The Ideal Problem Solver John Bransford, Barry S. Stein. 1993 Provocative, challenging, and fun, *The Ideal Problem Solver* offers a sound, methodical approach for resolving problems based on the IDEAL (Identify, Define, Explore, Act, Look) model. The authors suggest new strategies for enhancing creativity, improving memory, criticizing ideas and generating alternatives, and communicating more effectively with a wider range of people. Using the results of laboratory research previously available only in a piece-meal fashion or in scientific journals, Bransford and Stein discuss such issues as Teaming new information, overcoming blocks to creativity, and viewing problems from a variety of perspectives.

**Contemporary Reflections on Business Ethics** Ronald F. Duska. 2007-01-15 Over 30 years Ronald F. Duska has established himself as one of the leading scholars in business ethics. This book presents Duska's articles the years on ethics, business ethics, teaching ethics, agency theory, postmodernism, employee rights, and ethics in accounting and the financial services industry. These reflect his underlying philosophical concerns and their application to real-world challenges — a method that might be called an Aristotelian common-sense approach to ethical decision making.

Inter-Municipal Cooperation in Europe Rudie Hulst, André van Montfort. 2007-05-11 This book presents an overview of inter-municipal cooperation in eight European countries. Each country study sketches its attendant forms, their institutional design, the tasks and competencies attributed to

joint authorities of municipalities and the way inter-municipal cooperation operates in practice. Both performance and democratic aspects of cooperation are recurring topics.

Understanding E-Governance for Development Richard Heeks.2020 New information and communication technologies can make a significant contribution to the achievement of good governance goals. This 'e-governance' can make governance more efficient and more effective, and bring other benefits too. This paper outlines the three main contributions of e-governance: improving government processes (e-administration); connecting citizens (e-citizens and e-services); and building external interactions (e-society). Case studies are used to show that e-governance is a current, not just future, reality for developing countries. However, most e-governance initiatives fail. Countries therefore face two challenges. First, the strategic challenge of e-readiness: preparing six identified pre-conditions for e-governance. Second, the tactical challenge of closing design -- reality gaps: adopting best practice in e-governance projects in order to avoid failure and to achieve success. A vision for change is therefore outlined of which more details are given in a related paper.

**Teaching Children Science** Joseph S. Krajcik,Charlene Czerniak,Carl Berger.1999 This brand-new elementary science methods text uses an innovative applied approach and is authored by three leaders in the field. The text takes a constructivist approach and practices this approach by engaging students in reflective thought and investigations.Project-based science engages young learners in exploring authentic, important, and meaningful questions of real concern to students. Through a dynamic process of investigation and collaboration and using the same processes and technologies that real scientists use, students work in teams to formulate questions, make predictions, design investigations, collect and analyze data, make products and share ideas. Students learn fundamental science concepts and principles that they apply to their daily lives. Project-based science helps all students regardless of culture, race, or gender engage in science learning.The book is packed with numerous examples so that the reader can easily understand points that are made throughout the book. Each chapter has activity boxes with experiments that exemplify the project-based approach. The book provides useful tips, charts, diagrams, and tables that illustrate how to get children doing investigations. The text's dynamic teaching methods match all of today's major science education reports including The National Science Education Standards, Project 2061: Science for All Americans, and Benchmarks for Science Literacy.

**Being Fair, Faring Better** Roberta Gatti,Sandor Karacsony,Kosuke Anan,Celine Ferré,Carmen de Paz Nieves,Valerie Morrica,Carmen de Paz,Abla Safir.2016-02-05 In Central and Eastern European

