Discipline and Punish Michel Foucault.2012-04-18 A brilliant work from the most influential philosopher since Sartre. In this indispensable work, a brilliant thinker suggests that such vaunted reforms as the abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

National Populism Roger Eatwell,Matthew Goodwin.2018-10-25 A crucial new guide to one of the most important and most dangerous phenomena of our time: the rise of populism in the West Across the West, there is a rising tide of people who feel excluded, alienated from mainstream politics, and increasingly hostile towards minorities, immigrants and neo-liberal economics. Many of these voters are turning to national populist movements, which pose the most serious threat to the Western liberal democratic system, and its values, since the Second World War. From the United States to France, Austria to the UK, the national populist challenge to mainstream politics is all around us. But what is behind this exclusionary turn? Who supports these movements and why? What does their rise tell us about the health of liberal democratic politics in the West? And what, if anything, should we do to respond to these challenges? Written by two of the foremost experts on fascism and the rise of the populist right, National Populism is a lucid and deeply-researched guide to the radical transformations of today's political landscape, revealing why liberal democracies across the West

are being challenged-and what those who support them can do to help stem the tide.

Homo Deus Yuval Noah Harari.2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original,

compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

A Political Psychology Approach to Militancy and Prefigurative Activism André Luis Leite de Figueirêdo Sales. 2023-03-06 This book frames a series of protests occurred in Brazil from 2013 to 2016 as exemplary cases of global trends in contentious politics to analyze the tension between two forms of collective action: the militant (militante) and the prefigurative activist (ativista). Building on sociology, political science, and psychology, it explores the relationship between protestors' activities and conceptions of political participation with their subjectivity and agency. The protest

cycle triggered by the June 2013 events in Brazil gave strength and popularity to repertoires and strategies of collective action uncommon and innovative. Those praxes defied political parties' conventions, highlighted the limitations of militant unionist tradition, and brought prefigurative activism to the Brazilian left-wing agenda. In this book, Andre Luis Leite de Figueirêdo Sales combines theoretical tools and traditions from South and North America to build an interdisciplinary approach to Political Psychology and answer the question: what psycho-political differences lie behind the disparate forms of political action adopted by militantes (militants) and ativistas (prefigurative activists) in Brazil? Inspired by books of short stories, the chapters discuss different aspects of the distinction between militancy and prefigurative activism. On them, the author deals with problems such as: how are the ongoing changes in Brazilian protest culture connected with the rising popularity of autonomist movements across the globe? What differences does it make rooting protest strategies in principles like resistance or refusal? How does the culture informing militants and prefigurative activists' conduct affect their political goals and horizons? How does militant and prefigurative activist culture relate to militants and prefigurative activists' forms of political consciousness? A Political Psychology Approach to Militancy and Prefigurative Activism: The Case of Brazil will be a valuable tool for social movement researchers from different disciplines interested in understanding how can subjectivity be, at the same time, a determiner of activities performed in collective action, and determined by these same transformative deeds.

Limites da democracia Marcos Nobre.2022-06-20 As manifestações de Junho de 2013 inauguraram uma sequência de eventos que destroçou os pactos institucionais. O período de instabilidade política e econômica que se seguiu aos protestos, sacudido pela Lava Jato e pelo impeachment de Dilma Rousseff, desembocou na eleição de Bolsonaro e na transformação completa

da paisagem política nacional. Eis o processo que Marcos Nobre retrança, diseca e explica neste livro luminoso e contundente.

Limits of Democracy Marcos Nobre.2022-10-13 In this timely book, Brazilian political philosopher Marcos Nobre analyzes the social and political roots of the election of Jair Bolsonaro to the presidency of Brazil and shows how this process is connected to the rise of new far-right movements threatening democracy around the world. Nobre describes the rise of the movement that elected Bolsonaro as a reactionary and anti-democratic highjack of the democratic impulse unleashed by the June 2013 uprisings, when millions of Brazilians took to the streets to protest against a dysfunctional political system, and frames the Brazilian case within the global crisis that exposed the limits of a democracy based on the neoliberal consensus after the 2008 financial crisis. According to Nobre, the June 2013 uprisings in Brazil was part of the global cycle of popular protests that swept many countries between 2011 and 2013, reclaiming a new model of democracy which could go beyond bureaucratic and technocratic parties and cabinets. However, in Brazil, as in many other places, this initial democratic impulse was captured by new far-right movements which are now posing serious threats to democracy. This book intends to collaborate in a change of attitude, both theoretical and practical, that may help finding ways of fighting the authoritarian threat to democracy as well as of deepening democracy as a life form. The decline of neoliberalism not only did not produce any effectively progressive realist alternative, but also opened the way for a dispute over models of society in which democracy itself has ceased to represent the primary reference in disputes over the best way to regulate life in society. Democracy is no longer self-evident, it is in danger. And the only way to save it is by inventing new democratic practices to overcome the limits imposed by institutional political systems no longer capable of channeling the real struggles in the societies they

claim to represent.

