Nomad Ayaan Hirsi Ali.2010-05-13 Nomadis a philosophical memoir, telling how Ayaan Hirsi Ali came to America in search of a new life, and the difficulties she faced in reconciling her two worlds. With vivid anecdotes and observations of people, cultures, and political debacles, this narrative weaves together Hirsi Ali's personal story -- including her reconciliation with her devout father who had disowned her when she denounced Islam -- with the stories of other women and men, high-profile and not, whom she encounters. With a deep understanding and intimate perspective of the situation of Muslim women and moderates in the world today and her singular, unwavering intellectual courage, Hirsi Ali offers her always notable, often controversial analysis of Islam vis a vis the superiority of Western democratic values.

Christianophobia Raphael Israeli.2016-06-28 In the present upheaval in the Islamic world, as chaos, war, and vengeance are overtaking order, security, and civil rights, Muslim radicals have been venting their frustrations among their minorities, most of whom are Christian: from ancient Chaldeans in Iraq to Orthodox denominations in Turkey; from Catholics in Indonesia and Malaysia to remote and isolated Christian communities in Afghanistan and Pakistan. Related to this vast and escalating phenomenon has been the violent activity of some within the Muslim minorities in the West, who have migrated there in the past few decades and now seek revenge against their former colonial masters. This is taking place in the context of fast-increasing numbers of Muslims in the West, the result both of high birthrates and of escalating legal and illegal immigration from Islamic lands.

International Handbook of Protestant Education William Jeynes,David W. Robinson.2012-01-13 Since their earliest days, institutions providing a Protestant education have always been respected and sought-after for their rigor and relative freedom from dogma—and despite today’s secularism and plurality, they remain so. This international handbook is the ultimate companion to protestant

schooling worldwide. Its 39 chapters form the most comprehensive and wide-ranging treatment of the subject yet available, addressing Protestant education on all six inhabited continents and featuring the perspectives of leading authorities and public figures. The contributions cover in detail not only the facts and features of Protestant schooling in sundry nations, but also integrate a range of themes common to them all, themes so vital that they are of central concern to Christians around the world and of whatever denomination. Some of these topics are school choice, globalization, Bible pedagogy and character education, the fine arts, parental involvement, and the rise of Christianity in previously inaccessible locations such as China. The handbook's stellar list of authors is a Who's Who of authorities on the subject and includes a renowned American evangelical, a former historian of the US House of Representatives, and White House consultants responsible for framing legislation. The many contributors from outside the USA are leading academics conducting seminal research on numerous topics in the field. Both exhaustive and authoritative, The International Handbook of Protestant Education will be an invaluable asset to educators, ministers, parents, policy makers political leaders of any denomination—or none.

Religion in Development Séverine Deneulin. 2013-07-18 Development practice is full of examples of the importance of religion in the lives of people in developing countries. However, religion has largely remained unexplored in development studies. This timely new book aims to fill that gap. The authors expertly review how religion has been treated in the evolution of development thought, how

it has been conceptualised in the social sciences, and highlights the major deficiencies of the assumption of secularism. The book argues that development theory and practice needs to rewrite its dominant script regarding its treatment of religion, a script which has so far been heavily inscribed in the secular tradition. It puts forward an understanding of religions as traditions: that religions rest on central thesis and teachings which never cease to be re-interpreted in the light of the social, political and historical context. In addition to providing a conceptual framework for analysing the role of religion in development, the book provides numerous empirical examples drawn from the Christian and Islamic religious traditions. This comprehensive new guide to this key issue is essential for students, development thinkers and practitioners who wish to understand better the role that religion plays in development processes and outcomes.

Xinjiang Paul Hattaway.2022-12-08 God's Mighty Acts in China In The China Chronicles, Paul Hattaway draws on more than thirty years' experience in China and numerous interviews with church leaders to provide insight into how the Living God brought about the largest revival in the history of Christianity. Xinjiang, a vast region in northwest China, has been much in the news in recent years because of the plight of more than one million Muslim Uyghur people there. But Xinjiang also has a long Christian history. Today there are nearly one million believers, mostly among the Han Chinese, who have migrated into the region in recent decades. In this book, the sixth in the series, Hattaway focuses on the heroic efforts to reach the Uyghurs and other Muslim groups who remain largely untouched by the gospel. Religion, Public Health and Human Security in Nigeria Abiodun Alao.2022-12-28 This book critically examines the intersection of religion, public health and human security in Nigeria. Focusing on Christianity, Islam, traditional religions and intra-religious doctrinal divergencies, the book explores the impact faith has on health-related decisions and how this affects security in Nigeria. The book

