English in Europe Manfred Görlach.2002-05-23 English in Europe charts the English invasion of Europe since 1945. Sixteen distinguished European scholars report on the English words and phrases that have become integral parts of their languages. Each describes the effect of English on the host language, and shows how the process of incorporation often modifies pronunciation and spelling and frequently transforms meaning and use. The languages surveyed are Icelandic, Dutch, French, Spanish, Norwegian, German, Italian, Romanian, Polish, Croatian, Finnish, Albanian, Russian, Bulgarian, Hungarian, and Greek. The book is designed as a companion to A Dictionary of European Anglicisms but may be read as an independent work. This is the first systematic survey of a phenomenon that is fascinating, alarming, and apparently unstoppable.

Island Rivers John R. Wagner, Jerry K. Jacka.2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders, but have had much less to say about the significance of rivers for Pacific island culture, livelihood and identity. The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers, and the ways in which those attachments are changing in response to various forms of economic development and social change. In addition to making a unique contribution to Pacific island ethnography, the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity, conflict, pollution and the degradation of riparian environments afflict growing numbers of people. Several authors take a political ecology approach to their topic, but the emphasis here is less on hydro-politics than on the cultural meaning of rivers to the communities we describe. How has the cultural significance of rivers shifted as a result of colonisation, development and nation-building? How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro-power or polluted by mining activities? How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place?

Musical Boxes from Prague and Vienna Helmut Kowar.2019 During the 19th and in the beginning of the 20th century the musical boxes made by Swiss manufacturers (and there were also some active in nearby France) dominated the international market - but also in Prague and in Vienna musical boxes were made. While the Swiss products were sold worldwide, the Austrian musical boxes were made primarily for customers in the Habsburg Monarchy and in East-European countries. The manufacturers in Prague and Vienna followed an independent and different path in the construction and design of musical boxes as well as in the musical repertoire and its arrangement. The book will point out these special features of the Austrian musical boxes. Based on a survey of roughly 1300 musical boxes (the information was collected during a research project since 1980), it is possible to present here a typology and the development of the musical boxes made in Prague and Vienna, providing also sufficient photos of many details. Analyses of several music pieces accompanied by the related scores throw light on the musical repertoire and its typical arrangement. Historical facts and biographical data of the makers complement the picture of the production of musical boxes in Prague and Vienna. The topic is completed by a catalogue of the musical boxes giving detailed information on every single instrument.

The Bormann Brotherhood William Stevenson.2019-05-07 While the flames of World War II still raged, Roosevelt, Churchill, and Stalin issued a warning to the Nazi leaders. Those responsible for the torture and murder of millions of innocent and defenseless civilians were promised that ... the three Allied Powers will pursue them to the furthest corners of the earth and deliver them to their judges so that justice may be done. That promise was not kept. Justice was not done. In 1945, twelve of the most notorious Nazis were tried for crimes against humanity and sentenced to death by the International Military Tribunal convened at Nuremberg. (Martin Bormann, his whereabouts unknown, had been tried and convicted in absentia.) Subsequent war-crimes trials ended in the conviction of other offenders. But the majority of the torturers and murderers escaped, found sanctuary, and continued to work effectively toward the concept of eventual world domination. Nazism did not die at Nuremberg. This survival and resurgence was the result of a plan for the creation of a brotherhood initiated long before the end of the war by the least visible and most powerful of the Nazi war lords--Martin Bormann. The Brotherhood, backed by virtually unlimited funds, established safe houses inside Germany, escape routes to other countries and continents, and an extensive international group of industrial firms as financial reservoirs and as fronts for escaped Nazis. This chronicle, based upon independent investigation, including numerous exclusive interviews and the examination of declassified and revealing documents, casts a new light upon Bormann, his strange role in the Third Reich, and his devastating influence, which cuts mercilessly into our present. This is essential reading, as fascinating as it is meaningful.
