**Beautiful Terrible Ruins** Dora Apel.2015-06-23 Once the manufacturing powerhouse of the nation, Detroit has become emblematic of failing cities everywhere—the paradigmatic city of ruins—and the epicenter of an explosive growth in images of urban decay. In *Beautiful Terrible Ruins*, art historian Dora Apel explores a wide array of these images, ranging from photography, advertising, and television, to documentaries, video games, and zombie and disaster films. Apel shows how Detroit has become pivotal to an expanding network of ruin imagery, imagery ultimately driven by a pervasive and growing cultural pessimism, a loss of faith in progress, and a deepening fear that worse times are coming. The images of Detroit's decay speak to the overarching anxieties of our era: increasing poverty, declining wages and social services, inadequate health care, unemployment, homelessness, and ecological disaster—in short, the failure of capitalism. Apel reveals how, through the aesthetic distancing of representation, the haunted beauty and fascination of ruin imagery, embodied by Detroit's abandoned downtown skyscrapers, empty urban spaces, decaying factories, and derelict neighborhoods help us to cope with our fears. But Apel warns that these images, while pleasurable, have little explanatory power, lulling us into seeing Detroit's deterioration as either inevitable or the city's own fault, and absolving the real agents of decline—corporate disinvestment and globalization. *Beautiful Terrible Ruins* helps us understand the ways that the pleasure and the horror of urban decay hold us in thrall.

Nothing Happened Susan A. Crane.2021-01-19 The past is what happened. History is what we remember and write about that past, the narratives we craft to make sense out of our memories and their sources. But what does it mean to look at the past and to remember that nothing happened? Why might we feel as if nothing is the way it was? This book transforms these utterly ordinary observations and redefines Nothing as something we have known and can remember. Nothing has been a catch-all term for everything that is supposedly uninteresting or is just not there. It will take some—possibly considerable—mental adjustment before we can see Nothing as Susan A. Crane does here, with a capital n. But Nothing has actually been happening all along. As Crane shows in her witty and provocative discussion, Nothing is nothing less than fascinating. When Nothing has changed but we think that it should have, we might call that injustice; when Nothing has happened over a long, slow period of time, we might call that boring. Justice and boredom have histories. So too does being relieved or disappointed when Nothing happens—for instance, when a forecasted end of the world does not occur, and millennial movements have to regroup. By paying attention to how we understand Nothing to be happening in the present, what it means to know Nothing or to do Nothing, we can begin to ask how those experiences will be remembered. Susan A. Crane moves effortlessly between different modes of seeing Nothing, drawing on visual analysis and cultural studies to suggest a new way of thinking about history. By remembering how Nothing happened, or how Nothing is the way it was, or how Nothing has changed, we can recover histories that were there all along.

**Hidden Cities** Moses Gates.2013-03-21 In this fascinating glimpse into the world of urban exploration, Moses Gates describes his trespasses in some of the most illustrious cities in the world from Paris to Cairo to Moscow. Also, exclusive to this e-book, are firsthand accounts from the author's fellow travelers and family. Gates is a new breed of adventurer for the 21st century. He thrives on the thrill of seeing what others do not see, let alone even know exists. It all began quite innocuously. After moving to New York City and pursuing graduate studies in Urban Planning, he began unearthing hidden facets of the city—abandoned structures, disused subway stops, incredible rooftop views that belonged to cordoned-off buildings. At first it was about satiating a nagging curiosity; yet the more he experienced and saw, the more his thirst for adventure grew, eventually leading him abroad. In this memoir of his experiences, Gates details his travels through underground canals, sewers, subways, and crypts, in metropolises spanning four continents. In this finely-written book, Gates describes his immersion in the worldwide subculture of urban exploration; how he joined a world of people who create secret art galleries in subway tunnels, break into national monuments for fun, and travel the globe sleeping in centuries-old catacombs and abandoned Soviet relics rather than hotels or bed-and-breakfasts. They push each other further and

