*An Inquiry into the Existence of Guardian Angels* Pierre Jovanovic.1997-07-29 A journalist's extensive investigation in the areas of near-death experiences, supernatural interventions and guardian angels.

The Poetry of Rimbaud Robert Greer Cohn.1999 The standard work on Rimbaud returns to print In this proven study on Arthur Rimbaud, the world's leading authority on Stéphane Mallarmé provides a guide to the understanding and appreciation of Rimbaud's entire poetic oeuvre. Robert Greer Cohn begins with an outline of the poet's life, focusing particularly on a childhood and adolescence that produced astoundingly original and frequently exquisite works, the whole body of poetry by a writer who ended his literary creation in his twentieth year. Cohn's analysis, combined with a substantial introduction, weaves together the known biographical facts with major clues from the poems to present a coherent portrait of the inner and outwardly imaged world of the young poet. Cohn draws on non-doctrinaire and open-minded approaches of modern depth psychology and philosophy and, most particularly, on the dazzlingly integral cosmic vision of Mallarmé. The resulting unified view affords insights into the meaning of many difficult passages, especially in the most hermetic and resistant of the *Illuminations*. Cohn also reveals the early poems, which heretofore received little attention, to be rich in poetic humanity. He suggests that the seeds of Rimbaud's later development lie in these early poems, which provide convincing paths into subsequent complexities.

Substance Among Other Categories Joshua Hoffman, Gary S. Rosenkrantz.1994-11-25 This book revives a neglected but important topic in philosophy: the nature of substance. The belief that there are individual substances, for example, material objects and persons, is at the core of our common-sense view of the world yet many metaphysicians deny the very coherence of the concept of substance. The authors develop a novel account of what an individual substance is in terms of independence from other beings. In the process many other important ontological categories are explored: property, event, space, time. The authors show why alternative theories of substance fail, and go on to defend the intelligibility (though not the existence) of interacting spiritual and material substances.

An Anthology of Modern French Poetry (1850-1950) Peter Broome, Graham Chesters.1976-07-15 This anthology is the companion volume to *The Appreciation of Modern French Poetry*, the aim of which was to give detailed preliminary help with the problems of poetic appreciation. The fourteen poets represented here provide a varied and exciting introduction to what is probably the richest century of French poetry, from 1850 to 1950. Hugo, the colossus of the nineteenth century, whose work gives new resonance and vitality to imaginative vision, opens the anthology, and Michaux, the most individual and 'modern' of twentieth-century poets in that he bridges the gap between poetry and contemporary science, closes it. Almost all the major poets of the period are included: Nerval, Baudelaire, Mallarmé, Verlaine, Rimbaud and Laforgue from the second half of the nineteenth century; Valéry, Apollinaire, Supervielle and Eluard in the twentieth. The lesser known Cros and Desnos, fresh and spontaneous poets with an immediate appeal, invite a new look at the lyric traditions of French verse and offer an attractive new avenue for study. The choice of poems, dictated above all by their individual poetic value, reflects also the trends of recent criticism and the tastes of present-day readers. The texts are all accompanied by full notes, which not only explain local difficulties of vocabulary, syntax and expression, but lead the reader directly into the heart of the richness of theme, style and interpretation. These will prove of value not only to the student who is grappling with the basics of French verse, or is anxious to give depth to his familiarity, but to the general reader seeking to rekindle his enjoyment of French poetry. In addition, there are

introductions to each poet summarizing the essence of his art, useful suggestions for further reading, and groups of discussion topics to stimulate comparative insights and a wider responsiveness.

The Picture of Dorian Gray Oscar Wilde.2013-11-19 Hey Girl... I'd sell my soul for you Dorian Gray might be as pretty as a picture, but he's paid a devilishly high price for it. He'll stay drop-dead gorgeous, but there's something nasty festering in the attic...

**Jean Béraud, 1849-1935** Patrick Offenstadt.1999 As a true city man Jean Beraud tried with his pictures to capture the real vitality of urban life in Paris. He made portraits of elegant society ladies, but also of working-class women, pictures of folk dancing and absinthe drinkers in the bars and cafes.

