**Herod the Great and Jesus: Chronological, Historical and Archaeological Evidence** Gerard Gertoux.2015-11-18 The traditional date of 4 BCE for Herod's death, as set forth by E. Schurer (1896), has been accepted by historians for years without notable controversy. However, according to the texts of Luke and Matthew, Herod died shortly after Jesus' birth, which can be fixed in 2 BCE. Consequently, there is apparently a major chronological contradiction, however Josephus gives a dozen synchronisms that enable us to date his death on 26 January 1 BCE just after a total lunar eclipse (9 January 1 BCE) prior to the Passover. Two important events confirm the dating of Herod's death: the 'census of Quirinius' in Syria which was a part of the 'Inventory of the world' ordered by Augustus when he became 'Father of the Country' in 2 BCE and the 'war of Varus' after Herod's death conducted under the auspices of Caius Caesar, the imperial legate of the East, and dated during the year of his consulship in 1 CE.

**Políticas docentes de formação no estágio supervisionado** Carlos Federico Ayala Zuluaga,Samuel de Souza Neto,Roberto Tadeu Iaochite.2018-04-04 O interesse pela temática do Estágio Supervisionado ganhou forte dimensão no estudo e análise das reformas e mudanças educativas acontecidas na América do Sul a partir dos anos 1980. De modo que ampliou-se a vontade acadêmica por conhecer, interpretar e compreender os desafios do ES em outros países da região, considerando as trajetórias de quatro países: Colômbia, Brasil, Argentina e Chile, buscando construir uma rede de comunicação, de práticas de ensino e de conhecimentos. Com base nessas ideias os autores procuram se familiarizar com as fundamentações epistemológicas sobre Orientações Pedagógicas e Estágio Supervisionado, relacionando-os com as preocupações educativa, formativa e política, intercedida pela epistemologia teórica e histórica ao redor desses tópicos.

**The Complete Kano Jiu-Jitsu (Judo)** H. Irving Hancock,Katsukuma Higashi.2016-01-16 The best guide to learning jiu-jitsu ever written in English, this is the most comprehensive study available. It describes the authentic form of judo developed in the late 19th century by Professor Jiguro Kano — not the many imitations often called by this name. Officially recognized by the Japanese government as the preeminent school of jiu-jitsu, the Kano system was the method in which Japanese armed forces and police were trained. The complete system of 160 holds and throws is clearly explained, with 487 photographs and four charts providing further clarification. Pressure points, balance, falling, and every other important aspect receives full and complete treatment. The first section presents 60 tricks of combat in strict sequence that prepare for part two, in which readers learn how to apply the advantages of the tricks they've learned. The third section deals with highly scientific tricks of combat, by which an opponent may be incapacitated — and the methods of kuatsu, or resuscitation, by which a fallen opponent may be revived. Martial arts students at every level of experience will find this classic guide a source of valuable information and instruction.

**Divination on stage** Folke Gernert.2021-02-08 Magicians, necromancers and astrologers are assiduous characters in the European golden age theatre. This book deals with dramatic characters who act as physiognomists or palm readers in the fictional world and analyses the fictionalisation of physiognomic lore as a practice of divination in early modern Romance theatre from Pietro Aretino and Giordano Bruno to Lope de Vega, Calderón de la Barca and Thomas Corneille.

Mexico at the World's Fairs Mauricio Tenorio-Trillo.2018-06-01 This intriguing study of Mexico's participation in world's fairs from 1889 to 1929 explores Mexico's self-presentation at these fairs as a reflection of the country's drive toward nationalization and a modernized image. Mauricio Tenorio-Trillo contrasts Mexico's presence at the 1889 Paris fair—where its display was the largest and most expensive Mexico has ever mounted—with Mexico's presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929. Rather than seeing the revolution as a sharp break, Tenorio-Trillo points to important continuities between the pre- and post-revolution periods. He also discusses how, internationally, the character of world's fairs was radically transformed during this time, from the Eiffel Tower prototype, encapsulating a wondrous symbolic universe, to the Disneyland model of commodified entertainment. Drawing on cultural, intellectual, urban, literary, social, and art histories, Tenorio-Trillo's thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930, set within the context of the origins of Western nationalism, cosmopolitanism, and modernism.