Michel Foucault e o Poder Constituinte Lorena Martoni De Freitas. Este trabalho busca repensar criticamente a teoria do poder constituinte a partir do pensamento ético-político do filósofo francês Michel Foucault, com o objetivo de fornecer instrumentos teóricos para se refletir sobre o tempo presente. O que aqui se denomina como “teoria do poder constituinte” diz respeito ao campo de estudos acerca da gênese da Constituição, tanto em seu sentido formal – em termos de texto constitucional –, quanto material – como conjunto de forças que operam na sociedade produzindo uma ordem normativa de viés ético-político. Mais específica do que a “teoria da Constituição”, ela abarca o aspecto dinâmico do processo de organização social, a tensão das relações de força que o atravessam, referindo-se ao limiar entre política e direito. Ou seja, em linhas gerais, podemos dizer que a teoria do poder constituinte cuida de pensar o movimento de determinação do modo de ser de dada comunidade, colocando-nos face aos problemas dos inícios, da vontade de modificação de si e das práticas da liberdade. Seguindo essa linha, acordemos também como pressuposto que nenhuma ordenação social emerge ex nihilo em um espaço antes marcado pela anomia. Assim, na contramão de estudos que abordam o tema do poder constituinte como uma mera questão de princípio da ordem jurídica, nosso trabalho aqui é explicitá-lo como um movimento não apenas produtivo mas também de ruptura, que comporta a rejeição a uma regra de autoridade anterior como condição para a emergência de uma nova organização normativa. Ou seja, trata-se de um fenômeno de natureza processual e bilateral, e que por isso precisa ser analisado como um exercício cotidiano e difuso que comporta em si uma dimensão des-constituinte e outra re-constituinte. Entretanto, com o suposto intuito de garantir a perenidade dos direitos fundamentais e a estabilidade das instituições democráticas – em especial, após as experiências totalitárias que marcaram o século passado –, a

dimensão desconstituente do poder constituinte vem sendo paulatinamente silenciada, tendência essa que tem enfrentado sérios desafios face à dinâmica dos movimentos sociais e sublevações que têm marcado o século XXI. É justamente tendo em vista esse problema que propomos aqui um mergulho no pensamento ético-político de Michel Foucault que, segundo Antonio Negri, foi quem melhor nos forneceu uma possibilidade de “reabrir construtivamente um processo que assume a desarticulação como condição positiva”¹. ¹ NEGRI, Antonio. O poder constituinte. Trad. Adriano Platti. Rio de Janeiro: DP&A, 2002, p. 46.

Conceitos e Preconceitos de Gênero na Sociedade Brasileira Contemporânea Rosângela Angelin, Celso Gabatz. 2021-12-03 Na sociedade brasileira atual se vislumbra um evidente movimento estratégico de oposição às demandas de gênero por meio de uma tematização alarmista e preconceituosa acerca dos riscos da infiltração nas instituições, na política e na vida cotidiana. A ofensiva visa garantir maior espaço às Igrejas com uma retórica fundamentalista e, ao mesmo tempo, conter o avanço de políticas sexuais voltadas para a garantia ou ampliação dos direitos das mulheres e de grupos dissidentes da ordem sexual hegemônica. Esta obra busca descortinar questões presentes na realidade brasileira reforçadas, sobretudo, por um forte apelo a uma pretensa “moralidade” catalisando manifestações contrárias às políticas sociais, reformas jurídicas e ações pedagógicas voltadas à enfrentar preconceitos, prevenir violências, combater discriminações sexistas ao enfatizar a importância dos direitos humanos na construção da dignidade.

