The Spell of the Sensuous David Abram.2012-10-17 Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed

themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patters) that we have only lately come to think of as inanimate. How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which--even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

Eros and Touch from a Pagan Perspective Christine Hoff Kraemer. 2013-10-23 Within the past twenty years, contemporary Pagan leaders, progressive Christian and Goddess theologians, advocates for queer and BDSM communities, and therapeutic bodyworkers have all begun to speak forcefully about the sacredness of the body and of touch. Many assert that the erotic is a divinely transformative force, both for personal development and for social change. Although the erotic includes sexuality, it is not limited to it; access to connected nonsexual touch is as profound a need as that for sexual freedom and health. In this book, Christine Hoff Kraemer brings together an academic background in religious studies and theology with lived experience as a professional bodyworker and contemporary Pagan practitioner. Arguing that the erotic is a powerful moral force that can ground a system of ethics, Kraemer integrates approaches from queer theology, therapeutic

bodywork, and sexual minority advocacy into a contemporary Pagan religious framework. Addressing itself to liberal religious people of many faiths, *Eros and Touch from a Pagan Perspective* approaches the right to pleasure as a social justice issue and proposes a sacramental practice of mindful, consensual touch.

The Black Sun Stanton Marlan.2008-05-08 Also available in an open-access, full-text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/86080> The black sun, an ages-old image of the darkness in individual lives and in life itself, has not been treated hospitably in the modern world. Modern psychology has seen darkness primarily as a negative force, something to move through and beyond, but it actually has an intrinsic importance to the human psyche. In this book, Jungian analyst Stanton Marlan reexamines the paradoxical image of the black sun and the meaning of darkness in Western culture. In the image of the black sun, Marlan finds the hint of a darkness that shines. He draws upon his clinical experiences—and on a wide range of literature and art, including Goethe’s *Faust*, Dante’s *Inferno*, the black art of Rothko and Reinhardt—to explore the influence of light and shadow on the fundamental structures of modern thought as well as the contemporary practice of analysis. He shows that the black sun accompanies not only the most negative of psychic experiences but also the most sublime, resonating with the mystical experience of negative theology, the Kabbalah, the Buddhist notions of the void, and the black light of the Sufi Mystics. An important contribution to the understanding of alchemical psychology, this book draws on a postmodern sensibility to develop an original understanding of the black sun. It offers insight into modernity, the act of imagination, and the work of analysis in understanding depression, trauma, and transformation of the soul. Marlan’s original reflections help us to explore the unknown darkness conventionally called the Self. The image of Kali appearing in the color insert following page 44 is ©

Modernism and the Art of Muslim South Asia Iftikhar Dadi. 2010-05-15 This pioneering work traces the emergence of the modern and contemporary art of Muslim South Asia in relation to transnational modernism and in light of the region's intellectual, cultural, and political developments. Art historian Iftikhar Dadi here explores the art and writings of major artists, men and women, ranging from the late colonial period to the era of independence and beyond. He looks at the stunningly diverse artistic production of key artists associated with Pakistan, including Abdur Rahman Chughtai, Zainul Abedin, Shakir Ali, Zubeida Agha, Sadequain, Rasheed Araeen, and Naiza Khan. Dadi shows how, beginning in the 1920s, these artists addressed the challenges of modernity by translating historical and contemporary intellectual conceptions into their work, reworking traditional approaches to the classical Islamic arts, and engaging the modernist approach towards subjective individuality in artistic expression. In the process, they dramatically reconfigured the visual arts of the region. By the 1930s, these artists had embarked on a sustained engagement with international modernism in a context of dizzying social and political change that included decolonization, the rise of mass media, and developments following the national independence of India and Pakistan in 1947. Bringing new insights to such concepts as nationalism, modernism, cosmopolitanism, and tradition, Dadi underscores the powerful impact of transnationalism during this period and highlights the artists' growing embrace of modernist and contemporary artistic practice in order to address the challenges of the present era.

