Nikolai Demidov Nikolai Demidov.2016-07-01 At the time of his death, Stanislavsky considered Nikolai Demidov to be 'his only student, who understands the System'. Demidov's incredibly forward-thinking processes not only continued his teacher's pioneering work, but also solved the problems of an actor's creativity that Stanislavsky never conquered. This book brings together Demidov's five volumes on actor training.

Supplementary materials, including transcriptions of Demidov's classes, and notes and correspondence from the author make this the definitive collection on one of Russian theatre's most important figures.

Kubrick's Cinema Odyssey Michel Chion.2019-07-25 Author wrote bestselling bfi Publishing title David Lynch 'a joy to the reader of film criticism' Choice; 2001: A Space Odyssey to be re-released in cinemas in The Spring and highly likely to be the focus of much media attention in the new year; Stanley Kubrick's 2001: A Space Odyssey (1968), based on Arthur C Clarke's novel, is one of the most ambitious films ever made, an epic of space exploration that takes in the whole history of humanity (as well as speculation about its future). A technical triumph that stands up today 2001 is topical also because of its meditation on the relationship between man, animal and machine. Haunting and enigmatic, it's a film that contains myriad images that seem to defy any explanation. In this multilayered study, acclaimed critic and theorist of film sound Michel Chion offers some keys to understanding 2001. Setting the film first in its historical and cultural contexts (the Space Race, the Cold War, 1960s psychedelia), Chion goes on to locate it within Kubrick's career. He then conducts a meticulous and

subtle analysis of its structure and style, arguing that 2001 is an 'absolute film', a unique assemblage of cinema's elements, through which pulses a vision of human existence. 'Animals who know they will die, beings lost on earth, forever caught between two species, not animal enough, not cerebral enough.' In a supplementary chapter Chion argues that Kubrick's last film, *Eyes Wide Shut* (1999), is a return to 2001, a final statement of its concerns. And in a series of appendices Chion provides production details, an analytic synopsis, credits and a consideration of the legacy of 2001.

**The Practice of Love** Teresa De Lauretis.1994 ... a work that builds a substantial bridge between Freudian psychoanalysis and radical feminist thought, particularly on the subject of lesbianism.... Presenting a complex argument about an issue vital to the psychoanalytic endeavor as well as to feminist theory, *The Practice of Love* should stimulate a reconsideration of 'perversion' and the construction of sexual fantasy. The illumination of the fantasies that make lesbian desire distinctive will necessarily open up our understanding of all sexuality. --Jessica Benjamin, *New York Times Book Review* Teresa de Lauretis has entwined three books into one: a critical history of psychoanalytic theories of female homosexuality; a bold study of how lesbians keep disappearing from popular culture, especially film; and an original speculation on the dynamics of lesbian desire. --Elisabeth Young-Bruehl An important and original contribution not only to lesbian

and gay studies, but also to psychoanalytic theory and film criticism. De Lauretis brings a unique and valuable perspective to issues of great importance today in all these areas. --Leo Bersani  
De Lauretis's influential theory gets top marks from sapphic scholars who know best. --Out In an eccentric reading of Freud through Laplanche and the Lacanian and feminist revisions, Teresa de Lauretis delineates a model of perverse desire and a theory of lesbian sexuality. The Practice of Love discusses classic psychoanalytic narratives of female homosexuality, contemporary feminist writings on female sexuality, and the evolution of the original fantasies into cultural myths or public fantasies.

**Empire Rising** Thomas Kelly.2006-01-24 A Novel of High-Stakes Romance and Betrayal, Set During the Race to Finish the World's Tallest Building In Empire Rising, his extraordinary third book, Thomas Kelly tells a story of love and work, of intrigue and jealousy, with the narrative verve that led the Village Voice's reviewer to dub him Dostoevsky with a hard hat and lead pipe. As the novel opens, it is 1930-the Depression-and ground has just been broken for the Empire State Building. One of the thousands of men erecting the building high above the city is Michael Briody, an Irish immigrant torn between his desire to make a new life in America and his pledge to gather money and arms for the Irish republican cause. When he meets Grace Masterson, an alluring artist who is depicting the great skyscraper's ascent from her houseboat on the East River, Briody's life turns exhilarating-and dangerous, for Grace is also a paramour of Johnny Farrell, Mayor Jimmy Walker's liaison with Tammany Hall and the underworld. Their heartbreaking love story-which takes place both in the immigrant neighborhoods of the Bronx and amid the swanky nightlife of the '21' Club--is also a chronicle of the city's

rough passage from a working-class enclave to a world-class metropolis, and a vivid reimagining of the conflict that pitted the Tammany Hall political machine and its popular mayor against the boundlessly ambitious Franklin Delano Roosevelt. Colin Harrison, in *The New York Times Book Review*, called Kelly's *The Rackets* A well-paced, violent thriller, [and] an elegy for the city's old Irish working class. In *Empire Rising*, Kelly takes his work to a new level: telling of the story of the people who built the eighth wonder of the world, he makes old New York the setting for a rich and unforgettable story.

