Sea Prayer Khaled Hosseini.2018-09-18 **Please note that this will work best on a color device and will appear in a horizontal format** The #1 New York Times bestselling author of *The Kite Runner*, *A Thousand Splendid Suns*, and *And the Mountains Echoed* responds to the heartbreak of the current refugee crisis with this deeply moving, beautifully illustrated short work of fiction for people of all ages, all over the world. Intensely moving. . .Powerfully evocative of the plight in which displaced populations find themselves.- Kirkus, STARRED Review Hosseini's story, aimed at readers of all ages, does not dwell on nightmarish fates; instead, its emotional power flows from the love of a father for his son.- Publishers Weekly, STARRED BOX Review A short, powerful, illustrated book written by beloved novelist Khaled Hosseini in response to the current refugee crisis, *Sea Prayer* is composed in the form of a letter, from a father to his son, on the eve of their journey. Watching over his sleeping son, the father reflects on the dangerous sea-crossing that lies before them. It is also a vivid portrait of their life in Homs, Syria, before the war, and of that city's swift transformation from a home into a deadly war zone. Impelled to write this story by the haunting image of young Alan Kurdi, the three-year-old Syrian boy whose body washed upon the beach in Turkey in September 2015, Hosseini hopes to pay tribute to the millions of families, like Kurdi's, who have been splintered and forced from home by war and persecution, and he will donate author proceeds from this book to the UNHCR (the UN Refugee Agency) and The Khaled Hosseini Foundation to help fund lifesaving relief efforts to help refugees around the globe. Khaled Hosseini is one of the most widely read writers in the world, with more than fifty-five million copies of his novels sold worldwide in more than seventy countries. Hosseini is also a Goodwill Envoy to the UNHCR, and the founder of The Khaled Hosseini Foundation, a nonprofit that provides humanitarian assistance to the people of Afghanistan.

An Anthropology for Contemporaneous Worlds Marc Augé.1999 Under what conditions is anthropology possible today, when a crisis of social meaning—a crisis that makes it more difficult to conceive and manage our relation to the other—makes the need for anthropology appear more clearly than ever before? This book sets forth at least the beginning of an answer to this question. The volume's title combines a singular noun, anthropology, with a plural one, contemporaneous worlds. It aims to register the double movement of universalization and particularization that is simultaneously affecting the entire planet. Social anthropology has always taken into account the context of the groups and phenomena it studied. Today, while multiplicity is being maintained or, more precisely, renewed, that context has become, in all cases, planetary. Positioned in opposition not only to political theories of universalization and uniformization more or less tied to the theme of "the end of history," but also to "postmodernist" versions of anthropological theories of multiplicity and relativism, the author argues that social anthropology, through its self-critical tradition, is fully capable of adapting to the accelerated change that is continuously recomposing relations between universalism and particularisms. It is for social anthropology to select, analyze, and understand the new modes of sociality and the new spaces in which (not without calamities and contradictions) these utterly new recompositions, a major aspect of our contemporary world, manifest themselves.

