*Half of a Yellow Sun* Chimamanda Ngozi Adichie.2010-10-29 With her award-winning debut novel, *Purple Hibiscus*, Chimamanda Ngozi Adichie was heralded by the Washington Post Book World as the “21st century daughter” of Chinua Achebe. Now, in her masterly, haunting new novel, she recreates a seminal moment in modern African history: Biafra’s impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-year-old Ugwu is houseboy to Odenigbo, a university professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo’s beautiful mistress, Olanna, a sociology teacher, is running away from her parents’ world of wealth and excess; Kainene, her urbane twin, is taking over their father’s business; and Kainene’s English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie brilliantly evokes the promise, and intimately, the devastating disappointments that marked this time and place. Epic, ambitious and triumphantly realized, *Half of a Yellow Sun* is a more powerful, dramatic and intensely emotional picture of modern Africa than any we have had before.

**Abundant Harvests** John Dietler,Heather Gibson,James M. Potter.2015 This book is no longer in print, but is available for download as a free e-book through SWCA, Inc. Mission San Gabriel Arcangél was known as the Pride of the Missions due to its legendary agricultural productivity and its prominence in Southern California as a center of commerce and social interaction during the mission period (1771-1834). This volume, SWCA Anthropological Research Paper No. 11, reports on the first archaeological data recovery undertaken at the mission. Working within the mission's garden area, the study revealed more than 300,000 artifacts and 45 archaeological features, including a large granary, a reservoir complex, and one of the first industrial properties on the West Coast: Chapman's Mill and Millrace. Using archaeological results to critically examine historical narratives, the project examined the economic and social organization of the mission through detailed analyses of the public architecture and everyday materials left behind by Native American residents in the productive heart of the community, including animal bones, plant remains, ceramics, and tools. These studies revealed a dynamic and resilient native population that, despite clear hardships, was well-supplied with domesticated meat and locally gathered plant foods. The architectural remains clearly demonstrate the stepwise process through which a European worldview was molded to the unfamiliar California landscape, where self-taught engineers developed techniques of harnessing water that enabled the population explosion that came to characterize the Los Angeles Basin in succeeding decades. Lavishly illustrated and richly detailed, the volume is a resource for archaeologists, historians, and mission scholars alike.

**World Literature, Cosmopolitanism, Globality** Gesine Müller,Mariano Siskind.2019-10-21 From today’s vantage point it can be denied that the confidence in the abilities of globalism, mobility, and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken. In the face of this crisis, a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily is in the need of a comprehensive revision. *World Literature, Cosmopolitanism, Globality: Beyond, Against, Post, Otherwise* offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses, aesthetics, and political positions of liberal cosmopolitanism and neoliberal globalization. Departing basically (but not exclusively) from different examples of Latin American literatures and cultures in globalized contexts, this volume provides innovative insights into critical readings of World Literature and its related conceptualizations. A timely book that embraces highly innovative perspectives, it will be a mustread for all scholars involved in the field of the global dimensions of literature.

**Dynamic Econometrics** David F. Hendry.1995 The main problem in econometric modelling of time series is discovering sustainable and interpretable relationships between observed economic variables. The primary aim of this book is to develop an operational econometric approach which allows constructive modelling. Professor Hendry deals with methodological issues (model discovery, data mining, and progressive research strategies); with major tools for modelling (recursive methods, encompassing, super exogeneity, invariance tests); and with practical problems

(collinearity, heteroscedasticity, and measurement errors). He also includes an extensive study of US money demand. The book is self-contained, with the technical background covered in appendices. It is thus suitable for first year graduate students, and includes solved examples and exercises to facilitate its use in teaching. About the Series Advanced Texts in Econometrics is a distinguished and rapidly expanding series in which leading econometricians assess recent developments in such areas as stochastic probability, panel and time series data analysis, modeling, and cointegration. In both hardback and affordable paperback, each volume explains the nature and applicability of a topic in greater depth than possible in introductory textbooks or single journal articles. Each definitive work is formatted to be as accessible and convenient for those who are not familiar with the detailed primary literature.

This volume's sixty-four papers address such themes as earthen architecture in Mali, the conservation of living sites, local knowledge systems and intangible aspects, seismic and other natural forces, the conservation and management of archaeological sites, research advances, and training.