countries, inequalities for Roma families living in marginalized communities start early and are striking. Some of these inequalities reflect hard-wired family circumstances such as being born in poverty. Others reflect lack of opportunities such as limited access to those basic goods and services that are necessary not only for realizing one's potential in life, but also for living with dignity. Gaps between Roma and non-Roma widen over the lifecycle in a way that reinforces and perpetuates disadvantage and translates into significantly unequal outcomes, despite the fact that Roma report having similar aspirations to those of their non-Roma neighbors. Promoting equal opportunities for disadvantaged Roma is not only an imperative for societies that want to call themselves fair, but it is also a smart economic choice, especially in those countries where populations are aging rapidly. Investing early, with a particular emphasis on supporting healthy and cognitive development for disadvantaged Roma children, is likely to go a long way in promoting fair chances. However, leveling the playing field in childhood is likely not enough: disadvantaged Roma continue being exposed to unequal opportunities at key nodes in their lives, such as when pursuing education or when looking for a job. Therefore, it is as important that a broader set of policies address some of the circumstances in which a large share of Roma children grow up, including access to employment and decent living conditions for their families. Implementing interventions that help overcome these interrelated barriers will require strong ownership at the national level, coordinated policies across different ministries and government levels, and an integrated delivery system that is grounded in approaches that are customized to local conditions and implemented in a participatory manner. Good practices in Europe and elsewhere show that inclusion of the most disadvantaged - including many Roma - is possible and the current programming cycle for European Funds represents a unique opportunity to fund such interventions.

Information Society Development through ICT Market Strategies Ermelinda Kordha Tolica, Kozeta Sevrani, Klodiana Gorica. 2015-06-10 This book examines the relationship between information society and information communication technology (ICT) markets, while evaluating the ICT impact on Albanian society and its economy. It offers insights on the country's information society development and compares it to other nations. The book begins with a general introduction to information society and efforts that can be used for ICT strategy. It then takes a look at ICT as an industrial sector and uncovers the importance for a strong ICT infrastructure management. Using this background information, the book finally explores the growing information society and ICT sector found in Albania. It measures the information society being created, and compares it to other countries in South Eastern Europe. Next the authors introduce a theoretical model for ICT driven development, focusing on ICT innovation and investment as factors that can affect the ICT market. These factors have also taken into account for strategy development in the national and industry level.

**Inclusive Teaching** J. Michael Peterson, Mishael Marie Hittie. 2010 The second edition of Inclusive Teaching takes a uniquely different approach. Organized around the profound question, "How can we create schools and classrooms where vastly diverse students learn well together?" the text strives to provide a myriad of creative answers to this question for our future teachers-leaders of the classroom impacting positive change for tomorrow's schools. Centrally focused on how to create an effective school for all learners-students with mild to severe disabilities, gifted and talented students, racially and culturally diverse students, students with differing sexual preferences and more--the authors have offered strategies for including and supporting all students to learn effectively in the general education classroom. The text synthesizes a vast array of strategies from

many different sources, including workshop approaches to learning, differentiated instruction, universal design for learning, multicultural education, positive behavior support, anti-bullying practices, reducing the learning gap between minority and majority groups, and more. Clearly organized around the way in which teachers think, from arranging the physical classroom to dealing with the social-emotional needs of students, to designing effective, multi-level, differentiated instruction, the text remains positively devoted to teaching change and impacting the future of all students learning together.

Civil Engineering Applications of Ground Penetrating Radar Andrea Benedetto, Lara Pajewski. 2015-04-07 This book, based on Transport and Urban Development COST Action TU1208, presents the most advanced applications of ground penetrating radar (GPR) in a civil engineering context, with documentation of instrumentation, methods and results. It explains clearly how GPR can be employed for the surveying of critical transport infrastructure, such as roads, pavements, bridges and tunnels and for the sensing and mapping of underground utilities and voids. Detailed attention is also devoted to use of GPR in the inspection of geological structures and of construction materials and structures, including reinforced concrete, steel reinforcing bars and pre/post-tensioned stressing ducts. Advanced methods for solution of electromagnetic scattering problems and new data processing techniques are also presented. Readers will come to appreciate that GPR is a safe, advanced, non destructive and noninvasive imaging technique that can be effectively used for the inspection of composite structures and the performance of diagnostics relevant to the entire life cycle of civil engineering works.

