

The Triads As Business A Brief Introduction Routl

The Routledge International Handbook of the Crimes of the Powerful Gregg Barak.2015-06-05 Across the world, most people are well aware of ordinary criminal harms to person and property. Often committed by the powerless and poor, these individualized crimes are catalogued in the statistics collected annually by the FBI and by similar agencies in other developed nations. In contrast, the more harmful and systemic forms of injury to person and property committed by powerful and wealthy individuals, groups, and national states are neither calculated by governmental agencies nor annually reported by the mass media. As a result, most citizens of the world are unaware of the routinized crimes of the powerful, even though they are more likely to experience harms and injuries from these types of organized offenses than they are from the atomized offenses of the powerless. Research on the crimes of the powerful brings together several areas of criminological focus, involving organizational and institutional networks of powerful people that commit crimes against workers, marketplaces, taxpayers and political systems, as well as acts of torture, terrorism, and genocide. This international handbook offers a comprehensive, authoritative and structural synthesis of these interrelated topics of criminological concern. It also explains why the crimes of the powerful are so difficult to control. Edited by internationally acclaimed criminologist Gregg Barak, this book reflects the state of the art of scholarly research, covering all the key areas including corporate, global, environmental, and state crimes. The handbook is a perfect resource for students and researchers engaged with explaining and controlling the crimes of the

powerful, domestically and internationally.

The Triads as Business Yiu-kong Chu.2002-01-04 There is no doubt that the triads have become recognized as a sophisticated and international criminal force and, following the handover of Hong Kong to China, there have been increasing fears that their influence will spread to the West through emigration. This book investigates the reality behind the myth with a study of the Hong Kong triads, generally regarded as the headquarters of triad societies throughout the world. Yiu Kong Chu examines their origins, their organized extortion from legitimate businesses large and small, and their more recent moves into illegal activities such as drug trafficking, human smuggling and gambling. Contrary to the popular belief that Hong Kong triads are replacing the Italian Mafia as the most powerful criminal organization in the world, this book argues that Hong Kong triads may be declining, as other ethnic Chinese crime gangs emerge as powerful crime groups in Western societies. Based on interviews with ex triad members and victims of the triads, police from Hong Kong, mainland China and Europe, as well as documentary evidence *The Triads as Business* gives a vivid and compelling picture of the triads as part of a wider society.

The Routledge Handbook of Chinese Criminology Liqun Cao,Ivan Y. Sun,Bill Heberton.2013-07-24 As the world's second largest economy, China has made great progress in developing criminology. *The Routledge Handbook of Chinese Criminology* aims to be a key reference point to summarize the large body of literature in both Chinese and English about various aspects of crime and its control in China for international scholars with an interest in the development of criminological research on and in the Greater China region, and for everyone with a broad interest in international criminology. The editors of the handbook have selected authoritative contributors recognized for their research and scholarship on China, Hong Kong Macao, and Taiwan. This handbook consists of five sections: An account of the development

of criminology as an academic discipline in modern China, as well as some of the unique theories, strategies, or philosophies of crime control that have emerged, An analysis of the criminal justice system in China, including the police, the courts, corrections, juvenile justice and the death penalty, An exploration of the issues and problems in conducting research in China, Reflections on the nature of crime and criminality in China, including drugs, prostitution, human trafficking, corruption, floating population, domestic violence, and white-collar crime, An account of crime and criminal justice in Taiwan, Hong Kong, and Macao. The book presents a coherent and comprehensive collection of essays on current research and theory in criminology, crime and justice in China and Greater China, and the Editors' Introduction and Conclusion provide further contextualisation of the Handbook's key themes.

The Chinese Question: The Gold Rushes, Chinese Migration, and Global Politics Mae Ngai. 2021-08-24 Winner of the 2022 Bancroft Prize Shortlisted for the 2022 Cundill History Prize Finalist for the 2022 Los Angeles Times Book Prize How Chinese migration to the world's goldfields upended global power and economics and forged modern conceptions of race. In roughly five decades, between 1848 and 1899, more gold was removed from the earth than had been mined in the 3,000 preceding years, bringing untold wealth to individuals and nations. But friction between Chinese and white settlers on the goldfields of California, Australia, and South Africa catalyzed a global battle over "the Chinese Question": would the United States and the British Empire outlaw Chinese immigration? This distinguished history of the Chinese diaspora and global capitalism chronicles how a feverish alchemy of race and money brought Chinese people to the West and reshaped the nineteenth-century world. Drawing on ten years of research across five continents, prize-winning historian Mae Ngai narrates the story of the thousands of Chinese who left their homeland in pursuit of gold, and how they formed

communities and organizations to help navigate their perilous new world. Out of their encounters with whites, and the emigrants' assertion of autonomy and humanity, arose the pernicious western myth of the "coolie" laborer, a racist stereotype used to drive anti-Chinese sentiment. By the turn of the twentieth century, the United States and the British Empire had answered "the Chinese Question" with laws that excluded Chinese people from immigration and citizenship. Ngai explains how this happened and argues that Chinese exclusion was not extraneous to the emergent global economy but an integral part of it. The Chinese Question masterfully links important themes in world history and economics, from Europe's subjugation of China to the rise of the international gold standard and the invention of racist, anti-Chinese stereotypes that persist to this day.

