The Count Of Monte Cristo (Complete) Alexandre Dumas.2013-01-25 This carefully crafted ebook: "The Count Of Monte Cristo (Complete)" is formatted for your eReader with a functional and detailed table of contents. The Count of Monte Cristo (French: Le Comte de Monte-Cristo) is an adventure novel by French author Alexandre Dumas (père). It is one of the author's most popular works, along with *The Three Musketeers*. Dumas completed the work in 1844. The story takes place in France, Italy, islands in the Mediterranean, and in the Levant during the historical events of 1815–1838. It is an adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. The book is considered a literary classic today. According to Luc Sante, *The Count of Monte Cristo* has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood. This English translation was originally published in 1846 by Chapman and Hall, London.

Conqueror of the Seas the Story of Magellan Stefan Zweig.2010-02-01 Ferdinand Magellan was the first man ever to sail around the world. His voyage was financed 75% by the King of Spain, Charles V, The Holy Roman Emperor, and 25% by Christopher de Haro, a Dutch businessman residing in Spain. The purpose of the trip by Magellan was not Gold, Glory and God, as is commonly believed. Rather, it was for better food, as the basic spices commonly available today, including pepper, cinnamon, nutmeg, cloves and mace, were not available in Europe and had to be imported through Arab traders, making them outrageously expensive. Although most of the 237 men who embarked on the journey in 1519 died along the way, including Magellan himself who was killed in Cebu in the Philippines, one ship made it back in 1522 with 18 men and a cargo laden with spices, and the expedition earned a financial profit. After the death of Magellan, his remaining men divided into two groups. One group decided to go back to Europe the way that they had come, by crossing the Pacific Ocean. However, they never made it. The other group, led by Juan Sebastian Elcano, made it back to Spain with only one ship, but that ship had a cargo laden with valuable spices including cloves that had been acquired in the Spice Islands, with the result that the entire expedition earned a financial profit, which was the purpose of the expedition in the first place. Of 237 men who had left with Magellan on five ships three years earlier, only 18 were left on the only ship to return. However, not all of the others had died along the way. Some who had been captured by the Portuguese or who had been left behind on the Cape Verde Islands arrived later. A few others had voluntarily stayed behind, preferring the company of the easy women in the Philippines. At least two had been marooned on the coast of Brazil following an unsuccessful attempt at mutiny. There seems to be no record of what happened to those two. Although most of the original 237 were dead, many of them still have never been fully accounted for.

Into the Wild Jon Krakauer.2009-09-22 NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley.

Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. It may be nonfiction, but *Into the Wild* is a mystery of the highest order. —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

The Celestial Hunter Roberto Calasso.2021-04-29 'When hunting began, it was not a man who chased an animal. It was a being that chased another being. No one could say with certainty who each of them were.' Connecting Greek and Egyptian myth, the stories of poets, shamans and gods, Roberto Calasso takes us on a spellbinding voyage that traces the beginnings of our detachment from the animal world; from the landmark evolutionary moment in which humans became the hunter rather than the prey. Roaming through time and across cultures - from the Palaeolithic era to Turing's Machine - *The Celestial Hunter* delves into the crucible of all our stories- the source of human grief, guilt, resilience and redemption with which we have wrestled throughout history.

Azul Rubén Darío.2021-03-24 *Azul...* (1888) is a book of stories and poems by Rubén Darío. Written while the poet was living in Chile, *Azul...* has been recognized as a pioneering work of Hispanic Modernism that launched the career of a leading Latin American poet. Both experimental and traditional, *Azul...* blends Darío's concern over the sustainability of modern life with his abiding interest in the myths and magic of ancient cultures. Infused with classical symbolism, inspired by the myth and philosophy of Ancient Greece, Rubén Darío's *Azul...* bridges the gap between ancient and modern. Rather than focus on the differences between the two, he envisions the past as a living entity, allowing history and fantasy to coincide with the social realities of his time. In these poems and stories, fairies from the plays of Shakespeare appear alongside the working men and women of Latin America. Dreams coincide with a reality mired in poverty, labor, and passionless social climbing. Poets and port workers sing and die in a city of ghostly beauty. *Azul...* is less a book than it is an experience, and nearly a century and a half after its publication it remains one worth the taking. With a beautifully designed cover and professionally typeset manuscript, this edition of Rubén Darío's *Azul...* is a classic of Nicaraguan literature reimaged for modern readers.

