**Adhesives and Adhesive Tapes** Gerhard Gierenz,Werner Karmann.2008-09-26 Adhesion is among the oldest technologies known to mankind, but the technology of adhesives began to boom with the developments in chemistry in the early 1900s. The last few years have seen tremendous progress in the performance of adhesives, allowing two pieces to be connected inseparably. Modern adhesives perform so well that more sophisticated joining methods, e.g. welding, can often be replaced by adhesion, meaning that adhesives have found new areas of application. This book allows readers to quickly gain an overview of the adhesives available and to select the best adhesive for each purpose.

Reinventing Organizations Fr?d?ric Laloux.2014 The way we manage organizations seems increasingly out of date. Deep inside, we sense that more is possible. We long for soulful workplaces, for authenticity, community, passion, and purpose. In this groundbreaking book, the author shows that every time, in the past, when humanity has shifted to a new stage of consciousness, it has achieved extraordinary breakthroughs in collaboration. A new shift in consciousness is currently underway. Could it help us invent a more soulful and purposeful way to run our businesses and nonprofits, schools and hospitals? A few pioneers have already cracked the code and they show us, in practical detail, how it can be done. Leaders, founders, coaches, and consultants will find this work a joyful handbook, full of insights, examples, and inspiring stories.--Page [4] of cover.

Universal Basic Skills OCDE.2015-06-26 While access to schooling has expanded around the world, many countries have not realised the hoped-for improvements in economic and social well-being. Access to education by itself is an incomplete goal for development; many students leave the education system without basic proficiency in literacy and numeracy. As the world coalesces around new sustainable development targets towards 2030, the focus in education is shifting towards access and quality. Using projections based on data from the OECD Programme for International Student Assessment (PISA) and other international student assessments, this report offers a glimpse of the stunning economic and social benefits that all countries, regardless of their national wealth, stand to gain if they ensure that every child not only has access to education but, through that education, acquires at least the baseline level of skills needed to participate fully in society.

Themba Lutz van Dijk.2011-10-31 A hard-hitting, and emotional story set in South Africa, following Themba and his dreams of becoming a famous footballer. Themba grows up dreaming of becoming a football star. One day he leaves the village and travels with his sister to the city in search of their mother. Life is a struggle and Themba has to grow up fast. A lucky break gives him the chance to train as a footballer and play professionally - but Themba has a secret - should he tell the truth about his HIV and risk everything he's ever dreamed of? ~ Themba won an IBBY award - Best Book for Young People. Karin Chubb was Shortlisted for the Marsh Award for Children's Literature in Translation for Themba, a unique award celebrating the high quality and diversity of translated fiction for young readers. The book was also made into an award-winning film. "Beautifully translated from the original ... it is a book full of hope and the more young people who read books like this and who come to understand how other young children live, the more this hope will spread." Books, Teens and Magazines "Themba reminds me of my own childhood and youth in a township close to a small village in the Transvaal in South Africa: Like him I wanted to escape poverty, like him I had the hope that our world will be a just world one day - and like him I loved my mother who was working at the time as a maid for a white family. To be very honest: in soccer Themba seems to be simply better than I was." Archbishop Desmond Tutu "READ OF THE MONTH" Pride magazine "...an inspirational coming of age drama about a young South African boy's escape from poverty and the pursuit of a dream." Spiling online "It's a rags to riches story - a story of hope, of dreaming your dreams and achieving them, and it's also a story of friendship..." The Sunday Independent "It's a really engaging book, and because Aids is a serious issue, it made us want to carry on reading more about it." Durning Library teenage reading group "Beautifully translated from the original and it is an easy and straightforward read. However, the storyline is tough - poverty, AIDS and death haunt the pages of the book. The reader learns about the hardship of life for many ordinary South Africans (even after Mandela came to power) and the struggle for those families who have a family member suffering from AIDS. The problems they face do not lie solely in a lack of medication and good nutrition; it also lies in the ignorance of their neighbours and friends and a refusal of many to acknowledge the illness and help the ill. However this is not a depressing book - it is a book full of hope and the more young people who read books like this and who come to understand how other young children live, the more this hope will spread." The Origins of Human Nature David F. Bjorklund,Anthony D. Pellegrini.2002 The origins of human nature offers readers the first book-length attempt to define the field of evolutionary developmental psychology -- the application of the principle of natural selection to explain contemporary human development. The authors point out that an evolutionary -- developmental perspective allows one to view gene -- environment interactions, the significance of individual differences, and the role of behavior and development in evolution in much greater depth. The authors also focus on how an evolutionary perspective can foster a better understanding of human development and how developmental processes may have influenced the course of human evolution. Of particular interest are chapters that explore factors influencing parenting and other aspects of family life; the role of play; and the interacting roles of an extended juvenile period, a big brain, and a complex social structure in human cognitive evolution. The authors present a hybrid approach to evolution and development, pointing out that though underlying assumptions held by evolutionary and developmental psychologists have been at odds, each field has much to offer the other.