**Sister Beatrice** Maurice Maeterlinck, Bernard Miall.2001-07 Maurice Maeterlinck (1862-1949) was a Belgian author, the outstanding exponent of symbolist drama and the author of *The Blue Bird* and *Pelleas and Melisande*. Maeterlinck was born August 29, 1862, in Ghent and educated in law at the university there. He abandoned the legal profession when he moved to Paris in 1886 and came under the influence of the symbolist poets. Reacting against the prevailing naturalism of French literature, Maeterlinck wrote some symbolist poetry, notably *Les serres chaudes* (Hothouses, 1889). He is known principally for his plays, for which he received the 1911 Nobel Prize. He lectured in the U.S. in 1921 and spent World War II there. Maeterlinck returned to Europe following the war and died May 6, 1949, in Nice, France. Maeterlinck's plays are characterized by clear and simple writing, by a dreamlike atmosphere, and by the suggestion rather than the direct expression of ideas and emotions. His early plays are marked by an attitude of profound melancholy and pessimism in the face of evil and death; in his later plays this attitude gives way to a belief in the redeeming power of love and in the reality of human happiness. His plays include *The Princess Maleine* (1889); the melancholy fantasy masterpiece *Pelleas et Melisande* (1892), made into an opera (1902) by the French composer Claude Debussy; and *The Blue Bird* (1909), which has become a classic for children. Less popular are *Monna Vanna* (1902) and

The Burgomaster of Stilmonde (1918). Maeterlinck was also the author of many works in prose that deal with philosophic questions and with nature; they include *The Treasure of the Humble* (1896), *The Life of the Bee* (1901), and *The Intelligence of Flowers* (1907).

Why Are Our Pictures Puzzles? James Elkins.2004-11-23 With bracing clarity, James Elkins explores why images are taken to be more intricate and hard to describe in the twentieth century than they had been in any previous century. *Why Are Our Pictures Puzzles?* uses three models to understand the kinds of complex meaning that pictures are thought to possess: the affinity between the meanings of paintings and jigsaw-puzzles; the contemporary interest in ambiguity and 'levels of meaning'; and the penchant many have to interpret pictures by finding images hidden within them. Elkins explores a wide variety of examples, from the figures hidden in Renaissance paintings to Salvador Dali's paranoiac meditations on Millet's *Angelus*, from Persian miniature paintings to jigsaw-puzzles. He also examines some of the most vexed works in history, including Watteau's meaningless paintings, Michelangelo's *Sistine Ceiling*, and Leonardo's *Last Supper*.

*A Theory of Craft* Howard Risatti.2009-12 What is craft? How is it different from fine art or design? In *A Theory of Craft*, Howard Risatti examines these issues by comparing handmade ceramics, glass, metalwork, weaving, and furniture to painting, sculpture, photography, and machine-made design from Bauhaus to the Memphis Group. He describes craft's unique qualities as functionality combined with an ability to express human values that transcend temporal, spatial, and social boundaries. Modern design today has taken over from craft the making of functional objects of daily use by employing machines to do work once done by hand. Understanding the aesthetic and social implications of this transformation forces us to see craft as well as design and fine art in a new perspective, Risatti argues. Without a way of understanding and valuing craft on its own terms, the field languishes aesthetically, being judged by fine art criteria that automatically deny art status to craft objects. Craft must articulate a role for itself in contemporary society, says Risatti; otherwise it will be absorbed by fine art or design and its singular approach to understanding the world will be lost. *A Theory of Craft* is a signal contribution to establishing a craft theory that recognizes, defines, and celebrates the unique blend of function and human aesthetic values embodied in the craft object.

*The Story of the Marquise-Marquis de Banneville* Charles Perrault,Francois-Timoleon De Choisy,Choisy (abbé de),Marie-Jeanne L'Heritier,Marie-Jeanne L'Héritier de Villandon.2004 The beautiful Marquise de Banneville meets a handsome marquis, and they fall in love. But the young woman is actually a young man (brought up as a girl and completely in the dark about her--or his--true sex), while the marquis is actually a young woman who likes to cross-dress. Will they live happily ever after? In the introduction, Joan DeJean presents the fascinating puzzle of authorship of this lighthearted gender-bending tale written in the late seventeenth century in France. Was it François-Timoléon de

Choisy, an abbot who was happiest in drag? Marie-Jeanne L'Héritier, an outspoken defender of women's writing of her day? Or Charles Perrault, L'Héritier's uncle and the famous author of such fairy tales as Sleeping Beauty? DeJean argues that the tale was a collaboration of all three and discusses the permeable borderline between masculinity and femininity, transvestism, and tolerance--then and now.

