Philosophy and Literature in Latin America Jorge J. E. Gracia. 1989-01-01 Philosophy and Literature in Latin America presents a unique and original view of the current state of development in Latin America of two disciplines that are at the core of the humanities. Divided into two parts, each section explores the contributions of distinguished American and Latin American experts and authors. The section on literature includes the literary activities of Latin Americans working in the United States, an area in which very little research has been demonstrated and, for that reason, will add an interesting new dimension to the field of Latin American studies.

Argumentación y lógica Clara Helena Sánchez, Gonzalo Serrano. 2011-01-01 Con este texto se pretende aportar a los lectores algunos elementos mínimos de argumentación y lógica, que les permitan desarrollar sus competencias argumentativas. Se trata de mostrarles una vía intermedia entre la retórica y la lógica formal de tradición matemática (caracterizada por sus estrictas reglas de deducción) para analizar y desarrollar el discurso tanto académico como cotidiano en la perspectiva científica, técnica y de análisis de opinión. El enfoque planteado ofrece algunos criterios de análisis y evaluación de textos, especialmente los de tipo argumentativo. Se pretende, por tanto, dar al lector algunas herramientas para el análisis crítico de argumentos, los cuales le permitirán evaluar de manera razonable e imparcial las fortalezas y debilidades de los mismos.

como de los modelos de enjuiciamiento hasta llegar a lo establecido en los códigos actuales, este libro analiza algunos aspectos relacionados con las teorías del proceso, el delito y la prueba. El objetivo es explicar el actual modelo acusatorio adversarial mexicano, a partir de la evolución del derecho penal. El autor desarrolla tres ejes: el proceso dentro del sistema de enjuiciamiento acusatorio, el funcionalismo normativo como teoría de imputación de responsabilidad penal y el régimen probatorio en el modelo adversarial nacional. También hace una descripción de las ideas penales y sus cambios a lo largo de diferentes corrientes de pensamiento, y culmina con una evaluación crítica de la implementación del modelo acusatorio adversarial en nuestro país.
