Ask a Manager Alison Green. 2018-05-01 From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “*Ask a Manager* is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

The Quest for a Divided Welfare State John Lapidus.2019-08-29 This book deals with the quest for a divided welfare state in Sweden. The prime example is the rapid rise of private health insurance, which now constitutes a parallel system characterized by state subsidies for some and not for others. This functions as a kind of reverse means-testing, whereby primarily the upper classes get state support for new types of welfare consumption. Innovatively, Lapidus explains how such a parallel system requires not only direct and statutory state support but also indirect support, for example, from infrastructure built for the public health system. He goes on to examine how semi-private welfare funding is dependent on private provision and how the so-called 'hidden welfare state' gradually erodes the visible and former universal welfare state model, in direct contrast to its own stated goals. Who benefits from privatized welfare? How are the privatization of delivery and the privatization of funding linked? How does this impact public willingness to pay tax? All of these questions and more are discussed in this accessible volume.

The Relevance of Executive MBA Programs Janis W. Dietz.1997-12 Investment in executive education has grown steadily since its inception during the last century. Several studies have attempted to measure the effectiveness of executive programs; prior research has indicated that some programs lack relevance. This study addressed the topic from the perspective of corporations, whose future executive education decisions are affected by the relevance of current programs, and program alumni. In a partial replication of a 1959 Harvard study, which queried graduates of 39 residential programs, I surveyed the 1993-1995 executive MBA graduates of four schools: UCLA, University of Colorado, University of Utah, and University of Washington. The main research question was: Are executive education programs meeting the needs of their mid-career students? In addition to the above, the changing workplace prompted the following queries: Is there a difference between the satisfaction of the students with the programs in 1959 and now? Are the programs affected by lack of security in the workplace. Are people using the EMBA to change employers? Do sponsoring companies use the skills learned? Do women have a problem with the 'glass ceiling'? In addition to collecting the surveys, I interviewed the four program directors, 10 corporate executives whose responsibilities include executive education, and 24 of the 157 alumni who returned the questionnaire. Frequency distribution, correlation analysis, and stepwise multiple regression were used to analyze the survey data. The major findings were: EMBA students today are satisfied with the relevance of their education; Students are dissatisfied with schools that employ professors with outdated or inadequate teaching skills; Instability in today's workplace is prompting some people to change jobs or go into their own business once their EMBA is completed; Corporations will continue to invest in these programs, but there is more specific succession planning in conjunction with the career path expected for the employee; There continues to be little ethnic diversity in the programs.
