Aditya Chopra Relives Aditya Chopra.2014 Twenty-four year old Aditya Chopra released his defining film, Dilwale Dulhania Le Jayenge (The Brave-Heart Will Take the Bride) on Diwali, 20 October 1995. The film swiftly made box-office gold and created a deep impression on audiences across generations. This timeless romance has now famously played for a thousand consecutive weeks at Maratha Mandir, Mumbai (where it continues to play), making it India's longest-running film. Produced by Yash Chopra and widely known as DDLJ, the film brought a new twist to the familiar love story. Raj (Shah Rukh Khan) and Simran (Kajol) fall in love on their travels through Europe and instead of rebelling against an objecting parent, Raj decides to win over Simran's uncompromising father. In 1996, at the height of the DDLJ craze, the young Aditya Chopra decided to step away from the limelight and despite his ever-increasing power as both producer and studio-owner, he has remained largely unseen and unheard for two decades. People outside his immediate circle know little about him and as a result, he has gained the reputation of being an enigma in a world of celebrities and glamour that thrives on constant visibility. Twenty years after the release of the film, the private and reclusive Aditya Chopra traces the journey that led to the making of his first film - he discusses his influences, shares insights on cinema and provides fascinating detail about how he went about making the movie that changed his life and that has now become part of the lives of audiences across generations. With [previously] unknown information and anecdotes about DDLJ in the words of its director ... [this] is the story of this

phenomenally popular film that turned the tide of Hindi cinema in the 1990s and has rightfully earned pride of place among the most successful and acclaimed Indian films of all time--Publisher's description.

Seducing Ingrid Bergman Chris Greenhalgh. 2014-03-18 The beautiful Casablanca star, the world's greatest war photographer, and the secret love affair that would change their lives forever . . . in Chris Greenhalgh's *Seducing Ingrid Bergman* June 1945. When Ingrid Bergman walks into the lobby of the Ritz hotel in Paris, war photographer Robert Capa is enchanted. From the moment he slips a mischievous invitation to dinner under her door, the two find themselves helplessly attracted. Played out against the cafés and nightclubs of post-war Paris and the parties and studios of Hollywood, they pursue an intense and increasingly reckless affair. But the light-hearted Capa, who likes nothing more than to spend his mornings reading in the tub and his afternoons at the racetrack, is not all that he seems. And Ingrid offers the promise of salvation to a man haunted by the horrors of war, his father's suicide, and the death of a former lover for which he blames himself. Addicted to risk, Capa must wrestle his devils, including gambling and drink, and resist an impulse to go off and photograph yet another war. Meanwhile, Ingrid, trapped in a passionless marriage and with a seven-year-old daughter to bring up, must court scandal and risk compromising her Hollywood career and saintly reputation if their love is to survive. With their happiness and identities at stake, both Capa and Ingrid are presented with terrible choices.

Making Schools Work Eric A. Hanushek.2010-12-01

Educational reform is a big business in the United States. Parents, educators, and policymakers generally agree that something must be done to improve schools, but the consensus ends there. The myriad of reform documents and policy discussions that have appeared over the past decade have not helped to pinpoint exactly what should be done. The case for investment in education is an economic one: schooling improves the productivity and earnings of individuals and promotes stronger economic growth and better functioning of society. Recent trends in schooling have, however, lessened the value of society's investments as costs have risen dramatically while student performance has stayed flat or even fallen. The task is to improve performance while controlling costs. This book is the

culmination of extensive discussions among a panel of economists led by Eric Hanushek. They conclude that economic considerations have been entirely absent from the development of educational policies and that economic reality is sorely needed in discussions of new policies. The book outlines an improvement plan that emphasizes changing incentives in schools and gathering information about effective approaches. Available research and analysis demonstrates that current central decisionmaking has worked poorly. Concentrating on inputs such as pupil-teacher ratios or teacher graduate degrees appears quite inferior to systems that directly reward performance.

Nonetheless, since experience with such alternatives is very limited, a program of extensive evaluation appears to be in order. Attempts to institute radical change on the basis of currently available information involve substantial risks of failure. Many people today find proposals such as charter schools, expanded use of merit pay, or educational vouchers to be appealing. Yet there is little evidence of their effectiveness, and widespread adoption of these proposals is sure to run into substantial problems of implementation. Instead of choosing the right approach, this book advocates a more systematic approach of experimentation, evaluation, and change.

In addition to Hanushek, the contributors are Charles S. Benson, University of California, Berkeley; Richard B. Freeman, Harvard University; Dean T. Jamison, UCLA; Henry M. Levin, Stanford University; Rebecca A. Maynard, University of Pennsylvania; Richard J. Murnane, Harvard University; Steven G. Rivkin, Amherst College; Richard H. Sabot, Williams College; Lewis C. Solmon, Milken Institute for Job and Capital Formation; Anita A. Summers, University of Pennsylvania; Finis Welch, Texas A&M University; and Barbara L. Wolfe, University of Wisconsin.

significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