A Life in Shadow Stephen Bell.2010-04-20 French naturalist and medical doctor Aimé Bonpland (1773-1858) was one of the most important scientific explorers of South America in the early nineteenth century. From 1799 to 1804, he worked alongside Alexander von Humboldt as the latter carried out his celebrated research in northern South America, but he later returned to conduct his own research farther south. *A Life in Shadow* accounts for the entire span of Bonpland's remarkable and diverse career in South America—in Argentina, Paraguay (where he was imprisoned for nearly a

decade), Uruguay, and southernmost Brazil—based on extensive archival material. The study reconnects Bonpland's divided records in Europe and South America and delves into his studies of rural resources in interior regions of South America, including experimental cultivation techniques. This is a fascinating account of a man—a doctor, farmer, rancher, scientific explorer, and political conspirator—who interacted in many revealing ways with the evolving societies and institutions of South America.

The Incredible Journey of Plants Stefano Mancuso.2020-03-24 Named a Best Book of the Year for the Know-It-All by The Globe and Mail In this richly illustrated volume, a leading neurobiologist presents fascinating stories of plant migration that reveal unexpected connections between nature and culture. When we talk about migrations, we should study plants to understand that these phenomena are unstoppable. In the many different ways plants move, we can see the incessant action and drive to spread life that has led plants to colonize every possible environment on earth. The history of this relentless expansion is unknown to most people, but we can begin our exploration with these surprising tales, engagingly told by Stefano Mancuso. Generation after generation, using spores, seeds, or any other means available, plants move in the world to conquer new spaces. They release huge quantities of spores that can be transported thousands of miles. The number and variety of tools through which seeds spread is astonishing: we have seeds dispersed by wind, by rolling on the ground, by animals, by water, or by a simple fall from the plant, which can happen thanks to propulsive mechanisms, the swaying of the mother plant, the drying of the fruit, and much more. In this accessible, absorbing overview, Mancuso considers how plants convince animals to transport them around the world, and how some plants need particular animals to spread; how they have been able to grow in places so inaccessible and inhospitable as to remain isolated; how they resisted the atomic bomb and the Chernobyl disaster; how they are able to bring life to sterile islands; how they can travel through the ages, as they sail around the world.

Anne of Green Gables Lucy Maud Montgomery.2023-08-31 Anne of Green Gables by Lucy Maud Montgomery is a 1908 novel by Canadian author Lucy Maud Montgomery (published as L. M. Montgomery). Written for all ages, it has been considered a classic children's novel since the mid-20th century. Set in the late 19th century, the novel recounts the adventures of 11 year old orphan girl Anne Shirley sent by mistake to two middle-aged siblings, Matthew and Marilla Cuthbert, who had originally intended to adopt a boy to help them on their farm in the fictional town of Avonlea in Prince Edward Island, Canada. The novel recounts how Anne makes her way through life with the Cuthberts, in school, and within the town. Plot summary Anne Shirley, a young orphan from the fictional community of Bolingbroke, Nova Scotia (based upon the real community of New London, Prince Edward Island),[16][17] is sent to live with Marilla and Matthew Cuthbert, unmarried siblings in their fifties and sixties, after a childhood spent in strangers' homes and orphanages. Marilla and Matthew had originally decided to adopt a boy from the orphanage to help Matthew run their farm at Green Gables, which is set in the fictional town of Avonlea (based on Cavendish, Prince Edward Island). Through a misunderstanding, the orphanage sends Anne instead. Anne is fanciful, imaginative, eager to please, and dramatic. She is also adamant her name should always be spelt with an e at the end. However, she is defensive about her appearance, despising her red hair, freckles and pale, thin frame, but liking her nose. She is talkative, especially when it comes to describing her fantasies and dreams. At first, stern Marilla says Anne must return to the orphanage, but after much observation and consideration, along with kind, quiet Matthew's encouragement, Marilla decides to let her stay. The book recounts Anne's struggles and joys in settling in to Green Gables (the first real home she's ever known): the country school where she quickly excels in her studies; her friendship with Diana Barry, the girl living next door (her best or bosom friend as Anne fondly calls her); her budding literary ambitions; and her rivalry with her

classmate Gilbert Blythe, who teases her about her red hair. For that, he earns her instant hatred, although he apologizes several times. As time passes, however, Anne realizes she no longer hates Gilbert, but her pride and stubbornness keep her from speaking to him. The book also follows Anne's adventures in Avonlea. Episodes include play-time with her friends Diana, calm, placid Jane Andrews, and beautiful, boy-crazy Ruby Gillis. She has run-ins with the unpleasant Pye sisters, Gertie and Josie, and frequent domestic scrapes such as dyeing her hair green while intending to dye it black, and accidentally getting Diana drunk by giving her what she thinks is raspberry cordial but which turns out to be currant wine.