further—visiting the hidden side of a dozen countries, discovering ancient underground Roman ruins, scaling the Brooklyn, Manhattan, and Williamsburg bridges, partying in tunnels, sneaking into Stonehenge, and even finding themselves under arrest on top of Notre Dame Cathedral. Ultimately, Gates contemplates why he and other urban explorers are so instinctively drawn to these unknown and sometimes forbidden places—even (and for some, especially) when the stakes are high. Hidden Cities will inspire readers to think about the potential for urban exploration available for anyone, anywhere—if they have only the curiosity (and nerve!) to dig below the surface to discover the hidden corners of this world.

Playgrounds And Battlefields Francisco Martínez, Klemen Slabina, Mihhail Lotman, Siobhan Kattago, Kevin Ryan, Tom Frost, Flo Kasearu, Marcos Farias-Ferreira, Jaanika Puusalu, Dita Bezdíčková, Emeli Theander, Patrick Laviolette, Alastair Bonnett, Oleg Pachenkov and Lilia Voronkova, Anne Vatén, Helena Holgersson, Patricia García Espín and Manuel García Fernández, Benjamin Noys, Kristina Norman, Madli Maruste, Pille Runnel and Ehti Järv, Alessandro Testa, Sean Homer, Tarmo Jüristo.2014 This book explores whether the metaphors of ‘playground’ and ‘battlefield’ might be analytically meaningful terms for understanding contemporary society. The duality of playgrounds and battlefields is presented as a space of continuous becoming, related to the recreation, domination and experience of a place, as well as to corresponding practices of excess, interaction and enjoyment. We believe that a discussion about engagement and responsibility in a modern social setting is possible only through new concepts that avoid binary formulations. Playgrounds and battlefields are thus used as a trigger enabling a fresh approach to a contemporaneity that is highly influenced by the way in which societies deal with their past and future. In this sense, the ‘Playgrounds and Battlefields’ volume is a thematic one, mapping the field and offering grammar of possibility.

Free of her Rotring pens and scalpel, she now uses Photoshop to create her montages. Visual Alchemy explores McIntyre’s sources of inspiration as well as her methods, offering an aesthetic guide to composition, color, texture and all of the other means of communication that artists have at their disposal. **Furbex** Alice van Kempen.2018-09 Claire is not your everyday practitioner of urbex, the modern underground passion for urban exploration that lures 21st-century adventurers into the hidden labyrinths and decaying chambers of disused buildings and urban spaces. Claire is, you see, a bull terrier. And with her photographer companion, Alice Van Kempen, she has created the canine expression of the art . . . furbex. Furbex is a dazzling photographic record of Claire's adventures among the abandoned spaces of Europe. It captures her ghostly presence in ruined hotels and grand houses; crumbling castles and palaces; forgotten theaters and cinemas. Fascinated by shadows and light, past and present, and the mysterious, dark worlds of abandoned places, Alice van Kempen uses thrift shop props and long exposures to create photographs with the air of Old Master paintings; while Claire's tragi-comic presence imbues every image with the pathos and comedy of a silent movie. The result is a haunting and hilarious gift book of unique photographs, which will appeal to urban explorers, dog lovers (most particularly the cult following of the bull terrier breed), and all lovers of the Gothic, the mysterious and the absurd.

Beauty in Decay Romanywg.2010-06-15 Take nothing but photographs, leave nothing but footprints. This is the unspoken rule of urban explorers, who sometimes risk their safety, police records, and even their lives to explore abandoned buildings, sewers and storm drains, transit tunnels, utility tunnels, high-security areas of inhabited buildings, and even catacombs such as those in Paris, Rome, Odessa and Naples. Although these urban explorers usually work solo or in small teams, they collectively put forth a ground cry against a modern culture that embraces the new, polished, uniform, and mundane. Urban explorers find the beautylayers of graffiti by years worth of writers, multi-hued peeling paint, antique objects, someone's initials left in the dust on a broken stained glass windowand physical manifestations of memory that abandoned, impermanent urban spaces can hold. Beauty in Decay features the best in full-color, panoramic photographs from urban explorationor Urbexaround the world.