History of the Italian Agricultural Landscape Emilio Sereni.2014-07-14 Emilio Sereni's classic work is now available in an English language edition. *History of the Italian Agricultural Landscape* is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. *History of the Italian Agricultural Landscape* first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical agricultural landscape: an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. e185 | ba'nkē / bũnkēr Fernanda De Maio,Michela Maguolo,Alessandra Pedersoli,Maddalena Bassani,Maria Stella Bottai,Antonella Sbrilli,Daniela Ruggeri,Guido Morpurgo,Andrea Iorio,Christian Toson,Giacomo Calandra di Roccolino,Elisabetta Terragni,Livio Petriccione,Antonella Indrigo,Stefano Malosso. The present issue of "La Rivista di Engramma" originates from a group of seminars focused on the bunker, in its manifold meanings. The title "ba'nkē / bũnkēr" -phonetic transcription of the two main pronunciations of the term- summarizes this multiplicity: in the first, the meanings of container and refuge coexist, in the second, the images and history of the war artefact are concentrated. The polarity of the adjectives through which it is possible to describe it - offensive / defensive, evident/hidden, inverted / everted, hypogeum / epigeal, punctual/continuous, decontextualized / part of the context, uprooted / rhizomatic, intimidating / protective, threatening / safe, functional / symbolic, form / absence of form, materiality / virtuality - together with the impossibility of identifying precise characteristics - perhaps the building material alone is what unites the bunkers - leads to consider it as a fleeting, fluid concept. Having Paul Virilio and his *Bunker archéologie* as starting point (Michela Maguolo, *Deciptare il bunker. La mostra "Bunker archéologie" di Paul Virilio*; the Italian translation of a selection of passages from *Bunker archéologie*), the issue is divided into four sections: Antiquity and Contemporaneity (Maddalena Bassani *Bunker ante-litteram. Architetture domestiche in sottosuolo di epoca romana*; Maria Stella Bottai, Antonella Sbrilli, *Pensare nel bunker. Tre domande a Lara Favaretto sui Clandestine Talks*), a review by Daniela Ruggeri *Voci dall'isolamento. Il libro Bunkering di Jeanette Plaut, Marcelo Sarovic, Marés Sander, Santiago 2021* closes the section; Architecture (Guido Morpurgo, *Dall'astuccio al bunker. L'interno-sarcofago come controforma della macchina-sottomarino: cosa contiene cosa?*; Andrea Iorio, *Une machine à émouvoir. Bunker e'è architettura*; Fernanda De Maio, *(In)attualità e (a)temporalità del bunker. L'opera di Bernard Khoury a Beirut*); City (Christian Toson, *Memorie dal sottosuolo moscovita. Compasito Nancy Flowers, Maria Emília Brederode Santos, Zsuzsanna Szelényi. 2007-01-01 Living among other people, in their families and communities, children become aware from a very early age of questions related to justice, and they search for the meaning of the world. By fostering an understanding of human rights, shaping opinion and developing attitudes, human rights education strongly supports this natural interest and learning process. This is what human rights education is about and this is what 'Compasito manual on human rights education for children' is for. 'Compasito' is a starting point for educators, teachers and trainers who are ready to deal with human rights education with children of 7-13 years. The book covers the key concepts of human rights and children's rights, and provides substantial theoretical background to 13 key human rights issues, such as democracy, citizenship, gender equality, environment, media, poverty, and violence. The 42 practical activities serve to engage and motivate children to recognise human rights issues in their own environment. They help children to develop critical thinking, responsibility and a sense of justice, and help them learn how to take action to contribute to the betterment of their school or community. The manual also gives practical tips on how it can be used in various formal and non-formal educational settings.

Europa matrigna Thierry Vissol. 2019-05-03 T00:00:00+02:00 L'Unione europea non è il Santo Graal. Come tutte le creazioni umane ha pregi e difetti: gli inglesi, che hanno scelto di uscirne, stanno dimostrando quanto sia difficile e costoso rinunciare ai benefici che questa appartenenza comporta. Nonostante ciò, molti cittadini europei la criticano, a volte a giusto titolo a volte meno, senza tuttavia avere la percezione dei vantaggi che essa assicura. Prova ne è l'ondata di malcontento antieuropeista che sta montando in molti paesi dell'Ue. Partiti nazionalisti, sovranisti, a volte apertamente razzisti e xenofobi, non fanno più paura e, stando ai sondaggi, attirano un elettore su tre. La loro base è alimentata dalla rabbia e dalla sfiducia crescente verso i partiti tradizionali, ritenuti incapaci di rispondere alle richieste di cambiamento. Queste rivolte contro il vecchio ordine politico, contro un mondo globalizzato e senza confini dal quale si sentono esclusi, portano alla rivendicazione di un ritorno a sovranità nazionali chiuse nonché al rifiuto di una governance di Bruxelles. Così, l'Ue è percepita come una matrigna che avanza pretese senza dare nulla in cambio. La realtà però è ben diversa. Pochi politici hanno il coraggio di dirlo e i media tendono a inseguire il rumorio delle pulsioni eversive che fioriscono sui social invece di raccontare ciò che funziona o come funziona. Questo libro analizza i grandi temi del dibattito sull'Europa (l'identità nazionale, la sovranità, la questione demografico-migratoria e la crisi economica) e cerca, appoggiandosi anche sulla storia, di rispondere alle accuse che a essa vengono mosse da ogni parte. Pur avendo ben chiari i limiti dell'Unione europea, Thierry Vissol ci racconta che cosa può offrirci questa così bistrattata «matrigna», invitandoci a considerarla non tanto un problema ma come l'unico modo per preservare veramente la nostra identità e sovranità. Una grande opportunità, che necessita di lungimiranza, impegno e immaginazione.

