Making The Met, 1870-2020 Andrea Bayer, Laura D. Corey. 2020-03-23 Published to celebrate The Metropolitan Museum of Art's 150th anniversary, *Making The Met, 1870-2020* examines the institution's evolution from an idea—that art can inspire anyone who has access to it—to one of the most beloved global collections in the world. Focusing on key transformational moments, this richly illustrated book provides insight into the visionary figures and events that led The Met in new directions. Among the many topics explored are the impact of momentous acquisitions, the central importance of education and accessibility, the collaboration that resulted from international excavations, the Museum's role in preserving cultural heritage, and its interaction with contemporary art and artists. Complementing this fascinating history are more than two hundred works that changed the very way we look at art, as well as rarely seen archival and behind-the-scenes images. In the final chapter, Met Director Max Hollein offers a meditation on evolving approaches to collecting art from around the world, strategies for reaching new and diverse audiences, and the role of museums today.

*The Painting of Modern Life* T.J. Clark.2017-06-28 From T.J. Clark comes this provocative study of the origins of modern art in the painting of Parisian life by Edouard Manet and his followers. The Paris of the 1860s and 1870s was a brand-new city, recently adorned with boulevards, cafés, parks, Great Exhibitions, and suburban pleasure grounds—the birthplace of the habits of commerce and leisure that we ourselves know as modern life. A new kind of culture quickly developed in this remade metropolis, sights and spectacles avidly appropriated by a new kind of consumer: clerks and shopgirls, neither working class nor bourgeois, inventing their own social position in a system profoundly altered by their very existence. Emancipated and rootless, these men and women flocked to the bars and nightclubs of Paris, went boating on the Seine at Argenteuil, strolled the island of La Grande-Jatte—enacting a charade of community that was to be captured and scrutinized by Manet,

Degas, and Seurat. It is Clark's cogently argued (and profusely illustrated) thesis that modern art emerged from these painters' attempts to represent this new city and its inhabitants. Concentrating on three of Manet's greatest works and Seurat's masterpiece, Clark traces the appearance and development of the artists' favorite themes and subjects, and the technical innovations that they employed to depict a way of life which, under its liberated, pleasure-seeking surface, was often awkward and anxious. Through their paintings, Manet and the Impressionists ask us, and force us to ask ourselves: Is the freedom offered by modernity a myth? Is modern life heroic or monotonous, glittering or tawdry, spectacular or dull? *The Painting of Modern Life* illuminates for us the ways, both forceful and subtle, in which Manet and his followers raised these questions and doubts, which are as valid for our time as for the age they portrayed.

*American Modern: Hopper to O'Keeffe* Esther Adler ,Kathy Curry.2013-08-11 The Museum of Modern Art is known for its prescient focus on the avant-garde art of Europe, but in the first half of the twentieth century it was also acquiring work by Stuart Davis, Georgia O'Keeffe, Charles Sheeler, Alfred Stieglitz, and other, less well-known American artists whose work sometimes fits awkwardly under the avant garde umbrella. American Modern presents a fresh look at MoMA's holdings of American art from that period. The still lifes, portraits, and urban, rural, and industrial landscapes vary in style, approach, and medium: melancholy images by Edward Hopper and Andrew Wyeth bump against the eccentric landscapes of Charles Burchfield and the Jazz Age sculpture of Elie Nadelman. Yet a distinct sensibility emerges, revealing a side of the Museum that may surprise a good part of its audience and throwing light on the cultural preoccupations of the rapidly changing American society of the day.

**Why Your Five-year-old Could Not Have Done that** Susie Hodge.2012 Come on, you know you've thought it--while viewing a masterpiece of abstract art, you mutter, A kid could do that. Here Susie Hodge, author of *How to Survive Modern Art*, explains why the best examples of modern art are actually the result of sophisticated thought and serious talent. From Marcel Duchamp's notorious Fountain and the scribbles of Cy Twombly to Mark Rothko's multiforms and Carl Andre's uncarved blocks, Hodge addresses critical outrage with a revealing insight into the technical skill, layering of ideas, and sheer inspiration behind each work. In cleverly organized chapters such as Objects/ Toys, Provocations/Tantrums, and People/Monsters, Hodges thoughtfully and definitively lays bare the perception that modern art is mere child's play.

