Land Rights and Expropriation in Ethiopia Daniel W. Ambaye.2015-02-13 This thesis provides a new approach to the Ethiopian Land Law debate. The basic argument made in this thesis is that even if the Ethiopian Constitution provides and guarantees common ownership of land (together with the state) to the people, this right has not been fully realized whether in terms of land accessibility, enjoyability, and payment of fair compensation in

the event of expropriation. Expropriation is an inherent power of the state to acquire land for public purpose activities. It is an important development tool in a country such as Ethiopia where expropriation remains the only method to acquire land. Furthermore, the two preconditions of payment of fair compensation and existence of public purpose justifications are not strictly followed in Ethiopia. The state remains the sole beneficiary of the process by capturing the full profit of land value, while paying inadequate compensation to those who cede their land by expropriation. Secondly, the broader public purpose power of the state in expropriating the land for unlimited activities puts the property owners under imminent risk of expropriation.

Landscapes and Landforms of Ethiopia Paolo Billi.2015-03-23 This book provides a succinct but comprehensive presentation of key geomorphological locations and topics including information about geomorphological heritage and maps to visit the most important sites. Apart from often being remarkably scenic, landscapes reveal stories that often can be traced back in time tens of million years and include unique events. This is particularly true for Ethiopia where spectacular examples of different landforms are present. Its geomorphology varies from highlands, marked by high volcanoes and incised by deep river gorges, to the rift valley lakes endorheic systems and the below sea level lowlands with characteristic landscapes which are unique in the world. Landscapes and Landforms of Ethiopia highlights all these topics including essential information about geology and tectonic framework, past and present climate, hydrology, geographical regions and long-term geomorphological history. It is a highly informative book, providing insight for readers with an interest in geography and geomorphology.

Adventures in the Bone Trade Jon Kalb.2006-04-18 As co-founder of the expedition that discovered Lucy, and leader of most of the first site-surveys in the Afar Depression in Ethiopia, Jon Kalb has years of experience with the region, its politics, and the scientists involved in the excavations. A participant himself in the bone wars that accompanied these discoveries, Kalb recounts the cutthroat competition and back stabbing that were often part of the media-highlighted race to find the oldest hominid fossil. He weaves this story in the rich fabric of Ethiopian society and politics, the plight of the regions peoples, and the international maneuverings for control of the fossil finds.

The Battle of Adwa Paulos Milkias,Getachew Metaferia.2005 Ethiopia trounced the Italians in 1896 in the greatest African victory over Europe since Hannibal, but failed to prevent the loss of Eritrea. The event was a powerful constitutive force in the rise of modern Africa and pan-Africanism and resounds in the shared memory of Africans and Black Americans even today.

Visual Ergonomics Handbook Jeffrey Anshel.2005-06-22 Viewing an electronic display screen varies significantly from reading text on paper and human eyes often suffer for it. Featuring cutting-edge research in the field of visual ergonomics, Visual Ergonomics Handbook focuses on vision and eye-care issues in both the office and industrial setting, including eye safety issues in industrial plants and construction sites. The text integrates the knowledge of leading experts in the fields of optometry, ergonomics, eye safety, and occupational medicine into a comprehensive, easy-to-read volume that also analyzes the economic benefits of developing a workplace visual ergonomics program. Written at a level that makes the information easily accessible, the chapter authors provide a simplified but thorough discussion of the process of eyesight and the components of the visual system. They explore the technology behind computer displays, discuss environmental issues surrounding eye symptoms and vision in the workplace, and examine lighting, glare, monitor position, vision distances, and other issues in detail. The chapter on glare in the workplace clarifies the role of anti-glare filters for display and the chapter on eye examinations covers the information that is critical to describe to the doctor. A discussion of the

economic impact of ergonomic programs wraps up the main volume of the book. The book's multidisciplinary chapter authors give you wide ranging coverage of the issues and the editorial guidance of Jeffrey Anshel ensures that redundancies are weeded out. The first comprehensive handbook on visual ergonomics, it presents information that is adequately straightforward and technical.

The Missionary Factor in Ethiopia Getatchew Haile, Aasulv Lande.1998 European, not the least Scandinavian, mission societies have played an important role in shaping modern Ethiopia and Eritrea. In spite of this the long-term impact on Ethiopian society by European missions has not yet received much attention. The predominance of the Ethiopian Orthodox Church in society and nation makes Ethiopia an exception in the history of European missions, and raises questions of an ecumenical character, which need more attention. Present tension in Ethiopia between Orthodox and Evangelicals, and the tendency to identify Christian affiliation with ethnic identity, contribute to make this an urgent matter. The present volume presents the papers delivered at a symposium on these questions held at Lund University in August 1996. They include discussions on the justification of foreign missionary activity in a country already Christian, the impact of the Catholic missionary enterprise of the 16th and 17th centuries, the colonial context of late 19th century missionary activity, the impact of the Europeans on social and intellectual developments, the struggle of the Ethiopian Catholics for an Ethiopian identity in the face of latinization and colonial interests and the question of European influence on structure and leadership in the Evangelical Churches.