assesses the connection between religion and five contemporary major health and medical issues in the country. This includes the issue of epidemics and pandemics such as the Covid-19 pandemic, vaccines, contraception, blood transfusion and the controversies associated with miracle healing. In particular, this book explores situations where individuals have the power of choice but instead embraces faith and religious positions that contradict science in the management of their health and, in the process, expose themselves and others to personal health insecurity. It investigates aspects of human security including the wider international ramifications of health issues, approaches to cures and the interpretation of causes of diseases, as well as the ethno-religious connotations of such interpretations. Exploring key issues that have brought religion into the politics of health and human security in Nigeria, this book will be of interest to students and scholars in the field of African Religion, African Politics, African Studies, public health, security, and Sociology.

The Global War on Christians John L. Allen, Jr..2016-03-15 One of the most respected journalists in the United States and the bestselling author of *The Future Church* uses his unparalleled knowledge of world affairs and religious insight to investigate the troubling worldwide persecution of Christians. From Iraq and Egypt to Sudan and Nigeria, from Indonesia to the Indian subcontinent, Christians in the early 21st century are the world's most persecuted religious group. According to the secular International Society for Human Rights, 80 percent of violations of religious freedom in the world today are directed against Christians. In effect, our era is witnessing the rise of a new generation of martyrs. Underlying the global war on Christians is the demographic reality that more than two-thirds of the world's 2.3 billion Christians now live outside the West, often as a beleaguered minority up against a hostile majority-- whether it's Islamic fundamentalism in the Middle East and parts of Africa and Asia, Hindu radicalism in India, or state-imposed atheism in China and North

Korea. In Europe and North America, Christians face political and legal challenges to religious freedom. Allen exposes the deadly threats and offers investigative insight into what is and can be done to stop these atrocities. "This book is about the most dramatic religion story of the early 21st century, yet one that most people in the West have little idea is even happening: The global war on Christians," writes John Allen. "We're not talking about a metaphorical 'war on religion' in Europe and the United States, fought on symbolic terrain such as whether it's okay to erect a nativity set on the courthouse steps, but a rising tide of legal oppression, social harassment and direct physical violence, with Christians as its leading victims. However counter-intuitive it may seem in light of popular stereotypes of Christianity as a powerful and sometimes oppressive social force, Christians today indisputably form the most persecuted religious body on the planet, and too often its new martyrs suffer in silence." This book looks to shatter that silence.

White Christian Privilege Khyati Y. Joshi. 2021-09-14 A pervasive Christian privilege dominates the United States today. Christian beliefs, norms, and practices infuse our society, and lie embedded in our institutions, even dictating the structure of our week -- from Sunday closings for the Christian Sabbath to blue laws restricting the sale of alcohol. The US is recognized as the most religiously diverse country in the world, and yet Christianity has always been integral to the country's national identity. These customs, which many of us have come to see as natural features of American life, keep the freedom of religion declared in the pages of the Constitution from becoming a reality. *White Christian Privilege* traces Christianity's influence on the American experiment from before the founding of the Republic to the social movements of today. Mapping the way through centuries of slavery, westward expansion, immigration, and citizenship laws, the volume also reveals how Christian privilege in the US has always been entangled with notions of white supremacy. Drawing

on the voices of Christians and religious minorities, Khyati Y. Joshi explores how Christian privilege and white racial norms affect the lives of all Americans, often in subtle ways that society overlooks. By shining a light on the inequalities these privileges create, Joshi highlights a way forward, urging readers to help remake America as a diverse democracy with a commitment to true religious freedom.