The Triads as Business Yiu-kong Chu.2002-01-04 There is no doubt that the triads have become recognized as a sophisticated and international criminal force and, following the handover of Hong Kong to China, there have been increasing fears that their influence will spread to the West through emigration. This book investigates the reality behind the myth with a study of the Hong Kong triads, generally regarded as the headquarters of triad societies throughout the world. Yiu Kong Chu examines their origins, their organized extortion from legitimate businesses large and small, and their more recent moves into illegal activities such as drug trafficking, human smuggling and gambling. Contrary to the popular belief that Hong Kong triads are replacing the Italian Mafia as the most powerful criminal organization in the world, this book argues that Hong Kong triads may be declining, as other ethnic Chinese crime gangs emerge as powerful crime groups in Western societies. Based on interviews with ex triad members and victims of the triads, police from Hong Kong, mainland China and Europe, as well as documentary evidence *The Triads as Business* gives a vivid and compelling picture of the triads as part of a wider society.

Transnational Organised Crime in International Law Tom

Obokata.2010-08-17 There is extensive and detailed academic literature on the legal development of international crimes such as war crimes and crime against humanity. However, not much attention has been paid to other serious crimes, including narcotics-related offences, human trafficking and money laundering, which do not necessarily amount to international crimes in the traditional sense. The purpose of this monograph is to fill this gap and offer a critical analysis of developments in the field of transnational organised crime under international law. The book is divided into two parts. Part I is entitled Norms, Principles, and Concepts. It traces the history of organised crime and explores key concepts and norms relating to the practice from a multi-disciplinary perspective. It then looks at legal obligations imposed upon States as well as non-State actors in relation to transnational organised crime. Part II illustrates how these norms, principles and obligations are translated and enforced in practice. This will be done through case studies at the level of national law (Thailand, Serbia and the UK), regional law (European Union) and international law (United Nations). A book of many parts, its thematic coherence comes from its devotion to identifying the social threat posed by organised crime and the legal steps taken at the international and national levels against that threat. Rich with example and illustration and written in a light, direct, style, it will provide a lucid guide for practitioners, policy-makers and students to the largely untraversed territory of the international legal system set up to suppress transnational organised crime. Professor Neil Bolster, University of Canterbury, New Zealand. ...the international law governing organized crime is a close relative of the body of law applicable to the International Criminal Court and similar institutions. It provides a forum to address issues of more general concern, such as the scope of universal jurisdiction, immunities, statutory limitation and extradition. Tom Obokata's study, with its original and in

some ways unique perspective, enriches our knowledge of the field. Professor William Schabas, Irish Centre for Human Rights. The book is well written, its documentation is quite exhaustive, and its thesis is timely and compelling. Professor M. Cherif Bassiouni, DePaul University College of Law.

A History of Alcohol and Drugs in Modern South Asia Harald Fischer-Tiné, Jana Tschuren. 2014-01-03 At the beginning of the 21st century, alcoholism, transnational drug trafficking and drug addiction constitute major problems in various South Asian countries. The production, circulation and consumption of intoxicating substances created (and responded to) social upheavals in the region and had widespread economic, political and cultural repercussions on an international level. This book looks at the cultural, social, and economic history of intoxicants in South Asia, and analyses the role that alcohol and drugs have played in the region. The book explores the linkages between changing meanings of intoxicating substances, the making of and contestations over colonial and national regimes of regulation, economics, and practices and experiences of consumption. It shows the development of current meanings of intoxicants in South Asia - in terms of politics, cultural norms and identity formation - and the way in which the history of drugs and alcohol is enmeshed in the history of modern empires and nation states — even in a country in which a staunch teetotaler and active anti-drug crusader like Mohandas Gandhi is presented as the ‘father of the nation’. Primarily a historical analysis, the book also includes perspectives from Modern Indology and Cultural Anthropology and situates developments in South Asia in wider imperial and global contexts. It is of interest to scholars working on the social and cultural history of alcohol and drugs, South Asian Studies and Global History.

□□□□□□□□□□ Frank Joseph Shulman, Anna See Ping Leon Shulman. 2001-01-01 A descriptively annotated, multidisciplinary, cross-referenced and extensively indexed guide to 2,395

dissertations that are concerned either in whole or in part with Hong Kong and with Hong Kong Chinese students and emigres throughout the world.

The Oxford Handbook of Organized Crime Letizia Paoli.2014

This handbook explores organized crime, which it divides into two main concepts and types: the first is a set of stable organizations illegal per se or whose members systematically engage in crime, and the second is a set of serious criminal activities that are typically carried out for monetary gain.

