**Black Swan Green** David Mitchell.2007-02-27 By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Longlisted for the Man Booker Prize Selected by Time as One of the Ten Best Books of the Year | A New York Times Notable Book | Named One of the Best Books of the Year by The Washington Post Book World, The Christian Science Monitor, Rocky Mountain News, and Kirkus Reviews | A Los Angeles Times Book Prize Finalist | Winner of the ALA Alex Award | Finalist for the Costa Novel Award From award-winning writer David Mitchell comes a sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. *Black Swan Green* tracks a single year in what is, for thirteen-year-old Jason Taylor, the sleepiest village in muddiest Worcestershire in a dying Cold War England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys' games on a frozen lake; of "nightcreeping" through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de Crommelynck, an elderly bohemian emigré who is both more and less than she appears; of Jason's search to replace his dead grandfather's irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first Duran Duran LPs, and first deaths; of Margaret Thatcher's recession; of Gypsies camping in the woods and the hysteria they inspire; and, even closer to home, of a slow-motion divorce in four seasons. Pointed, funny, profound, left-field, elegiac, and painted with the stuff of life, *Black Swan Green* is David Mitchell's subtlest and most effective achievement to date. Praise for *Black Swan Green* "[David Mitchell has created] one of the most endearing, smart, and funny young narrators ever to rise up from the pages of a novel. . . . The always fresh and brilliant writing will carry readers back to their own childhoods. . . . This enchanting novel makes us remember exactly what it was like."—The Boston Globe "[David Mitchell is a] prodigiously daring and imaginative young writer. . . . As in the works of Thomas Pynchon and Herman Melville, one feels the roof of the narrative lifted off and oneself in thrall."—Time

**Unbroken (Movie Tie-in Edition)** Laura Hillenbrand. 2018-08-21 #1 NEW YORK TIMES BESTSELLER • The incredible true story of survival and salvation that is the basis for two major motion pictures: 2014's *Unbroken* and the upcoming *Unbroken: Path to Redemption*. On a May afternoon in 1943, an Army Air Forces bomber crashed into the Pacific Ocean and disappeared, leaving only a spray of debris and a slick of oil, gasoline, and blood. Then, on the ocean surface, a face appeared. It was that of a young lieutenant, the plane's bombardier, who was struggling to a life raft and pulling himself aboard. So began one of the most extraordinary odysseys of the Second World War. The lieutenant's name was Louis Zamperini. In boyhood, he'd been a cunning and incorrigible delinquent, breaking into houses, brawling, and fleeing his home to ride the rails. As a teenager, he had channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics and within sight of the four-minute mile. But when war had come, the athlete had become an airman, embarking on a journey that led to his doomed flight, a tiny raft, and a drift into the unknown. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, a foundering raft, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. In her long-awaited new book, Laura Hillenbrand writes with the same rich and vivid narrative voice she displayed in *Seabiscuit*. Telling an unforgettable story of a man's journey into extremity, *Unbroken* is a testament to the resilience of the human mind, body, and spirit. Praise for *Unbroken* "Extraordinarily moving . . . a powerfully drawn survival epic."—*The Wall Street Journal* "[A] one-in-a-billion story . . . designed to wrench from self-respecting critics all the blurby adjectives we normally try to avoid: It is amazing, unforgettable, gripping, harrowing, chilling, and inspiring."—*New York* "Staggering . . . mesmerizing . . . Hillenbrand's writing is so ferociously cinematic, the events she describes so incredible, you don't dare take your eyes off the page."—*People* "A meticulous, soaring and beautifully written account of an extraordinary life."—*The Washington Post* "Ambitious and powerful . . . a startling narrative and an inspirational book."—*The New York Times Book Review* "Marvelous . . . *Unbroken* is wonderful twice over, for the tale it tells and for the way it's told. . . . It manages maximum velocity with no loss of subtlety."—*Newsweek* "Moving and, yes, inspirational . . . [Laura] Hillenbrand's unforgettable book . . . deserve[s] pride of place alongside the best works of literature that chart the complications and the hard-won triumphs of so-called ordinary Americans and their extraordinary time."—Maureen Corrigan, *Fresh Air* "Hillenbrand . . . tells [this] story with cool elegance but at a thrilling sprinter's pace."—*Time* "*Unbroken* is too much book to hope for: a hellride of a story in the grip of the one writer who can handle it."—Christopher McDougall, author of *Born to Run*

**The Falling Sky** Davi Kopenawa, Bruce Albert. 2023-01-31 The 10th anniversary edition A Guardian Best Book about Deforestation A New Scientist Best Book of the Year A Taipei Times Best Book of the Year "A perfectly grounded account of what it is like to live an indigenous life in communion with one's personal spirits. We are losing worlds upon worlds." —Louise Erdrich, *New York Times Book Review* "The Yanomami of the Amazon, like all the indigenous peoples of the Americas and Australia, have experienced the end of what was once their world. Yet they have survived and somehow succeeded in making sense of a wounded existence. They have a lot to teach us." —Amitav Ghosh, *The Guardian* "A literary treasure...a must for anyone who wants to understand more of the diverse beauty and wonder of existence." —*New Scientist* A now classic account of the life and thought of

Davi Kopenawa, shaman and spokesman for the Yanomami, *The Falling Sky* paints an unforgettable picture of an indigenous culture living in harmony with the Amazon forest and its creatures, and its devastating encounter with the global mining industry. In richly evocative language, Kopenawa recounts his initiation as a shaman and first experience of outsiders: missionaries, cattle ranchers, government officials, and gold prospectors seeking to extract the riches of the Amazon. A coming-of-age story entwined with a rare first-person articulation of shamanic philosophy, this impassioned plea to respect indigenous peoples' rights is a powerful rebuke to the accelerating depredation of the Amazon and other natural treasures threatened by climate change and development.