Shangri-La Burghard Pieske.2015-12-15 Burghard Pieske gilt als einer der bekanntesten deutschen Segler. Schiffsjunge auf der PASSAT, Matrose in der Handelsmarine, Kapitän auf Kleiner Fahrt, Zweiter Offizier auf einem Tanker, dazwischen Pädagogikstudent und beamteter Lehrer - das waren die Lebenssituationen des Lübeckers vor seiner großen Reise um die Welt. Doch vor der Erfüllung dieses Jugendtraums stand harte Arbeit: In Jahren der Entbehrung baute er mit der Unterstützung tatkräftiger Freunde sein Schiff, die SHANGRI-LA, die seine Insel im Weltenwind werden sollte. Nicht als alternative Aussteiger fühlten sich Pieske und seine Mitsegler, sondern als gemäßigte Abenteurer, die eine unstillbare Neugier auf noch Unbekanntes und die Anziehungskraft des nächsten Zieles immer wieder die Segel setzen ließ. Äußere Anerkennung fand ihre gelungene mehrjährige Reise in der Auszeichnung mit dem Trans-Ozean-Preis für die erste Umrundung von Kap Hoorn unter deutscher Flagge in Ost-West-Richtung. Die Maritime E-Bibliothek von Delius Klasing Alte Schätzchen neu aufgelegt: Aus einer Zeit, in der es noch keine E-Books gab, stammen die meisten der Titel der Maritimen E-Bibliothek von Delius Klasing. My World Peter Sagan.2018-12-05 In My World, Peter Sagan, one of cycling's greatest riders of all time, gives bike racing fans a glimpse behind the scenes of his cycling life, revealing the full extent of his dedication to competition and determination to win. With four Tour de France points jersey victories, three road race world championships, the 2018 Paris-Roubaix, and multiple spring classics among Sagan's palmares, the world of cycling agrees that this intense yet fun-loving rider is among the most dominant and fun-to-watch riders of his generation. Inside My World, Sagan discusses his relationship with fellow riders, his heroes, and how he copes with the expectation of success. He also shares technical details about his preparation, dissects the art of the sprint, and analyzes the tactics that play out during a fiercely competitive stage or race.

**Children and War** Grazia Prontera,John Buckley,Wolfgang Aschauer,Helga Embacher,Albert Lichtblau,Johannes-Dieter Steinert.2016 The amount of international research on 'Children and War' carried out by academics, governments and non-governmental organizations has continually increased in recent years. At the same time there has been growing public interest in how children experience military conflicts and how their lives have been affected by war and its aftermath. In light of the many brutal post-colonialist civil wars or 'new wars', especially in Africa and Asia, child soldiers have in particular gained increased attention. Simultaneously, since the 1990s, the history of the Holocaust and World War II has also increasingly been written from the perspective of children; those who speak out now and publish their memoirs experienced the Holocaust as children. A similar generational change has also taken place in the societies of the perpetrators: Germans and Austrians who experienced the war as children took over the role of war witnesses from the soldiers of the German Wehrmacht. Moreover, intensified focus on children's experiences and their strategies for dealing with what they went through is evident in Eastern Europe as well. In Children and War: Past and Present Volume II scholars from different academic disciplines, practitioners in the field, and representatives of government and non-governmental institutions present a further selection of studies in this sensitive subject from different angles and in various methodological ways. A number of studies investigate the difficult areas of recovery and reintegration both of child soldiers specifically, and children affected by armed conflict. Further sections examine Victims and Witnesses, Public Discourse and Education and World War II and the Second Generation.