The Routledge Handbook of Security Studies Myriam Dunn

Cavelty,Victor Mauer,Thierry Balzacq.2009-12-16 Focusing on contemporary challenges, this major new Handbook offers a wide-ranging collection of cutting-edge essays from leading scholars in the field of Security Studies. The field of Security Studies has undergone significant change during the past twenty years, and is now one of the most dynamic sub-disciplines within International Relations. It now encompasses issues ranging from pandemics and environmental degradation to more traditional concerns about direct violence, such as those posed by international terrorism and inter-state armed conflict. A comprehensive volume, comprising articles by both established and up-and-coming scholars, the Handbook of Security Studies identifies the key contemporary topics of research and debate today. This Handbook is a benchmark publication with major importance both for current research and the future of the field. It will be essential reading for all scholars and students of Security Studies, War and Conflict Studies, and International Relations.

Knowledge & Discourse Colin Barron,Nigel Bruce,David

Nunan.2014-06-06 Knowledge and Discourse presents an ecological approach to the study of discourse in social, academic and professional practices. It brings together distinguished scholars from diverse cultures - India, China, Australia, Canada among others - and disciplines - linguistics, anthropology, sociology, philosophy. The chapters collectively illustrate the

ecological approach by exploring how language makes connections between subjective experiences as people construct meaning and action. This book offers the reader a holistic, interdisciplinary approach to the study of language as discourse, questioning traditional views of disciplinary knowledge and the role of discourse in the pursuit, construction and compartmentalisation of such knowledge. Through the variety of disciplines, experiences and approaches, the contributors show how the world and word are contingent on each other. The notions of connectivity, contingency and change are themes that run through the book, and in the interweaving of these themes readers will find persuasive illustrations of an ecological approach to applied linguistics.

Routledge Handbook of Southeast Asian History Norman G.

Owen.2014-04-23 The study of the history of Southeast Asia is still growing, evolving, deepening and changing as an academic field. Over the past few decades historians have added nuance to traditional topics such as Islam and nationalism, and created new ones, such as gender, globalization and the politics of memory. The Routledge Handbook of Southeast Asian History looks at the major themes that have developed in the study of modern Southeast Asian history since the mid-18th century. Contributions by experts in the field are clustered under three major headings - Political History, Economic History, and Social and Cultural History - and chapters challenge the boundaries between topics and regions. Alongside the rise and fall of colonialism, topics include conflict in Southeast Asia, tropical ecology, capitalism and its discontents, the major religions of the region, gender, and ethnicity. The Handbook provides a stimulating introduction to the most important themes within the subject area, and is an invaluable reference work for any student and researcher on Southeast Asia and Asian and World history.

Sociology for Optimists Mary Holmes.2016-09-10 Mary Holmes shows how an optimistic sociology can help us think about and

understand social problems and positive social change. The perfect companion and/or antidote to studying sociology.

Crime and Terrorism Peter Grabosky, Michael Stohl. 2010-09-21
Terrorism and crime are two areas of knowledge that have traditionally been looked at independently. In this timely and original text, two of the leading authors in the field provide a clear and thorough look at terrorism from a criminological perspective. Integrating the latest research, the book explores the motives of criminals and terrorists, the causes of crime and terrorism and the impact of the law and the legal system. Central to this exploration, the authors examine the nexus between criminal and terrorist organizations, and the commonalities and differences between them and what this means for public policy and safety and security within states. Cross-cultural and international in perspective, this is a fresh and original text that will appeal to undergraduates, academics, and researchers in criminology, politics, international relations, sociology, communication and cultural studies. Compact Criminology is an exciting series that invigorates and challenges the international field of criminology. Books in the series are short, authoritative, innovative assessments of emerging issues in criminology and criminal justice - offering critical, accessible introductions to important topics. They take a global rather than a narrowly national approach. Eminently readable and first-rate in quality, each book is written by a leading specialist. Compact Criminology provides a new type of tool for teaching, learning and research, one that is flexible and light on its feet. The series addresses fundamental needs in the growing and increasingly differentiated field of criminology.

Routledge International Handbook of Critical Gang Studies David C. Brotherton, Rafael Jose Gude. 2021-07-28
Routledge International Handbook of Critical Gang Studies is rooted in the instability, inequality and liquidity of the post-industrial era. It understands the gang as a complex and contradictory

phenomenon; a socio-historical agent that reflects, responds to and creates a certain structured environment in spaces which are always in flux. International in scope and drawing on a range of sociological, criminological and anthropological traditions, it looks beyond pathological, ahistorical and non-transformative approaches, and considers other important factors that produce the phenomenon, whether the historically entrenched racialized power structure and segregation in Chicago; the unconstrained state-abandoned development of favelas in Brazil; or the colonization, displacement and dependency of people in Central America. This handbook reflects and defines the new theoretical and empirical traditions of critical gang studies. It offers a variety of perspectives, including: A view of gangs that takes into consideration the global context and appearance of the gang in its various forms and stages of development; An appreciation of the gang as a socio-cultural formation; A race-ethnic and class analysis of the gang that problematizes domain assumptions such as the underclass; Gender variations of the gang phenomenon with a particular emphasis on their intersectional properties; Relations between gangs and the political economy that address the dominant mode of production and exchange; Treatments that demonstrate the historically contingent nature of gangs and their changes across time; The contradictory impact of gang repressive policies, institutions and practices as part of a broader discussion on the nature of the state in specific societies; and Critical methodologies on gangs that involve discussions of visual and textual representations and the problematics of data collection and analysis. Authoritative, multi-disciplinary and international, this book will be of interest to criminologists, sociologists and anthropologists alike, particularly those engaged with critical criminology/sociology, youth crime, delinquency and global social inequality. The Handbook will also be of interest to policy makers and those in the peacebuilding field.