**Historical Painting Techniques, Materials, and Studio Practice** Arie Wallert, Erma Hermens, Marja Peek. 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled *Historical Painting Techniques, Materials, and Studio Practice* at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. Twenty-five contributors representing

museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

**Modern Art in Detail** Susie Hodge.2017-11-21 An accessible and comprehensive guide to understanding the detail behind modern art Great works of art cannot be fully understood in a single

encounter. This is perhaps even truer for modern artworks that may not immediately make sense to, or even appeal to, the casual observer. Viewing an artwork— whether it is a painting, sculpture, installation, video, or photograph— as a whole is one method of interacting with it, but a deeper understanding can only be gained by analyzing it in detail. *Modern Art in Detail: 75 Masterpieces* spotlights the finer points that even connoisseurs may miss. The book includes all the minutiae that a quick glance will almost certainly fail to reveal, including subtle internal details. Susie Hodge writes intelligently and informatively about relevant external influences on the artist—everything from global political events to groundbreaking movements such as Cubism, Futurism, and Primitivism, and even scientific and mathematical theories. This book examines seventy-five artworks from the late nineteenth century to the modern day. It treats each of its subjects on its own merits, but it also views each as part of a tradition that links it to the past, which sees artists pass a baton down through the ages. Moreover, it charts the shift from the supremacy of artistic technique to the dominance of the idea or concept behind the object created.

*Art Appreciation* Deborah Gustlin. 2017-08-18 Creative Art: Methods and Materials educates readers about a variety of art methods and the ways different civilizations have used them in artistic expression. Each of the fourteen chapters is designed around a specific art method and material, and includes examples of art works and the artists who created them. Students learn about bronze casting, stone carving, clay sculpture, woodcuts and posters, glass work, and installation art. Each method is matched to artists both ancient and modern. Rather than adhering to a standard approach that focuses on white, male, European artists, the book broadens the student's perspective by including often overlooked female artists. Global in approach and comprehensive in coverage of arts forms, representations, and styles throughout history, *Creative Art* has been developed for sixteen-

week courses in art appreciation, or introductory survey courses in art history.

The Judgment of Paris Ross King.2012-01-11 Another fascinating book by the author of Brunelleschi's Dome and Michelangelo and the Pope's Ceiling: a saga of artistic rivalry and cultural upheaval in the decade leading to the birth of Impressionism. If there were two men who were absolutely central to artistic life in France in the second half of the nineteenth century, they were Edouard Manet and Ernest Meissonier. While the former has been labelled the "Father of Impressionism" and is today a household name, the latter has sunk into obscurity. It is difficult now to believe that in 1864, when this story begins, it was Meissonier who was considered the greatest French artist alive and who received astronomical sums for his work, while Manet was derided for his messy paintings of ordinary people and had great difficulty getting any of his work accepted at the all-important annual Paris Salon. Manet and Meissonier were the Mozart and Salieri of their day, one a dangerous challenge to the establishment, the other beloved by rulers and the public alike for his painstakingly meticulous oil paintings of historical subjects. Out of the fascinating story of their parallel careers, Ross King creates a lens through which to view the political tensions that dogged Louis-Napoleon during the Second Empire, his ignominious downfall, and the bloody Paris Commune of 1871. At the same time, King paints a wonderfully detailed and vivid portrait of life in an era of radical social change. When Manet painted *Dejeuner sur l'herbe* or *Olympia*, he shocked not only with his casual brushstrokes but with his subject matter: top-hatted white-collar workers (and their mistresses) were not considered suitable subjects for 'Art.' Ross King shows how, benign as they might seem today, these paintings changed the course of history. The struggle between Meissonier and Manet to see their paintings achieve pride of place at the Salon was not just about artistic competitiveness, it was about how to see the world. Full of fantastic tidbits of information and a

colourful cast of characters that includes Baudelaire, Courbet and Zola, with walk-on parts for Monet, Renoir, Degas and Cezanne, *The Judgment of Paris* casts new light on the birth of Impressionism and takes us to the heart of a time in which the modern French identity was being forged.