Lie With Me Philippe Besson. 2019-04-30 The award-winning, bestselling French novel by Philippe

Besson—"the French Brokeback Mountain" (Elle)—about an affair between two teenage boys in 1984 France, translated with subtle beauty and haunting lyricism by the iconic and internationally acclaimed actress/writer Molly Ringwald. We drive at high speed along back roads, through woods, vineyards, and oat fields. The bike smells like gasoline and makes a lot of noise, and sometimes I'm frightened when the wheels slip on the gravel on the dirt road, but the only thing that matters is that I'm holding on to him, that I'm holding on to him outside. Just outside a hotel in Bordeaux, Philippe chances upon a young man who bears a striking resemblance to his first love. What follows is a look back at the relationship he's never forgotten, a hidden affair with a gorgeous boy named Thomas during their last year of high school. Without ever acknowledging they know each other in the halls, they steal time to meet in secret, carrying on a passionate, world-altering affair. Dazzlingly rendered in English by Ringwald in her first-ever translation, Besson's powerfully moving coming-of-age story captures the eroticism and tenderness of first love—and the heartbreaking passage of time.

Body My House Paul Crumbley, Patricia M Gantt. 2015-09-01 The first collection of critical essays on May Swenson and her literary universe, *Body My House* initiates an academic conversation about an unquestionably major poet of the middle and late twentieth century. Between the 1950s and the 1980s, May Swenson produced eleven volumes of poetry, received many major awards, was elected

chancellor of the Academy of American Poets, and was acclaimed by writers in virtually every school of American poetry. Essays here address the breadth of Swenson's literary corpus and offer varied scholarly approaches to it. They reference Swenson manuscripts---poems, letters, diaries, and other prose---some of which have not been widely available before. Chapters focus on Swenson's work as a nature writer; the literary and social contexts of her writing; her national and international acclaim; her work as a translator; associations with other poets and writers (Bishop, Moore, and others); her creative process; and her profound explorations of gender and sexuality. The first full volume of scholarship on May Swenson, *Body My House* suggest an ambitious agenda for further work. Contributors include Mark Doty, Gudrun Grabher, Cynthia Hogue, Suzann Juhasz, R.R. Knudson, Alicia Ostriker, Martha Nell Smith, Michael Spooner, Paul Swenson, and Kirstin Hotelling Zona.

Gestures Vilém Flusser.2014-06-01 Throughout his career, the influential new media theorist Vilém Flusser kept the idea of gesture in mind: that people express their being in the world through a sweeping range of movements. He reconsiders familiar actions—from speaking and painting to smoking and telephoning—in terms of particular movement, opening a surprising new perspective on the ways we share and preserve meaning. A gesture may or may not be linked to specialized apparatus, though its form crucially affects the person who makes it. These essays, published here as a collection in English for the first time, were written over roughly a half century and reflect both an eclectic array of interests and a durable commitment to phenomenological thought. Defining gesture as “a movement of the body or of a tool attached to the body for which there is no satisfactory causal explanation,” Flusser moves around the topic from diverse points of view, angles, and distances: at times he zooms in on a modest, ordinary movement such as taking a photograph, shaving, or listening to music; at others, he pulls back to look at something as vast and varied as

human “making,” embracing everything from the fashioning of simple tools to mass manufacturing. But whatever the gesture, Flusser analyzes it as the expression of a particular form of consciousness, that is, as a particular relationship between the world and the one who gestures.

Consilience E. O. Wilson.2014-11-26 A dazzling journey across the sciences and humanities in search of deep laws to unite them. --The Wall Street Journal One of our greatest living scientists--and the winner of two Pulitzer Prizes for *On Human Nature* and *The Ants*--gives us a work of visionary importance that may be the crowning achievement of his career. In *Consilience* (a word that originally meant jumping together), Edward O. Wilson renews the Enlightenment's search for a unified theory of knowledge in disciplines that range from physics to biology, the social sciences and the humanities. Using the natural sciences as his model, Wilson forges dramatic links between fields. He explores the chemistry of the mind and the genetic bases of culture. He postulates the biological principles underlying works of art from cave-drawings to *Lolita*. Presenting the latest findings in prose of wonderful clarity and oratorical eloquence, and synthesizing it into a dazzling whole, *Consilience* is science in the path-clearing traditions of Newton, Einstein, and Richard Feynman.