Old Testament Wisdom James L. Crenshaw.1998-01-01 When Old Testament Wisdom appeared in 1981, new perspectives on biblical theology, an increasing awareness of ancient Near Eastern texts resembling biblical wisdom, and an emerging interest in ethnic proverbs were mere intimations of what was to become a dramatic outpouring of scholarship on wisdom literature. In this expanded edition, James Crenshaw takes stock of the wealth of new material produced by contemporary interpreters. Liberation and feminists critics, scholars in comparative religion, specialists in devotional theology, and researchers exploring educational systems in the ancient Near East all have enriched our understanding of wisdom literature in recent years, and all receive insightful treatment in this new volume. Now as before, Crenshaw's Old Testament Wisdom is an invaluable asset for anyone wishing to understand the rich and complex legacy of wisdom literature.

Sand Wolfgang Herrndorf.2018-06-12 Set in the aftermath of the 1972 Munich Olympics massacre, this darkly sophisticated literary thriller by one of Germany's most celebrated writers is now available in the US for the first time. North Africa, 1972. While the world is reeling from the massacre of Israeli athletes at the Munich Olympics, a series of mysterious events is playing out in the Sahara. Four people are murdered in a hippie commune, a suitcase full of money disappears, and a pair of unenthusiastic detectives are assigned to investigate. In the midst of it all, a man with no memory tries to evade his armed pursuers. Who are they? What do they want from him? If he could just recall his own identity he might have a chance of working it out. . . . This darkly sophisticated literary thriller, the last novel Wolfgang Herrndorf completed before his untimely death in 2013, is, in the words of Michael Maar, "the greatest, grisliest, funniest, and wisest novel of the past decade." Certainly no reader will ever forget it.

**Volition and Personality** Julius Kuhl,Jürgen Beckmann.1994 This is an impressive book, which presents a profoundly new approach to analyzing human behavior. The fundamental concept is to focus on how people link motivation with action and why they do or do not stick with their original intentions. The fascinating studies reported here attempt to separate people into two groups: (1) State-oriented individuals who focus under stress on past, present, or future states, rather than on options available for action; versus (2) Action-oriented individuals who focus under stress on action alternatives. This book will be of great interest to both behavioral and cognitive psychologists, psychophysicists, and specialists in sport as well as aviation psychology.

**GoGo Monster** Taiyo Matsumoto.2013-01-29 Third grader Yuki Tachibana lives in two worlds. In one world, he is a loner ridiculed by his classmates and reprimanded by his teachers for telling stories of supernatural beings that only he can see. In the other world, the supernatural beings vie for power with malevolent spirits who bring chaos into the school, the students' lives, and nature itself. -- VIZ Media

**Härtetest** Katri Dietz.2012-08-13 Leben mit Kind – es wird nicht besser, nur anders! Das Leben kann manchmal besonders gemein sein. Eigentlich ist Sophie glücklich, wären da nicht: die Praktikantin ihres Mannes Jonas, die ihn sich unter ihre manikürten Fingernägel reißen will. Die reizende vierjährige Tochter Maja, die ihre Mutter aber auch mal bis aufs Blut reizen kann. Die überstrenge Erzieherin im Kindergarten, vor der alle kuschen. Und der Zickenkrieg bei der Zeitschrift „Mütter“, für die Sophie arbeitet. Ist das Leben zu hart oder bist du zu schwach?