The Tenth Parallel Eliza Griswold.2010-08-17 A riveting investigation of the jagged fault line between the Christian and Muslim worlds The tenth parallel—the line of latitude seven hundred miles north of the equator—is a geographical and ideological front line where Christianity and Islam collide. More than half of the world's 1.3 billion Muslims live along the tenth parallel; so do sixty percent of the world's 2 billion Christians. Here, in the buzzing megacities and swarming jungles of Africa and Asia, is where the two religions meet; their encounter is shaping the future of each faith, and of whole societies as well. An award-winning investigative journalist and poet, Eliza Griswold has spent the past seven years traveling between the equator and the tenth parallel: in Nigeria, the Sudan, and Somalia, and in Indonesia, Malaysia, and the Philippines. The stories she tells in *The Tenth Parallel* show us that religious conflicts are also conflicts about land, water, oil, and other natural resources, and that local and tribal issues are often shaped by religious ideas. Above all, she makes clear that, for the people she writes about, one's sense of God is shaped by one's place on earth; along the tenth parallel, faith is geographic and demographic. An urgent examination of the

relationship between faith and worldly power, *The Tenth Parallel* is an essential work about the conflicts over religion, nationhood and natural resources that will remake the world in the years to come.

[Choosing Our Religion](#) Elizabeth Drescher. 2016-03-01 To the dismay of religious leaders, study after study has shown a steady decline in affiliation and identification with traditional religions in America. By 2014, more than twenty percent of adults identified as unaffiliated--up more than seven percent just since 2007. Even more startling, more than thirty percent of those under the age of thirty now identify as Nones--answering none when queried about their religious affiliation. Is America losing its religion? Or, as more and more Americans choose different spiritual paths, are they changing what it means to be religious in the United States today? In *Choosing Our Religion*, Elizabeth Drescher explores the diverse, complex spiritual lives of Nones across generations and across categories of self-identification such as Spiritual-But-Not-Religious, Atheist, Agnostic, Humanist, just Spiritual, and more. Drawing on more than one hundred interviews conducted across the United States, Drescher opens a window into the lives of a broad cross-section of Nones, diverse with respect to age, gender, race, sexual orientation, and prior religious background. She allows Nones to speak eloquently for themselves, illuminating the processes by which they became None, the sources of information and inspiration that enrich their spiritual lives, the practices they find spiritually meaningful, how prayer functions in spiritual lives not centered on doctrinal belief, how morals and values are shaped outside of institutional religions, and how Nones approach the spiritual development of their own children. These compelling stories are deeply revealing about how religion is changing in America--both for Nones and for the religiously affiliated family, friends, and neighbors with whom their lives remain intertwined.

Where There Is Now a Church (2nd Edition): James Nelson.2020-08-11 Christians serving in Muslim lands told their stories of challenge and change in the acclaimed *Where There Was No Church*. In this sequel, devoted workers provide detailed stories of praise and imprisonment and inspiring portraits of the spread of the Christian movement—including a growing church in the shadow of a mosque. Fruitful Practice researchers visited and interviewed about thirty church-planting teams on-site across six regions, translating and transcribing full tales of their cross-cultural gospel work. *Where There Is Now a Church* provides seven case studies showing how God has established churches and church-planting movements among Muslim peoples. Each case study is accompanied by thoughtful discussion questions and a list of the church-planting practices it illustrates. The expansive appendix explains, categorizes, and describes a more complete list of sixty-eight fruitful practices for evangelism and church planting in Muslim settings. This readable and encouraging book describes many practices that can also be applied in non-Muslim contexts. This book will encourage veteran workers and inspire new servants to reach God’s children throughout the Muslim world. The bottom line is that the message of hope in the Bible can overcome anything.

Motus Dei Warrick Farah.2021-10-26 Discover Your Place in the Movement of God An incredible breakthrough in missions history is taking place as disciples of Jesus make more disciples of Jesus around the globe, particularly among the least-reached. But what exactly are these church planting or disciple making movements? Where are they occurring and what are their unifying features? How are they manifesting in diverse populations? And can you or your organization be instrumental in catalyzing more movements? *Motus Dei*, Latin for “movement of God,” seeks to answer these questions and more. Warrick Farah has expertly synthesized an extensive conversation between mission practitioners, scholars, and seasoned movement leaders from around the world. The

resulting in-depth analysis of movements provides a multi-disciplinary, academic investigation of an emerging “movements missiology,” highlighting the importance of theology, social sciences, ethnology and anthropology, communications theory, leadership theory, and statistical analysis. Motus Dei locates the current Church Planting Movement (CPM) phenomenon within modern history, while tracing its roots back to the first century, and articulates a missiological description of the dynamics of Disciple Making Movements (DMMs) in Asia, Africa, and diaspora contexts in the Global North. Offering over thirty firsthand accounts of indigenous churches planting churches among the nations, Motus Dei provides a seedbed for growing movements in diverse contexts. There are lessons to be learned here by anyone seeking to participate in the movement of God.

