Memory and Landscape Kenneth L. Pratt ,Scott A. Heyes.2022-10-18 The North is changing at an unprecedented rate as industrial development and the climate crisis disrupt not only the environment but also long-standing relationships to the land and traditional means of livelihood. Memory and Landscape: Indigenous Responses to a Changing North explores the ways in which Indigenous peoples in the Arctic have adapted to challenging circumstances, including past cultural and environmental changes. In this beautifully illustrated volume, contributors document how Indigenous communities in Alaska, northern Canada, Greenland, and Siberia are seeking ways to maintain and strengthen their cultural identity while also embracing forces of disruption. Indigenous and non-Indigenous contributors bring together oral history and scholarly research from disciplines such as linguistics, archaeology, and ethnohistory. With an emphasis on Indigenous place names, this volume illuminates how the land—and the memories that are inextricably tied to it—continue to define Indigenous identity. The perspectives presented here also serve to underscore the value of Indigenous knowledge and its essential place in future studies of the Arctic. Contributions by Vinnie Baron, Hugh Brody, Kenneth Buck, Anna Bunce, Donald Butler, Michael A. Chenlov, Aron L. Crowell, Peter C. Dawson, Martha Dowsley, Robert Drozda, Gary Holton, Colleen Hughes, Peter Jacobs, Emily Kearney-Williams, Igor Krupnik, Apayo Moore, Murielle Nagy, Mark Nuttall, Evon Peter, Louann Rank, William E. The Languages of West Africa Diedrich Westermann,M. A. Bryan.2017-09-22 This volume, originally published in 1970, presents a survey of the languages spoken in an area extending from the Atlantic coast at the Sengal River eastward to the Lake Chad region. The area covered by this volume is mainly a geographical one, so it follows that not all the languages included are related to one another, though a certain degree of homogeneity appears.

Discussing Borders, Escaping Traps Franck Orban,Elin Strand Larsen.2019-11-18 We live in strange times. Old borders are vanishing just before our astonished eyes, while new ones are rapidly emerging. Nearly three decades after the publication of Francis Fukuyama's The End of History and the Last Man, the zeitgeist that predicted a bright future for mankind to a large extent turned out to be rather more of a dystopia. Crises in and outside Europe multiplied the number of border controls, triggered the construction of walls and fences and widened ideological gaps. The book Discussing Borders, Escaping Traps is a transdisciplinary and transspatial approach to investigating these vanishing, emerging and changing material and immaterial borders. It is the result of a two-year project by AreaS, a research group in area studies located at Østfold University College in Norway, and by AreaS' partners.

A Poetic Christ Olivier-Thomas Venard.2019-02-21 Olivier-Thomas Venard's Thomas d'Aquin poète théologien trilogy, an in depth analysis of the scripture of St. Thomas Aquinas, is translated for a new audience in this streamlined anthology. Featuring selections from all three books in the trilogy, chosen in accordance with Venard's direction and discernment, it introduces not only arguments pertinent to the theme of this volume, but an invitation to explore the full breadth of Venard's work. Concentrating on the subjects of scripture, theology and literature, language as a theological question and the word of God, Murphy and Oakes capture the scope and energy of Venard's trilogy while collating many of its key passages. Ranging from the themes of a poetic gospel and Christology to the Thomist theories of semiology and the metaphysics of the Word, this volume sets scholars on the path to a deeper understanding of Aquinas's systematic theology.

A History of the French Language Through Texts Wendy Ayres-Bennett.2005-06-27 This new history of the French language allows the reader to see how the language has evolved for themselves. It combines texts and extracts with a readable and detailed commentary allowing the language to be viewed both synchronically and diachronically. Core texts range from the ninth century to the present day highlight central features of the language, whilst a range of shorter texts illustrate particular points. The inclusion of non-literary, as well as literary texts serves to illustrate some of the many varieties of French whether in legal, scientific, epistolary, administrative or liturgical or in more popular domains, including attempts to represent spoken usage. This is essential reading for the undergraduate student of French.