Organized Crime: A Very Short Introduction Georgios A

Antonopoulos, Georgios Papanicolaou. 2018-01-25 For many people around the world, instances of what is described as organized crime may be part of their everyday experience; in their neighbourhoods, their streets, and the places they work and live. Policymakers, law enforcement, and the media rarely fail to bring up the issue when discussing the nature and seriousness of contemporary criminal threats, and the appropriate responses towards them. Many more people are familiar with the notion of organized crime, as the film and TV industry regularly draw on fictional and real figures and situations. Organized crime feels like a tangible, inescapable issue in today's world. In this Very Short introduction, Georgios A. Antonopoulos and Georgios Papanicolaou uncover the reality of organized crime in our world today. Shining a light on the people involved in organized crime, Antonopoulos and Papanicolaou question whether the term 'organized' is used to evoke the image, the operations, and power of a legitimate organization, such as a corporation. Discussing whether there are particular crimes that the label 'organized crime' applies to, or if any crime can be organized, they also consider what happens when organized crime extends beyond borders. Using examples from across the globe, they analyse the different cultural traditions of organized crime, such as the Mafia, Yakuza, and Triads, and also the nature of organized crime, from arms trafficking and drug dealing to extortion. Finally they explore the methods and agencies in place to control and prevent organized crime. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Chinese Activism of a Different Kind Gao Jia. 2013-09-19 In Chinese Activism of a Different Kind, Jia Gao examines the social

behavior and pattern of actions of 45,000 or so Chinese students in their effort to stay permanently in Australia after the June 4 incident of 1989.

Policing in Hong Kong Kam C. Wong.2015-03-06 The HKP (Hong Kong Police), 'Asia's Finest', is a battle-tested professional organization with strong leadership, competent staff, and deep culture. It is also a continuously learning and reforming agency in pursuit of organisational excellence. *Policing in Hong Kong: History and Reform* is the first and only book on the development of the Hong Kong Police from an inside out and bottom up perspective. Written by a scholar and veteran of the HKP, it is an amalgamation of indigenous theory and supporting data. Part One begins by describing the development of police studies in Hong Kong as an emerging field since the 1990s. It supplies an analytical and empirical construct of colonial policing as well as a theoretical assessment. It discusses the nature, topologies, conduct, impact, and assessment of police reform. The book demonstrates how colonial policing in Hong Kong and elsewhere takes on the community's local color and hue in practice. Colonial policing in Hong Kong is policing with Chinese characteristics. Part Two tracks the history of the HKP's formation in the 1840s and examines how colonial policing in Hong Kong has changed over time. It describes the HKP's four distinctive reform periods: the formation period (1845), the reorganisation period (1872), the modernisation period (1950s), and finally, the decolonisation period (1990s). It argues that HKP reform in the 1950s was the pivotal point in transforming the HKP from a colonial force into a civil one by way of localisation, legalisation, modernisation, communalisation, and organisation. Overall, the book questions previously accepted colonial history, and in doing so, contributes to our understanding of challenges and opportunities facing HKP after the reversion of political authority from England to China.

From Policemen to Revolutionaries: A Sikh Diaspora in Global Shanghai, 1885-1945 Yin Cao.2017-10-10 In *From*

Downloaded from
gws.ala.org on
2023-03-25 by guest

Policemen to Revolutionaries, Yin Cao elaborates the rise and fall of the Sikh community in Shanghai by the turn of the twentieth century.

Global Crime Today Mark Galeotti.2014-02-25 Crime is recognized as a constant factor within human society, but in the twenty-first century organized crime is emerging as one of the distinctive security threats of the new world order. The more complex, organized and interconnected society becomes, its crime becomes too. This book recognizes that the new century will be defined in part by a struggle between an 'upperworld', defined by increasingly open economic systems and democratic politics, and a transnational, entrepreneurial, dynamic and richly varied underworld, willing and able to use and distort these trends for its own ends. In order to understand this challenge, this book gathers together experts from a variety of fields to understand how organized crime is changing. From the Sicilian Mafia and the Japanese Yakuza, to the new challenges of Russian and East European gangs and the 'virtual mafias' of the cybercriminals, this book offers a clear and concise introduction to many of the key players moving in this global criminal underworld. This book is a special issue of *Global Crime*