Geography and Revolution David N. Livingstone, Charles W. J. Withers. 2010-08-15 A term with myriad associations, revolution is commonly understood in its intellectual, historical, and sociopolitical contexts. Until now, almost no attention has been paid to revolution and questions of geography. Geography and Revolution examines the ways that place and space matter in a variety of revolutionary situations. David N. Livingstone and Charles W. J. Withers assemble a set of essays that are themselves revolutionary in uncovering not only the geography of revolutions but the role of geography in revolutions. Here, scientific revolutions—Copernican, Newtonian, and Darwinian—ordinarily thought of as placeless, are revealed to be rooted in specific sites and spaces. Technical revolutions—the advent of print, time-keeping, and photography—emerge as inventions that transformed the world's order without homogenizing it. Political revolutions—in France, England, Germany, and the United States—are notable for their debates on the nature of political institutions and national identity. Gathering insight from geographers, historians, and historians of science, Geography and Revolution is an invitation to take the where as seriously as the who and the when in examining the nature, shape, and location of revolutions.

The Atlas of Environmental Migration Dina Ionesco, Daria Mokhnacheva, François Gemenne. 2016-11-25 As climate change and extreme weather events increasingly threaten traditional landscapes and livelihoods of entire communities the need to study its impact on human migration and population displacement has never been greater. The Atlas of Environmental Migration is the first illustrated publication mapping this complex phenomenon. It clarifies terminology and concepts, draws a typology of migration related to environment and climate change, describes the multiple factors at play, explains the challenges, and highlights the opportunities related to this phenomenon. Through elaborate maps, diagrams, illustrations, case studies from all over the world based on the most updated international research findings, the Atlas guides the reader from the roots of environmental migration through to governance. In addition to the primary audience of students and scholars of environment studies, climate change, geography and migration it will also be of interest to researchers and students in politics, economics and international relations departments.

The Way to the Spring Ben Ehrenreich. 2016 In West Bank cities and small villages alike, men and women, young and old—a group of unforgettable characters—share their lives with Ehrenreich and make their own case for resistance and resilience in the face of life under occupation. Ruled by the Israeli military, set upon and harassed constantly by Israeli settlers who admit unapologetically to wanting to drive them from the land, forced to negotiate an ever more elaborate and more suffocating series of fences, checkpoints and barriers that have sundered home from field, home from home, they are a population whose living conditions are unique, and indeed hard to imagine.

Alpine Refugees Giulia Galera, Ingrid Machold, Andrea Membretti. 2019-09-30 This collection of essays highlights how given Alpine territories in Austria, Italy, and Switzerland are currently facing challenges imposed by migration, the barriers and limitations they are encountering, and the extent to which migration triggers policy and territorial innovations that can generate beneficial impacts for both migrants and local inhabitants. Contributors here include practitioners and social workers who have experimented with innovative reception and integration pathways, as well as researchers with diverse disciplinary backgrounds, including geographers, sociologists, political scientists, social anthropologists, economists, and legal experts. The book draws on empirical and theoretical investigations, research actions implemented within the framework of large EU projects, and exploratory case studies and storylines of welcoming reception initiatives. It will appeal to practitioners, social scientists, and policy makers interested in both understanding the determinants that affect migrant exclusion and inclusion in Alpine territories and developing reception and integration initiatives of advantage to both sides when hosting asylum seekers in mountain areas.

Global Report on Trafficking in Persons 2016 United Nations Office on Drugs and Crime.2017-01-11 The UNODC Global Report on Trafficking in Persons 2016 is the third of its kind mandated by the United Nations General Assembly. In July 2010, the UNGA adopted the Global Plan of Action to Combat Trafficking in Persons. The Report covers and provides an overview of patterns and flows of trafficking in persons at the global, regional and national levels, based on trafficking cases detected mainly between 2012 and 2014. It looks at links between trafficking in persons, migration and conflict, and how refugees may be particularly vulnerable to being trafficked. The worldwide response to trafficking in persons, particularly in terms of criminalization and prosecution of trafficking crimes, is also a focus of this edition of the Global Report. Also included are the Country Profiles.

Geopolitical Analysis. A Multidimensional Approach to Analyze Power Rivalries in International Relations Gyula Csurgai.2019

Critical Mobilities Ola Söderström, Shalini Randeria, Didier Ruedin, Gianni D'Amato, Francesco Panese.2013 The field of mobility studies examines social phenomena through the lens of movement. In this perspective, societies are regarded as being constantly reconfigured as they are shaped by a series of mobile entities (capital, people, information). This book engages critically with many of the claims and challenges of mobility studies by providing empirically rich reports of mobilities and their limitations. Instead of assuming a seamless world of flows, the volume foregrounds questions of power, inequality, and moorings as integral to the movement of capital, goods, images, practices, or people. It brings together the work of several internationally renowned scholars, who engage with these movements at critical sites. This is the first book to provide a critical and interdisciplinary view of mobilities covering a broad range of issues rather than a single domain. The chapters deal with current and important issues, such as organ transplants, illegal migrations, urban globalization, international policies of higher education institutions, and scientific diasporas. As a whole, the book provides new insights into how power relations shape mobilities and societies.

