as Hegel, Schopenhauer, Nietzsche, Bergson, Heidegger, and especially through his ideas concerning creation and evil, he was a power in the speculative theology of the nineteenth century. This fresh study of Jacob Boehme's life and writings not only presents a concrete and vivid picture of Boehme's personal affairs and of the spiritual situation of Protestant Germany more than three hundred years ago; it also demonstrates for the first time the development and growth of Boehme's thought. Utilizing new biographical sources and newly discovered manuscripts, the author has, in addition, analyzed Boehme's speculative system in its mature form after he had worked through his strange symbolic language to a more traditional synthesis. This is an objective examination of Boehme's life and thought. It avoids depicting him either as a heaven-blessed saint or a Baroque Faust. On the basis of the evidence now available, Dr. Stoudt offers a new portrait of Boehme as the proponent of a theology that stresses feeling and intuition instead of reason and intellect. As Paul Tillich states in his Foreword to this volume: John Stoudt's book will be a help to all philosophers and theologians who desire an introduction to one of the most profound and strangest systems of Western thought - strange in comparison to the prevailing method of modern philosophy, profound in comparison with much theism in modern theology.

Adornment of the Spiritual Marriage John of Ruysbroeck,Wyatt North.2020-01-13 The Blessed John of Ruysbroeck was one of the Flemish mystics. Literally, Ruysbroeck wrote as the spirit moved him. He loved to wander and meditate in the solitude of the forest adjoining the cloister; he was accustomed to carry a tablet with him, and on this to jot down his thoughts as he felt inspired so to do. Late in life he was able to declare that he had never committed aught to writing save by the motion of the Holy Ghost.

Mysticism Evelyn Underhill.2023-12-27 Mysticism is one of most celebrated books on the subject. The spirit of the book is romantic, engaged, and theoretical rather than historical or scientific. Underhill has little use for theoretical explanations and the traditional religious experience, formal classifications or analysis. She dismisses William James' pioneering study, *The Varieties of Religious Experience* (1902), and his four marks of the mystic state (ineffability, noetic quality, transience, and passivity). _x000D_ Excerpt: _x000D_ All men, at one time or another, have fallen in love with the veiled Isis whom they call Truth. With most, this has been a passing passion: they have early seen its hopelessness and turned to more practical things. But others remain all their lives the devout lovers of reality: though the manner of their love, the vision which they make to themselves of the beloved object varies enormously. Some see Truth as Dante saw Beatrice: an adorable yet intangible figure, found in this world yet revealing the next.
