The historical research carried out by Toms Pauli Foundation, heir to the International Center for Ancient and Modern Tapestry, is enriched by the essays of specialists from four countries with a textile tradition: France, Poland, USA and Japan.

Warm Waters Vlad Sokhin.2021-09-07 Documenting the devastating effects of global warming and climate change, Warm Waters is a multi-year photographic documentary across the Pacific and Arctic Oceans, from Northern Alaska to the remote outposts of New Zealand. The journey started in 2013 in Papua New Guinea, where photographer Vlad Sokhin documented illegal logging and deforestation. In 2014, Sokhin covered the rise of sea levels, coastal erosion and the effects of El Niño in Papua New Guinea, Kiribati, Nauru, the Marshall Islands and Niue. In 2015, 2016 and 2018, he extensively covered the aftermath of tropical cyclones across Pacific island nations and delved deeper into documenting struggles of the affected communities, their resilience and adaptation to the realities of global warming. In 2019, he documented severe drought in Timor-Leste, caused by the weather anomalies. Warm Waters also looks at other environmental issues our planet is facing, such as climate migrants and their resettlement, permafrost melting, coral bleaching, and the need for renewable energy. The book shows the evidence of fight, adaptation, and hope of remote island and coastal communities. It takes you right into the lives of Inupiat and Yupik people in Alaska, and to the towns and villages that are being destroyed by the sea and coastal erosion on the Russian Kamchatka Peninsula. You will see how scientists work in the field, studying the effects of climate change, and how the people, affected by extreme weather conditions, are trying to survive and rebuild their lives after catastrophic events have ruined their land and homes. Warm Waters not only shows tragedy however; it shows the beauty of our planet, communities living in harmony with nature, and people that are tirelessly working to protect their fragile shores from the biggest environmental threat ever they have ever faced.

The Law of Trusts David J. Hayton.1989

In the Bubble John Thackara.2006-02-17 How to design a world in which we rely less on stuff, and more on people. We're filling up the world with technology and devices, but we've lost sight of an important question: What is this stuff for? What value does it add to our lives? So asks author John Thackara in his new book, In the Bubble: Designing for a Complex World. These are tough questions for the pushers of technology to answer. Our economic system is centered on technology, so it would be no small matter if tech ceased to be an end-in-itself in our daily lives. Technology is not going to go away, but the time to discuss the end it will serve is before we deploy it, not after. We need to ask what purpose will be served by the broadband communications, smart materials, wearable computing, and connected appliances that we're unleashing upon the world. We need to ask

what impact all this stuff will have on our daily lives. Who will look after it, and how? In the Bubble is about a world based less on stuff and more on people. Thackara describes a transformation that is taking place now—not in a remote science fiction future; it's not about, as he puts it, the schlock of the new but about radical innovation already emerging in daily life. We are regaining respect for what people can do that technology can't. In the Bubble describes services designed to help people carry out daily activities in new ways. Many of these services involve technology—ranging from body implants to wide-bodied jets. But objects and systems play a supporting role in a people-centered world. The design focus is on services, not things. And new principles—above all, lightness—inform the way these services are designed and used. At the heart of In the Bubble is a belief, informed by a wealth of real-world examples, that ethics and responsibility can inform design decisions without impeding social and technical innovation.

Sara Cwynar: Glass Life .2021-04-27 A feminist-inflected investigation of color and image-driven consumer culture, *Glass Life* brings together Sara Cwynar's multilayered portraits and stills from the films *Soft Film* (2016), *Rose Gold* (2017), and *Red Film* (2018). Cwynar's research-driven and visually complex images constitute the hallmarks of contemporary post-Pictures Generation work--in which photography is pursued in relation to film, sculpture, digital culture, and the cultural and technological history of image-making. Cwynar's work revolves around her interest in subjective notions of beauty through images; the fetishization of consumer objects and colors; and the exploration of the informal image archives that have emerged around the industrialization and capitalization of these ideas. As part of her core practice, Cwynar collects, arranges, and archives her eBay purchases and creates studio studies of these consumer objects, exploring how images circulate online and how the lives and purposes of both physical objects and their likenesses change over time. *Sara Cwynar: Glass Life* is a must-have sourcebook for understanding the multilayered practice of this celebrated, multidisciplinary artist.

