Cannon Beach Deborah Cuyle.2016-06-13 Cannon Beach is a small town nestled off Highway 101 along the Oregon coast. It has been called one of the “World’s 100 Most Beautiful Places” by National Geographic and one of “The 100 Best Art Towns in America” by author John Villani. Located 80 miles west of Portland and 25 miles south of Astoria, the town is surrounded by the Oregon Coast Range, ocean beaches, and rivers. Only four miles in length, and with a population of less than 2,000 residents, Cannon Beach is a popular and picturesque town catering to almost 1 million visitors annually. Life seems simpler, more beautiful, and quieter here. People stroll along holding hands, enjoying an ice cream cone or a latte, and daydreaming of building a fire later that evening on the beach. The salty air frizzes their hair, and sand is found in every shoe. But no one is bothered by this, because they are at Cannon Beach, with the legendary Haystack Rock.

Seaside survived the crash of the stock market, and World War II brought about an era of reconstruction, along with the Miss Oregon pageant. Seaside: 1920-1950 documents the city's growth and the people and businesses that helped it flourish.

Diving off the Oregon Coast Tom Hemphill and Floyd Holcom.2016 The Oregon Coast is well known for its beauty. The rugged coastline with its constant wave and surf action provides the calming sounds of the ocean that all can hear, but a diver also

sees the giant kelp forests and gets excited about the promise of abundant marine life, brilliantly colored anemone, sponges, cute little reef fish and huge ling cod, large plate-sized rock scallops, abalone, giant Pacific octopus, and friendly wolf eel. This is truly a diver's paradise. There are no stories of skin divers prior to World War II, but with the development of rubber dry suits and neoprene wetsuits in the early 1950s, divers began to explore the reefs out past the surf and in protected coves near the shoreline. Images of Modern America: Diving off the Oregon Coast showcases the images of a few diving pioneers, early and current dive stores, the beautiful coastline, and the colorful world underwater.

Oregon Surfing: North Coast Scott and Sandy Blackman.2016 Surfing culture began in Portland, Seaside, Cannon Beach, and Pacific City in the early 1960s. Influenced by surf music and a few California surfers, a handful of skin divers and adolescent boys yearned to engage in the sport. In the beginning, surfing was illegal along the beachfronts of Seaside and Cannon Beach. Answering the siren call, locals took to the beaches, while others from around Oregon, Washington, and California found their way to isolated spots along the Northern Oregon coast. The early surfers were not intimidated by their lack of knowledge, poor equipment, or the unpredictable waves. Instead, surfing caught on in the cold waters of Oregon. Experience the early days of Oregon surfing through the pioneer surfers' stories and vintage photographs.

Bridges of the Oregon Coast Ray Bottenberg.2006 In the 1920s and 1930s, Oregon's legendary bridge engineer Conde B. McCullough designed a first-rate collection of aesthetic bridges on the Oregon Coast Highway to enhance an already dramatic and beautiful landscape. The six largest of these, at Gold Beach, Newport, Waldport, Florence, Reedsport, and Coos Bay, eliminated the last ferries on the Oregon Coast Highway between the Columbia River and California. McCullough planned to build

one bridge each year after completion of the Rogue River Bridge at Gold Beach in 1932, but the tightening grip of the Depression threatened his plans. In 1933, McCullough and his staff worked day and night to finish plans for the remaining five bridges, and in early 1934, the Public Works Administration funded simultaneous construction of them. The combined projects provided approximately 630 jobs, but at least six workers perished during construction. After the bridges were complete, Oregon coast tourism increased by a dramatic 72 percent in the first year.

Oregon Surfing Scott Blackman,Sandy Blackman.2014-02-24 Surfing came to the central Oregon coast in the early 1960s. Mostly young boys from Newport and the Agate Beach area took to the waves, without wetsuits or leashes, and taught themselves how to surf in the forbidding cold waters. Eventually forming the Agate Beach Surf Club, they discovered other surfing communities along the Oregon coast. With no modern-day technology to help them, they traveled the rugged Oregon coast in search of good and accessible surf spots. Fifty years later, the surfing culture has grown and evolved, including both genders,

kite, wind, stand-up-paddle, and big wave surfing. What hasn't changed is the unique and challenging environment of the Oregon coast. Geography, the weather, and the cold water still remain the biggest challenges. In the face of all this, the surfing community grows and continues to prosper.