**The New Nietzsche** David B. Allison.1985 The fifteen essays, written by such eminent scholars as Derrida, Heidegger, Deleuze, Klossowski, and Blanchot, focus on the Nietzschean concepts of the Will to Power, the Overman, and the Eternal Return, discuss Nietzsche's style, and deal with the religious implications of his ideas. Taken together they provide an indispensable foil to the interpretations available in most current American writing.

**The Art of Allegiance** Michael J. Schreffler.2007 The Art of Allegiance explores the ways in which Spanish imperial authority was manifested in a compelling system of representation for the subjects of New Spain during the seventeenth century. Michael Schreffler identifies and analyzes a corpus of source material--paintings, maps, buildings, and texts--produced in and around Mexico City that addresses themes of kingly presence and authority as well as obedience, loyalty, and allegiance to the crown. The Art of Allegiance opens with a discussion of the royal palace in Mexico City, now destroyed but known through a number of images, and then moves on to consider its interior decoration, particularly the Hall of Royal Accord and the numerous portraits of royalty and government officials displayed in the palace. Subsequent chapters examine images in which the conquest of Mexico is depicted, maps showing New Spain's relationship to Spain and the larger world, and the restructuring of space in and through imperial

rule. Although the book focuses on material from the reign of Charles II (1665-1700), it sheds light on the wider development of cultural politics in the Spanish colonial world.

**Twelve Years a Slave** Solomon Northup.2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**The Influence of French on Eighteenth-century Literary Russian** May Smith.2006 This book seeks to establish the degree to which Gallicisms permeated the Russian language in the eighteenth century. The largest group of borrowings were the semantic and phraseological calques. In order to examine this influence, the author has selected scores of examples from the original works, translations and correspondence of Russian writers from the 1730s to the end of the century. The calques analysed belong to various registers of the literary language, from the prose used in essays and correspondence to the most lyrical form found in poetry and certain translations. This book concludes that the French influence was overwhelming and fully enhanced the Russian literary language that was developed during this period.

**Six Walks in the Fictional Woods** Umberto Eco.1994 In this exhilarating book, we accompany Umberto Eco as he explores the intricacies of fictional form and method. Using examples ranging from fairy tales and Flaubert, Poe and Mickey Spillane, Eco draws us in by means of a novelist's techniques, making us his collaborators in the creation of his text and in the investigation of some of fiction's most basic mechanisms.

*Walkscapes* Francesco Careri.2017-12-20 Walkscapes deals with strolling as an architecture of landscape. Walking as an autonomous form of art, a primary act in the symbolic transformation of the territory, an aesthetic instrument of knowledge and a physical transformation of the 'negotiated' space, which is converted into an urban intervention. From primitive nomadism to Dada and Surrealism, from the Lettrist to the Situationist International, and from Minimalism to Land Art, this book narrates the perception of landscape through a history of the traversed city.

**A Hundreth Sundrie Flowres** George Gascoigne, G. W. Pigman. 2000 This is the only edition of George Gascoigne's *A Hundreth Sundrie Flowres* to respect the integrity of the first edition, which he published as an anonymous anthology in 1573. Earlier editors either based their work on *The Posies of George Gascoigne Esquire*, self-censored and published in 1575, or omitted the two plays, *Supposes* and *Jocasta*. But, from a bibliographical point of view, the plays are an integral part of the first edition, and the work that suffers most from revision is Gascoigne's masterpiece, *The Adventures of Master F.J.* The critical apparatus of this edition allows the reader to reconstruct the changes Gascoigne made to *The Posies*, and all the works which appear there for the first time are included. Half of the works in this edition, including the plays and Gascoigne's longest poem, 'The fruites of Warre', have never received any commentary before. The commentary closely studies Gascoigne's use of his sources, especially in his translations from the Italian, and situates his works in their literary and social milieu. It also includes all of the extensive marginal notes that Gabriel Harvey made in his copy of *The Posies*. The biographical introduction corrects a number of mistakes in Prouty's standard biography and, in particular, offers a fuller, more accurate account of Gascoigne's military service in the Netherlands.