Christian Tourist Attractions, Mythmaking, and Identity Formation Erin Roberts, Jennifer Eyl. 2018-11-29 Christian Tourist Attractions, Mythmaking, and Identity Formation examines a sampling of contemporary Christian tourist attractions that position visitors as the inheritors of ancient, sacred traditions and make claims about the truth of the historical narratives that they promote. Rather than approaching these attractions as sacred expressions of religious experience or as uncontested accounts of history, the book applies recent work on mythmaking and identity formation to argue that these presentations of the past function as strategic discourses that serve material concerns in the present. From an approach informed by social and materialist theories of religion, the volume draws upon a variety of methodological approaches that enable readers to understand the often-bewildering array of objects, claims, demands, and activities (not to mention the seemingly endless array of gifts and personal items available for purchase) that appear at attractions including Ark Encounter, the Creation Museum, the Holy Land Experience, Bible Walk Museum, Christian Zionist tours of Israel, and the recently opened Museum of the Bible. Discourse

analysis, practice theory, rhetorical criticism, and embodied theories of cognition help make sense not only of the Christian tourist attractions under examination but also of the ways that “religion” is entangled with contemporary social, political, and economic interests more broadly.

Modern Erasures Pierre Fuller.2022-04-07 Modern Erasures is an ambitious and innovative study of the acts of epistemic violence behind China's transformation from a semicolonized republic to a Communist state over the twentieth century. Pierre Fuller charts the pedigree of Maoist thought and practice between the May Fourth movement of 1919 and the peak of the Cultural Revolution in 1969 to shed light on the relationship between epistemic and physical violence, book burning and bloodletting, during China's revolutions. Focusing on communities in remote Gansu province and the wider region over half a century, Fuller argues that in order to justify the human cost of revolution and the building of the national party-state, a form of revolutionary memory developed in China on the nature of social relations and civic affairs in the recent past. Through careful analysis of intellectual and cultural responses to, and memories of, earthquakes, famine and other disaster events in China, this book shows how the Maoist evocation of the 'old society' earmarked for destruction was only the most extreme phase of a transnational, colonial-era conversation on the 'backwardness' of rural communities.

Almost Christian Kenda Creasy Dean.2010-07-16 Based on the National Study of Youth and Religion--the same invaluable data as its predecessor, Soul Searching: The Religious and Spiritual Lives of American Teenagers--Kenda Creasy Dean's compelling new book, Almost Christian, investigates why American teenagers are at once so positive about Christianity and at the same time so apathetic about genuine religious practice. In Soul Searching, Christian Smith and Melinda Lundquist Denton found that American teenagers have embraced a Moralistic Therapeutic Deism--a

hodgepodge of banal, self-serving, feel-good beliefs that bears little resemblance to traditional Christianity. But far from faulting teens, Dean places the blame for this theological watering down squarely on the churches themselves. Instead of proclaiming a God who calls believers to lives of love, service and sacrifice, churches offer instead a bargain religion, easy to use, easy to forget, offering little and demanding less. But what is to be done? In order to produce ardent young Christians, Dean argues, churches must rediscover their sense of mission and model an understanding of being Christian as not something you do for yourself, but something that calls you to share God's love, in word and deed, with others. Dean found that the most committed young Christians shared four important traits: they could tell a personal and powerful story about God; they belonged to a significant faith community; they exhibited a sense of vocation; and they possessed a profound sense of hope. Based on these findings, Dean proposes an approach to Christian education that places the idea of mission at its core and offers a wealth of concrete suggestions for inspiring teens to live more authentically engaged Christian lives. Persuasively and accessibly written, *Almost Christian* is a wake up call no one concerned about the future of Christianity in America can afford to ignore.

