Brave New World Revisited Aldous Huxley.2014-01-01 When Aldous Huxley wrote his famous novel *Brave New World*, he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social, political and economic world order. Written almost thirty years later, *Brave New World Revisited* is a re-evaluation of his predictions based on the changes he had witnessed in the meantime. In this twelve-part essay, Huxley argues that society is moving

toward his dystopian vision even faster than he had originally assumed, and provides his own suggestions on how to bring an end to this decadent decline. *Brave New World Revisited* condemns symptoms of modern life such as overpopulation, propaganda and extreme government control while providing a staunch defence of individualism. Despite being published over fifty years ago, the problems identified in *Brave New World Revisited* are still startlingly relevant, lending a chilling creditability to Aldous Huxley's unsettling predictions. Futurism and the Technological Imagination .2016-08-09 This volume, *Futurism and the Technological Imagination*, results from a conference of the International Society for the Study of European Ideas in Helsinki. It contains a number of re-written conference contributions as well as several specially commissioned essays that address various aspects of the Futurists' relationship to technology both on an ideological level and with regard to their artistic languages. In the early twentieth century, many art movements vied with each other to overhaul the aesthetic and ideological foundations of arts and literature and to make them suitable vehicles of expression in the new Era of the Machine. Some of the most remarkable examples came from the Futurist movement, founded in 1909 by Filippo Tommaso Marinetti. By addressing the full spectrum of Futurist attitudes to science and the machine world, this collection of 14 essays offers a multifaceted account of the complex and often contradictory features of the Futurist technological imagination. The volume will appeal to anybody interested in the history of modern culture, art and literature.

Men's Cinema Stella Bruzzi.2013-09-23 Men's Cinema offers a fresh theorisation of men in Hollywood cinema via a theoretical discussion of definitions of masculinity and the close textual analysis of classic and contemporary films. Through an examination of mise-en-scene, Men's Cinema moves beyond discussions of representation and narrative to an exploration of the physical or instinctive effects of cinema and how we are invited to engage with, desire or identify with Hollywood's vision of men and masculinity. By delineating how Hollywood has built up and refined the language of men's cinema through a series of recurrent, refined tropes, this book critically explores masculinity and the concept of a male aesthetic within film. Films discussed include: The Deer Hunter, Dirty Harry, Goodfellas, Inception, Mission Impossible: Ghost Protocol, Once Upon a Time in the West, Point Break, Raging Bull, Rebel Without A Cause, Reservoir Dogs, Sherlock Holmes, There's Always Tomorrow, The Wild Bunch.

Strategic Management in the Media Lucy Küng.2008-04-11 This book provides vital insights into

the elements of strategy and their application to media firms. Solidly grounded in theory but not pedantic, it is essential reading for those who make or wish to comprehend choices of media companies. - Robert Picard, University of Jönköping Insightful, contextually analytical, yet easy to comprehend, *Strategic Management in the Media* successfully applies the adaptive and interpretative areas of strategic theory in the media sectors. It provides a unique perspective in which common themes linking media strategy and industry environment are thoughtfully discussed.

- Sylvia M. Chan-Olmsted, University of Florida ...an invaluable asset for students of media management. The use of pertinent examples and case studies throughout brings the analysis to life and contributes to a highly readable introduction.

- Gillian Doyle, University of Glasgow This book is a comprehensive, accessible and expert introduction to strategy within a media management context. It is divided into two parts - part one provides an introduction to and overview of the media industry from a strategic management perspective, looking in detail at the sectors that together comprise the industry - newspaper, book and magazine publishing, music, radio and television - and the strategic forces at work in each. This provides the foundation for part two, which analyses a number of strategic topics central to the media sector, such as technological change, organisational structure, leadership, and creativity and innovation. The chapters follow the same structure: the relevant theory is outlined, its application to the media industry is discussed, and case studies from the media industry are used to illustrate the theory and illuminate its relevance for the media field. The cases and examples used come from all sectors of the industry and a range of geographic regions and include News Corporation, Endemol, BBC, Bertelsmann, CNN, MTV, Disney and Pixar.

Fuori campo - Il cinema racconta lo sport Claudio Garioni. 2017-07-11 Saggi - saggio (51 pagine) - Sport + cinema = cult. Ecco un elenco (certamente) incompleto dei film che rispondono a questa