Beijing - A Concise History Stephen G. Haw.2006-11-22 Stephen Haw sets out the history of the city of Beijing, charting the course of its development from its early roots before 2000 BC to its contemporary position as capital of the People's Republic of China. Stephen Haw, a well-established author on China, outlines the establishment of the earliest cities in the years before 1000 BC, its status as regional capital during most of the long Zhou dynasty, and its emergence as capital of the whole of China after the conquest of the Mongol invaders under Chenghiz Khan and his successors. He considers the city's assumption of its modern name 'Beijing' under the Ming dynasty, conquest by the Manchus and the turbulent years of civil war that followed the collapse of the Qing dynasty in 1911, culminating in the communist

revolution and Beijing's resumption of the role of capital of China in 1949. Overall, Stephen Haw gives an impressive account of the long and fascinating history of a city that is growing in prominence as an urban centre of global significance.

Gangs and Minorities in Singapore Narayanan

Ganapathy.2023-12-21 This book is a unique ethnographic study of a racially exclusive Malay Muslim gang, Omega, which has its roots in Singapore's prisons and controls much of the illicit drug trade in the state. Similar to indigenous peoples elsewhere, Singapore Malays are disproportionately represented in the criminal justice system and can respond to structural marginalization and colonization through gang involvement. In demonstrating that gang membership can be an adaptive strategy for minority groups, this book promotes a more inclusive and restorative justice model for people with repeat convictions.

Blood Brothers B. Lintner.2016-04-30 From pirates singing Ricky Martin to mob hits carried out with samurai swords, Bertil Lintner offers a fascinating look at organized crime in the Asia Pacific. Both Western and Asian pundits assert that shady deals are an Asian way of life. Some argue that corruption and illicit business ventures - gambling, prostitution, drug trafficking, gun running, oil smuggling - are entrenched parts of the Asian value system. Yet many Asian leaders maintain that their cities are safer than Sydney, Amsterdam, New York, and Los Angeles. Making use of expertise gained from twenty years of living in Asia, Lintner exposes the role crime plays in the countries of the Far East. In *Blood Brothers*, he takes you inside the criminal fraternities of Asia, examining these networks and their past histories in order to answer one question: How are civil societies all over the world to be protected from the worst excesses of increasingly globalised mobsters?

Routledge Handbook of Contemporary Hong Kong Tai-lok

Lui,Stephen W.K. Chiu,Ray Yep.2018-07-17 When Britain and China negotiated the future of Hong Kong in the early 1980s,

their primary concern was about maintaining the status quo. The rise of China in the last thirty years, however, has reshaped the Beijing-Hong Kong dynamic as new tensions and divisions have emerged. Thus, post-1997 Hong Kong is a case about a global city's democratic transition within an authoritarian state. The Routledge Handbook of Contemporary Hong Kong introduces readers to these key social, economic, and political developments. Bringing together the work of leading researchers in the field, it focuses on the process of transition from a British colony to a Special Administrative Region under China's sovereign rule. Organized thematically, the sections covered include: 'One Country, Two Systems' in practice Governance in post-colonial Hong Kong Social mobilization The changing social fabric of Hong Kong society Socio-economic development and regional integration The future of Hong Kong. This book provides a thorough introduction to Hong Kong today. As such, it will be invaluable to students and scholars of Hong Kong's politics, culture and society. It will also be of interest to those studying Chinese political development and the impact of China's rise more generally.

Uneasy Partners Leo F. Goodstadt.2005-01-01 Challenging the wisdom about the way capitalism and colonialism joined forces to transform Hong Kong into one of the world's great cities, this book deploys case studies of the clash of interests between alien colonials and their Chinese constituents and the conflict between a pro-business government and its political and social responsibilities.

G.K. Hall Bibliographic Guide to East Asian Studies .2000 Routledge Handbook of Transnational Organized Crime Felia Allum, Stan Gilmour.2012-03-15 Transnational organized crime crosses borders, challenges States, exploits individuals, pursues profit, wrecks economies, destroys civil society, and ultimately weakens global democracy. It is a phenomenon that is all too often misunderstood and misrepresented. This handbook

attempts to redress the balance, by providing a fresh and interdisciplinary overview of the problems which transnational organized crime represents. The innovative aspect of this handbook is not only its interdisciplinary nature but also the dialogue between international academics and practitioners that it presents. The handbook seeks to provide the definitive overview of transnational organized crime, including contributions from leading international scholars as well as emerging researchers. The work starts by examining the origins, concepts, contagion and evolution of transnational organized crime and then moves on to discuss the impact, governance and reactions of governments and their agencies, before looking to the future of transnational organized crime, and how the State will seek to respond. Providing a cutting edge survey of the discipline, this work will be essential reading for all those with an interest in this dangerous phenomenon.