Lo stato (im)mortale Lorenzo Casini.2022-11-08 «Facebook definisce chi siamo, Amazon cosa vogliamo e Google cosa pensiamo»: in un mondo in cui due persone su tre accedono alla rete, l'impatto della rivoluzione tecnologica su società, economia e cultura, ma anche nella vita politica e istituzionale, è ormai di proporzioni straordinarie; un processo ulteriormente accelerato dalla pandemia del 2020. Ma davvero le nuove tecnologie possono trasformare l'idea stessa di Stato, le sue concrete fisionomie e il suo funzionamento? E la globalizzazione delle informazioni indebolisce gli Stati oppure li rafforza? Questo libro - già pubblicato nel 2020 con il titolo *Lo Stato nell'era di Google*, e qui presentato in una nuova edizione completamente rivista e aggiornata - indaga il fenomeno, con particolare riguardo al modello di Stato «democratico» affermatosi nel XX secolo. Qual è la sua condizione di salute? Cosa c'è oltre lo Stato? E qual è il suo futuro? Se l'influenza delle tecnologie sui poteri pubblici è ormai un fatto, non è facile prevedere dove porteranno questi cambiamenti: il Leviatano, lo Stato, è sì un dio, ma è un «dio mortale», la cui fine tuttavia non sembra affatto vicina.

Walls Marcello Di Cintio.2013-07-18 DIV The world's walls are supposed to be coming down. We speak of globalization, international markets and global villages; barriers to trade keep falling, and it is now possible to communicate instantly from nearly anywhere in the world. But just as these virtual walls come down, real walls rise. In this evocative blend of travel writing, history and politics, Marcello Di Cintio visits the world's most disputed edges to meet those who live alongside the razor wire, concrete and steel. Along the way he shares tea with refugees on the wrong side of Morocco's desert wall; he encounters illegal immigrants circumventing high-tech fencing around the Spanish enclaves of Ceuta and Melilla; he walks Arizona's migrant trails, visits fenced-in villages in India, and stands with those who protest against Israel's security barrier to understand what these structures say about those who build them, and how they influence the cultures that they pen in. Venturing beyond politics, he encounters the infiltrators who circumvent the walls, the artists who transform them, and the fenced-in ignored and forgotten people who live in their shadow. The walls discussed are: 1. 'The Wall of Shame' in the Western Sahara, built by the Moroccans in 1987 following their defeat by the Spanish. 2. A high-tech 'fence' around the Spanish enclaves of Ceuta and Meilla. 3. The Indo Bangladesh 'fence', erected in 1947. 4. The West Bank Wall. 5. The 'green line' that separates the Greek from the Turkish-Cypriot quarters in Nicosia, the capital of Cypress, and Lefkosa, the capital of the Turkish Republic of Northern Cyprus. 6. The US-Mexico border. 7. The various barriers throughout Belfast. 8. The l'Acadie fence in Montreal, erected as a wall built of chains in 1960. /div

Come Ibra, Kobe, Bruce Lee Franco Bolelli.2018-04-04 Come Kobe, Ibra, Bruce Lee è un libro sullo sport che parte dalla convinzione che «chi sa tutto soltanto di sport non sa niente neanche di sport». Nell'agonismo e nella dedizione di cui si nutre lo sport c'è qualcosa che lo supera ed è lì che si forma gran parte della mitologia di cui abbiamo bisogno in ogni azione della nostra vita. È grazie ai grandi atleti che hanno segnato la storia che oggi si possono raccontare quei valori e quelle attitudini che sono fondamentali per la nostra esistenza. In queste pagine troverete: tredici grandi insegnamenti che ci vengono dallo sport e che sono essenziali per la costruzione del carattere e del senso di responsabilità; quattro grandi storie di personaggi che hanno lasciato il segno: Michael Jordan, Bruce Lee, Kobe Bryant, Zlatan Ibrahimovic; undici flash su episodi e personaggi da cui c'è molto da imparare.