**Early Cinema and the "National"** Richard Abel, Giorgio Bertellini, Rob King. 2008-12-17 Essays on "how motion pictures in the first two decades of the 20th century constructed 'communities of nationality' . . . recommended." —Choice While many studies have been written on national cinemas, *Early Cinema and the "National"* is the first anthology to focus on the concept of national film culture from a wide methodological spectrum of interests, including not only visual and narrative forms, but also international geopolitics, exhibition and marketing practices, and pressing linkages to national imageries. The essays in this richly illustrated landmark anthology are devoted to reconsidering the nation as a framing category for writing cinema history. Many of the 34 contributors show that concepts of a national identity played a role in establishing the parameters of cinema's early development, from technological change to discourses of stardom, from emerging genres to intertitling practices. Yet, as others attest, national meanings could often become knotty in other contexts, when concepts of nationhood were contested in relation to colonial/imperial histories and regional configurations. *Early Cinema and the "National"* takes stock of a formative moment in cinema history, tracing the beginnings of the process whereby nations learned to imagine themselves through moving images.

**Not Made Visible** Matias Faldbakken, Christoph Keller, Brian Sholis, Mikkel Rasmussen. 2007 Tiré du site Internet de JRP/Ringier : Matias Faldbakken (\*1973) is an artist and writer living in Oslo. Son of the celebrated Norwegian author Knut

Faldbakken, he has published two novels, *The Cocka Hola Company* and *Macht und Rebel* under the alias Abo Rasul. Drenched with acid humor and continuously hitting below the waist, his books immediately caused a considerable stir in Norway. If, in these publications, he underlines the differences and similarities between the so-called underground and the mainstream, and between the independent and the commercial in everyday life, these subjects are also central to his art practice. Fascinated with systems of knowledge, power, order, and exchange, he shows an interest in understanding how art and artists can be active participants in these systems. Faldbakken studied at the National Academy of Fine Arts in Bergen as well as at the Städelschule in Frankfurt am Main. He represented Norway in the Nordic Pavillion at the Venice Biennial in 2005, as well as showing his work in the Wrong Gallery at the Whitney Biennial, the Stedelijk Museum Amsterdam, the National Museum Oslo, the Sydney Biennial and the KW Institute for Contemporary Art Berlin, among others.

The book contextualizes Kelm's practice, which deftly probes the medium of photography and uses heterogeneous subjects decisively, to signify and act as telling abstractions within her visually opulent object worlds. Kelm's work is at once intellectually astute, concise and enigmatic. Her photographs quote the genres of still life, studio, or architectural photography without fully complying with the conventions that govern them. *Tomato Target* offers essays, installation views from the artist's solo *Tomato Target* exhibition at Kunsthalle Wien, and rich color illustrations of emblematic

pieces from her oeuvre. The texts unravel the puzzles in Kelm's work, touching on the history of photography, design, and display as well as scientific elements that continue to reappear within Kelm's work. *The Radical Use of Chance in 20th Century Art* Denis

Lejeune.2012-01 To many, chance and art are antagonistic terms. But a number of 20th century artists have turned this notion on its head by attempting to create artworks based on randomness. Among those, three in particular articulated a well-argued and thorough theory of the radical use of chance in art: André Breton (writer), John Cage (composer) and François Morellet (visual artist). The implications of such a move away from established aesthetics are far-reaching, as much in conceptual as in practical terms, as this book hopes to make clear. Of paramount importance in this coincidentia oppositorum is the suggested possibility of a correlation between the artistic use of chance and a system of thought itself organised around chance. Indeed

placing randomness at the centre of one's art may have deeper philosophical consequences than just on the aesthetical level.

*Ancient Graffiti in Context* Jennifer Baird, Claire

Taylor. 2010-10-18 Graffiti are ubiquitous within the ancient world, but remain underexploited as a form of archaeological or historical evidence. They include a great variety of texts and images written or drawn inside and outside buildings, in public and private places, on monuments in the city, on objects used in daily life, and on mountains in the countryside. In each case they can be seen as actively engaging with their environment in a variety of ways. *Ancient Graffiti in Context* interrogates this cultural phenomenon and by doing so, brings it into the mainstream of ancient history and archaeology. Focusing on different approaches to and interpretations of graffiti from a variety of sites and chronological contexts, Baird and Taylor pose a series of questions not previously asked of this evidence, such as: What are graffiti, and how can we interpret them? In what ways, and with whom, do graffiti communicate? To what extent do graffiti represent or subvert the cultural values of the society in which they occur? By comparing themes across time and space, and viewing graffiti in context, this book provides a series of interpretative strategies for scholars and students of the ancient world. As such it will be essential reading for Classical archaeologists and historians alike.
