Analysis of Economic Data Gary Koop.2013-09-23 Analysis of Economic Data has, over three editions, become firmly established as a successful textbook for students studying data analysis whose primary interest is not in econometrics, statistics or mathematics. It introduces students to basic econometric techniques and shows the reader how to apply these techniques in the context of real-world empirical problems. The book adopts a largely non-mathematical approach relying on verbal and graphical intuition and covers most of the tools used in modern econometrics research. It contains extensive use of real data examples and involves readers in hands-on computer work.

The Testament of God Bernard-Henri Lévy.1980

The Question Henri Alleg.2019-08-17 Henri Alleg's candid account of how the French Army brutally tortured him in Algeria first appeared in 1958. Although quickly banned by the French government, it was widely read and remains a classic and powerful indictment of torture. "The lesson of this book... is that we are all on the edge of savagery and if we begin to slip over that edge, we fall fast and far." — D. W. Brogan, The New York Times "Written with spare and simple candor, the book is much more than a scalding footnote to fever-hot headlines. The Question does not stop with the Algerian question but goes on to ask: What does it mean to be a human being? It tells of the shame and glory of man." — Time "In his modest, unassuming and precise fashion, Alleg is describing a triumph of the human spirit... The importance of Alleg's book extends far beyond Algeria and France. For this is what can happen anywhere; what does happen in many parts of the world and what could happen here. There is nothing 'inhuman' about it. It is too, too human. To hush it up, to deny it for any reason whatever is to be an accomplice of the torturers..." — Scotsman "[A] noble and in a sense ennobling book, the dominant impression it leaves is one of a progressive and finally an almost total degradation, a degradation both of persons — except for the tortured, the outlawed — and of social institutions. The Question is far more than an account of atrocities, however spectacular." — The Nation

Festival Cultures Maria Nita,Jeremy H. Kidwell.2021-11-30 This book brings together interdisciplinary research from the fields of Anthropology, Sociology, Archaeology, Art, History and Religious Studies, showing the necessity of a transdisciplinary and diachronic approach to examine the last half-century of modern arts and performance festivals. The volume focuses on new theoretical and methodological approaches for the examination of festivals and festival cultures, both the Burning Man festival in Nevada's Black Rock Desert and burner culture in Europe. The editors argue that festival cultures are becoming values-inflected global forms of travel, dwelling, festivity, communication, and social organisation that are transforming contemporary cultures and have significant political capital.

The Burgess Shale Margaret Atwood.2017-03-17 "Atwood provides a window into her own early writing days . . . a treasure for readers interested in Canadian literature because this is where it all began." —Prairie Fire Review of Books "The outburst of cultural energy that took place in the 1960s was in part a product of the two decades that came before. It's always difficult for young people to see their own time in perspective: when you're in your teens, a decade earlier feels like ancient history and the present moment seems normal: what exists now is surely what has always existed." In this short work, Margaret Atwood, author of *The Handmaid's Tale* and "Canada's most famous writer" (The New Yorker), compares the Canadian literary landscape of the 1960s to the Burgess Shale, a geological formation that contains the fossils of many strange prehistoric life forms. The Burgess Shale is not entirely about writing itself, however: Atwood also provides some insight into the meager writing infrastructure of that time, taking a lighthearted look at the early days of the institutions we take for granted today—from writers' organizations, prizes, and grant programs to book tours and festivals. "Allows the reader a brief glimpse into the mind of a great writer and her perspective and experience living through what would now seem to many the Stone Age of the Canadian writing scene . . . invaluable and very readable." —Canadian Literature

Experts in their field have written chapters on topics including the history and development of English in South Africa, the characteristics of particular pan-ethnic varieties of English which have evolved in South Africa (including black, Indian and colored varieties) as well as the unique features of the English of South Africa's southern neighbours: Swaziland, Zimbabwe, Zambia and Malawi. The Electronics of Radio David Rutledge.1999-08-13 This fascinating book provides a stimulating introduction to analog electronics by analysing the design and construction of a radio transceiver. Essential theoretical background is given along with carefully designed laboratory and homework exercises. The author begins with a thorough description of basic electronic components and simple circuits and goes on to describe the key elements of radio electronics, including filters, amplifiers, oscillators, mixers, and antennas. Laboratory exercises lead the reader through the design, construction, and testing of a popular radio transceiver (the NorCal 40A). A diskette containing the widely known circuit simulation software, Puff, is included in the book. This was the first book to deal with elementary electronics in the context of radio. It can be used as a textbook for introductory analog electronics courses, for more advanced undergraduate classes on radio-frequency electronics, and will also be of great interest to electronics hobbyists and radio enthusiasts.

Achtung-Panzer! Heinz Guderian.1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Return of the Mother Andrew Harvey.2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. *The Return of the Mother* offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. *The Return of the Mother* is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

Caterpillar Club Survivor Ross Smith Stagg.2007 Spitfire pilot Ross Smith Stagg was one of 33 Allied airmen to defend Darwin against Japanese invasion on May 2, 1943. As one of 14 pilots shot down or experience mechanical failure in the ensuing battle, he parachuted into the sea 18 km from land, 100 km southwest of Darwin in the Fogg Bay area. He reached the shore in a dinghy. For the next 15 days he trudged through inhospitable country in a futile attempt to return to Strauss airbase. What should have been a few days walk turned into his worst possible nightmare as he stumbled aimlessly through mosquito and crocodile infested swamps. It was almost six days I'd been without sleep, apart from a short period of unconsciousness and those few moments before I fell out of that tree, he said. I became demented by the cavalcade of mosquitoes and hallucinating badly. His experience was only to worsen - he waded halfway across a tidal river to be confronted by a large saltie. Darwin historian John Haslett help Stagg map the original route by retracing his steps, even managing to relocate an American Kittyhawk Stagg found crashed in the middle of nowhere.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Habib Siddiqui.2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry.The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations?For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets?- Are restricted from traveling outside their villages?- Have no legal right to own land or property?- Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings?- Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan?- Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights?Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this

country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.