Routledge Handbook of International Criminology Cindy J. Smith, Sheldon X. Zhang, Rosemary Barberet. 2011-05-03 The Routledge Handbook of International Criminology brings together the latest thinking and findings from a diverse group of both senior and promising young scholars from around the globe. This collaborative project articulates a new way of thinking about criminology that extends existing perspectives in understanding crime and social control across borders, jurisdictions, and cultures, and facilitates the development of an overarching framework that is truly international. The book is divided into three parts, in which three distinct yet overlapping types of crime are analyzed: international crime, transnational crime, and national crime. Each of these perspectives is then articulated through a number of chapters which cover theory and methods, international and transnational crime analyses, and case studies of criminology and criminal justice in relevant nations. In addition, questions placed at the end of each chapter encourage greater reflection on the issues raised, and will encourage young

scholars to move the field of inquiry forward. This handbook is an excellent reference tool for undergraduate and graduate students with particular interests in research methods, international criminology, and making comparisons across countries.

A History of Ethiopia: Volume I (Routledge Revivals) E. A.

Wallis Budge.2014-08-01 This, the first volume of Sir E. A. Wallis Budge's *The History of Ethiopia: Nubia and Abyssinia*, first published in 1928, presents an account of Ethiopian history from the earliest legendary and mythic records up until the death of King Lebna Dengel in 1540. Using a vast range of sources - Greek and Roman reports, Biblical passages, Egyptian hieroglyphs, and Ethiopian chronicles - an enthralling narrative history is presented with clarity. This reissue will be of particular interest to students of Ancient Egyptian culture, religion and history.

Understanding Criminal Justice in Hong Kong Eric Wing

Hong Chui,T. Wing Lo.2016-09-13 In recent years law, crime and justice have become increasingly politicised in Hong Kong. *Understanding Criminal Justice in Hong Kong*, 2nd Edition offers a detailed and comprehensive overview of and introduction to the criminal justice system in Hong Kong, building upon recent events and controversies. This book provides a much-needed overview of the criminal justice system in Hong Kong, including new chapters on criminological research methods, defining crime, fear of crime, the criminal court system, police power and discretion, and plea bargaining. This revised and expanded second edition: Outlines the basic concepts of criminal law in Hong Kong, Analyses the process of the criminal justice system, ranging from the reporting of a crime through to the correctional system, Examines how criminal justice personnel work in practice, and how they deal with the offenders and victims during the criminal justice process, Invites readers to consider arguments and debates that surround the controversial issues in the Hong Kong criminal justice system. This book is a comprehensive resource for students studying this subject as part

of a wider course in criminal justice, police studies, law or social work, and for practitioners working in Hong Kong in the police, prisons, probation, voluntary agencies and other criminal justice personnel. Text features include review questions, lists of cases cited, and useful websites.

Film Piracy, Organized Crime, and Terrorism Gregory F. Treverton.2009 A study of the involvement of organized-crime and terrorist groups in product counterfeiting. Case studies of film piracy illustrate the problem of criminal and perhaps terrorist groups using this new high-payoff, low-risk way to fund their activities. Cooperation among law enforcement and governments worldwide is needed to combat intellectual-property theft, which threatens the global information economy, public safety, and national security.

Routledge Library Editions: Business and Economics in Asia

Various.2021-07-14 This set examines a vast range of topics covering all experiences of business and economics from across Asia. Dealing with early banking systems in China; the industrialisation of Korea and Taiwan; the evolution of Japanese business practices; economic development; protectionist policies; industrial investment; trade; tourism; and a host of other topics, the books collected here form a vital reference resource across a wide subject area.

An Economic History of Organized Crime Dennis M. P. McCarthy.2011-05-15 This book is a comparative study of organized crime groups from five different parts of the world: Europe; North America; Central America/South America/Caribbean basin; Africa; and Asia/Western Pacific. Each part contains two case studies and a shorter essay, a vignette. From Europe the case studies focus on the Italian mafias and the Russian mafia; the vignette, on the Albanian mafia. From North America the case studies highlight the US Mafia and the Mexican drug cartels; the vignette, organized crime in Canada. From Central America/South America/Caribbean basin the case studies

concentrate on the Colombian drug cartels and gangs of the Caribbean; the vignette, on organized crime in Cuba. From Africa the case studies examine resource wars and Somali piracy; the vignette, relations among international drugs trafficking, organized crime, and terrorism in North and West Africa. And from Asia/Western Pacific the case studies spotlight the Chinese Triads and Japanese Yakuza; the vignette, relations among international drugs trafficking, organized crime, and terrorism in Afghanistan. Written in non-specialist language, *An Economic History of Organized Crime* provides an original overview of a crucial problem of our times: the growing scourge of global organized crime. This book can be read with profit by the general public, but it also has value for academic specialists and professionals in law enforcement.

Secret Societies and Clubs in American History David

Luhrssen. 2015-09-09 Grounded in extensive historical research, this eye-opening survey reveals the long-undervalued role secret societies have played in American history. Americans are fascinated by secret societies and have devoured exaggerated claims for their influence. At the same time, scholarly assessments of covert groups that have shaped American social, cultural, and political history have often undervalued their role or even questioned their existence. This survey challenges both the exaggerators and the deniers. Freemasons? They may not be the hidden rulers of the world, but a significant number of America's founders were Masons. The Know Nothings? Two American presidents joined the movement. The Bohemian Grove? Republican politicians and corporate leaders really did engage in strange behavior under the redwood trees through the 20th century. Revealing fascinating facts about some of the most talked-about covert societies, including the Mafia, the Skull and Bones and the Ku Klux Klan, *Secret Societies and Clubs in American History* exposes the truth about the subcultures that made their mark on some of the most important events in the

nation's history and contributed to the shaping of the country itself.