Globalization and Sovereignty John Agnew.2017-12-15 This provocative and important text offers a new way of thinking about sovereignty, both past and present. Distinguished geographer John Agnew boldly challenges the widely popular story that state sovereignty is in worldwide eclipse in the face of the overwhelming processes of globalization. He argues that this perception relies on ideas about sovereignty and globalization that are both overstated and misleading. Agnew contends that sovereignty-state control and authority over space is not necessarily neatly contained in state-by-state territories, nor has it ever been so. Yet the dominant image of globalization is the replacement of a territorialized world by one of networks and flows that know no borders other than those that define the Earth itself. In challenging this image, Agnew first traces the ways in which it has become commonplace. He then develops a new way of thinking about the geography of effective sovereignty and the various geographical forms in which sovereignty actually operates in the world, offering an exciting intellectual framework that breaks with the either/or thinking of state sovereignty versus globalization.

Ponti | Brücken Autori Vari.2023-05-30T11:24:00+02:00 Mentre la comunicazione quotidiana in genere connota i ponti in modo unilateralmente

positivo, da un punto di vista scientifico, criticando tale uso linguistico, si enfatizzano gli aspetti negativi del ponte; per lo più, in questo contesto, l'uso del termine "confine" o "limite" viene spesso raccomandato come un concetto più attuale e differenziato. Al contrario il Centro Tedesco di Studi Veneziani nell'ambito dei suoi studi culturali si è posto il compito di dedicare ai ponti, sia quelli percorribili che quelli metaforici, l'attenzione che meritano in quanto forme fondamentali, tanto ambigue quanto contraddittorie, di espressione della vita umana. Il presente volume, primo di una serie di "studi sui ponti" che rientrano nella collana Venetiana, riguarda percorsi concettuali nei quali si esplorano e discutono varie possibilità di comprensione del ponte, spaziando dalla dimensione filosofica, sociologica, economica e politica a quella storica ed estetica. Während die Alltagskommunikation Brücken in der Regel einseitig positiv konnotiert, wird von kulturwissenschaftlicher Seite solcher Sprachgebrauch oft zum Anlass genommen, pauschal das Negative der Brücke zu betonen; häufig wird dabei zudem der Gebrauch des Begriffs "Grenze" als zeitgemäßer und differenzierteres Konzept empfohlen. Demgegenüber hat sich das Deutsche Studienzentrum in Venedig zur Aufgabe gemacht, Brücken, den begehren wie den metaphorischen, die kulturwissenschaftliche Aufmerksamkeit zukommen zu lassen, die sie als grundlegende, ebenso mehrdeutige wie widersprüchliche Ausdrucksformen menschlichen Lebens verdienen. Der vorliegende erste Band der in die Venetiana-Reihe eingehenden "Brückenstudien" gilt einer begrifflichen Konturierung, mit der von philosophischen über soziologische, wirtschaftliche und politische bis zu historischen und ästhetischen Dimensionen unterschiedliche Optionen des Verstehens von Brücken erkundet und diskutiert werden.

Un altro giorno di morte in America Gary Younge.2018-09-05 Gary Younge, giornalista inglese inviato negli Stati Uniti, ha scelto una data a caso, il 23 novembre 2013, partendo dal presupposto che ogni giorno, in America, vengono uccisi 7 ragazzi sotto i vent'anni da un colpo di arma da fuoco. Soprattutto neri, soprattutto maschi, soprattutto in alcune città, spesso nel silenzio dell'informazione che non riesce più a tenere il conto delle vittime. Quel giorno di novembre sono stati dieci i ragazzi sotto i vent'anni che hanno perso la vita dopo una sparatoria, un colpo accidentale o un omicidio premeditato. Con la penna da grande reporter e la delicatezza di un narratore, Younge va sui luoghi dove sono morti e dove hanno vissuto, racconta il contesto e le storie che hanno nutrito e poi tradito le vite di questi ragazzi. Ne esce un ritratto lancinante della società americana prigioniera delle armi da fuoco, incapace di salvaguardare i propri figli e in cui è facile, troppo facile, essere portati via da un'assurda e incontrollata violenza. "Ho scelto un giorno, la data è del tutto arbitraria. Ed è proprio questo il punto: quello che ho raccontato sarebbe potuto succedere un giorno qualsiasi. Il destino ha scelto le vittime, la cornice temporale ha dato forma al racconto. Il più piccolo aveva nove anni, il più grande diciannove. La verità è che cose del genere succedono ogni giorno. E il 23 novembre 2013 non ha fatto eccezione."