When Sun Meets Moon Scott Kugle.2016-05-02 The two Muslim poets featured in Scott Kugle's comparative study lived separate lives during the eighteenth and early-nineteenth centuries in the Deccan region of southern India. Here, they meet in the realm of literary imagination, illuminating the complexity of gender, sexuality, and religious practice in South Asian Islamic culture. Shah Siraj

Awrangabadi (1715-1763), known as Sun, was a Sunni who, after a youthful homosexual love affair, gave up sexual relationships to follow a path of personal holiness. Mah Laqa Bai Chanda (1768-1820), known as Moon, was a Shi'i and courtesan dancer who transferred her seduction of men to the pursuit of mystical love. Both were poets in the Urdu language of the ghazal, or love lyric, often fusing a spiritual quest with erotic imagery. Kugle argues that Sun and Moon expressed through their poetry exceptions to the general rules of heteronormativity and gender inequality common in their patriarchal societies. Their art provides a lens for a more subtle understanding of both the reach and the limitations of gender roles in Islamic and South Asian culture and underscores how the arts of poetry, music, and dance are integral to Islamic religious life. Integrated throughout are Kugle's translations of Urdu and Persian poetry previously unavailable in English.

Nevada Imogen Binnie. 2022-06-07 One of Vogue's Best Books of 2022 So Far, BuzzFeed's Summer Books You Won't Be Able To Put Down, Book Riot's Best Summer Reads for 2022, and Dazed's Queer Books to Read in 2022 [Nevada] is defiant, terse, not quite cynical, sometimes flip, addressed to people who think they know. It is, if you like, punk rock. —The New Yorker Nevada is a book that changed my life: it shaped both my worldview and personhood, making me the writer I am. And it did so by the oldest of methods, by telling a wise, hilarious, and gripping story. —Torrey Peters, author of *Detransition, Baby* A beloved and blistering cult classic and finalist for the Lambda Literary Award for Transgender Fiction finally back in print, Nevada follows a disaffected trans woman as she embarks on a cross-country road trip. Maria Griffiths is almost thirty and works at a used bookstore in New York City while trying to stay true to her punk values. She's in love with her bike but not with her girlfriend, Steph. She takes random pills and drinks more than is good for her,

but doesn't inject anything except, when she remembers, estrogen, because she's trans. Everything is mostly fine until Maria and Steph break up, sending Maria into a tailspin, and then onto a cross-country trek in the car she steals from Steph. She ends up in the backwater town of Star City, Nevada, where she meets James, who is probably but not certainly trans, and who reminds Maria of her younger self. As Maria finds herself in the awkward position of trans role model, she realizes that she could become James's savior—or his downfall. One of the most beloved cult novels of our time and a landmark of trans literature, Imogen Binnie's Nevada is a blistering, heartfelt, and evergreen coming-of-age story, and a punk-smearred excavation of marginalized life under capitalism. Guided by an instantly memorable, terminally self-aware protagonist—and back in print featuring a new afterword by the author—Nevada is the great American road novel flipped on its head for a new generation.

Islam John Kaltner. Recent events have focussed attention on Islam, the often-misunderstood faith of one billion people. Westerners are showing a new openness to learning about Islam and other religions, in part perhaps because religion is arguably the single most important and volatile factor in geopolitics today. Islam needs to be understood on its own terms, John Kaltner argues. This little Facet offers the most basic information about Islam in an accessible and sympathetic presentation. Kaltner portrays Islam as first and foremost a religion of prescribed practices - the five pillars of Islam. Showing the deep humanism of Islam and its most cherished commitments, Kaltner presents Islam through assertions that counter frequent misconceptions of the faith.--BOOK JACKET.Title

The Ritual Process Victor Turner,Roger D Abrahams,Alfred Harris.2017-07-05 In The Ritual Process: Structure and Anti-Structure, Victor Turner examines rituals of the Ndembu in Zambia and develops

his now-famous concept of *Communitas*. He characterizes it as an absolute inter-human relation beyond any form of structure. The *Ritual Process* has acquired the status of a small classic since these lectures were first published in 1969. Turner demonstrates how the analysis of ritual behavior and symbolism may be used as a key to understanding social structure and processes. He extends Van Gennep's notion of the liminal phase of rites of passage to a more general level, and applies it to gain understanding of a wide range of social phenomena. Once thought to be the vestigial organs of social conservatism, rituals are now seen as arenas in which social change may emerge and be absorbed into social practice. As Roger Abrahams writes in his foreword to the revised edition: Turner argued from specific field data. His special eloquence resided in his ability to lay open a sub-Saharan African system of belief and practice in terms that took the reader beyond the exotic features of the group among whom he carried out his fieldwork, translating his experience into the terms of contemporary Western perceptions. Reflecting Turner's range of intellectual interests, the book emerged as exceptional and eccentric in many ways: yet it achieved its place within the intellectual world because it so successfully synthesized continental theory with the practices of ethnographic reports.