Connected Stories Mohamed Meouak,Cristina Puente.2022-06-06 Concepts such as influence, imitation, emulation, transmission or plagiarism are transcendental to cultural history and the subject of universal debate. They are not mere labels imposed by modern historiography on ancient texts, nor are they the result of a later interpretation of ways of transmitting and teaching, but are concepts defined and discussed internally, within all cultures, since time immemorial, which have yielded very diverse results. In the case of culture, or better Arab-Islamic cultures, we could analyze and discuss endlessly numerous terms that refer to concepts related to the multiple ways of perceiving the Other, receiving his knowledge and producing new knowledge. The purpose of this book evolves around these concepts, and it aims to become part of a very long tradition of studies on this subject that is essential to the understanding of the processes of reception and creation. The authors analyze them in depth through the use of examples that are based on the well-known idea that societies in different regions did not remain isolated and indifferent to the literary, religious or scientific creations that were developed in other territories and moreover that the flow of ideas did not always occur in only one direction. Contacts, both voluntary and involuntary, are never incidental or marginal, but are rather the true engine of the evolution of knowledge and creation. It can also be stated that it has been the awareness of the existence of multidimensional cultural relations which has allowed modern historiography on Arab cultures to evolve and be enriched in recent decades.

In the Forest of the Blind Matthew W. King.2022-03-15 The Record of Buddhist Kingdoms is a classic travelogue that records the Chinese monk Faxian's journey in the early fifth century CE to Buddhist sites in Central and South Asia in search of sacred texts. In the nineteenth century, it traveled west to France, becoming in translation the first scholarly book about "Buddhist Asia," a recent invention of Europe. This text fascinated European academic Orientalists and was avidly studied by Hegel, Schopenhauer, and Nietzsche. The book went on to make a return journey east: it was reintroduced to Inner Asia in an 1850s translation into Mongolian, after which it was rendered into Tibetan in 1917. Amid decades of upheaval, the text was read and reinterpreted by Siberian, Mongolian, and Tibetan scholars and Buddhist monks. Matthew W. King offers a groundbreaking account of the transnational literary, social, and political history of the circulation, translation, and interpretation of Faxian's Record. He reads its

many journeys at multiple levels, contrasting the textual and interpretative traditions of the European academy and the Inner Asian monastery. King shows how the text provided Inner Asian readers with new historical resources to make sense of their histories as well as their own times, in the process developing an Asian historiography independently of Western influence. Reconstructing this circulatory history and featuring annotated translations, *In the Forest of the Blind* models decolonizing methods and approaches for Buddhist studies and Asian humanities.

The Scandal of the Fabliaux R. Howard Bloch. 1986 R. Howard Bloch argues that medieval French comic tales are shocking not so much for their dirty words, scatology, and celebration of the body in all its concavities and protrusions, but moreso for their insistent exposure of the scandal of their own production. Looking first at fabliaux about poets, Bloch demonstrates that the medieval comic poet was highly conscious of the inadequacy of language and pushed this perception to its logical, scandalous limit. The comic function of the fabliaux was intentionally disruptive: anticlerical, antifeminist, and antiestablishment, these tales were part of a sophisticated culture's critical perspective on itself. By showing how the medieval poet's obsession with the outrageous, the low, and the lewd was intimately bound to poetry, Bloch forces a revision of traditional approaches to Old French literature. His final chapter, on castration anxiety, fetishism, and the comic, links the fabliaux with the development of modern notions of the self and makes a case for the medieval roots of our own sense of humor.

Essays toward a history of linguistic theories Sylvain Auroux. 1984 Ce volume est l'aboutissement des actes d'un colloque international tenu à Lille en 1982. Son titre est explicite: il ne s'agit pas d'une histoire pointilliste, événementielle des avatars de la linguistique ou de la vie des linguistes mais bien d'une réflexion collective sur ce qu'a été, ce qu'est, ce que pourrait être, une théorie linguistique dans ses rapports avec son époque, ses auteurs, ses récepteurs et les autres théories auxquelles elle fait écho ou auxquelles elle répond. C'est ce qui a déterminé la composition du volume: il comporte sept parties qui regroupent les communications selon leurs thèmes d'intérêt: 1- Méthodologie 2- Période hellénistique et romaine 3- Moyen Age (ce qui de loin est la période la plus intéressante et qui n'a été que récemment découverte) 4- La Renaissance et l'âge classique 5- Les Lumières (qui fait le point sur les nombreux travaux récents qui ont été consacrés à cette période et qui ajoute de précieuses contributions) 6- XIXe et XXe siècles (périodes encore mal connues ou trop proches pour qu'on ose en parler) 7- Histoire et méthodologie (section qui tente de faire le point sur les rapports entre logique, langage, sociologie, philosophie.) Aucun ouvrage actuel de linguistique ne peut prétendre être une somme, non plus qu'un synthèse. Celui-ci, dont les participants appartiennent à toutes les écoles linguistiques, ou se défendent de relever d'une quelconque obédience, n'a pas non plus ces prétentions: il se veut simplement outil d'information, objet de discussion.