Tears of Salt: A Doctor's Story Pietro Bartolo, Lidia Tilotta.2018-01-09 "Tears of Salt... reveals the human side of suffering through the life of one man." —Adele Annesi, Washington Independent Review of Books Situated more than one hundred miles off Italy's southern coast, the rocky island of Lampedusa has hit world headlines in recent years as the first port of call for hundreds of thousands of African and Middle Eastern refugees fleeing civil war and terrorism and hoping to make a new life in Europe. Strategy Edward N. Luttwak.2002-01-31 "If you want peace, prepare for war." "A buildup of offensive weapons can be purely defensive." "The worst road may be the best route to battle." Strategy is made of such seemingly self-contradictory propositions, Edward Luttwak shows—they exemplify the paradoxical logic that pervades the entire realm of conflict. In this widely acclaimed work, now revised and expanded, Luttwak unveils the peculiar logic of strategy level by level, from grand strategy down to combat tactics. Having participated in its planning, Luttwak examines the role of air power in the 1991 Gulf War, then detects the emergence of "post-heroic" war in Kosovo in 1999—an American war in which not a single American soldier was killed. In the tradition of Carl von Clausewitz, Strategy goes beyond paradox to expose the dynamics of reversal at work in the crucible of conflict. As victory is turned into defeat by over-extension, as war brings peace by exhaustion, ordinary linear logic is overthrown. Citing examples from ancient Rome to our own days, from Barbarossa and Pearl Harbor down to minor combat affrays, from the strategy of peace to the latest operational methods of war, this book by one of the world's foremost authorities reveals the ultimate logic of military failure and success, of war and peace.

Atlante delle frontiere. Muri, conflitti, migrazioni Bruno Tertrais, Delphine Papin.2018

Frontiera Gianluca De Sanctis.2024-03-15T00:00:00+01:00 Separare, distinguere, misurare, sono attività tipicamente umane. Qualunque tentativo di antropizzare uno spazio presuppone una marchiatura, l'impressione di un segno che significa possesso, ma che al contempo delimita anche la nostra identità, serve a separarci dagli altri. Tuttavia, a differenza dei moderni, gli antichi non hanno mai pensato di chiudere le frontiere. Neppure l'impero di Roma, al culmine della sua potenza, ha mai avvertito la necessità di sigillare i propri confini per impedire a chi stava fuori l'ingresso nel grande recinto della civiltà greco-romana. Molte delle parole con cui le lingue classiche designano la nozione di confine, anzi, contengono in sé l'idea della comunicazione, la possibilità dello scambio, l'ipotesi del passaggio, rammentandoci che l'esclusione è solo una delle due facce, quella meno nobile, della frontiera.

Notes on a Shipwreck Davide Enia.2019-02-19 A moving firsthand account of migrant landings on the island of Lampedusa that gives voice to refugees, locals, and volunteers while also exploring a deeply personal father-son relationship. On the island of Lampedusa, the southernmost part of Italy, between Africa and Europe, Davide Enia looks in the faces of those who arrive and those who wait, and tells the story of an individual and collective shipwreck. On one side, a multitude in motion, crossing entire nations and then the Mediterranean Sea under conditions beyond any imagination. On the other, a handful of men and women on the border of an era and a continent, trying to welcome the newcomers. In the middle is the author himself, telling of what actually happens at sea and on land, and the failure of words in the attempt to understand the present paradoxes. Enia reveals the emotional consequences of this touching and disconcerting reality, especially in his relationship with his father, a recently retired doctor who agrees to travel with him to Lampedusa. Witnessing together the public pain of those who land and those who save them from death, alongside the private pain of his uncle's illness, pushes them to reinvent their relationship, to forge a new and unprecedented dialogue that replaces the silences of the past.

World Migration Report 2015 International Organization for Migration.2015-12-31 The World Migration Report 2015: Migrants and Cities, New Partnerships to Manage Mobility ? the eighth report in IOM's World Migration Report (WMR) series ? focuses on how migration and migrants are shaping cities and how the life of migrants is shaped by cities, their people, organizations and rules. Over 54 per cent of people across the globe were living in urban areas in 2014. The number of people living in cities will almost double to some 6.4 billion by 2050, turning much of the world into a global city. Human mobility and migration play an important part in this but are largely missing from the global debate on urbanization. Many city and local governments also still do not include migration or migrants in their urban development planning and implementation. The report aims to address this gap by considering migration as a defining factor alongside climate change, population growth, demographic change and economic crisis in shaping sustainable cities of the future.