**Culture and Imperialism** Edward W. Said. 2012-10-24 A landmark work from the author of *Orientalism* that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

**Statistical Ecology** Linda J. Young, Jerry Young. 2013-04-17 Covering a wide range of disciplines, this book explains the formulae, techniques, and methods used in field ecology. D'où viennent les mots chabrol et tartiflette ? Quels mots l'ouest de la France a-t-il en partage avec le Québec ? **Junky** William S. Burroughs. 2009 'Junk is not, like alcohol or weed, a means to increased enjoyment in life. Junk is not a kick. It is a way of life.' Burrough's cult classic is a raw, semi-autobiographical account of drug addiction, which outraged America and influenced generations of writers to come. He relates with unflinching realism the highs and lows of dependency- euphoria, hallucinations, ghostly nocturnal wanderings and strange sexual encounters. *Junky* is a dark, powerful and mesmerizing account of one man's challenge to turn self-destruction into art.

**COVID-19, Technology and Marketing** Vanessa Ratten, Park Thaichon. 2021-07-10 This book addresses how Covid-19 has damaged businesses and how businesses can adapt to the new normal. In doing so, the book contributes to theories associated with the marketing management, by assessing opportunities and challenges associated with the implementation of technology and marketing management during and post Covid-19. Although there is increasing research in consumer or business management acceptance of new technologies and digital marketing, the impact of these on marketing management during the Covid-19 are not adequately investigated, leading to overstated hypothetical predictions of its future potential. Chapters in the book therefore focus on new economic models such as sharing economy and business structures such as omnichannel, where advancements have enabled firms to build a one-on-one relationship with customers by collecting, storing, aggregating and analysing customer information across various touchpoints. Contributions in the book also focus on new technologies such as blockchain, automation solution, information technology management, and customer relationship management (CRM) in highlighting connections between these new technologies and marketing management. The book will be useful for anyone aiming to gain a better understanding of the current and future technologies that may play a role or have a robust impact on marketing management during Covid-19.

**Hypertension: A Clinical Guide** Gilbert Wheeler.2020-09-22 Hypertension or high blood pressure is a chronic medical condition characterized by persistent levels of high blood pressure in the arteries. It is a major risk factor for heart failure, chronic kidney disease, dementia, stroke, coronary artery disease, etc. It can occur due to a high salt intake, smoking, alcohol use and excess body weight. Endocrine disorders, chronic kidney disease, use of birth control pills, and narrowing of the kidney arteries can also cause hypertension. After a diagnosis of hypertension has been ascertained with blood pressure measurements, it is vital that the cause of the condition is understood. To do so, tests for diabetes and cholesterol, serum creatinine evaluation, physical examination and a review of medical history are performed. Weight loss, decreased salt in diet, physical exercise and reducing alcohol intake can lower blood pressure. This book discusses the fundamentals as well as modern approaches in the management of hypertension. It unravels the recent studies in the pathophysiology and causes of hypertension. This book aims to equip students and experts with the advanced topics and upcoming concepts in this medical condition.

**Junky** William S. Burroughs.2012-10-02 Junk is not, like alcohol or a weed, a means to increased enjoyment of life. Junk is not a kick. It is a way of life. In his debut novel, *Junky*, Burroughs fictionalized his experiences using and peddling heroin and other drugs in the 1950s into a work that reads like a field report from the underworld of post-war America. The Burroughs-like protagonist of the novel, Bill Lee, see-saws between periods of addiction and rehab, using a panoply of substances including heroin, cocaine, marijuana, paregoric (a weak tincture of opium) and goof balls (barbiturate), amongst others. For this definitive edition, renowned Burroughs scholar Oliver Harris has gone back to archival typescripts to re-created the author's original text word by word. From the tenements of New York to the queer bars of New Orleans, *Junky* takes the reader into a world at once long-forgotten and still with us today. Burroughs's first novel is a cult classic and a critical part of his oeuvre.

**The Heart of Redness** Zakes Mda.2007-05-15 A startling novel by the leading writer of the new South Africa In *The Heart of Redness* -- shortlisted for the prestigious Commonwealth Writers Prize -- Zakes Mda sets a story of South African village life against a notorious episode from the country's past. The result is a novel of great scope and deep human feeling, of passion and reconciliation. As the novel opens Camugu, who left for America during apartheid, has returned to Johannesburg. Disillusioned by the problems of the new democracy, he follows his famous lust to Qolorha on the remote Eastern Cape. There in the nineteenth century a teenage prophetess named Nonqawuse commanded the Xhosa people to kill their cattle and burn their crops, promising that once they did so the spirits of their ancestors would rise and drive the occupying English into the ocean. The failed prophecy split the Xhosa into Believers and Unbelievers, dividing brother from brother, wife from husband, with devastating consequences. One hundred fifty years later, the two groups' decendants are at odds over plans to build a vast casino and tourist resort in the village, and Camugu is soon drawn into their heritage and their future -- and into a bizarre love triangle as well. *The Heart of Redness* is a seamless weave of history, myth, and realist fiction. It is, arguably, the first great novel of the new South Africa -- a triumph of imaginative and historical writing.