Language Awareness and Identity Larissa Aronin. This volume offers a unique insight into multilingualism and sociolinguistic diversity employing the dominant language constellation (DLC) approach. How can novel research inform teaching practices? How do current theories account for multilingual reality in settings as diverse as countries of Western and Eastern Europe and Tunisia and Maghreb? The volume deals with issues of plurilingual identity of teachers and multilingual learners and examines the issues of foreign language teaching both in contexts perceived as monolingual and multilingual Drawing on the intersection of analytic categories such as language repertoire, translanguaging, visibility and narratives, it particularly emphasizes the connections between DLCs, language awareness and identity. The contributors demonstrate how formal language teaching can capitalize on the DLC paradigm and how teacher education programs can use it both as a framework to discuss and as a tool to enhance teacher education and professional development. This volume on DLC as an approach to exploring facets of language awareness and identity presents a very welcome contribution to the study of multilingualism as a complex and dynamic phenomenon. The studies stemming from a range of mainly educational settings in different countries will definitely enhance our thinking perspectives in an area of research with increasing interest. Prof. Dr. Ulrike Jessner, University of Innsbruck (Austria) and University of Pannonia (Hungary).

Telling Tales on Caesar Phaedrus, John Henderson. 2001 Cameos showcase Tiberius in private and Augustus in court, with Pompey the Great on campaign and Phaedrus himself struggling against prejudice and persecution, and tales feature all sorts - a toadying slave, wicked servant, vain musician, effeminate soldier, sexy poet, and rogue quack. These forgotten tales tell short and clear Roman parables of power and powerlessness. Humorous and acute, they explain, and protest at, the Caesars, and they sit perfectly among Aesop's sadistic lions, murderous wolves, and apes in purple.--Jacket.

From Revolution to Chaos in Haiti (1804-2019) Rhodner J Orisma. 2020-01-13 Haiti is a failing state. The country is still unable to provide basic needs such as employment, food, housing, healthcare and education to a majority of its inhabitants in over two centuries after its revolution and Independence of 1804. Relatively incompetent, both the nation's government and its opposition ignore moral politics, and instead, focus on corruption and fighting each other. Though free from French rule, the country remains tied to its slave past and violent history. It seems like a socioeconomic and urban consensus cannot be achieved in order to carry out sustainable solutions for the people. This book, *From Revolution to Chaos in Haiti, 1804-2019: Urban Problems and Redevelopment Strategies*, is an attempt to analyze this situation from a historical perspective. First, the Haitian Revolution of 1804 is displayed to show the violent and bloody struggles of outstanding leaders and warriors against colonial powers for the making of a great political and independent nation. Second, Haiti's decline is analyzed starting from the assassination of its first leader, Jean-Jacques Dessalines, in 1806 to the country's bottom rank in the global stratification during the 2010's along with the impact of the catastrophic 2010 earthquake. The main factors noted within this decline are linguistic, agricultural, urban and (HIV, AIDS, TB) healthcare issues and undercapitalization along with ideological confusions (capitalism, neoliberalism, socialism, social democracy) and political instability.

The Narrative Imagination Armine Avakian Kotin. 2014-07-15 Philippe de Vigneulles (1471--1528), cloth merchant and hosier from the city of Metz, wrote a collection of comic short stories which he called Cent Nouvelles ou contes joyeux. The work constitutes an important step in the development of the nouvelle form in France. In an extended explication, Ms. Kotin analyzes the tales for the modern reader, historically, generically, structurally, and in terms of their human significance. Inscribed in a tradition of short narrative forms in late medieval and early Renaissance France, these tales remake or recast traditional narrative patterns into new forms. Philippe de Vigneulles's tales constitute a recit of human life, supported by the sympathetic presence of the author and his beloved city of Metz.

[The New Oxford Companion to Literature in French](#) Peter France. 1995 The New Oxford Companion to Literature in French is far more than a simple revision of the original Oxford Companion to French Literature, published in 1959, and described by The Listener as the `standard work of reference

for English-speaking enquirers into French literature'. As the change in title implies, this completely new work presents an authoritative guide not only to ten centuries of literature produced in the territory now called France, but also to the rich literary output of other French-speaking countries around the world. The scope of the Companion is deliberately open and inclusive, challenging and extending the traditional canon. Literature is understood in a broad sense, ranging from strip cartoon and pamphlet to tragedy and epic, and particular attention is devoted to francophone writing from outside France. Written by an international team of specialists, entries cover individual authors and works - over 3,000 of them - from the troubadours to Césaire, and from *La Princesse de Clèves* to *La Vie mode d'emploi*. Each is discussed in detail within their historical, cultural, and intellectual context. Among the new features of the Companion are the substantial essay-entries, reflecting up-to-date scholarship and theoretical debates on topics such as: literary movements and genres- historical subjects such as chivalry, or Occupation and Resistance in wartime France- movements of thought from Scholasticism to feminism- linguistic topics- the sciences- the arts and media, including opera, cinema, and press. As a divertimento for readers, an entry on 'Quotations' lists 100 well-known quotations from the canon of French literature. Adventurous and wide-ranging, *The New Oxford Companion to Literature in French* will be an indispensable and hugely enjoyable reference work for all scholars, students and general readers.