iMuslims Gary R. Bunt. 2009-04-30 Exploring the increasing impact of the Internet on Muslims around the world, this book sheds new light on the nature of contemporary Islamic discourse, identity, and community. The Internet has profoundly shaped how both Muslims and non-Muslims perceive Islam and how Islamic societies and networks are evolving and shifting in the twenty-first century, says Gary Bunt. While Islamic society has deep historical patterns of global exchange, the Internet has transformed how many Muslims practice the duties and rituals of Islam. A place of religious instruction may exist solely in the virtual world, for example, or a community may gather

only online. Drawing on more than a decade of online research, Bunt shows how social-networking sites, blogs, and other cyber-Islamic environments have exposed Muslims to new influences outside the traditional spheres of Islamic knowledge and authority. Furthermore, the Internet has dramatically influenced forms of Islamic activism and radicalization, including jihad-oriented campaigns by networks such as al-Qaeda. By surveying the broad spectrum of approaches used to present dimensions of Islamic social, spiritual, and political life on the Internet, iMuslims encourages diverse understandings of online Islam and of Islam generally.

The Age of Beloveds Walter G. Andrews, Mehmet Kalpakli.2004-12-23 The Age of Beloveds offers a rich introduction to early modern Ottoman culture through a study of its beautiful lyric love poetry. At the same time, it suggests provocative cross-cultural parallels in the sociology and spirituality of love in Europe—from Istanbul to London—during the long sixteenth century. Walter G. Andrews and Mehmet Kalpakli provide a generous sampling of translations of Ottoman poems, many of which have never appeared in English, along with informative and inspired close readings. The authors explain that the flourishing of Ottoman power and culture during the “Turkish Renaissance” manifested itself, to some degree, as an “age of beloveds,” in which young men became the focal points for the desire and attention of powerful officeholders and artists as well as the inspiration for a rich literature of love. The authors show that the “age of beloveds” was not just an Ottoman, eastern European, or Islamic phenomenon. It extended into western Europe as well, pervading the cultures of Venice, Florence, Rome, and London during the same period. Andrews and Kalpakli contend that in an age dominated by absolute rulers and troubled by war, cultural change, and religious upheaval, the attachments of dependent courtiers and the longings of anxious commoners

aroused an intense interest in love and the beloved. The Age of Beloveds reveals new commonalities in the cultural history of two worlds long seen as radically different.

Man and His Symbols Carl G. Jung. 2012-02-01 The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas “What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society.”—The Guardian “Our psyche is part of nature, and its enigma is limitless.” Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general

reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

Jolly Fellows Richard Stott. 2009-08-24 Stott finds that male behavior could be strikingly similar in diverse locales, from taverns and boardinghouses to college campuses and sporting events. He explores the permissive attitudes that thrived in such male domains as the streets of New York City, California during the gold rush, and the Pennsylvania oil fields, arguing that such places had an important influence on American society and culture. Stott recounts how the cattle and mining towns of the American West emerged as centers of resistance to Victorian propriety. It was here that unrestrained male behavior lasted the longest, before being replaced with a new convention that equated manliness with sobriety and self-control..

Rebel Between Spirit and Law Scott Alan Kugle. 2006 This book examines the authority of saints in Islam and their ability to build communities among Muslims in North Africa. It analyzes the power generated in religious communities through their allegiance to saints, a power usually identified with the term Sufism. In the late 15th and 16th centuries, a community of Sufis in Fes (Fez), Morocco, and other urban centers in North Africa advocated this paradigm of sainthood during a time of intense political and religious crisis. Juridical sainthood, a concept that fuses Islamic legal

rectitude and devotional piety, was the center of their reformist agenda. The juridical saint was to be absorbed in legal training and religious values, in ways that questioned political loyalty and dynastic legitimacy. Scott A. Kugle explores this tradition by focusing on the life and writings of Shaykh Ahmad Zarruq. Following his exile from Fes, Zarruq traveled widely over North Africa, spreading his teachings and writings and attracting followers from Morocco to Mecca. The life and teachings of Zarruq remain useful for Muslims. They are a piece of the past that present-day Muslims are rediscovering and redeploying to reconcile Islam's heritage with its very troubled post-colonial present.