**Malone Dies** Samuel Beckett. 2012-10-04 'Malone', writes Malone, 'is what I am called now.' On his deathbed, and wiling away the time with stories, the octogenarian Malone's account of his condition is intermittent and contradictory, shifting with the vagaries of the passing days: without mellowness, without elegiacs; wittier, jauntier, and capable of wilder rages than Molloy. The sound I liked best had nothing noble about it. It was the barking of the dogs, at night, in the clusters of hovels up in the hills, where the stone-cutters lived, like generations of stone-cutters before them. It came down to me where I lay, in the house in the plain, wild and soft, at the limit of earshot, soon weary. The dogs of the valley replied with their gross bay all fangs and jaws and foam...

**Architecture of Counterrevolution** Samia Henni. 2017 After over 120 years of French colonial rule in Algeria, the growing aspirations for independence culminated in the Algerian Revolution of 1954, which lasted until 1962. In order to combat the uprisings, the French civilian and military authorities reorganised the entire territory of the country, swiftly erected new infrastructures and pursued building policies that were ultimately intended to stabilize French dominance in Algeria. The study describes the architectural responses undertaken in the midst of this protracted and bloody armed conflict. It analyses their origins, evolutions and objectives, identifies the actors involved and reveals the underlying design methods.

*The Derrida Reader* Jacques Derrida. 1998-01-01 In the English-speaking world, Jacques Derrida's writings have most influenced the discipline of literary studies. Yet what has emerged since the initial phase of Derrida's influence on the study of English literature, classed under the rubric of deconstruction, has often been disowned by Derrida. What, then, can Derrida teach us about literary language, about the rhetoric of literature, and about questions concerning style, form, and structure? *The Derrida Reader* draws together a number of Derrida's most interesting and idiosyncratic essays that treat literary language, the idea of the literary, and questions of poetics and poetry. The essays discuss single tropes or concepts, a figure such as metaphor, the ideas of titles and signatures, proper names, and Derrida's thinking on such subjects as undecidability or aporia. The editor's introduction is a demonstration in practice of how Derrida reads and how he adapts the act of reading to the text or figure in question. The introduction also outlines each essay's main points, its usefulness for reading literary texts, and its particular area of interest. *The Derrida Reader* thus provides students of literature with a focused, contextualized, and readily understandable volume.

**Classical Marble: Geochemistry, Technology, Trade** N. Herz, Marc Waelkens. 2013-04-17 *Marble in Ancient Greece and Rome: Geology, Quarries,*

Commerce, Artifacts Marble remains the sine qua non raw material of the ancient Greeks and Romans. Beginning in the Bronze Age sculpture began in marble and throughout classical times the most important statues, reliefs, monuments and inscriptions were made of it. Yet, quarry sources changed in time as preferences for different marbles were influenced by local traditions, the possibilities of transport, esthetic tastes, and economics. Marble studies and the identification of the provenance of marble can thus reveal much about Greek and Roman history, trade, esthetics and technology. Persons in many disciplines are studying various aspects of Greek and Roman marble usage. Geologists and geochemists are working on methods to determine the provenance of marble; archaeologists are noting changing patterns of import and use in excavation~ and discovering how improving quarrying techniques and preliminary dressing of the extracted material influenced the final shape of artifacts; ancient historians are now understanding quarry organization and bureaucracies that controlled marble production and trade; art historians are seeing how physical characteristics of the stone affected the techniques and style of sculpture; architects and engineers are interested in quarry technologies and usage in building construction. These specialists drawn from many disciplines rarely have an opportunity to compare notes and see how each can contribute to the research effort of others.