Les grandes théories de la linguistique Marie-Anne Paveau, Georges-Élia Sarfati. 2003-03-07 Ces « grandes théories » constituent une présentation claire et précise des principaux développements de la linguistique. Elles se fondent sur une mise en perspective raisonnée de l'apport du Cours de linguistique générale de Saussure. Ce texte princeps qui consacre l'avènement et l'autonomie de la linguistique est resitué par rapport aux courants de pensée avec lesquels il rompt, mais également aux élaborations théoriques qui l'ont revendiqué comme nouveau point de départ. L'exposé des « grandes théories » obéit alors à une triple exigence : épistémologique, historique et pédagogique. L'ouvrage rend compte des principaux moments de constitution de la discipline : l'interrogation linguistique au XIXe siècle (la grammaire comparée), le moment saussurien (les diverses formulations du structuralisme et du fonctionnalisme), les modèles post-structuralistes (théorie de l'énonciation, linguistiques discursives, théories pragmatiques). Les auteurs ont voulu répondre à une demande pratique, en dotant enseignants, étudiants et chercheurs d'un outil pédagogique complet et maniable, stimulant pour la réflexion et l'entretien des connaissances, facilitant le repérage et l'apprentissage des notions. Marie-Anne PAVEAU, agrégée de lettres modernes, maître de conférences en linguistique française à l'université d'Amiens, membre du CEDITEC (EA 3119, Paris XII). Elle a publié des travaux en lexicologie et analyse du discours. Actuellement, elle travaille sur le marquage du sens commun en discours, à partir des productions verbales des institutions (armée, école, culture). Georges-Élia SARFATI, docteur habilité à la direction de recherche, est professeur de linguistique à l'université de Clermont-Ferrand II et membre du laboratoire Dyalang (UMR 6065 du CNRS). Il est l'auteur de plusieurs ouvrages dont *Dire, agir, définir : dictionnaires et langage ordinaire* (L'Harmattan, 1995), *Éléments d'analyse du discours* (Nathan, 1997) et *Précis de pragmatique* (Nathan, 2002). Ses travaux portent sur la théorie et l'analyse des rapports entre discours, textes et doxa. La grammaire comparée. L'évolution de la grammaire comparée. Arsinoe of Egypt and Macedon Elizabeth Donnelly Carney. 2013-03-21 The life of Arsino II (c. 316-c.270 BCE), daughter of the founder of the Ptolemaic dynasty, is characterized by dynastic intrigue. Her marriage to her full brother Ptolemy II, king of Egypt, was the first of the sibling marriages that became a dynastic feature of the Ptolemies. With Ptolemy II, she ended her days in great wealth and power. However, prior to that point she was forced to endure two tumultuous marriages, both of which led her to flee for her life. Arsino was the model for the powerful role Ptolemaic women gradually acquired as co-rulers of their empire, and her image continued to play a role in dynastic solidarity for centuries to come. Although Arsino was the pivotal figure in the eventual evolution of regnal power for Ptolemaic women--and despite a considerable body of recent scholarship across many fields relevant to her life--there has been no up-to-date biography in English of her life. Elizabeth Donnelly Carney, in sifting through the available archaeological and literary evidence, offers here an accessible and reasoned portrait. In describing Arsino's significant role in the courts of Thrace and Alexandria, Carney weaves discussions of earlier Macedonian royal women, the institution of sibling marriage, and the reasons for its longstanding success in Hellenistic Egypt, ultimately providing an expansive view of this integral Hellenistic figure.

Switzerland-EU Relations Paolo Dardanelli, Oscar Mazzoleni. 2021-03-22 This book offers an up-to-date assessment of the state of Switzerland-EU relations with the aim of drawing lessons from the Swiss experience to shed light on the challenges facing the UK post-Brexit and, more broadly, on how non-member states can adapt to integration without membership. The book covers the main issues in the Swiss experience of dealing with the EU over the last 30 years. These include the determinants of the 1992 vote, the architecture of the bilateral agreements signed since then, the economic interests at stake, the role played by immigration, the impact on the country's federal system, the political, social, and cultural factors shaping attitudes to integration, and how the Swiss model has featured in the discourse about Brexit. The concluding chapter identifies the key lessons Switzerland's experience offers for the British debate on the country's relations with the EU post-Brexit. This book will be of key interest to scholars and students of European Union politics, European politics, Swiss Politics, British Politics, Brexit, and more broadly to international relations.