Lacan e a democracia Christian Ingo Lenz Dunker. 2022-01-19 É possível a associação entre psicanálise e democracia? De que maneira os conceitos de Jacques Lacan se relacionam com a política em geral? Nesta obra, o professor e psicanalista Christian Dunker apresenta aos leitores afinidades entre psicanálise e democracia no atual contexto de ascensão de fenômenos como a

antipolítica não apenas conservadora, mas fascista em termos discursivos. Com o objetivo de mostrar como a psicanálise contribui para a tradição crítica, para a reflexão histórica sobre a democracia e também para a revalorização da palavra em sua ação direta pelos sujeitos, este livro dialoga com o Mal-estar, sofrimento e sintoma, lançado em 2015 pelo autor. Em Lacan e a democracia, Dunker mostra como, em 2013, a lógica dos condomínios passou por um desequilíbrio com o aumento do desejo de acesso ao espaço público, de circulação pela cidade, de cidadania e participação política – processo que, naturalmente, também fez a reação contrária crescer, por parte daqueles que gostariam de regressar aos anos 1970 e reerguer os muros da exclusão e do silenciamento. Fundamentado na convergência de diferentes esforços para pensar o que seria uma política que tem a psicanálise como alicerce, o autor joga luz ao empenho de Jacques Lacan em inscrever a psicanálise na tradição das luzes, no debate da ciência e no crivo da razão: A democracia seria impossível sem essa confiança na palavra como pacto e revelação, como partilha e reconhecimento do caráter humano das leis, diz na introdução da obra.

I Am Malala Malala Yousafzai. 2013-10-08 A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman I come from a country that was created at midnight. When I almost died it was just after midday. When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee

ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

Multimodal Literacies in Young Emergent Bilinguals Sally Brown, Ling Hao. 2022-04-29 This book presents research focused on young emergent bilingual children's multimodal meaning-making processes in diverse cultural and linguistic settings. Chapters draw on a range of theoretical frameworks and expand on traditional notions of literacy, especially for students who are working to learn English as a new language. The insights into original research studies will help readers understand the many avenues that one can take as a practitioner in order to ensure that student assets are built upon to promote positive literate identities and learning experiences and, ultimately, to promote literacy success for diverse learners. Each chapter includes practical pedagogical recommendations and implications for teachers that can immediately be applied to classrooms, making the book an essential resource for using multiple modes to teach literacy with diverse student populations.

Agronegócio e desconstrução de direitos territoriais de povos etnicamente diferenciados Marcelo Artur Rauber, Daniela Fernandes Alarcon, Marcos Cristiano Zucarelli, Antonio Carlos de Souza Lima, Bruno Pacheco de Oliveira. 2023-01-17 Este livro é o terceiro volume da coleção

Desenvolvimentismo(s) e territórios indígenas: tecnologias de poder e estratégias de luta e se debruça sobre as disputas e os conflitos associados ao avanço do agronegócio. Ele está centrado na atuação política de seus representantes, que buscam a desconstrução de direitos territoriais de povos etnicamente diferenciados, em especial povos indígenas e comunidades quilombolas, assim como nos efeitos sociais mais amplos dessa forma de exploração agrária. Seu indiscutível papel no patrocínio do cenário político contemporâneo torna-o uma questão obrigatória. Os outros dois volumes são: Infraestrutura para produção de commodities e povos etnicamente diferenciados, que aborda os efeitos sociais e danos socioambientais das estratégias de gestão e implementação de formas de exploração neoextrativistas, e Setor elétrico e terras indígenas, com foco nos danos socioambientais acarretados especificamente pela infraestrutura de produção de energia no Brasil. A série dialoga com os demais livros produzidos pelo mesmo esforço de pesquisa que os propiciou, em especial com Reinvenção do garimpo, de André Cabette Fábio (2022), também disponível de forma gratuita para download.

Somos as palavras que usamos Manuela D'Avila.2022-10-24 Novo livro de Manu D'avila, autora de Por que lutamos? ACREDITO que as palavras, quando usadas para machucar, podem ser como bombas, mas, quando generosas, podem ser como pedaços de um caminho que aproxima. Afinal, como ensinou Saramago, somos as palavras que usamos, e eu quero, com este pequeno livro, te ajudar a encontrar as palavras certas para que determinados assuntos, tão importantes, deixem de ser o motivo de briga ou de silêncio na noite de Natal (não, eu não estava espiando a tua ceia de natal, eu simplesmente sei que isso aconteceu em quase todas as famílias) e passem a ser uma das razões para aquelas conversas que duram até tarde e que, dentro de nós, guardamos para sempre. Nada do que você vai ler tem o sentido de ponto-final. Ao contrário, são reticências. Estou abrindo o

papo para que tu sigas falando por aí. Para que as palavras que somos (porque usamos) sejam pontos para luz. E, nunca mais, para sombras.