Seek, Wait, Trust Mary Morgan Brown.2022-11-30 If you long to draw nearer to the Creator, crave to feel the Spirit's comfort, or yearn to follow Jesus along the journey of faith, you will treasure the humble wisdom that has crossed your path. *Seek, Wait, Trust: Poems for Navigating the Spiritual Journey* contains the pensive, poetic voice of Mary Morgan Brown and the compelling prayers of Rev. Dr. Gregg Brown. "These are not just literary offerings, but also testimonies of what God can do

and will do," Rev. Dr. James A. Forbes, Jr. observes in his Foreword. "In many of these poems, scripture verses have morphed into direct advice not so much to be quoted, but actions to be taken. Listen not so much for rhymes or meter, literal or symbolic intent. Listen with your heart to hear the voice of God. God has heard the interrogatives, intercessions, petitions, and gratitude of your soul and has lovingly placed an answer in your spirit...If you do not discern the meaning on your first reading, read again and again. When you are finally ready, say 'Speak Lord, your servant child is ready to hear!'" This book is a boat of wisdom for those on a quest for deeper meaning and purpose in life. The foreword is the bow; the poetry, the hull; and the prayers, the stern. Take the helm. Seek and chart a steady spiritual course. Wait for God's navigating guidance. Trust your entire destination to the living Lord. • "Mary's pensive, piercing insight and Gregg's vigorous, Heaven-bound prayers will leave the reader revitalized and transformed for a closer walk with God and more loving interactions with people." - Jackie Wright, publicist, President of Wright Enterprises • "Ms. Brown's poignant, tender, and always relatable poems render new insight to scripture, bridging the peaks and valleys of an ongoing spiritual search." - Robin Fletcher, writer, Founder of RdF Consulting Services • "It is a poetic dance and masterpiece of movement through self-discovery...it is the essential traveling case required of believers." - Rev. The Heart of Church and Mission Bryan Knell. 2015-08-06 This book brings together a passion for the church and a passion for global mission. It looks at the heart of the UK church, asking whether and how it beats for mission and explores the passion of the mission community, and asks how it involves the local church. You might be forgiven for expecting that the heart of church and the heart of mission would be interwoven and closely linked together, but that has not been the case. Two

significant historical events continue to shape the church and mission in the Western World. Christendom removed mission from the church and the launch of the missionary societies disengaged the local church from mission. Although there is plenty of talk of change, the dominant mind-set is still shaped by these events. Practical suggestions are directed at churches and agencies with the aim of re-establishing, Mission at the heart of the church and the church at the heart of mission. The world is a different place to when the modern Western mission movement developed. Yet many of the same structures exist today, in both churches and mission agencies. The church in the West needs to engage in new and appropriate ways in the world, building on history but not being bound by it. Bryan's prophetic call is to new ways of thinking, new attitudes and clear Biblical principles and deserves a wide audience. The Global Church deserves no less than a fresh approach to obeying His command to join together in God's mission in His world. Martin Lee, Executive Director, Global Connections, UK Bryan Knell has been involved with mission for over 40 years. Firstly, in the International Student world with UCCF and then, following some theological study, Bryan was the UK Director of Arab World Ministries for 16 years and the Founding Coordinator of CRIB (Christian Responses to Islam in Britain) for 15 years. More recently, he has worked for Global Connections as the Church Relations Director and is still involved in ministry to Muslims in the UK.

Heavy Metal Islam Mark LeVine.2022-09-13 This updated reissue of Mark LeVine's acclaimed, revolutionary book on sub- and countercultural music in the Middle East brings this groundbreaking portrait of the region's youth cultures to a new generation. Featuring a new preface by the author in conversation with the band The Kominas about the problematic connections between extreme music and Islam. An eighteen-year-old Moroccan who loves Black Sabbath. A twenty-two-year-old rapper

from the Gaza Strip. A young Lebanese singer who quotes Bob Marley's "Redemption Song." Heavy metal, punk, hip-hop, and reggae are each the music of protest, and are considered immoral by many in the Muslim world. As the young people and subcultures featured in Mark LeVine's *Heavy Metal Islam* so presciently predicted, this music turned out to be the soundtrack of countercultures, uprisings, and even revolutions from Morocco to Pakistan. In *Heavy Metal Islam*, originally published in 2008, Mark LeVine explores the influence of Western music on the Middle East and North Africa through interviews with musicians and fans, introducing us to young people struggling to reconcile their religion with a passion for music and a thirst for change. The result is a revealing tour de force of contemporary cultures across the Muslim majority world through the region's evolving music scenes that only a musician, scholar, and activist with LeVine's unique breadth of experience could narrate. A *New York Times* Editor's Pick when it was first published, *Heavy Metal Islam* is a surprising, wildly entertaining foray into a historically authoritarian region where music reveals itself to be a true democratizing force—and a groundbreaking work of scholarship that pioneered new forms of research in the region.