Charles de Foucauld's Reconnaissance au Maroc, 1883-1884 Rosemary A. Peters-Hill. 2020-09-25 Reconnaissance au Maroc is Charles de Foucauld's adventurous account of his Moroccan explorations. For eleven months in 1883-84, Foucauld travelled through a country then off-limits to Europeans, documenting its landscape and charting its waterways. He travelled in disguise as a Russian rabbi, Joseph Aleman, accompanied by the real rabbi Mardochee Aby Serour, and sought hospitality in the mellahs, Jewish quarters, of villages along their route. Foucauld meticulously recorded every day of his time in Morocco, and by the time his memoir was published in 1888 it had already garnered praise in France and the prestigious gold medal from the Société de Géographie de Paris. The book is more than merely a travel memoir, however: as an artefact of cultural and religious encounter, and as a scientific compendium, Reconnaissance au Maroc offers an extraordinary glimpse of the late-nineteenth century French mentality toward North Africa, as well as a cross-section of Moroccan society in the pre-colonial era. Rosemary Peters-Hill's volume translates Foucauld's work into English for the first time, situating Reconnaissance within the contexts of both late-nineteenth century French writing about ailleurs, other places, and Foucauld's own journey through Morocco: the "other" place where, paradoxically, he found his true self and calling.

Organic Memory Laura Otis. 1994-01-01 How does the past live in us? Do we inherit our ancestors' memories as we do their physical characteristics? In the nineteenth century, mainstream science embraced a long-standing superstition: the belief that memory could be inherited. Scientists reasoned that, just as bodies were reproduced from generation to generation, so were thoughts, memories, and cultural achievements. Heredity and identity were no mere family matter, but the basis of nations. The glories and sins of the past were not gone: they remained in the tissues of living people, who could be honored or blamed accordingly. Organic Memory surveys the literary and scientific history of an idea that will not go away. Focusing on the years between 1870 and 1918, Otis explores both the origins and the consequences of the idea that memories can be inherited. The organic memory theory contributed to the genocidal programs of the Third Reich, and it erupts in pop-psychology, racist propaganda, and ethnic cleansing. To track the spread, intensity, and endurance of this especially powerful idea, Otis singles out major authors whose work reinforced or ridiculed belief in organic memory. They include writers who were internationally influential yet who simultaneously represented their national traditions: Thomas Mann, Sigmund Freud, C. G. Jung, Emile Zola, Thomas Hardy, Miguel de Unamuno, Pío Baroja, Emilia Pardo Bazán, and even Sir Arthur Conan Doyle. The debates over the human genome project and the explosions of ethnic violence in the former Yugoslavia, in Azerbaijan, Somalia, and

elsewhere demonstrate how seriously organic memory continues to affect modern medicine and politics.

Catalogue of the London Library, St. James Square, London London Library, Charles Theodore Hagberg Wright, Christopher James Purnell.1914 *Grimms' Tales around the Globe* Vanessa Joosen.2014-06-16 Grimms' fairy tales are among the best-known stories in the world, but the way they have been introduced into and interpreted by cultures across the globe has varied enormously. In *Grimms' Tales around the Globe*, editors Vanessa Joosen and Gillian Lathey bring together scholars from Asia, Europe, and North and Latin America to investigate the international reception of the Grimms' tales. The essays in this volume offer insights into the social and literary role of the tales in a number of countries and languages, finding aspects that are internationally constant as well as locally particular. In the first section, Cultural Resistance and Assimilation, contributors consider the global history of the reception of the Grimms' tales in a range of cultures. In these eight chapters, scholars explore how cunning translators and daring publishers around the world reshaped and rewrote the tales, incorporating them into existing fairy-tale traditions, inspiring new writings, and often introducing new uncertainties of meaning into the already ambiguous stories. Contributors in the second part, Reframings, Paratexts, and Multimedia Translations, shed light on how the Grimms' tales were affected by intermedial adaptation when traveling abroad. These six chapters focus on illustrations, manga, and film and television adaptations. In all, contributors take a wide view of the tales' history in a range of locales—including Poland, China, Croatia, India, Japan, and France. *Grimms' Tales around the Globe* shows that the tales, with their paradox between the universal and the local and their long and world-spanning translation history, form a unique and exciting corpus for the study of reception. Fairy-tale and folklore scholars as well as readers interested in literary history and translation will appreciate this enlightening volume.