Algoritarmos Eduardo Baldisera Carvalho Salles, Augusto Jobim do Amaral, Jesús Sabariego. 2021-05-18 (...) se fosse possível arriscar um conceito para os algoritarmos, longe de quaisquer generalizações, seria por um conjunto multidimensional de práticas políticas reatualizáveis por diversos agenciamentos, práticas estas dispostas tecnologicamente a sequestrar o ritmo vital que faz vibrar qualquer sentido, ou seja, modos de um dispositivo 'dado' a informar, planificar funções repetíveis e a conformar futuros prováveis sob lógicas de dor padronizadamente aprofundadas. (...) Poderíamos ainda dizer dos algoritarmos por um tipo de organização de fluxos pronto a funcionar como acelerador maleável disposto a penetrar e a banhar cada célula da sociedade para além da caixa de ressonância dos assuntos estatais ou através de um simples aparelho de violência, mais potente precisamente pelo perigo da incitação à liberdade que comporta, que tem como objeto a sequela da mutação, a supressão da potência de transformação, mais afeito, portanto, a um 'corpo canceroso que um organismo totalitário' (D&G) Augusto Jobim do Amaral

The Slum Alu?sio Azevedo. 2000-06-01 First published in 1890, and undoubtedly Azevedo's masterpiece, *The Slum* is one of the most widely read and critically acclaimed novels ever written about Brazil. Indeed, its great popularity, realistic descriptions, archetypal situations, detailed local coloring, and overall race-consciousness may well evoke *Huckleberry Finn* as the novel's North American equivalent. Yet Azevedo also exhibits the naturalism of Zola and the ironic distance of Balzac; while tragic, beautiful, and imaginative as a work of fiction, *The Slum* is universally regarded as one of the best, or truest, portraits of Brazilian society ever rendered. This is a vivid and complex tale of passion and greed, a story with many different strands touching on the different economic

tiers of society. Mainly, however, *The Slum* thrives on two intersecting story lines. In one narrative, a penny-pinching immigrant landlord strives to become a rich investor and then discards his black lover for a wealthy white woman. In the other, we witness the innocent yet dangerous love affair between a strong, pragmatic, gentle giant sort of immigrant and a vivacious mulatto woman who both live in a tenement owned by said landlord. The two immigrant heroes are originally Portuguese, and thus personify two alternate outsider responses to Brazil. As translator David H. Rosenthal points out in his useful Introduction: one is the capitalist drawn to new markets, quick prestige, and untapped resources; the other, the prudent European drawn moth-like to the light and sexual heat of the tropics. A deftly told, deeply moving, and hardscrabble novel that features several stirring passages about life in the streets, the melting-pot realities of the modern city, and the oft-unstable mind of the crowd, *The Slum* will captivate anyone who might appreciate a more poetic, less political take on the nineteenth-century naturalism of Crane or Dreiser.

As transformações têm sido

constantemente observadas e podem ser vistas em publicações de diversas formas midiáticas. Entretanto, pela liquidez desse cenário, os estudos não se esgotam e tornam-se fundamentais para que a relação sociedade e meios exista de maneira harmônica e eficaz. Mas essa preocupação não é algo de hoje. No início da década de 1970, na cidade de Nova Iorque, surgia pelas mãos de Neil Postman e Marshall McLuhan o programa de doutorado em Ecologia dos Meios, impulsionado pela preocupação em desenvolver as teorias relacionadas a essa corrente e, em seguida sustentar estudos futuros. No escopo, encontravam-se olhares direcionados à rádio, à fotografia, ao cinema, aos jornais, às revistas, aos livros, à televisão e a todos os ambientes e processos aos quais esses canais ou meios estavam relacionados. Processos que compunham uma galáxia composta por uma, ou algumas, aldeias globais. Uma aldeia onde o meio era a mensagem. Porém, nos dias atuais, os estudos sobre ecologia dos meios tornam-se ainda mais relevantes. As estruturas comunicacionais são construídas a partir de novas tramas de atores midiáticos. A potencialização dos processos comunicacionais cresceu exponencialmente. O poder midiático, por sua vez, ganhou outro status. Com isso tudo, novas linguagens comunicacionais passaram a ser adotadas pela sociedade.