Yoon Ji Seon Yoon Ji Seon, Young Min Moon.2014 Yoon Ji Seon (*1975 in Seoul) avails herself of an array of techniques in her works while questioning the viewer's fundamental visual habits. In her latest series, Rags Face, for instance, she adds sewing to her self-portraits, distorting her own face with rhythmic quilting stitches whose lines deliberately recall painting. Yoon Ji Seon suspends some of her works in the exhibition space so that the front and back form a pair. She occasionally integrates traditional, handmade paper that dissolves as soon as it comes into contact with water, making it possible to see the connecting threads and the holes made by sewing needles that originally held the piece together. With her faces furrowed in this manner, reminiscent of archaic masks, the artist deconstructs the human appearance and creates chimeras - some humorous, some nightmarish - that gaze steadfastly at the viewer.

Tomorrow Now Bruce Sterling.2008-12-10 "Nobody knows better than Bruce Sterling how thin the membrane between science fiction and real life has become, a state he correctly depicts as both thrilling and terrifying in this frisky, literate, clear-eyed sketch of the next half-century. Like all of the most interesting futurists, Sterling isn't just talking about machines and biochemistry: what he really cares about are the interstices of technology with culture and human history." -Kurt Andersen, author of Turn of the Century Visionary author Bruce Sterling views the future like no other writer. In his first nonfiction book since his classic The Hacker Crackdown, Sterling describes the world our children might be living in over the next fifty years and what to expect next in culture, geopolitics, and business. Time calls Bruce Sterling "one of America's best-known science fiction writers and perhaps the sharpest observer of our media-choked culture working today in any genre." Tomorrow Now is, as Sterling wryly describes it, "an ambitious, sprawling effort in thundering futurist punditry, in the pulsing vein of the futurists I've read and admired over the years: H. G. Wells, Arthur C. Clarke, and Alvin Toffler; Lewis Mumford, Reyner Banham, Peter Drucker, and Michael Dertouzos. This book asks the future two questions: What does it mean? and How does it feel?" Taking a cue from one of William Shakespeare's greatest soliloquies, Sterling devotes one chapter to each of the seven stages of humanity: birth, school, love, war, politics, business, and old age. As our children progress through Sterling's Shakespearean life cycle, they will encounter new products; new weapons; new crimes; new moral conundrums, such as cloning and genetic alteration; and new political movements, which will augur the way wars of the future will be fought. Here are some of the author's predictions: • Human clone babies will grow into the bitterest and surliest adolescents ever. • Microbes will be more important than the family farm. • Consumer items will look more and more like cuddly, squeezable pets. • Tomorrow's kids will learn more from randomly clicking the Internet than they ever will from their textbooks. • Enemy governments will be nice to you and will badly want your tourist money, but global outlaws will scheme to kill you, loudly and publicly, on their Jihad TVs. • The future of politics is blandness punctuated with insanity. The future of activism belongs to a sophisticated, urbane global network that can make money—the Disney World version of Al Qaeda. Tomorrow Now will change the way you think about the future and our place in it. From the Hardcover edition.

Black Panther Don McGregor, Rich Buckler, Billy Graham, Stan Lee, Jack Kirby.2022-06-14 The Penguin Classics Marvel Collection presents the origin stories, seminal tales, and characters of the Marvel Universe to explore Marvel's transformative and timeless influence on an entire genre of fantasy.

A Penguin Classics Marvel Collection Edition Collects Fantastic Four #52-53 (1966); Jungle Action #6-21 (1973-1976). It is impossible to imagine American popular culture without Marvel Comics. For decades, Marvel has published groundbreaking visual narratives that sustain attention on multiple levels: as metaphors for the experience of difference and otherness; as meditations on the fluid nature of identity; and as high-water marks in the artistic tradition of American cartooning, to name a few. The Black Panther is not just a super hero; as King T'Challa, he is also the monarch of the hidden African nation of Wakanda. Combining the strength and stealth of his namesake with a creative scientific intelligence, the Black Panther is an icon of Afro-futurist fantasy. This new anthology includes the Black Panther's 1966 origin tale and the entirety of the critically acclaimed "Panther's Rage" storyline from his 1970s solo series. A foreword by Nnedi Okorafor, a scholarly introduction and apparatus by Qiana J. Whitted, and a general series introduction by Ben Saunders offer further insight into the enduring significance of Black Panther and classic Marvel comics. The Penguin Classics black spine paperback features full-color art throughout.