*Abandoned Chicagoland* Jerry Olejniczak.2021-06-28 Chicago is known the world over for its architecture and theater, as well as a myriad of other tourist sights. Visitors, however, usually only see the nice parts of the city, mostly the heavily gentrified corridor between the Loop's business district and the baseball shrine of Wrigley Field. But every city has its dark and dirty side, and Chicago is no exception. Economic upheaval and racial segregation, as well as the more mundane ravages of time, have created pockets of blight and abandonment. The strange transformations brought on by years of decay can be both tragic and beautiful. This effect is all the more poignant when it happens a stone's throw from the opulence of the Magnificent Mile. The photos within showcase the area's neglected, sometimes forgotten places, from shuttered industrial areas to churches whose congregations have moved on. This book presents portraits of the old, abandoned and off-the-beaten-path places across all of Chicagoland. See what happens when the doors close, nature takes over, and the din of humanity fades away.

**States of Decay** Daniel Barter, Daniel Marbaix.2013 Join us as we follow two explorers on an incredible journey which takes us from Philadelphia to Buffalo via Pittsburgh and New York. **Explore Everything** Bradley Garrett.2014-09-09 It is assumed that every inch of the world has been explored and charted; that there is nowhere new to go. But perhaps it is the everyday places around us—the cities we live in—that need to be rediscovered. What does it feel like to find the city's edge, to explore its forgotten tunnels and scale unfinished skyscrapers high above the metropolis? Explore Everything reclaims the city, recasting it as a place for endless adventure. Plotting expeditions from London, Paris, Berlin, Detroit, Chicago, Las Vegas and Los Angeles, Bradley L. Garrett has evaded urban security in order to experience the city in ways beyond the boundaries of conventional life. He calls it 'place hacking': the recoding of closed, secret, hidden and forgotten urban space to make them realms of opportunity. Explore Everything is an account of the author's escapades with the London Consolidation Crew, an urban exploration collective. The book is also a manifesto, combining philosophy, politics and adventure, on our rights to the city and how to understand the twenty-first century metropolis.

*Ruin Porn and the Obsession with Decay* Siobhan Lyons.2018-07-03 This collection is the first book to comprehensively analyse the relatively new and under-researched phenomenon of 'ruin porn'. Featuring a diverse collection of chapters, the authors in this work examine the relevance of contemporary ruin and its relationship to photography, media, architecture, culture, history, economics and politics. This work investigates the often ambiguous relationship that society has with contemporary ruins around the world, challenging the notions of authenticity that are frequently associated with images of decay. With case studies that discuss various places and topics,

including Detroit, Chernobyl, Pitcairn Island, post-apocalyptic media, online communities and urban explorers, among many other topics, this collection illustrates the nuances of ruin porn that are fundamental to an understanding of humanity's place in the overarching narrative of history.

Creepers David Morrell.2011-06-22 CREEPERS, David Morrell's gripping joyride of a thriller, depicts every harrowing second in eight hours of relentless terror. A New York Times bestseller, it received the prestigious Stoker Award from the Horror Writers Association. On a cold October night, five people gather in a run-down motel on the New Jersey shore and begin preparations to break in to the Paragon Hotel. Built in the glory days of Asbury Park by a reclusive millionaire, the magnificent structure—which foreshadowed the beauties of art-deco architecture—is now boarded up and marked for demolition. The five people are creepers, the slang term for urban explorers: city archeologists with a passion for investigating abandoned buildings and their dying secrets. On this evening, they are joined by a reporter who wants to profile them—anonymously, as this is a highly illegal activity—for a New York Times article. Frank Balenger isn't looking for just a story, however. And after the group enters the rat-infested tunnel leading to the hotel, it becomes clear that he will get much more than he bargained for. Danger, terror, and death await the creepers in a place ravaged by time and redolent of evil. The darkest secrets live in places you're not supposed to be. "Chilling." —Stephen King, New York Times bestselling author of Doctor Sleep "Crack this novel, and it's like an alien abduction of your brain—forget resuming your normal life until it's finished. This will be a classic."—Douglas Preston, New York Times bestselling co-author (with Lincoln Child) of White Fire "With its nonstop cascade of ingeniously contrived dangers and assaults, culminating