The History of Ethiopia Saheed A. Adejumobi.2006-12-30 This engaging and informative historical narrative provides an excellent introduction to the history of Ethiopia from the classical era through the modern age. The acute historical analysis contained in this volume allows readers to critically interrogate shifting global power configurations from the late nineteenth century to the twentieth century, and the related implications in Ethiopia and the Horn of Africa region. Adejumobi identifies a second wave of globalization, beginning in the nineteenth century, which laid the foundation for a highly textured Ethiopian Afromodern twentieth century. The book explores Ethiopia's efforts at charting an independent course in the face of imperialism, World War II, the Cold War and international economic reforms with a focus on the gap between the state's modernization reforms and the citizenry's aspirations of modernity. The book focuses on Ethiopians' efforts to balance challenges related to social, political and economic reforms with a renaissance in the arts, theater, Orthodox Coptic Christianity, Islam and ancient ethnic identities. The History of Ethiopia paints a vivid picture of a dynamic and compelling country and region for students, scholars, and general readers seeking to grasp twenty-first century global relations. The work also provides a timeline of events in Ethiopian history, brief biographies of key figures, and a bibliographic essay.

Ethiopia John Graham.2001 Ethiopia is a land of endless stories and histories, many never heard outside this elusive country. With a history stretching back more than 3,000 years, Ethiopians are a justifiably proud people. John Graham has tirelessly traversed Ethiopia, and explored many nooks and crannies of this ancient country in an effort to tell the story of its peoples. Ethiopia: Off the Beaten Trail is an informal and informative look at a country that is generally overlooked as a tourist destination. After decades of isolation, Ethiopia is now opening its arms to visitors again. From the Aksum to the remote mountain monastery where the Ark of the Covenant is said to be kept, Graham paints a vivid picture of Ethiopia and provides a window to its unseen gems.

Acta Aethiopia Sven Rubenson.1987 The aim of the series called Acta Aethiopia is to collect, translate, annotate and publish nineteenth-century letters, treaties and other brief documents which throw light on the emergence and development of modern Ethiopia. For the Horn of Africa as for the rest of the continent, the nineteenth century was a period of great change. Many aspects of the developments are still little known or dominated by euro-centred views and interpretations. One reason for this is that our sources of knowledge consist mainly of letters, reports and other documents written by Europeans.

Church and State in Ethiopia: 1270 - 1527 Taddesse Tamrat.2009-12 The book by Dr. Taddesse Tamrat is an important contribution. ... In fact, the author shows his full and precise knowledge of past literature on Ethiopia, and his critical analysis of historical events is well founded on the results of recent work; but also-and this is an important novelty-he had access to hagiographical and historical documents, kept in Ethiopian monasteries, which had not previously been known to scholars. ... - Professor Enrico Cerulli, in BSOAS, Vol. 37, 1972. Once in a long while, books are written that

set the standard in their discipline. Tadesse Tamrat's *Church and State* has been just such a book, a classic in Ethiopian historiography, unsurpassed in its painstaking reconstruction of the medieval history of Ethiopia. Few historians have used the rich historical data of the *gadl* literature as exhaustively and as meticulously as Tadesse has done, teasing out crucial information as only an Ethiopian versed in church traditions could do. Equally significant for the value of the book has been the blending of these Ethiopian traditional sources with the rich contemporary Arabic sources and the commentaries and analyses of such authorities as Carlo Conti Rossini. In short, what Tadesse has done through this masterly reconstruction is to blaze the trail that other Ethiopian historians have followed, a process that culminated in the growth and ripening of professional Ethiopian historiography. - Professor Bahru Zewde is the author of *A History of Modern Ethiopia* Professor Tadesse Tamrat's magisterial historical work *Church and State in Ethiopia, 1270-1527*, documents the rise and expansion of a new dynasty in highland Christian Ethiopia and the simultaneous growth of Ethiopian monasticism as an intellectual and cultural force. Based upon a broad range of primary sources previously either unknown or not utilized, this book remains the essential text for the history of the highland Christian state of Ethiopia during the period of its development as the dominant state in the Horn of Africa. This seminal work established the historical foundation for subsequent studies in the history of highland Ethiopia, including specialized cultural and historical analyses of theology, music and religious art. - Professor Marilyn E. Heldman is the author of *African Zion: The Sacred Art of Ethiopia*

The Injury Chart Book .2002 This publication seeks to provide a global overview of the nature and extent of injury mortality and morbidity in the form of user-friendly tables and charts. It is hoped that the graphical representation of the main patterns of the burden of disease due to injury will raise awareness of the importance of injuries as a public health issue and facilitate the implementation of effective prevention programs.