Cosmopolitan Sex Workers Christine B.N. Chin.2013-04-15

Cosmopolitan Sex Workers is a groundbreaking look into the phenomenon of non-trafficked women who migrate from one global city to another to perform paid sexual labor in Southeast Asia. Through a new, innovative framework, Christine B.N. Chin shows that as neoliberal economic restructuring processes create pathways connecting major cities throughout the world, competition and collaboration between cities creates new avenues for the movement of people, services and goods. Loosely organized networks of migrant labor grow in tandem with professional-managerial classes, and sex workers migrate to different parts of cities, depending on the location of the clientele to which they cater. But while global cities create economic opportunities for migrants (and depend on the labor they provide), states react with new forms of securitization and surveillance. As a result, migrants must negotiate between appropriating and subverting the ideas that inform global economic restructuring. Chin argues that migration allows women to develop intercultural skills that help them to make these negotiations. *Cosmopolitan Sex Workers* is innovative not only in its focus on non-trafficked women, but in its analysis of the complex relationship between global economic processes and migration for sex work. Through fascinating interviews with sex workers in Kuala Lumpur, Chin shows that sex work can provide women with the means of earning income for families, for education, and even for their own businesses. It also allows women the means to travel the world - a form of cosmopolitanism from below.

The Routledge Handbook of Service Research Insights and Ideas

Eileen Bridges, Kendra Fowler.2020-04-02

The Routledge Handbook of Service Research Insights and Ideas offers authoritative coverage of current scholarship in the expanding

discipline of service research. Original chapters from the world's leading specialists in the discipline explore foundations and innovations in services, highlighting important issues relating to service providers, customers, and service design. The volume goes beyond previous publications by drawing together material from different functional areas, including marketing, human resource management, and service process design and operations. These topics are important in helping readers become knowledgeable about how different functional areas interact to create a successful customer experience. This book is ideal as a first port of call for postgraduate students desiring to get up to speed quickly in the services discipline. It is also a must-read for academics new to services who want to access cutting-edge research.

The Oxford Handbook of Offender Decision Making Wim Bernasco, Henk Elffers, Jean-Louis van Gelder. 2017-05-08

Although the issue of offender decision-making pervades almost every discussion of crime and law enforcement, only a few comprehensive texts cover and integrate information about the role of decision-making in crime. The Oxford Handbook of Offender Decision Making provide high-quality reviews of the main paradigms in offender decision-making, such as rational choice theory and dual-process theory. It contains up-to-date reviews of empirical research on decision-making in a wide range of decision types including not only criminal initiation and desistance, but also choice of locations, times, targets, victims, methods as well as large variety crimes including homicide, robbery, domestic violence, burglary, street crime, sexual crimes, and cybercrime. Lastly, it provides in-depth treatments of the major methods used to study offender decision-making, including experiments, observation studies, surveys, offender interviews, and simulations. Comprehensive and authoritative, the Handbook will quickly become the primary source of theoretical, methodological, and empirical knowledge about decision-making

as it relates to criminal behavior.

Canadian Organized Crime, Second Edition Stephen

Schneider.2022-07-29 The second edition of Stephen Schneider's highly regarded Canadian Organized Crime provides an introduction to criminal syndicates, organized crimes, and enforcement principles and practices in Canada. This widely informative and accessible new edition continues its comprehensive historical, empirical, and theoretical overview of organized crime in Canada with numerous case studies that make the material vivid and understandable for students. Incorporating new research, recent Canadian cases, and current enforcement structures and laws in Canada, this text will give readers a broad understanding of the social, political, and economic forces that contribute to the continued existence of organized crime in Canada. The text examines new trends and developments that have affected organized crime since the first edition, including the ongoing revolution in digital communications (the internet dark web), the proliferation of cryptocurrency, the opioid epidemic, organized criminality in the time of COVID, the growing power of the 'Ndrangheta in Ontario, the fallout from the implosion of Quebec's Rizzuto mafia family, and the new business model employed by the Hells Angels throughout Canada. This textbook will appeal to students in criminology, sociology, political science, and law and justice programs, criminal justice professionals working in the field of organized crime enforcement, and readers interested in true crime literature.