**Museum of Unheard (Of) Things** Roland Albrecht.2015-11-05 MUSEUM OF UNHEARD (OF) THINGS is the catalogue raisonne of the world-famous literary cabinet of curiosities in Berlin, which holds the record of being the most visited museum in the German capital (if one offsets the number of visitors to the square meters of the exhibition space). The museum collects unique objects to which curator Roland Albrecht has patiently lent his ear in order to hear the unheard (of) story each of them has to tell. This book is the first publication to assemble all the 78 stories in the current collection, all categorized according to weight, translated into English for the first time. Included are unheard (of) tales about a clock of a Swiss inventor who promoted New-Time-where the day was only twenty hours long, an hour fifty minutes, and a minute fifty seconds-and was subsequently arrested by the authorities, the first portrait ID card in history created for Michel de Montaigne, a fork which reveals the secret history of a meeting of chefs in the Alps, the stone that inspired Thomas Mann to write many of his stories, or the scandalous relationship between the Brothers Grimm and alphabet soup. The book ends with a story about the museum itself which may make some readers ponder about the veracity of its existence. These extraordinary tales of seemingly ordinary objects invite the reader to imagine the world differently by listening more carefully and intimately to all the things that surround our everyday lives. The present is always a story presented by the winners of history. With a gaze kindred to Walter Benjamin's, Albrecht collects things which appear utterly trivial in the given here and now. With patience kindred to Sigmund Freud's, he listens to them until they start revealing their stories. With a playful spirit kindred to Jorge Luis Borges, he writes them down. The result is a gentle but persistent wake-up call in the form of short stories, which cracks the tyranny of present and offers a glimpse into the unheard (of) world of things devoid of victors and losers, but full of tales that await to be told. - CODY EIKMAN Berlin exists for Museum der Unerhorten Dinge, or maybe the whole world exists for this small museum. Finally its secrets have been translated into English from German. - TOMOMI ADACHI

**Mother Holle (Illustrated)** Brothers Grimm.2018-10-13 Rare edition with unique illustrations. When Jacob and Wilhelm Grimm published their Children's and Household Tales in 1812, followed by a second volume in 1815, they had no idea that such stories as Rapunzel, Hansel and Gretel, and Cinderella would become the most celebrated in the world. From The Frog King to The Golden Key, wondrous worlds unfold--heroes and heroines are rewarded, weaker animals triumph over the strong, and simple bumpkins prove themselves not so simple after all. A delight to read, The Original Folk and Fairy Tales of the Brothers Grimm presents these peerless stories to a whole new generation of readers. Mother Holle is a German fairy tale collected by the Brothers Grimm and first published in 1812 as part of Children's and Household Tales. It was originally known as Frau Holle and is tale number 24 Mother Holle is one of Germany's most durable female legendary figures and one who without doubt[citation needed] represents a pre-Christian deity who survived in popular belief and in the memory of common people well into the nineteenth century. Mother Holle is featured in Grimm's Fairy Tale Classics.

**The Art and Science of Dance/movement Therapy** Sharon Chaiklin,Hilda Wengrower.2009 The Art and Science of Dance/Movement Therapy offers both a broad understanding and an in-depth view of how and where dance therapy can be used to produce change. The chapters go beyond the basics that characterize much of the literature on dance/movement therapy, and each of the topics covered offers a theoretical perspective followed

by case studies that emphasize the techniques used in the varied settings. Several different theoretical points of view are presented in the chapters, illuminating the different paths through which dance can be approached in therapy.