Beyond Good and Evil Friedrich Nietzsche.2022-12-17 Beyond Good and Evil confirmed Nietzsche's position as the towering European philosopher of his age. The work dramatically rejects the tradition of Western thought with its notions of truth and God, good and evil. Nietzsche demonstrates that the Christian world is steeped in a false piety and infected with a 'slave morality'. With wit and energy, he turns from this critique to a philosophy that celebrates the present and demands that the individual imposes their own 'will to power' upon the world.

Trabalho, Direito e COVID-19 Antônio Rodrigues de Freitas Júnior, Clarissa Valadares Chaves.2022-12-09 Examinar as transformações por que passou o direito do trabalho durante o

período de maior incidência da COVID-19 no Brasil é uma tarefa relevante e necessária, não apenas para compreender o que de fato aconteceu naquele período, mas especialmente o que se pode antever como tendência para o futuro próximo. Foi esse o desafio dos diferentes encontros realizados em forma de aulas abertas, no decorrer do segundo semestre de 2021, em torno da disciplina intitulada DTB 5863 – Direito do Trabalho no Pós-Pandemia COVID-19, oferecida em formato on-line ao Programa de Pós-Graduação da Faculdade de Direito da Universidade de São Paulo. O material reunido neste livro foi resultado da contribuição dos alunos efetuada a propósito daquele curso. Não poderia deixar de ser, expressam as opiniões e as convicções de seus autores, todos estudiosos e interessados pelo direito, e guardam em comum o escopo de deixar um balanço desse período tão singular na história das relações de trabalho no Brasil.

The Power of Habit Charles Duhigg.2012-02-28 NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author “Sharp,

provocative, and useful.”—Jim Collins “Few [books] become essential manuals for business and living. The Power of Habit is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good.”—Financial Times “A flat-out great read.”—David Allen, bestselling author of Getting Things Done: The Art of Stress-Free Productivity “You’ll never look at yourself, your organization, or your world quite the same way.”—Daniel H. Pink, bestselling author of Drive and A Whole New Mind “Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change.”—The New York Times Book Review

Micropolítica da Abolição Sabrina Lasevitch Menezes. 2021-05-12 Qual seria o papel do desejo na formação da sociedade punitiva? E qual seria a questão subjetiva de fundo na formação do sistema de justiça criminal? É possível ser abolicionista penal sem ser feminista? Nesta obra profundamente interdisciplinar, são costurados temas de criminologia, teoria feminista, literatura e filosofia que, mais do que responderem a estas perguntas, recolocam a questão criminal de uma outra forma, propondo questões que trazem à superfície reflexões que costumam ficar de fora do debate acadêmico. Partindo da obra *Três guinéus*, de Virginia Woolf, a autora Sabrina Lasevitch traça as relações entre patriarcado e guerra, em um primeiro momento; entre guerra e sistema penal, em seguida; e, finalmente, localiza no coração do patriarcado uma das matrizes produtoras do desejo de punir. Esta é, evidentemente, uma leitura do sistema de justiça criminal feita a partir de um prisma pouco usual, que Deleuze e Guattari chamaram de micropolítica do desejo. Fruto de uma intensa pesquisa de mestrado, o livro, apesar de apresentar uma densa e rigorosa construção teórica, é costurado por uma escrita fluida, didática e, por vezes, poética, o que confere uma agradável suavidade à sua leitura. Assim, *Micropolítica da abolição* convida suas leitoras e seus leitores a experimentarem uma forma diferente de pensar o abolicionismo penal, colocando o devir-mulher no

centro da questão e forçando o pensamento jurídico a um necessário salto de desterritorialização.

Texts and Practices Revisited Carmen Rosa Caldas-Coulthard, Malcolm Coulthard. 2023-06-26 This is a second edition of the ground-breaking volume *Texts and Practices: Readings in Critical Discourse Analysis*, which was the first published collection of chapters presenting critical discourse analysis theory and practice. Critical discursive approaches have now become the main trend in most discursive and semiotic investigations. It was then, and is especially now, predominantly concerned with identifying, demystifying and resisting the ways language and semiotic systems are used to reflect, create and sustain inequalities in specific contexts. This new collection presents contributions by all six of the living authors who were central to the first edition: Norman Fairclough, Theo van Leeuwen, Teun van Dijk, Ruth Wodak, Carmen Caldas-Coulthard and Malcolm Coulthard – plus an edited version of a jointly authored classic chapter originally authored by Roger Fowler and Gunther Kress. There are four new chapters written by the other leading members of the foundational 1990s European Critical Discourse Analysis group: Phil Graham, Jay Lemke, David Machin and Louisa Rojo and two by young critical discourse researchers who have risen to prominence more recently: Rodrigo Borba and Germán Canale. *Texts and Practices Revisited: Essential Readings in Critical Discourse Analysis* provides a representative collection of work which, while authored by the pioneering researchers of the first wave of CDA, illustrates their most recent concerns and their latest analytical techniques. It is an essential text for all advanced students of English language, linguistics, media and cultural studies.