Mafia Raj Lucia Michelutti,Ashraf Hoque,Nicolas Martin,David Picherit,Paul Rollier,Arild E Ruud,Clarinda Still.2018-12-25 "The authors . . . illustrate the 'art of bossing'—techniques and methods used by such figures to climb to power and maintain their sovereignty." —A. Y. Lee, Choice "Mafia" has become an indigenous South Asian term. Like Italian mobsters, the South Asian "gangster politicians" are known for inflicting brutal violence while simultaneously upholding vigilante

justice—inspiring fear and fantasy. But the term also refers to the diffuse spheres of crime, business, and politics operating within a shadow world that is popularly referred to as the rule of the mafia, or “Mafia Raj.” Through intimate stories of the lives of powerful and aspiring bosses in India, Pakistan, and Bangladesh, this book illustrates their personal struggles for sovereignty as they climb the ladder of success. Ethnographically tracing the particularities of the South Asian case, the authors theorize what they call “the art of bossing,” providing nuanced ideas about crime, corruption, and the lure of the strongman across the world. “Through meticulous and uniquely collaborative ethnography, Mafia Raj opens readers’ eyes to the murky world of bosses in South Asia. With unforgettable portraits of the gangsters, politicians, hustlers, and extortionists dotting the region, this is the rare scholarly account that upends our commonly accepted notions of democracy, formality, and legitimacy.” —Milan Vaishnav, author of *When Crime Pays: Money and Muscle in Indian Politics* “Why does the figure of ‘the boss,’ in its various guises, loom so large in South Asia? In answering this question, the authors of this engagingly written book make a path-breaking contribution to the study of South Asian politics.” —John Harriss, author of *India: Continuity and Change in the Twenty-First Century*

New Perspectives on the History and Historiography of Southeast Asia Michael Arthur Aung-Thwin, Kenneth R.

Hall. 2011-05-13 Using a unique old-new treatment, this book presents new perspectives on several important topics in Southeast Asian history and historiography. Based on original, primary research, it reinterprets and revises several long-held conventional views in the field, covering the period from the classical age to the twentieth century. Chapters share the approach to Southeast Asian history and historiography: namely, giving agency to Southeast Asia in all research, analysis, writing, and interpretation. The book honours John K. Whitmore, a senior

historian in the field of Southeast Asian history today, by demonstrating the scope and breadth of the scholar's influence on two generations of historians trained in the West. In addition to providing new information and insights on the field of Southeast Asia, this book stimulates new debate on conventional ideas, evidence, and approaches to its teaching, research, and understanding. It addresses, and in many cases, revises specific, critically important topics in Southeast Asian history on which much conventional knowledge of Southeast Asia has long been based. It is of interest to scholars of Southeast Asian Studies, as well as Asian History.

As recognized, adventure as competently as experience about lesson, amusement, as without difficulty as treaty can be gotten by just checking out a books **The Triads As Business A Brief Introduction Routl** afterward it is not directly done, you could bow to even more nearly this life, approaching the world.

We find the money for you this proper as without difficulty as easy way to acquire those all. vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips,

whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It

is worth noting that while accessing free The Triads As Business A Brief Introduction Routl PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of The Triads As Business A Brief Introduction Routl free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to

personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About The Triads As Business A Brief Introduction Routl Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader?

*Downloaded from
gws.ala.org on
2023-03-25 by guest*

Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with The Triads As Business A Brief Introduction Routl So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading The Triads As Business A Brief Introduction Routl. Maybe you have knowledge that, people have search numerous times for their favorite readings like this The Triads As Business A Brief Introduction Routl, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. The Triads As Business A Brief Introduction Routl is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple

locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, The Triads As Business A Brief Introduction Routl is universally compatible with any devices to read.

Find The Triads As Business A Brief Introduction Routl

PixelScroll lists free Kindle eBooks every day that each includes their genre listing, synopsis, and cover. PixelScroll also lists all kinds of other free goodies like free music, videos, and apps. ManyBooks is another free eBook website that scours the Internet to find the greatest and latest in free Kindle books. Currently, there are over 50,000 free eBooks here. These are some of our favorite free e-reader apps: Kindle Ereader App: This app lets you read Kindle books on all your devices, whether you use Android, iOS, Windows, Mac, BlackBerry, etc. A big advantage of the Kindle reading app is that you can

download it on several different devices and it will sync up with one another, saving the page you're on across all your devices. If your library doesn't have a subscription to OverDrive or you're looking for some more free Kindle books, then Book Lending is a similar service where you can borrow and lend books for your Kindle without going through a library. You can search Google Books for any book or topic. In this case, let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title. How to Download Your Free eBooks. If there's more than one file type download available for the

free ebook you want to read, select a file type from the list above that's compatible with your device or app. If you are looking for free eBooks that can help your programming needs and with your computer science subject, you can definitely resort to FreeTechBooks eyes closed. You can text books, books, and even lecture notes related to tech subject that includes engineering as well. These computer books are all legally available over the internet. When looking for an eBook on this site you can also look for the terms such as, books, documents, notes, eBooks or monograms. Monthly "all you can eat" subscription services are now mainstream for music, movies, and TV. Will they be as popular for e-books as well? Books Pics is a cool site that allows you to download fresh books and magazines for free. Even though it has a premium version for faster and unlimited download speeds, the free version does pretty well too. It features a wide variety of books and magazines every

day for your daily fodder, so get to it now!