in an apocalyptic finale, Creepers provides the essence of all thrillers, an intense emotional effect that will leave readers drained.”—Washington Post

*The World of Urban Decay* Martin ten Bouwhuijs.2013 Arresting art photography takes the curious into the depths of worlds that normally remain hidden behind gardens overrun with wild vegetation and tall fences blazoned with Keep Out! signs. Photographer Martin ten Bouwhuijs's regular urban exploration missions throughout Western Europe have culminated in this collection of haunting images made in abandoned hospitals, morgues, monasteries, power plants, schools, factories, swimming pools, and castles. Each location is described in a brief history. Capturing the venues in various states of neglect, these photographs reveal remnants of once-habitable spaces: from furniture still in place but covered in thick dust to dramatic vaulted ceilings speckled in mold and water stains to walls that have given way in complete disrepair. More than 150 dramatic images continually heighten anticipation by showing long views down empty corridors and wide views of rooms with doors that lead elsewhere - you never really know what you are going to see around the next corner.

**Night Vision** Troy Paiva.2013-05-21 A booming subculture is on the rise: dubbed Urban Exploration, it involves sneaking into abandoned or off-limits factories, aviation boneyards, decommissioned bases, and other derelict features of the military/industrial landscape. Troy Paiva is a foremost photographer of the UrbEx (as it's known to its devotees) phenomenon, and his distinctive blend of atmospheric night photos and lighting effects are the visual hallmarks of a scene that has drawn the increasing attention of the media and the public as seen in recent programs on both the Discovery Channel (Urban Explorers) and MTV (Fear). Illuminated by histories of the sites documented, Night Vision reveals the remarkable discoveries of a new generation of explorers.

Out of Sight David Stuart,Patrick Potter.2011 This is art as buried treasure. Not all art craves attention, some of it hides in the secret places. Some of it is buried treasure, out in the urban wilderness, left scattered in empty rooms of derelict buildings like strange markings left by an unknown tribe. These works are gifts given only to the occasional explorer, found in abandoned factories, warehouses, industrial sites and deconsecrated churches. This is art you have to earn by leaving the designated areas and heading out past the No Entry signs of the urban environment. A diverse range of artists find themselves attracted to these twilight zones and in recent years something of a movement has come to light, huddled around the idea of urban decay and abandonment as the ultimate canvas. This burning curiosity to see what is behind the fence exists to a greater or lesser degree in most people, but for some it is irresistible. The intervention of street art in these places ranges from walled spaces saturated with layer upon layer of tagging to strange little installations intended to mess with your head. Surreal comments scrawled on windows can be found alongside hidden characters, placed to surprise you as you turn a corner. Is there some universal human urge to say 'I was here'?

From the magical empty theatres of Detroit to the lost playgrounds of Chernobyl, there are places across the globe that were once a hub of activity, but are now abandoned and in decay. With nature creeping in and reclaiming these spots, we are left with eerie crumbling ruins and breathtaking views that offer us a window into the past and capture our imagination. Abandoned showcases the very best photographs from around the world documenting this phenomenon. We see a disused

stadium in the Czech Republic, a train wreck in the North Carolina mountains, factories in Hungary, a Welsh mental asylum and warehouses in Belgium, all depicted beautifully and sensitively. More immersive than a museum and more human than a lecture, abandoned photography has given the world an exciting way to look at our history and the places we have long neglected. Compiled and curated by photographer and former urban explorer, Mathew Growcott.