My Sweet Orange Tree José Mauro de Vasconcelos. 2019-07-09 Fifty years after its first publication, the multimillion-copy international bestseller is available again in English, sharing the heartbreaking tale of a gifted, mischievous, direly misunderstood boy growing up in Rio de Janeiro.

When Zezé grows up, he wants to be a poet in a bow tie. For now the precocious young boy entertains himself by playing clever pranks on the residents of his Rio de Janeiro neighborhood, stunts for which his parents and siblings punish him severely. Lately, with his father out of work, the beatings have become harsher. Zezé's only solace comes from his time at school, his hours secretly spent singing with a street musician, and the refuge he finds with his precious magical orange tree. When Zezé finally makes a real friend, his life begins to change, opening him up to human tenderness but also wrenching sorrow. Never out of print in Brazil since it was first published in 1968, *My Sweet Orange Tree*, inspired by the author's own childhood, has been translated into many languages and has won the hearts of millions of young readers across the globe.

A tragédia de Sísifo Ricardo Colturato Festi. 2023-07-06 O objetivo deste livro é decifrar os enigmas que lastreiam as transformações no capitalismo contemporâneo e suas expressões no mundo do trabalho, com avanço da precarização generalizada e da deterioração dos laços de

coletividade, é parte fundamental da luta que temos de travar para preservar não somente o mínimo de sentido que atribuímos ao trabalho, mas, sobretudo, à possibilidade de construção de uma outra sociabilidade, na qual o tempo, desancorado da lógica do mercado, devolva à vida seu sentido emancipador, humano.

Explorando as dimensões do gênero: Alessandra Sampaio Chacham, Juliana Gonzaga Jayme. 2023-12-15 É com grande satisfação que apresentamos a coletânea Explorando as dimensões do gênero: interfaces com o mundo do trabalho, a violência e a diversidade sexual. Non-State Actors and Sustainable Development in Brazil Eduardo Gonçalves Gresse. 2022-11-23 This book investigates how non-state actors have become key drivers of the diffusion of the UN 2030 Agenda for Sustainable Development in Brazil. The UN ranks Brazil as the most biodiverse country in the world, but the country's environment has never been under greater threat, with the rise of multiple crises bringing mounting challenges to socioeconomic development and environmental protection. As state support has fallen away, non-state actors have actively engaged and eventually mobilized other social actors towards the promotion of the SDGs and the implementation of the UN agenda. This book asks why it is that non-state actors have dedicated so much time, effort and

resources to promote a non-binding agenda that was ratified by and is mainly assigned to state actors. Looking at the roles of academia, civil society, and the private sector, the book explores the different ways in which these social actors make sense of and translate the 2030 Agenda into practice within their respective local contexts. Drawing on extensive fieldwork, this book sheds light on a series of challenges, opportunities and contradictions within the global agenda and its implementation. Assessing what the Brazil case can teach us about the diffusion of the 2030 Agenda and the SDGs more broadly, this book will be of interest to academics in the field of Sustainable Development, Latin America Studies and Environmental Politics as well as sustainable development researchers and policy makers.

Ancient History from Below Cyril Courier, Julio Cesar Magalhães de Oliveira. 2021-09-30 If ancient history is particularly susceptible to a top-down approach, due to the nature of our evidence and its traditional exploitation by modern scholars, another ancient history—‘from below’—is actually possible. This volume examines the possibilities and challenges involved in writing it. Despite undeniable advances in recent decades, ‘our slowness to reconstruct plausible visions of almost any aspect of society beyond the top-most strata of wealth, power or status’ (as Nicholas Purcell has put it) remains a persistent feature of the field. Therefore, this book concerns a historical field and social groups that are still today neglected by modern scholarship. However, writing ancient history ‘from below’ means much more than taking into account the anonymous masses, the subaltern classes and the non-elites. Our task is also, in the felicitous expression coined by Walter Benjamin, ‘to brush history against the grain,’ to rescue the viewpoint of the subordinated, the traditions of the oppressed. In other words, we should understand the bulk of ancient populations in light of their own experience and their own reactions to that experience. But, how do we do such a history? What