equazione. E qualcuno che invece non è riuscito nell'intento. Il cinema ha spesso raccontato il mondo dello sport. Obiettivi, ostacoli, protagonisti, rivali, storie incredibili offrono spunti narrativi meravigliosi per trasposizioni (più o meno riuscite) sul grande schermo. In mille declinazioni. Dalla love story al thriller, dalla favola alla commedia, fino alla videoarte. Ne nasce un vero e proprio viaggio dagli spalti di Highbury per vedere l'Arsenal alle spiagge amate dai surfisti australiani, dalle piste dei circuiti automobilistici fino a quelle innevate delle olimpiadi invernali, per volare fino ai paesaggi della fantasia dei cartoni animati. Il tutto sempre alla ricerca di un gol, di un traguardo, di un canestro, di una meta, di un fuoricampo. Claudio Garioni è nato a Milano il 12.12.1979. Ama cinema, calcio, musica, viaggi, Silvia e Jack (non in quest'ordine). Si è laureato in Scienze della Comunicazione allo Iulm con una tesi su Lucarelli (Carlo, lo scrittore, non l'attaccante) che è diventata parte del libro *Almost Noir - Indagini non autorizzate su Carlo Lucarelli*. Ha scritto qualche racconto e girato un po' per il mondo. Quando va al cinema preferisce le caramelle gommosi ai popcorn. To Free a Dolphin Keith Coulbourn, Richard O'Barry. 2015-10-06 In this memorable first book, *Behind the Dolphin Smile*, Richard O'Barry told the inspiring story of his personal transformation from world-famous dolphin trainer (Flipper was his pupil) to dolphin liberator. Now, in *To Free a Dolphin*, he passionately recounts the dramatic story of his heart-breaking campaign to release captive dolphins back into the wild. With wit and insight he chronicles the extreme opposition he has faced from bureaucrats, major players in the captive-dolphin industry, rival wildlife groups, and well-meaning sentimentalists. He introduces readers to famous show animals he has helped, including

Bogie and Bacall of Key Largo. And, most fascinating, he describes his struggles to deprogram and rehabilitate dolphins emotionally scarred from years of captivity--struggles that become battles for the animals' souls.

The Lumière Galaxy Francesco Casetti. 2015-03-03 Francesco Casetti believes new media technologies are producing an exciting new era in cinema aesthetics. Whether we experience film in the theater, on our hand-held devices, in galleries and museums, onboard and in flight, or up in the clouds in the bits we download, cinema continues to alter our habits and excite our imaginations. Casetti travels from the remote corners of film history and theory to the most surprising sites on the internet and in our cities to prove the ongoing relevance of cinema. He does away with traditional notions of canon, repetition, apparatus, and spectatorship in favor of new keywords, including expansion, relocation, assemblage, and performance. The result is an innovative understanding of cinema's place in our lives and culture, along with a critical sea-change in the study of the art. The more the nature of cinema transforms, the more it discovers its own identity, and Casetti helps readers realize the galaxy of possibilities embedded in the medium.

The Mercury 13 Martha Ackmann.2004-07-13 For readers of *The Astronaut Wives Club*, *The Mercury 13* reveals the little-known true story of the remarkable women who trained for NASA space flight. In 1961, just as NASA launched its first man into space, a group of women underwent secret testing in the hopes of becoming America’s first female astronauts. They passed the same battery of tests at the legendary Lovelace Foundation as did the Mercury 7 astronauts, but they were summarily dismissed by the boys’ club at NASA and on Capitol Hill. The USSR sent its first woman into space in 1963; the United States did not follow suit for another twenty years. For the first time, Martha Ackmann tells the story of the dramatic events surrounding these thirteen remarkable women, all crackerjack pilots and patriots who sometimes sacrificed jobs and marriages for a chance to participate in America’s space race against the Soviet Union. In addition to talking

extensively to these women, Ackmann interviewed Chuck Yeager, John Glenn, Scott Carpenter, and others at NASA and in the White House with firsthand knowledge of the program, and includes here never-before-seen photographs of the Mercury 13 passing their Lovelace tests. Despite the crushing disappointment of watching their dreams being derailed, the Mercury 13 went on to extraordinary achievement in their lives: Jerrie Cobb, who began flying when she was so small she had to sit on pillows to see out of the cockpit, dedicated her life to flying solo missions to the Amazon rain forest; Wally Funk, who talked her way into the Lovelace trials, went on to become one of the first female FAA investigators; Janey Hart, mother of eight and, at age forty, the oldest astronaut candidate, had the political savvy to steer the women through congressional hearings and later helped found the National Organization for Women. A provocative tribute to these extraordinary women, *The Mercury 13* is an unforgettable story of determination, resilience, and inextinguishable hope.

Steven Spielberg's America Frederick Wasser.2010-02 Steven Spielberg is known as the most powerful man in New Hollywood and a pioneer of the contemporary blockbuster, America's most successful export. His career began a new chapter in mass culture. At the same time, American post war liberalism was breaking down. This fascinating new book explains the complex relationship between film and politics through the prism of an iconic filmmaker. Spielberg's early films were a triumphant emergence of the Sunbelt aesthetic that valued visceral kicks and basic emotions over the ambiguities of history. Such blockbusters have inspired much debate about their negative effect on politics and have been charged as being an expression of the corporatization of life. Here Frederick Wasser argues that the older Spielberg has not fully gone this way, suggesting that the filmmaker recycles the populist vision of older Hollywood because he sincerely believes in both big time moviemaking and liberal democracy. Nonetheless, his stories are burdened by his generation's

hostility to public life, and the book shows how he uses filmmaking tricks to keep his audience with him and to smooth over the ideological contradictions. His audiences have become more global, as his films engage history. This fresh and provocative take on Spielberg in the context of globalization, rampant market capitalism and the hardening socio-political landscape of the United States will be fascinating reading for students of film and for anyone interested in contemporary America and its culture.