Robinson Crusoe Lieve Spaas, Brian Stimpson. 2016-01-07 Robinson Crusoe explores Defoe's story, the legend it captured, the universal desire which underlies the myth and a range of modern re-writings which reveal a continued fascination with the problematic character of this narrative. Whether envisaged as an heroic rejection of the old world order, a piece of pre-colonialist propaganda or a tale raising archetypal problems of 'otherness' and 'inequality', the mythic value of Crusoe has become a pretext over many centuries for an examination of some of the fundamental problems of existence. This collection of essays examines, from a wide range of critical and philosophical perspectives, the cultural manifestations of Robinson Crusoe in different centuries, in different media, in different genres.

The Development of Greek Biography Arnaldo Momigliano.1993 Arnaldo Momigliano traces the growth of ancient biography from the fifth century to the first century B.C. He asks new questions about the origins and development of Greek biography, and makes full use of new evidence uncovered in recent decades from papyri and other sources. By clarifying the social and intellectual implication of the fact that the Greeks kept biography and autobiography distinct from historiography, he contributes to an understanding of a basic dichotomy in the Western tradition of historical writing. The Development of Greek Biography is fully annotated, and includes a bibliography designed to serve as an introduction to the study of biography in general.

What Images Do Jan Bäcklund, Henrik Oxvig, Martin Søberg, Michael Renner.2019-08-15 When images look like something they do so because they are different from what they resemble. This difference is not sufficiently captured by the traditional theories of representation and mimesis, and yet it is the condition for any such theory. Various contemporary image theorists have pointed out that Plato already understood that images are not what they look like. Images have their own existence which cannot be identified with a concept, but should be examined in terms of actions. This book comprises fifteen articles that investigate what images do, particularly in relation to the disciplines of architecture, design and visual arts. It claims that it is the differentiating power of images -- their actions -- which constitutes their capacity to look like something they are not, as well as create something that does not yet exist. What Images Do addresses the crucial role that images might play in producing and investigating what we have not yet seen or understood in and of reality.

Filmosophy Daniel Frampton.2006 'Filmosophy' is a manifesto for a radically philosophical way of understanding cinema. The book coalesces 20th century ideas of film as thought into a practical theory of 'film-thinking', arguing that film style conveys poetic ideas through a constant dramatic 'intent' about the characters, spaces, and events of film.

Dogmatic Constitution on Divine Revelation Pope Paul VI..1965 This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the word of God. Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

Biscriptality Daniel Bunčić, Anastasia Antipova, Carmen Brandt, Ekaterina Kislova, Henning Klöter, Alexandra von Lieven, Helma Pasch, Jürgen Spitzmüller, Constanze Weth.2016 Serbs write their language in Cyrillic or Latin letters in seemingly random distribution. Hindi-Urdu is written in Nagari by Hindus and in the Arabic script by Muslims. In medieval Scandinavia the Latin alphabet, ink and parchment were used for texts 'for eternity', whereas ephemeral messages were carved into wood in runes. The Occitan language has two competing orthographies. German texts were set either in blackletter or in roman type between 1749 and 1941. In Ancient Egypt the distribution of hieroglyphs, hieratic and demotic was much

more complex than commonly assumed. Chinese is written with traditional and simplified characters in different countries. This collective monograph, which includes contributions from eleven specialists in different philological areas, for the first time develops a coherent typological model on the basis of sociolinguistic and graphematic criteria to describe and classify these and many other linguistic situations in which two or more writing systems are used simultaneously for one and the same language.

Africville Shauntay Grant.2018-09-01 Finalist for the Governor General's Literary Award, Young People's Literature - Illustrated Books When a young girl visits the site of Africville, in Halifax, Nova Scotia, the stories she's heard from her family come to mind. She imagines what the community was once like — the brightly painted houses nestled into the hillside, the field where boys played football, the pond where all the kids went rafting, the

bountiful fishing, the huge bonfires. Coming out of her reverie, she visits the present-day park and the sundial where her great-grandmother's name is carved in stone, and celebrates a summer day at the annual Africville Reunion/Festival. Africville was a vibrant Black community for more than 150 years. But even though its residents paid municipal taxes, they lived without running water, sewers, paved roads and police, fire-truck and ambulance services. Over time, the city located a slaughterhouse, a hospital for infectious disease, and even the city garbage dump nearby. In the 1960s, city officials decided to demolish the community, moving people out in city dump trucks and relocating them in public housing. Today, Africville has been replaced by a park, where former residents and their families gather each summer to remember their community.