*Pop Art* Klaus Honnef. 2004 Originating in England in the mid 1950s, Pop Art developed its full potential in the USA in the 1960s. It substitutes the everyday for the splendid; mass-produced articles are assigned the same importance as one-offs; the difference between high culture and popular culture is swept away. Media and advertising are among the preferred contents of Pop Art, which celebrates the consumer society in its own witty fashion. The enthusiasm generated by Pop Art since the first works were exhibited has never died down -- it is greater today than ever before. Book jacket.

*The Private Lives of the Impressionists* Sue Roe. 2008-12-13 New York Times Bestseller "Anyone who has ever lost themselves in Monet's color-saturated gardens or swooned over Degas's dancers will enjoy this revealing group portrait of the artists who founded the Impressionist movement. . . . For the armchair dilettante, as well as the art-history student, this is lively, required reading." — People The first book to offer an intimate and lively biography of the world's most popular group of artists, including Manet, Monet, Pissarro, Cézanne, Renoir, Degas, Sisley, Berthe Morisot, and Mary Cassatt. Though they were often ridiculed or ignored by their contemporaries, today astonishing sums are paid for their paintings. Their dazzling works are familiar to even the most casual art lovers—but how well does the world know the Impressionists as people? Sue Roe's colorful, lively, poignant, and superbly researched biography, *The Private Lives of the Impressionists*, follows an extraordinary group of artists into their Paris studios, down the rural lanes of Montmartre, and into

the rowdy riverside bars of a city undergoing monumental change. Vivid and unforgettable, it casts a brilliant, revealing light on this unparalleled society of genius colleagues who lived and worked together for twenty years and transformed the art world forever with their breathtaking depictions of ordinary life.

**The Impressionists at Argenteuil** Paul Hayes Tucker, National Gallery of Art (U.S.), Wadsworth Atheneum Museum of Art. 2000 In the 1870s, Argenteuil, located on the outskirts of Paris, was still unmarred by urban industrialization. This book explores the responses to Argenteuil of six influential painters in more than 50 of their works. Catalogue for an upcoming exhibition at the National Gallery in Washington, D.C. 105 illustrations, 70 in color.

**Modern Art in Egypt** Fatenn Mostafa Kanafani. 2020-06-25 Following a spectacular surge in interest for Egyptian masters, Modern Art in Egypt fills the void in Egyptian art history, chronicling the lives and legacies of six pioneering artists working under the British occupation. Using Western-style academic art as a starting point, these artists championed cultural progress, re-appropriating Egyptian visual culture from European orientalists to found a neo-Pharaonic School of Realism. Modern Art in Egypt charts the years from Muhammad Ali's educational reforms to the mass influx of foreigners during the nineteenth-century. With a focus on the al-Nahda thought movement, this book provides an overview of the key policy-makers, reformists and feminists who founded the first School of Fine Arts in Egypt, as well as cultural salons, museums and arts collectives. By combining political and aesthetic histories, Fatenn Mostafa breaks the prevailing understanding that has preferred to see non-Western art as derivatives of Western art movements. Modern Art in Egypt re-establishes Egypt's presence within the global Modernist canon.