sources can we use? What methods and approaches can we employ? What concepts are required to this endeavour? The contributions mainly engage with questions of theory and methodology, but they also constitute inspiring case studies in their own right, ranging from classical Greece to the late antique world. This book is aimed not only at readers working on classical Greece, republican and imperial Rome and late antiquity but at anyone interested in 'bottom-up' history and social and population history in general. Although the book is primarily intended for scholars, it will also appeal to graduate and undergraduate students of history, archaeology and classical studies.

Brazil: A Biography Lilia M. Schwarcz, Heloisa M. Starling. 2018-08-21 A sweeping and absorbing biography of Brazil, from the sixteenth century to the present For many Americans, Brazil is a land of contradictions: vast natural resources and entrenched corruption; extraordinary wealth and grinding poverty; beautiful beaches and violence-torn favelas. Brazil occupies a vivid place in the American imagination, and yet it remains largely unknown. In an extraordinary journey that spans five hundred years, from European colonization to the 2016 Summer Olympics, Lilia M. Schwarcz and Heloisa M. Starling's Brazil offers a rich, dramatic history of this complex country. The authors not only reconstruct the epic story of the nation but follow the shifting byways of food, art, and popular culture; the plights of minorities; and the ups and downs of economic cycles. Drawing on a range of original scholarship in history, anthropology, political science, and economics, Schwarcz and Starling reveal a long process of unfinished social, political, and economic progress and struggle, a story in which the troubled legacy of the mixing of races and postcolonial political dysfunction persist to this day.

Brazil, Land of the Past: The Ideological Roots of the New Right Georg Wink. 2021-12-01 Brazil, Land of the Past scrutinizes the ideological roots of the so-called New Right in Brazil. The

book traces the continuity and resilience of a system of thought based on the idea of a God-given hierarchical order to be defended against any social contract and modernizing relativization. It explains in detail how today a diverse movement — which includes actors ranging from the authoritarian Bolsonaro wing to economic liberals to the military to both Catholic and evangelical religious conservatives – assumes unanimously the ideas of this tradition as underlying premises of their political action. Though not always explicitly, this drives the self-declared “liberal-conservative” but rather anti-modernist reaction which claims to liberate an imaginary authentic “Brazil” from an aberrant “State” – and in so doing intends to preserve inherited privilege in an extremely unequal society.

Precarious Democracy Benjamin Junge, Sean T. Mitchell, Alvaro Jarrin, Lucia Cantero. 2021-09-17
Brazil changed drastically in the 21st century’s second decade. In 2010, the country’s outgoing president Lula left office with almost 90% approval. As the presidency passed to his Workers’ Party successor, Dilma Rousseff, many across the world hailed Brazil as a model of progressive governance in the Global South. Yet, by 2019, those progressive gains were being dismantled as the far right-wing politician Jair Bolsonaro assumed the presidency of a bitterly divided country. Digging beneath this pendulum swing of policy and politics, and drawing on rich ethnographic portraits, *Precarious Democracy* shows how these transformations were made and experienced by Brazilians far from the halls of power. Bringing together powerful and intimate stories and portraits from Brazil’s megacities to rural Amazonia, this volume demonstrates the necessity of ethnography for understanding social and political change, and provides crucial insights on one of the most epochal periods of change in Brazilian history.

A razão dos centavos Roberto Andrés. 2023-05-30 Uma análise contundente das razões,