**Action and Self-Development** Jochen Brandtstadter, Richard M. Lerner. 1999-08-24 This volume presents the reader with a stimulating rich tapestry of essays exploring the nature of action and intentionality, and discussing their role in human development. As the contributions make clear, action is an integrative concept that forms the bridge between our psychological, biological, and sociocultural worlds. Action is also integrative in the sense of entailing motivational, emotional, and cognitive systems, and this integration too is well represented in the chapters. Action is defined, and distinguished from behavior, according to its intentional quality. Thus, a constantly recurring theme in the volume involves the dialectic of action-intentionality, and specifically the questions of how and when these concepts are to be distinguished. For action theorists, action—as distinguished from behavior—constitutes the fundamental mechanism of human development. This commitment is detailed in several essays that explore the life-span implications of action. This timely volume will be must reading for all who want to learn about, or stay current with, contemporary action theoretical approaches to human development. – Willis F. Overton, Temple University The present volume advances the view that we cannot go far in understanding development over the life span without paying heed to self-reflective processes. In a reciprocal way, self-reflection links developmental change in the ways in which the person constructs his or her own development over the life span. Development, action, and intentionality exist, then, in an intimate relationship: As development forms the social and historical settings within which intentional activity is embedded, thus become indispensable categories for developmental theory and research. Due to their potential to integrate culture, history, and personality, action-theoretical concepts have made strong inroads in many areas of social and behavioral research. Within the field of developmental psychology, researchers have come to recognize that developmental patterns, and their variation across historical and social contexts, cannot easily be reduced to invariant laws. Instead, they reflect the agency of both the culture and the person. Issues of intentional self-development gain particular importance within the developmental settings of modernity. Under conditions of cultural acceleration, globalization, and pluralization of life forms, normative scripts and timetables of development have become blurred, and people are increasingly forced to take a planful, self-monitoring, and optimizing stance toward their own behavior and development. As will become evident throughout this ground-breaking book, an action perspective on development covers a broad spectrum of theoretical approaches. Concepts such as personal goals, personal projects, life themes, meaning, life planning, compensation, or intentional self-development have become the nuclei of innovative research programs. The chapters collected in this volume, by scholars on the forefront of action theory and research, provide an indication of the promise that these notions hold for life-span developmental psychology, motivation research, and research on aging.

**Silent Stars** Jeanine Basinger. 2012-10-17 From one of America's most renowned film scholars: a revelatory, perceptive, and highly readable look at the greatest silent film stars -- not those few who are fully appreciated and understood, like Chaplin, Keaton, Gish, and Garbo, but those who have been misperceived, unfairly dismissed, or forgotten. Here is Valentino, the Sheik, who was hardly the effeminate lounge lizard he's been branded as; Mary Pickford, who couldn't have been further from the adorable little creature with golden ringlets that was her film persona; Marion Davies, unfairly pilloried in *Citizen Kane*; the original Phantom and Hunchback, Lon Chaney; the beautiful Talmadge sisters, Norma and Constance. Here are the great divas, Pola Negri and Gloria Swanson; the great flappers, Colleen Moore and Clara Bow; the great cowboys, William S. Hart and Tom Mix; and the great lover, John Gilbert. Here, too, is the quintessential slapstick comedienne, Mabel Normand, with her Keystone Kops; the quintessential all-American hero, Douglas Fairbanks; and, of course, the quintessential all-American dog, Rin-Tin-Tin. This is the first book to anatomize the major silent players, reconstruct their careers, and give us a sense of what those films, those stars, and that Hollywood were all about. An absolutely essential text for anyone seriously interested in movies, and, with more than three hundred photographs, as much a treat to look at as it is to read.

**Europe Reforms Labour Markets** Aart De Geus, Eric Thode, Christiane Weidenfeld. 2016-03-07 Focusing on the perspectives of policy-makers, the book's purpose is to closely examine the factors that make for successful/unsuccessful labor market related policy reforms. The aim is to reveal the political aspects, namely the chances, challenges and impediments to designing labor market reforms and to establish the conditions under which successful labor market reforms can be advocated, adopted and implemented (process). The work includes exclusive interviews with twelve former European prime ministers about the labour market reforms they initiated in their respective countries: Wolfgang Schäuble Anders Fogh Rasmussen Andrus Ansip François Fillon Gerhard Schröder Georgios Papandreou Mario Monti Jan Peter Balkenende Jerzy Buzek Iveta Radicová Luis Rodríguez Zapatero Tony Blair