**The 21st Century Public Manager** Zeger van der Wal. 2017-09-15 Truly global in scope and

ambition, the 21st Century Public Manager addresses key trends, challenges, and opportunities facing public managers across contexts and regimes. This accessible textbook aims to inspire public managers in rethinking their roles, skills, and values as they enter a VUCA world-one characterized by volatility, uncertainty, complexity, and ambiguity. It is written for aspiring and current public managers in graduate schools and executive education programs.

*The General of the Dead Army* Ismail Kadare.2012-04 This is the story of an Italian general, accompanied by his chaplain, charged with the mission of scouring Albania in search of the bones of their fallen countrymen, killed twenty years earlier during World War II.

**Public Utilities** David E. McNabb.2005-01-01 Professor McNabb has produced an excellent overview of the management challenges facing public utilities in the 21st century. His description of the evolution, changes, and challenges of different types of utilities is insightful. What makes this book uniquely valuable is his addressing the variety of utility management responsibilities including human resources, information services, and strategic planning in a single volume. I recommend it highly. Jeffrey Showman, Washington Utilities and Transportation Commission, US An introduction to the current issues and challenges facing managers and administrators in the investor and publicly owned utility industry, this engaging volume addresses management concerns in three sectors of the utility industry: electric power, natural gas, and water and wastewater systems. Beginning with a brief overview of the historical development of the industry, the author looks at policy issues and discusses management ethics. He then examines a number of the major challenges in these organizational functions: management and leadership, planning, marketing, accounting and finance, information technology, governance, and human resources. In the final section of the volume he looks at issues specific to each of the three industry sectors. Accessible and comprehensive, this

thoughtful exploration of the various issues facing managers in public utilities in the new century will prove a useful overview for students of business and economics, utility staff, and directors of local utility governing boards.

*Chronicle in Stone* Ismail Kadare.2011-07-01 Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

**Managing the Curriculum** David Middlewood, Neil Burton.2001-04-28 `Each chapter in the book is firmly rooted in research and is well referenced as one would expect of such a book. It will be of particular use to people with an academic interest in this aspect of school management but will also be thought-provoking for those who are involved in the development of the curriculum within their institution' - escalate This book explores many of the new aspects of the core business of schools and colleges, that is, the curriculum. Keeping the focus clearly on learning and teaching, the contributors explore the practical issues for managers at institutional level, within the context of their need to understand and analyze key educational values and principles. Part One presents overviews of theories and models of curriculum, while Part Two examines how these are applied through planning, monitoring and evaluating. Part Three explores in detail the various managerial roles within schools and colleges from leaders to those responsible for cross-curriculum work and special educational needs. The fourth part discusses the importance of effectively managing resources for the curriculum - the environment, support staff and finance. Contributors use empirical research evidence to analyze current curriculum trends whilst proposing various new models which are likely to emerge in the 21st century.

*Youth Unemployment and Employment Policy* Niall O'Higgins, International Labour Office.2001 This text discusses in depth the youth unemployment problem and examines the various policy responses

World Economic Outlook, October 2018 International Monetary Fund. Research Dept..2018-10-09

Global growth for 2018–19 is projected to remain steady at its 2017 level, but its pace is less vigorous than projected in April and it has become less balanced. Downside risks to global growth have risen in the past six months and the potential for upside surprises has receded. Global growth is projected at 3.7 percent for 2018–19—0.2 percentage point lower for both years than forecast in April. The downward revision reflects surprises that suppressed activity in early 2018 in some major advanced economies, the negative effects of the trade measures implemented or approved between April and mid-September, as well as a weaker outlook for some key emerging market and developing economies arising from country-specific factors, tighter financial conditions, geopolitical tensions, and higher oil import bills. The balance of risks to the global growth forecast has shifted to the downside in a context of elevated policy uncertainty. Several of the downside risks highlighted in the April 2018 World Economic Outlook (WEO)—such as rising trade barriers and a reversal of capital flows to emerging market economies with weaker fundamentals and higher political risk—have become more pronounced or have partially materialized. Meanwhile, the potential for upside surprises has receded, given the tightening of financial conditions in some parts of the world, higher trade costs, slow implementation of reforms recommended in the past, and waning growth momentum.