One Hundred Years of Solitude Gabriel García Márquez.2022-10-11 One of the twentieth century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of life, the endlessness of death, the search for peace and truth—these universal themes dominate the novel. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an account of the history of the human race.

The Underdevelopment of Development Andre Gunder Frank.1991-01-01 Taking stock of political and economic development in the world today, this book re-examines development in an era of rapid social change, and reflects the work of an intellectual giant, Andre Gunder Frank. Gunder Frank deconstructed conventional development economics and modernization theory, creating dependency theory. Today dependency theory has been replaced by world systems analysis - the view that national and regional economic (and political) development cannot be seen in isolation; states are part of a global economy that, in a sense, dictates and limits action. This is an excellent synthesizing volume on the state of development studies. Although a great part of its purpose is to pay tribute to its intellectual fat

Homo Ludens Johan Huizinga.1971-06-01 An essential reference for all game designers, this 1938 classic is “a fascinating account of ‘man the player’ and the contribution of play to civilization” (Harper’s). In this classic evaluation of play that has become a “must-read” for those in game design, Dutch philosopher Johan Huizinga defines play as the central activity in flourishing societies. Like civilization, play requires structure and participants willing to create within limits. Starting with Plato, Huizinga traces the contribution of Homo Ludens, or “man the player” through Medieval Times, the Renaissance, and into our modern civilization. Huizinga defines play against a rich theoretical background, using cross-cultural examples from the humanities, business, and politics. Homo Ludens defines play for generations to come.

Literature and Historiography in the Spanish Golden Age Sofie Kluge.2021-09-30 Golden Age departures in historiography and theory of history in some ways prepared the ground for modern historical methods and ideas about historical factuality. At the same time, they fed into the period’s own aesthetic-historical culture which amalgamated fact and fiction in ways modern historians would consider counterfactual: a culture where imaginative historical prose, poetry and drama self-consciously rivalled the accounts of royal chroniclers and the dispatches of diplomatic envoys; a culture dominated by a notion of truth in which skilful construction of the argument and exemplarity took precedence over factual accuracy. Literature and Historiography in the Spanish Golden Age: The Poetics of History investigates this grey area backdrop of modern ideas about history, delving into a variety of Golden Age aesthetic-historical works which cannot be satisfactorily described as either works of literature or works of historiography but which belong in between these later strictly separate categories. The Nation of Plants Stefano Mancuso.2023-04-18 In this playful yet informative manifesto, a leading plant neurobiologist presents the eight fundamental pillars on which the life of plants—and by extension, humans—rests. Even if they behave as though they were, humans are not the masters of the Earth, but only one of its most irksome residents. From the moment of their arrival, about three hundred thousand years ago—nothing when compared to the history of life on our planet—humans have succeeded in changing the conditions of the planet so drastically as to make it a dangerous place for their own survival. The causes of this reckless behavior are in part inherent in their predatory nature, but they also depend on our total incomprehension of the rules that govern a community of living beings. We behave like children who wreak havoc, unaware of the significance of the things they are playing with. In The Nation of Plants, the most important, widespread, and

powerful nation on Earth finally gets to speak. Like attentive parents, plants, after making it possible for us to live, have come to our aid once again, giving us their rules: the first Universal Declaration of Rights of Living Beings written by the plants. A short charter based on the general principles that regulate the common life of plants, it establishes norms applicable to all living beings. Compared to our constitutions, which place humans at the center of the entire juridical reality, in conformity with an anthropocentrism that reduces to things all that is not human, plants offer us a revolution.

The Presentation of Self in Everyday Life Erving Goffman.2021-09-29 A notable contribution to our understanding of ourselves. This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.

The Intelligence of Flowers Maurice Maeterlinck.2013-12-05 A new translation of one of Maeterlinck's four great nature essays. The second of Maeterlinck's four celebrated nature essays--along with those on the life of the bee, ant, and termite--*The Intelligence of Flowers* (1907) represents his impassioned attempt to popularize scientific knowledge for an international audience. Writing with characteristic eloquence, Maeterlinck asserts that flowers possess the power of thought without knowledge, a capacity that constitutes a form of intelligence. Appearing one hundred years after the first publication, Philip Mosley's new translation of the original French essay, and the related essay *Scents*, maintains the verve of Maeterlinck's prose and renders it accessible to the present-day reader. This is a book for those who are excited by creative encounters between literature and science as well as current debates on the relationship of humankind to the natural world. The Belgian author Maurice Maeterlinck (1862-1949) is remembered best as a pioneer of Symbolist drama in the 1890s. Recipient of the Nobel Prize for Literature in 1911, Maeterlinck was also a prolific and accomplished essayist. Philip Mosley is Professor of English, Communications, and Comparative Literature at Penn State University.
