This case requires students to analyze the activities, costs, and services provided by a community-based not-for-profit daycare center to determine whether the center's programs are self sustaining. Students are challenged to apply activity-based costing concepts to complete the analysis and to provide the center with recommendations for improving its financial performance.

No Child Left Alone Abby W. Schachter.2016-08-16 Uncle Sam is the worst helicopter parent in America. Children are taken from their parents because they are obese. Parents are arrested for letting their children play outside alone. Sledding and swaddling are banned. From games to school to breast-feeding to daycare, the overbearing bureaucratic state keeps getting between kids and their parents. The state's safety, hygiene, and health regulations rule, and the government's judgment may not coincide with yours. Which foods and drinks to send to school, what toys to buy, whether to breast- or bottle-feed babies are all choices that used to be left to you and me. Not anymore. As a mom to four kids, I should be used to it, but I'm not. All the government-mandated parenting gets under my skin. And I'm not alone. *No Child Left Alone* explores the growing problem of an intrusive, interfering government and highlights those parents—all the Captain Mommies and Captain Daddies across America—fighting to take back control over their families.

Family Child Care Record-Keeping Guide, Ninth Edition Tom Copeland.2014-10-06 For home-based family child care (daycare) providers, taking care of the children is only half of the job. The other half is taking care of the business—tracking expenses, being profitable, filing taxes, and meeting government requirements. This resource covers everything family child care providers need to keep accurate business records. If a family child care provider pays close attention to the recommendations in this book, he or she will be able to claim the maximum allowable deductions and pay the lowest possible federal taxes. Since the previous edition of Family Child Care Record-Keeping Guide, Congress and the IRS have made many changes to tax rules that affect family child care providers. There have been changes in depreciation rules, adjustments to food and mileage rates, and clarifications on how to calculate the Time-Space percentage. Author Tom Copeland has been involved in many IRS audits and represented providers in several Tax Court cases that have also clarified numerous rules. Further necessitating this ninth edition, the IRS issued two significant new rules in 2013. These updates, new rules, and clarifications are detailed in this book; all of the information is applicable to child care providers in every state, regardless of local regulations. Tom Copeland, is a writer, trainer, lawyer, and consultant focusing on family child care business issues. He has conducted record-keeping, tax preparation, and business workshops for family child care providers across the country since 1981.