**Masculinities** R. W. Connell, Raewyn Connell. 2005 This is an exciting new edition of R.W. Connell's ground-breaking text, which has become a classic work on the nature and construction of masculine identity. Connell argues that there is not one masculinity, but many different masculinities, each associated with different positions of power. In a world gender order that continues to privilege men over women, but also raises difficult issues for men and boys, his account is more pertinent than ever before. In a substantial new introduction and conclusion, Connell discusses the development of masculinity studies in the ten years since the book's initial publication. He explores global gender relations, new theories, and practical uses of masculinity research. Looking to the future, his new concluding chapter addresses the politics of masculinities, and the implications of masculinity research for understanding current world issues. Against the backdrop of an increasingly divided world, dominated by neo-conservative politics, Connell's account highlights a series of compelling questions about the future of human society. This second edition of Connell's classic book will be essential reading for students taking courses on masculinities and gender studies, and will be of interest to students and scholars across the humanities and social sciences.

**Didaktik And/or Curriculum** Bjørg Brandtzæg Gudem, Stefan Hopmann. 1998 With the increasing interdependence and harmonization of educational systems and achievement expectations, the necessity to cooperate across national borders and differences is becoming more evident. A serious problem that has not received sufficient attention arises from different concepts of the planning and implementation of teaching. Two basic models predominate internationally: the Anglo-Saxon tradition of curriculum and the Continental European tradition of Didaktik. *Didaktik and/or Curriculum* presents core issues of an international dialogue aiming at a comparative analysis of both traditions as an indispensable precondition for mutual understanding and successful cooperation.

**Management of Art Galleries** Magnus Resch. 2016-11-14 The art world is tough, the rules are a mystery, and only the lucky few make money' - so how can galleries succeed? What makes a commercial art gallery successful? How do galleries get their marketing right? Which potential customer group is the most attractive? How best should galleries approach new markets while still serving their existing audiences? Based on the results of an anonymous survey sent to 8,000 art dealers in the US, UK, and Germany, Magnus Resch's insightful examination of the business of selling art is a compelling read that is both aspirational and practical in its approach.

Becoming Alcoholic David R. Rudy.1986 Affiliation with Alcoholics Anonymous parallels religious conversion, according to David R. Rudy in this timely study of the most famous self-help organization in the world. Drinkers who commit themselves to Alcoholics Anonymous embrace the radically different life-style, the altered world of the convert. To understand this conversion and, more important, to get a grip on the even deeper mystery of alcoholism itself, Rudy sought to answer these three questions: What processes are involved in becoming alcoholic? How does the alcoholic affiliate with, and become committed to, A. A.'s belief system? What is the relationship between the world of A. A. members and that constructed by alcoholologists? Rudy establishes the history and structure of A. A. and examines the organization's relationship to dominant sociological models, theories, and definitions of alcoholism.

**Revisiting Moroccan Migrations** Mohammed Berriane,Hein De Haas,Katharina Natter.2018-02-02 Over the 20th century, Morocco has become one of the world's major emigration countries. But since 2000, growing immigration and settlement of migrants from sub-Saharan Africa, the Middle East, and Europe confronts Morocco with an entirely new set of social, cultural, political and legal issues. This book explores how continued emigration and increasing immigration is transforming contemporary Moroccan society, with a particular emphasis on the way the Moroccan state is dealing with shifting migratory realities. The authors of this collective volume embark on a dialogue between theory and empirical research, showcasing how contemporary migration theories help understanding recent trends in Moroccan migration, and, vice-versa, how the specific Moroccan case enriches migration theory. This perspective helps to overcome the still predominant Western-centric research view that artificially divide the world into 'receiving' and 'sending' countries and largely disregards the dynamics of and experiences with migration in countries in the Global South. This book was previously published as a special issue of The Journal of North African Studies.