**Countdown to a Moon Launch** Jonathan H. Ward. 2015-07-07 Thousands of workers labored at Kennedy Space Center around the clock, seven days a week, for half a year to prepare a mission for the liftoff of Apollo 11. This is the story of what went on during those hectic six months. Countdown to a Moon Launch provides an in-depth look at the carefully choreographed workflow for an Apollo mission at KSC. Using the Apollo 11 mission as an example, readers will learn what went on day by day to transform partially completed stages and crates of parts into a ready-to-fly Saturn V. Firsthand accounts of launch pad accidents, near misses, suspected sabotage, and last-minute changes to hardware are told by more than 70 NASA employees and its contractors. A companion to Rocket Ranch, it includes many diagrams and photographs, some never before published, to illustrate all aspects of the process. NASA's groundbreaking use of computers for testing and advanced management techniques are also covered in detail. This book will demystify the question of how NASA could build and launch Apollo missions using 1960s technology. You'll discover that there was no magic involved - just an abundance of discipline, willpower, and creativity.

**All Incomplete** Stefano Harney, Fred Moten, Denise Ferreira da Silva. 2021-04-29 Building on the ideas Harney and Moten developed in *The Undercommons*, *All Incomplete* extends the critical investigation of logistics, individuation and sovereignty. It reflects their chances to travel, listen and deepen their commitment to and claim upon partiality. *All Incomplete* studies the history of a preference for the force and ground and underground of social existence. Engaging a vibrant constellation of thought that includes the work of Amilcar Cabral, Erica Edwards, Denise Ferreira da Silva, Cedric Robinson, Walter Rodney, Hortense Spillers and many others, Harney and Moten seek to share and understand that preference. In so doing, Moten and Harney hope to have forged what Manolo Callahan, echoing Ivan Illich, calls a convivial tool that - despite the temptation to improve and demand, develop and govern, separate and grasp - helps us renew our habits of assembly. *All Incomplete* features the work of award winning photographer Zun Lee, exploring and celebrating the everyday spaces of Black sociality, intimacy, belonging, and insurgency, and a preface by Denise Ferreira da Silva.

**Cycling and Cinema** Bruce Bennett. 2019-04-30 A unique exploration of the history of the bicycle in

cinema, from Hollywood blockbusters and slapstick comedies to documentaries, realist dramas, and experimental films. *Cycling and Cinema* explores the history of the bicycle in cinema from the late nineteenth century through to the present day. In this new book from Goldsmiths Press, Bruce Bennett examines a wide variety of films from around the world, ranging from Hollywood blockbusters and slapstick comedies to documentaries, realist dramas, and experimental films, to consider the complex, shifting cultural significance of the bicycle. The bicycle is an everyday technology, but in examining the ways in which bicycles are used in films, Bennett reveals the rich social and cultural importance of this apparently unremarkable machine. The cinematic bicycles discussed in this book have various functions. They are the source of absurd comedy in silent films, and the vehicles that allow their owners to work in sports films and social realist cinema. They are a means of independence and escape for children in melodramas and kids' films, and the tools that offer political agency and freedom to women, as depicted in films from around the world. In recounting the cinematic history of the bicycle, Bennett reminds us that this machine is not just a practical means of transport or a child's toy, but the vehicle for a wide range of meanings concerning individual identity, social class, nationhood and belonging, family, gender, and sexuality and pleasure. As this book shows, two hundred years on from its invention, the bicycle is a revolutionary technology that retains the power to transform the world.

A popular way to read an ebook is on an e-reader, such as a Kindle or a Nook, but you can also read ebooks from your computer, tablet, or smartphone. The first step is to go to make sure you're logged into your Google Account and go to Google Books at [books.google.com](https://books.google.com). There aren't a lot of free Kindle books here because they aren't free for a very long period of time, though there are plenty of genres you can browse through. Look carefully on each download page and you can find when the free deal ends. Authorama.com features a nice selection of free books written in HTML and XHTML, which basically means that they are in easily readable format. Most books here are featured in English, but there are quite a few German language texts as well. Books are organized alphabetically by the author's last name. Authorama offers a good selection of free books from a variety of authors, both current and classic. Finding the Free Ebooks. Another easy way to get Free Google eBooks is to just go to the Google Play store and browse. Top Free in Books is a browsing category that lists this week's most popular free downloads. This includes public domain books and promotional

books that legal copyright holders wanted to give away for free. If you already know what you are looking for, search the database by author name, title, language, or subjects. You can also check out the top 100 list to see what other people have been downloading. Since Centsless Books tracks free ebooks available on Amazon, there may be times when there is nothing listed. If that happens, try again in a few days. GetFreeBooks: Download original ebooks here that authors give away for free. Obooko: Obooko offers thousands of ebooks for free that the original authors have submitted. You can also borrow and lend Kindle books to your friends and family. Here's a guide on how to share Kindle ebooks. The browsing interface has a lot of room to improve, but it's simple enough to use. Downloads are available in dozens of formats, including EPUB, MOBI, and PDF, and each story has a Flesch-Kincaid score to show how easy or difficult it is to read.