SAN FRANCISCO CHRONICLE Here are the great minds of Western civilization and their pivotal ideas, from Plato to Hegel, from Augustine to Nietzsche, from Copernicus to Freud. Sufi Meditation and Contemplation Scott Kugle.2012 Sufi Meditation and Contemplation offers fresh translations of three classic Sufi texts from Mughal India: The Alms Bowl of Shaykh Kalimullah Shajehanabadi, The Compass of Truth by Dara Shikoh, and the Treatise on the Human Body

attributed to Mu'in al-Din Chishti. These texts elucidate meditation practices and the resulting effects. All three come from the Mughal era in India, which witnessed a flowering of Sufism in innovative personalities, diverse mystical orders and bold literary expressions. Meditation is the way to instill the values in the heart, to such a depth that the heart itself is transformed. The heart then is not merely an organ in the body, and is not just on's own personal center; when properly activated through meditation, the heart opens up to reveal the very presence of God with one and with all. To find this state of loving intimacy is the advice of the Qur'an when it says, So remember me, that I may remember you. And according to Sufi teachings, to meditate and contemplate is the way to draw God down to you and to allow yourself to be lifted up toward God. - from the foreword by Scott Kugle

Girls Like Us Sheila Weller. 2008-04-08 A groundbreaking and irresistible biography of three of America's most important musical artists—Carole King, Joni Mitchell, and Carly Simon—charts their lives as women at a magical moment in time. Carole King, Joni Mitchell, and Carly Simon remain among the most enduring and important women in popular music. Each woman is distinct. Carole King is the product of outer-borough, middle-class New York City; Joni Mitchell is a granddaughter of Canadian farmers; and Carly Simon is a child of the Manhattan intellectual upper crust. They collectively represent, in their lives and their songs, a great swath of American girls who came of age in the late 1960s. Their stories trace the arc of the now mythic sixties generation—female version—but in a bracingly specific and deeply recalled way, far from cliché. The history of the women of that generation has never been written—until now, through their resonant lives and emblematic songs. Filled with the voices of many dozens of these women's intimates, who are speaking in these pages for the first time, this alternating biography reads like a novel—except it's

all true, and the heroines are famous and beloved. Sheila Weller captures the character of each woman and gives a balanced portrayal enriched by a wealth of new information. *Girls Like Us* is an epic treatment of midcentury women who dared to break tradition and become what none had been before them—confessors in song, rock superstars, and adventurers of heart and soul.

Sufis and Saints' Bodies Scott Kugle.2011-09-01 Islam is often described as abstract, ascetic, and uniquely disengaged from the human body. Scott Kugle refutes this assertion in the first full study of Islamic mysticism as it relates to the human body. Examining Sufi conceptions of the body in religious writings from the late fifteenth through the nineteenth century, Kugle demonstrates that literature from this era often treated saints' physical bodies as sites of sacred power. *Sufis and Saints' Bodies* focuses on six important saints from Sufi communities in North Africa and South Asia. Kugle singles out a specific part of the body to which each saint is frequently associated in religious literature. The saints' bodies, Kugle argues, are treated as symbolic resources for generating religious meaning, communal solidarity, and the experience of sacred power. In each chapter, Kugle

also features a particular theoretical problem, drawing methodologically from religious studies, anthropology, studies of gender and sexuality, theology, feminism, and philosophy. Bringing a new perspective to Islamic studies, Kugle shows how an important Islamic tradition integrated myriad understandings of the body in its nurturing role in the material, social, and spiritual realms. Following Muhammad Carl W. Ernst.2005-10-12 Avoiding the traps of sensational political exposes and specialized scholarly Orientalism, Carl Ernst introduces readers to the profound spiritual resources of Islam while clarifying diversity and debate within the tradition. Framing his argument in terms of religious studies, Ernst describes how Protestant definitions of religion and anti-Muslim prejudice have affected views of Islam in Europe and America. He also covers the contemporary importance of Islam in both its traditional settings and its new locations and provides a context for understanding extremist movements like fundamentalism. He concludes with an overview of critical debates on important contemporary issues such as gender and veiling, state politics, and science and religion.
