Holt McDougal ¡Avancemos! Estella Marie Gahala,Holt McDougal,Patricia Hamilton Carlin,Audrey L. Heining-Boynton,Houghton Mifflin Harcourt Publishing Company,Ricardo Otheguy,Barbara Rupert Mondloch.2013 **Evangelical Preaching** Charles Simeon,James M. Houston,John R. W. Stott.2003 Locked church doors and tossed rotten eggs greeted the faithful and patient Charles Simeon in his early years as a pastor. But in humility and simple power he was allowed by God to triumph. He became, as John R.W. Stott notes, one of the greatest and most persuasive preachers the Church of England has ever known. Why did he have such an impact? You'll discover the reasons yourself as you read these clearflowing sermons, rich in content and clean in style. Shining through his words are Simeon's simple devotion to pure biblical truth, his concise and orderly presentation, and his pastor's mind and heart. James Houston's editorial preface is an instructive guide to Simeon's sound homiletical principles, while Stott's introduction is an engaging portrait of Simeon as a servant of God. Surveying his long life (1758-1836) and fruitful ministry, Stott is especially impressed by Simeon's refreshing, unaffected humility, and writes, Our proud, self-confident, self-congratulatory generation urgently needs to recover this biblical perspective. Dr. James M. Houston, editor of the CLASSICS OF FAITH AND DEVOTION SERIES, is a highly acclaimed scholar and pioneer in the field of evangelical spirituality. He came to North America from England in 1968 to lead Regent College in Vancouver, Canada, an international graduate school of Christian studies.

Should Robots Replace Teachers? Neil Selwyn.2019-11-04 Developments in AI, robotics and big data are changing the nature of education. Yet the implications of these technologies for the teaching profession are uncertain. While most educators remain convinced of the need for human teachers, outside the profession there is growing anticipation of a technological reinvention of the ways in which teaching and learning take place. Through an examination of technological developments such as autonomous classroom robots, intelligent tutoring systems, learning analytics and automated decision-making, Neil Selwyn highlights the need for nuanced discussions around the capacity of AI to replicate the social, emotional and cognitive qualities of human teachers. He pushes conversations about AI and education into the realm of values, judgements and politics, ultimately arguing that the integration of any technology into society must be presented as a choice. Should Robots Replace Teachers? is a must-read for anyone interested in the future of education and work in our increasingly automated times.

Notes on the Death of Culture Mario Vargas Llosa.2015-08-11 A provocative essay collection that finds the Nobel laureate taking on the decline of intellectual life In the past, culture was a kind of vital consciousness that constantly rejuvenated and revived everyday reality. Now it is largely a mechanism of distraction and entertainment. Notes on the Death of Culture is an examination and indictment of this transformation—penned by none other than Mario Vargas Llosa, who is not only one of our finest novelists but one of the keenest social critics at work today. Taking his cues from T. S. Eliot—whose essay Notes Toward a Definition of Culture is a touchstone precisely because the culture Eliot aimed to describe has since vanished—Vargas Llosa traces a decline whose ill effects have only just begun to be felt. He mourns, in particular, the figure of the intellectual: for most of the twentieth century, men and women of letters drove political, aesthetic, and moral conversations; today they have all but disappeared from public debate. But Vargas Llosa stubbornly refuses to fade into the background. He is not content to merely sign a petition; he will not bite his tongue. A necessary gadfly, the Nobel laureate Vargas Llosa, here vividly translated by John King, provides a tough but essential critique of our time and culture.

The Revised Fundamentals of Caregiving Jonathan Evison.2013-05-07 In The Revised Fundamentals of Caregiving (releasing June 24, 2016 as a Netflix Original Film titled The Fundamentals of Caring, starring Paul Rudd and Selena Gomez), Jonathan Evison, author of the new novel This Is Your Life, Harriet Chance! and the New York Times bestseller West of Here, has crafted a novel of the heart, a story of unlikely heroes in a grand American landscape. For Ben Benjamin, all has been lost—his wife, his family, his home, his livelihood. Hoping to find a new direction, he enrolls in a night class called The Fundamentals of Caregiving, where he will learn to take care of people with disabilities. He is instructed about professionalism, about how to keep an emotional distance between client and provider, and about the art of inserting catheters while avoiding liability. But when Ben is assigned his first client—a tyrannical nineteen-year-old boy named Trevor, who is in the advanced stages of Duchenne muscular dystrophy—he soon discovers that the endless service checklists

have done nothing to prepare him for the reality of caring for a fiercely stubborn, sexually frustrated teenager who has an ax to grind with the whole world. Over time, the relationship between Ben and Trev, which had begun with mutual misgivings, evolves into a close friendship, and the traditional boundaries between patient and caregiver begin to blur. The bond between them strengthens as they embark on a road trip to visit Trev's ailing father--a journey rerouted by a series of bizarre roadside attractions that propel them into an impulsive adventure disrupted by one birth, two arrests, a freakish dust storm, and a six-hundred-mile cat-and-mouse pursuit by a mysterious brown Buick Skylark. By the end of that journey, Trev has had his first taste of love, and Ben has found a new reason to love life. Bursting with energy and filled with moments of absolute beauty, this big-hearted and inspired novel ponders life's terrible surprises as well as what it takes to truly care for another human being.