características e consequências de Junho de 2013 — um evento que ainda nos desafia e cujas principais questões seguem presentes no Brasil. Como foi que uma conjuntura econômica e política favorável viu irromper um dos maiores ciclos de manifestações do país? Quem foram seus principais atores? E como se deu o processo que resultou no cenário regressivo dos anos seguintes? Em um país onde quatro em cada cinco pessoas vivem em cidades, a crise urbana é o tabuleiro das desigualdades — e, para Roberto Andrés, essa é a chave explicativa de Junho de 2013. Eis o argumento que ele defende neste livro, resultado de mais de uma década de ativismo e pesquisa, que soma estudos anteriores e posteriores a Junho e percorre a história da urbanização brasileira, bem como suas implicações políticas e econômicas. Claro, vigoroso, com um repertório variado de fontes e dados inéditos que atualizam as informações sobre o período, A razão dos centavos se torna leitura essencial para compreendermos o que nos trouxe até aqui e reavaliarmos a rota para o futuro. Roberto Andrés posiciona as manifestações de 2013 e seus desdobramentos na longa tradição brasileira de rebeliões pelo transporte, analisa o conjunto de demandas que brotam da precariedade das condições de vida nas nossas cidades, propõe alternativas inovadoras para o aprimoramento da democracia brasileira. Um livro inquieto e urgente. — Heloisa M. Starling Para quem busca respostas para a pergunta 'Como chegamos até aqui?', este livro não é apenas único, é incontornável. — Marcos Nobre Este livro precisa ser lido e relido! A partir do buraco da fechadura dos 20 centavos de aumento da tarifa do ônibus, Andrés revela os fios da meada do modelo predatório de produção e gestão de nossas cidades, nos desafiando a compreendê-lo para, finalmente, superá-lo. — Raquel Rolnik

History and Memory Jacques Le Goff. 1992 In this brilliant meditation on conceptions of history, Le Goff traces the evolution of the historian's craft. Examining real and imagined oppositions between

past and present, ancient and modern, oral and written history, History and Memory reveals the strands of continuity that have characterized historiography from ancient Mesopotamia to modern Europe.

Biografia do abismo Felipe Nunes, Thomas Traumann. 2023-12-15 Antagonismos políticos sempre existiram. Há décadas, considerar-se de esquerda ou de direita tem uma dose de influência nas escolhas pessoais. No entanto, desde as eleições de 2018, tal importância atingiu outra dimensão na vida dos brasileiros, causando uma polarização política sem precedentes. Do supermercado ao restaurante, da loja de roupas ao destino das férias, cada pequena escolha é impactada pela política. Mas não só isso, vemos um distanciamento significativo entre amigos de longa data e parentes, que, antes próximos, deixam de conversar. Como chegamos a esse ponto? Por quê? Nessas condições, quais desafios surgem para o futuro que parece ser tão dividido? Com base em pesquisas de comportamento e opinião, o cientista político Felipe Nunes e o jornalista Thomas Traumann exploram as causas e consequências da polarização política no Brasil e no mundo enquanto comentam sobre os possíveis futuros que se desenham no país. Este livro é um alerta oportuno para os riscos que a democracia corre quando o debate político é substituído pela indústria da mentira, da intransigência, da manipulação de valores e do abuso da máquina pública. - Gleisi Hoffmann, deputada federal e presidente do PT Uma profunda e arguta análise sobre um fenômeno mundial que chegou ao Brasil: a 'calcificação' política, que divide as pessoas e a maneira de pensar delas a partir de valores-chave. Leitura fundamental. - Ciro Nogueira, senador e presidente do PP Quanto antes nos livrarmos da ilusão de que a polarização seria um fenômeno de temporada — passível de superação com apelos ao bom senso entre um ciclo eleitoral e outro —, mais cedo canalizaremos tempo e energia para a dura tarefa de entender o que se tornou nosso estado natural, que criou

raízes profundas na sociedade e na política. O trabalho de Felipe Nunes e Thomas Traumann oferece esse choque de realidade. - Renata Lo Prete, jornalista No Brasil, as bolhas políticas se calcificaram, mudaram as relações sociais e afetivas. Este livro é essencial para entender o que vem depois. - William Waack, jornalista Como saímos de uma aparente civilidade política após o fim da hiperinflação em 1994 para nos aprisionarmos desde 2018 no embate entre Lula e Bolsonaro? Este livro explica. Como superar essa calcificação política para enfrentar os problemas econômicos, climáticos e sociais de nosso tempo? Comece lendo este livro. - Edmar Bacha, economista e um dos responsáveis pelo Plano Real Ancorados no maior banco de dados já produzido sobre uma eleição no Brasil, Felipe Nunes e Thomas Traumann mostram os fundamentos da polarização (e calcificação) da opinião pública, as bases sociais do voto em Lula e Bolsonaro e os efeitos da disputa política em várias dimensões da vida brasileira. - Jairo Nicolau, cientista político e professor da FGV/CPDOC Neste mundo difícil de compreender, o livro de Felipe Nunes e Thomas Traumann é imperdível! - Nizan Guanaes, publicitário