**Bibliographia Cartesiana** Gregor Sebba.2012-12-06 This book offers a new type of working tool for Cartesian studies. It presents the literature of

the last 160 years in alphabetical order (Part Two), combined with a systematic analytical survey (Part One) and a detailed topical index to the whole (Part Three). This organization makes it possible to turn bibliography from a repository of references into a workshop of research. The systematic survey of Part One and the topical index of Part Three, together, offer a *mise au point* of Descartes studies over their full historical and topical range. The results have often been surprising and illuminating to the author, and if his experience is any guide, the reader, too, will begin to wonder about certain seemingly well-settled points, or marvel at the Protean shapes which our elusive philosopher assumes when mighty commentators force him to reveal his true nature. A work which has been in the making for fifteen years must show the traces of expansion in scope, and changes in evaluation. *Bibliographia cartesiana* amends my Descartes chapter in *A Critical Bibliography of French Literature*, v. 3, 1961 (see no. I9a), and supersedes an earlier version of Parts One and Two, published in 1959 under the main title *Descartes and his Philosophy*, v. 1 (set: no. I8a). Part I (Introduction to Descartes Studies) divides the field into eleven broad areas.

**Russians Versus Fischer** Dmitry Plisetsky, Sergey Voronkov. 2005 This magnificent volume contains the extraordinary story of the prolonged battle between Bobby Fischer, the lone American genius who is perhaps the most famous chess player of all time, and the long-standing and all-dominating Soviet chess machine. For the first time readers will be able to view virtually all the secret documents on the Fischer problem, many of which have never previously been published. These include papers from the archives of the KGB, the Communist Party Central Committee, the USSR Sports Committee, and the Chess Federation. Together with this, there are reports and analysis of Fischer's personality and play, written at the demand of the Soviet authorities by the country's leading Grandmasters, legends such as Mikhail Tal, Tigran Petrosian, Vassily Smyslov, Paul Keres, Victor Korchnoi, and Efim Geller. Also contained in *Russians Versus Fischer* are annotations and the stories on all of the 158 chess encounters between Fischer and his Soviet adversaries, and a large number of rare photographs and drawings. This book is a significantly enlarged and updated version of the one first published in Russia in 1994.

**History and Religion** Bernd-Christian Otto, Susanne Rau, Jörg Rüpke. 2015-08-31 History is one of the most important cultural tools to make sense of one's situation, to establish identity, define otherness, and explain change. This is the first systematic scholarly study that analyses the complex relationship between history and religion, taking into account religious groups both as producers of historical narratives as well as distinct topics of historiography. Coming from different disciplines, the authors of this volume ask under which conditions and with what consequences religions are historicised. How do religious groups employ historical narratives in the construction of their identities? What are the biases and elisions of current analytical and descriptive frames in the History of Religion? The volume aims at initiating a comparative historiography of religion and combines disciplinary competences of Religious Studies and the History of Religion, Confessional Theologies, History, History of Science, and Literary Studies. By applying literary comparison and historical contextualization to those texts that have been used as central documents for histories of individual religions, their historiographic themes, tools and strategies are analysed. The comparative approach addresses circum-Mediterranean and European as well as Asian religious traditions from the first millennium BCE to the present and deals with topics such as the origins of religious historiography, the practices of writing and the transformation of narratives.

**Dialogue and Deconstruction** Diane P. Michelfelder, Richard E. Palmer, Professor Richard E Palmer. 1989-01-01 Text of and reflection on the 1981 encounter between Hans-Georg Gadamer and Jacques Derrida, which featured a dialogue between hermeneutics in Germany and post-structuralism in France.

**Orientalism and War** Tarak Barkawi, Ketih Stanski. 2013-01-08 Orientalism imagines history as a conflict between 'East' and 'West' from the Greco-

Persian Wars onward. An institutionalized, expert community represents this world of East and West with authority, as, for example, in media and policy discussions of the Islamic sources of terrorism. The essays in this volume, which include chapters by historian Bruce Cumings, feminist scholar Susan Jeffords, and cultural critic John Mowitz, explore three dimensions connecting Orientalism and war. The first concerns the representations of 'self' and 'other' that mark the place of Orientalism in war and which, for example, saturate media coverage of the War on Terror. The second follows the way in which hostilities produce Orientalisms, since it is in and through conflict that Eastern and Western identities are defined and propagated. The third focuses on how Orientalisms amount to acts of war. By redefining politics and identity in such a way that the West is required to bring order to an unstable, violent East, Orientalisms are constitutive of conflict. Defense studies scholar Patrick Porter concludes with an assessment of each essay's critical import and proposes paths for further study.--Publisher's description.