**Terrorism, Crime, and Public Policy** Brian Forst.2008-10-20 Terrorism, Crime, and Public Policy describes the problem of terrorism; compares it to other forms of aggression, particularly crime and war; and discusses policy options for dealing with the terrorism. It focuses on the causes of

terrorism with the aim of understanding its roots and providing insights toward policies that will serve to prevent it. The book serves as a single-source reference on terrorism and as a platform for more in-depth study, with a set of discussion questions at the end of each chapter. Individual chapters focus on the nature of terrorism, theories of aggression and terrorism, the history of terrorism, the role of religion, non-religious extremism and terrorism, the role of technology, terrorism throughout the modern world, responses to terrorism, fear of terrorism, short-term approaches and long-term strategies for preventing terrorism, balancing security and rights to liberty and privacy, and pathways to a safer and saner 21st century.

*Leading Student Assessment* Charles F. Webber, Judy L. Lupart. 2011-09-18 This book presents a new and refreshing look at student assessment from the perspective of leading educational theorists, researchers, and practitioners. The authors call for boundary-breaking assessment that reflects clear understandings of the purposes of assessment, a balance of assessment creativity and realism, the ability to detect solutions for assessment challenges, and the capacity to question and imagine assessment alternatives. The 14 chapters offer school and district educators, policy makers, researchers, and university teacher preparation faculty with a comprehensive, current overview of the state and art of student assessment. Key questions are posed about assessment and critical challenges are presented along with sound evidence-based solutions. Student assessment is analyzed in terms of its relationship with classroom instructional practices and large-scale testing programs. Formative and summative assessments are compared and contrasted. The role of psychological assessment in informing classroom practices is profiled along with the need for student voice in fair assessment practices. Readers will be challenged to consider the ecology of student assessment, that is, the impact of assessment in classrooms and schools through to the

macro level of globalized societies. The underpinning values and assumptions of student assessment are highlighted. Finally, a rationale is offered for reconceptualizing and redefining assessment.

Internationalisation Strategies George Chryssochoidis, J. Clegg. 1997-04-12 This volume, published in association with the UK chapter of the Academy of International Business, again contains a number of contributions from leading academics. The book looks at the environmental influences on internationalisation and considers the strategic options available to firms.

*The State at Work* Hans-Ulrich Derlien, B. Guy Peters. 2008 Volume 1 contains the most comprehensive and comparable quantitative analyses of public service systems available. These ten country studies, from federal and unitary states, range from Anglo-American, continental European and Scandinavian countries. In each of the chapters public employment growth since the 1950s is analyzed as to policy areas, level of government, gender composition, part-time employment and status groups, and ethnic composition of the services.

Youth Employment Clémentine Moyart, Tiziana Nazio, Jacqueline O'Reilly, Mark Smith. 2018 After the financial crisis of 2008 youth unemployment soared across Europe, leaving a generation of highly qualified young people frustrated in their search for secure, meaningful work. With contributions from over 90 authors and more than 60 individual contributions this collection summarises the findings of a large-scale EU funding project on Strategic Transitions for Youth Labour in Europe (STYLE). Including the often overlooked and unheard voices of young people themselves, this eclectic range of contributions discuss the distinctive characteristics of the current phase of youth employment. It provides a comprehensive analysis of the causes of European youth unemployment and assesses the effectiveness of labour market policies across the region.