**Painting Today** Tony Godfrey.2014-10-22 Photo&hyphen;realism, abstraction, portraiture, installation painting, neo&hyphen;expressionism and the Leipzig School are just some of the areas of this thriving medium explored in *Painting Today*. This comprehensive survey of contemporary painting presents the broad range of styles, materials and methods that comprise the artform, extending the tradition of Phaidon's trail-blazing *Art Today*. Since the proclaimed death of painting in 1968, artists around the globe have nevertheless continued to expand its imagery, techniques and meanings, and in over 500 illustrations this book presents the work of both famous and emergent painters active around the world. **The Story of Contemporary Art** Tony Godfrey.2020-11-10 A lively introduction to the rich and

diverse history of contemporary art over the past 60 years—from Modernism and minimalism to artists like Andy Warhol and Marina Abramović. Accessible and with lavish illustrations, this is the perfect gift for art history fans and anyone looking for a new, more inclusive perspective on ‘the old boys’ club.’ Encountering a work of contemporary art, a viewer might ask, What does it mean? Is it really art? and Why does it cost so much? These are not the questions that E. H. Gombrich set out to answer in his magisterial *The Story of Art*. Contemporary art seems totally unlike what came before it, departing from the road map supplied by Raphael, Dürer, Rembrandt, and other European masters. In *The Story of Contemporary Art*, Tony Godfrey picks up where Gombrich left off, offering a lively introduction to contemporary art that stretches from Andy Warhol’s Brillo boxes to Marina Abramović’s performance art to today’s biennale circuit and million-dollar auctions. Godfrey, a curator and writer on contemporary art, chronicles important developments in pop art, minimalism, conceptualism, installation art, performance art, and beyond.

**Modern Art** Laszlo Taschen, Hans Werner Holzwarth. 2018 *Modern matters: A blow-by-blow account of groundbreaking modernism* The modern art adventure began roughly 150 years ago in Paris. A circle of painters, whom we now know as Impressionists, began painting pictures with rapid, often impasto, strokes. They turned to everyday street life for subjects, instead of overblown heroic scenes, and they escaped the power of the establishment salon by organizing their own independent exhibitions. After this first assault on standard academic practice, there was no holding back. In a constant desire to challenge, innovate, and inspire, one modernist style supplanted the next: Symbolism, Expressionism, Futurism, Dada, Abstract Art, renewed Realism, Surrealism, Abstract Expressionism, Pop, Minimal and Conceptual Art. This indispensable overview traces the restless energy of modern art with a year-by-year succession of the groundbreaking artworks that shook

standards, and broke down barriers. Each of these stand-out pieces is accompanied by a text profiling the artist and discussing the importance of their work. Introductory essays, meanwhile, explain the most significant modernist movements.

**Post-Impressionism** Nathalia Brodskaja.2023-12-28 Whilst Impressionism marked the first steps toward modern painting by revolutionising an artistic medium stifled by academic conventions, Post-Impressionism, even more revolutionary, completely liberated colour and opened it to new, unknown horizons. Anchored in his epoch, relying on the new chromatic studies of Michel Eugène Chevreul, Georges Seurat transcribed the chemist's theory of colours into tiny points that created an entire image. With his heavy strokes, Van Gogh illustrated the midday sun, whilst Cézanne renounced perspective. Rich in its variety and in the singularity of its artists, Post-Impressionism was a passage taken by all the well-known figures of 20th century painting - it is here presented, for the great pleasure of the reader, by Nathalia Brodskaja.

*The Art of Impressionism* Anthea Callen.2000-01-01 Drawing on scientific studies of pigments and materials, artists' treatises, colourmen's archives, and contemporary and modern accounts, Anthea Callen demonstrates how raw materials and paintings are profoundly interdependent. She analyses the material constituents of oil painting and the complex processes of 'making' entailed in all aspects of artistic production, discussing in particular oil painting methods for landscapists and the impact of plein air light on figure painting, studio practice and display. Insisting that the meanings of paintings are constituted by and within the cultural matrices that produced them, Callen argues that the real 'modernity' of the Impressionist enterprise lies in the painters' material practices.--BOOK JACKET.

Mary Morton's essay situates his landscapes in relation to his work in other genres, his critical reputation, and his role in establishing a new pictorial language for landscape painting. Charlotte Eyerman's essay investigates how later generations of nineteenth- and twentieth-century artists responded to Courbet's example. The catalogue also includes an essay by Dominique de Font-Reaulx, curator of photographs at the Musee d'Orsay, on the relationship between Courbet's work and landscape photography of the 1850s and 1860s.