**The New Essential Steiner** Rudolf Steiner, Robert A. McDermott. 2009-10 12 lectures, Hamburg, May 5-31, 1908 (CW 103) During Pentecost 1908--seven years after he had given the world his book *Christianity As Mystical Fact* and the first intimation of the consequences of his Christ experience--Rudolf Steiner began his great work of renewing humanity's understanding of the Mystery of Golgotha and its meaning for human and earthly evolution. Accordingly, he turned to the deepest, most spiritual of the Gospels--that of the initiate St. John. In this lecture course, readers will find that the incarnation, death, and resurrection of the Divine Word, or Logos, reveals the mission of the Earth: Love. We learn of the mysteries behind Lazarus' resurrection, the I AM sayings, and the seven degrees of initiation. We come to understand that the Gospel of St. John is a continuing spiritual presence--to be recalled, meditated, and permeated with one's own life. In doing so, we realized that our purpose--and that of all humankind--is to become the Virgin Sophia, a receptacle for the Holy Spirit. All of Steiner's work, as Marie Steiner writes in her introduction, was to pave the way to Christ. Indeed, at the conclusion of these lectures, Rudolf Steiner said: It will come to be understood that Christianity is only beginning its influence and will fulfill its real mission only when it is understood in its true, spiritual form.... The more these lectures are understood in this sense, the better they will be understood as they were intended. This volume is essential if one is to truly understand Rudolf Steiner's understanding of esoteric Christianity and its place in the world today and in the future. This volume is a translation of *Das Johannes-Evangelium* (GA 103).

The Business of Fancydancing Sherman Alexie. 1992 A collection of 5 short stories and 40 poems focusing on life on a Native American reservation in eastern Washington state, that deals comically and poignantly with basketball, convenience stores, cars and other artifacts of everyday life--New York Times, Notable Books of the Year 1992, December 6, 1992.

*The Ghost Rider* Ismail Kadare.2010-05-20 An old woman is awoken in the dead of night by knocks at her front door. The woman opens it to find her daughter, Doruntine, standing there alone in the darkness. She has been brought home from a distant land by a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?

**Governance and Performance** Carolyn J. Heinrich,Laurence E. Lynn (jr.).2000 Drawing on recent advances in social science, these essays demonstrate how rigorous, theory-based research in public management can improve government performance. They reflect the improved techniques in data and statistics which allow researchers to construct more incisive models of governance.

*Teaching and the Case Method* Louis B. Barnes,Carl Roland Christensen,Abby J. Hansen.1994 This third edition of *Teaching and the Case Method* is a further response to increased national and international interest in teaching, teachers, and learning, as well as the pressing need to enhance instructional effectiveness in the widest possible variety of settings. Like its predecessors, this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience. It is based on the belief that teaching is not purely a matter of inborn talent. On the contrary, the knowledge, skills, and attitudes that make for excellence in teaching can be analyzed, abstracted, and learned. One key premise of *Teaching and the Case Method* is that all teaching and learning involve a core of universally applicable principles that can be discerned and absorbed through the study and discussion of cases.

Guide on Measuring Human Capital United Nations Economic Commission for Europe.2017-01-16

The idea of viewing individuals' knowledge and abilities as an asset—as human capital—can be traced back to the work of Adam Smith in the 18th century. But human capital is intangible, and hence hard to define and measure. Increasingly, however, policymakers are calling for ways to understand and quantify human capital, in order to better understand what drives economic growth and the functioning of labour markets, to assess the long-term sustainability of a country's development path, and to measure the output and productivity performance of the educational sector. Devising a robust methodology for the monetary valuation of the stock of human capital is especially important as studies suggest that human capital is by far the most important component of the total capital stock in most advanced economies. This Guide on Measuring Human Capital discusses conceptual, methodological and implementation issues and challenges. The recommendations are a first attempt to come up with a way to estimate and record the role of human capital in a way that is aligned with the principles of the national accounts and that is comparable across economies.
