Wolf Moon Julio Llamazares.2017-09-01 Having lost the Civil War in Spain, four republican rebels lead a fugitive existence deep in the Cantabrian mountains. Wounded and hungry the rebels are frequently drawn from the safety of the mountains into the villages they once inhabited, risking their lives and the lives of anyone helping them. Faced with the lonely mountains, its harsh winters and unforgiving summers, it is only a matter of time before the Fascists hunt them down. Llamazares's lyrical prose serves to animate the wilderness, making the landscape as much a witness to the brutality of the Franco regime as the persecuted villagers and republicans.

Uncertain Glory Joan Sales.2014-10-02 SPAIN, 1937. Posted to the Aragonese front, Lieutenant Lluís Rusalleda eschews the drunken antics of his comrades and goes in search of intrigue. But the lady of Castel de Olivo - a beautiful widow with a shadowy past - puts a high price on her affections. In Barcelona, Trini Milmany struggles to raise Lluís' son on her own, letters from the front her only solace. With bombs falling as fast as the city's morale, she leaves to winter with Lluís' brigade on a quiet section of the line. But even on 'dead' fronts the guns do not stay silent for long. Trini's decision will put her family's fate in the hands of Juli Soleràs, old friend and traitor of easy conscience, a philosopher-cynic locked in an eternal struggle with himself. Joan Sales, a combatant in the civil war, distilled his experiences into a timeless story of thwarted love, lost youth and crushed illusions. A thrilling epic that has drawn comparison with the work of Dostoevsky and Stendhal, Uncertain Glory is a homegrown counterpart to classics such as *Homage to Catalonia* and *For Whom the Bell Tolls*.

A Comparative History of Literatures in the Iberian Peninsula Fernando Cabo Aseguinolaza, Anxo Abuín Gonzalez, César Domínguez.2010-05-26 A Comparative History of Literatures in the Iberian Peninsula is the second comparative history of a new subseries with a regional focus, published by the Coordinating Committee of the International Comparative Literature Association. As its predecessor for East-Central Europe, this two-volume history distances itself from traditional histories built around periods and movements, and explores, from a comparative viewpoint, a space considered to be a powerful symbol of inter-literary relations. Both the geographical pertinence and its symbolic condition are obviously discussed, when not even contested. Written by an international team of researchers who are specialists in the field, this history is the first attempt at applying a comparative approach to the plurilingual and multicultural literatures in the Iberian Peninsula. The aim of comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda. A Comparative History of Literatures in the Iberian Peninsula undermines the primacy claimed for national and linguistic boundaries, and provides a geo-cultural account of literary inter-systems which cannot otherwise be explained.

The Accordionist's Son Bernardo Atxaga.2010-10-26 A celebrated international author, listed among the 21 top writers for the 21st century (The Observer, U.K.) As David Imaz, on the threshold of adulthood, divides his time between his uncle Juan's ranch and his life in the village, where he reluctantly practices the accordion, a tradition that his authoritarian father insists he continue, he becomes increasingly aware of the long shadow cast by the Spanish Civil War. Letters found in a hotel attic, along with a silver pistol, lead David to unravel the story of the conflict, including his father's association with the fascists, and the opposition of his uncle, who took considerable risks in helping to hide a wanted republican. With affection and lucidity, Bernardo Atxaga describes the evolution of a young man caught between country and town, between his uncle the horse-breeder and his political father. The course of David's life changes one summer night when he agrees to shelter a group of students on the run from the military police. This is the most accomplished novel to date by an internationally celebrated writer. The Accordionist's Son is memorable for its epic scope—from 1936 to 1999—and the details with which it sparkles in gorgeous prose. It is easy to understand why The Observer listed Atxaga as one of the top twenty-one writers for the twenty-first century.

Saturn and Melancholy Raymond Klibansky, Erwin Panofsky, Fritz Saxl.2019-11-21 Saturn and Melancholy remains an iconic text in art history, intellectual history, and the study of culture, despite being long out of print in English. Rooted in the tradition established by Aby Warburg and the Warburg Library, this book has deeply influenced understandings of the interrelations between the humanities disciplines since its first publication in English in 1964. This new edition makes the original English text available for the first time in decades. Saturn and Melancholy offers an unparalleled inquiry into the origin and development of the philosophical and medical theories on which the ancient conception of the temperaments was based and discusses their connections to astrological and religious ideas. It also traces representations of melancholy in literature and the arts up to the sixteenth century, culminating in a landmark analysis of Dürer's most famous engraving, *Melencolia I*. This edition features Raymond Klibansky's additional introduction and bibliographical amendments for the German edition, as well as translations of source material and 155 original illustrations. An essay on the complex publication history of this pathbreaking project - which almost did not see the light of day - covers more than eighty years, including its more recent heritage. Making new a classic book that has been out of print for over four decades, this expanded edition presents fresh insights about Saturn and Melancholy and its legacy as a precursor to modern interdisciplinary studies.

The Exform Nicolas Bourriaud.2016-08-16 Author of the influential *Relational Aesthetics* examines the dynamics of ideology. Leading theorist and art curator Nicolas Bourriaud tackles the excluded, the disposable and the nature of waste by looking to the future of art—the exform. He argues that the great theoretical battles to come will be fought in the realms of ideology, psychoanalysis and art. A “realist” theory and practice must begin by uncovering the mechanisms that create the distinctions between the productive and unproductive, product and waste, and the included and excluded. To do this we must go back to the towering theorist of ideology Louis Althusser and examine how ideology conditions political discourse in ways that normalize cultural, racial and economic practices of exclusion.

Picasso Ibero .2021-09-07 Picasso in dialogue with the Iberian holdings of the Louvre Although he spent most of his adult life in France, painter Pablo Picasso (1881-1973) never denied the artistic influence that his upbringing in Spain imparted upon him. Of particular significance was the art and culture of the Iberian Peninsula where he had been born and later lived as a young man, though it was likely that his first real encounter with Iberian art took place at the Louvre in France. This volume accompanies a curatorial collaboration between the Centro Botín in Spain and the Musée Picasso-Paris in France that explores Picasso's relationship with Iberian art on an unprecedented scale. The book demonstrates this rich connection by comparing works by Picasso with masterpieces from the Louvre's Iberian collection and major Spanish archaeological museums. Further context provided by the world's leading experts in Iberian art conveys the depth of Picasso's cultural and artistic dialogue with his birthplace.

History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope,John Neubauer.2004-05-28 National literary histories based on internally homogeneous native traditions have significantly contributed to the construction of national identities, especially in multicultural East-Central Europe, the region between the German and Russian hegemonic cultural powers stretching from the Baltic states to the Balkans. History of the Literary Cultures of East-Central Europe, which covers the last two hundred years, reconceptualizes these literary traditions by de-emphasizing the national myths and by highlighting analogies and points of contact, as well as hybrid and marginal phenomena that traditional national histories have ignored or deliberately suppressed. The four volumes of the History configure the literatures from five angles: (1) key political events, (2) literary periods and genres, (3) cities and regions, (4) literary institutions, and (5) real and imaginary figures. The first volume, which includes the first two of these dimensions, is a collaborative effort of more than fifty contributors from Eastern and Western Europe, the US, and Canada.The four volumes of the History comprise the first volume in the new subseries on Literary Cultures.

Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

Divine Presence in Spain and Western Europe 1500-1960 William A. Christian Jr..2012-02-20 This study addresses the relation of people to divine beings in contemporary and historical communities, as exemplified in three strands. One is a long tradition of visions of mysterious wayfarers in rural Spain who bring otherworldly news and help, including recent examples. Another treats the seeming vivification of religious images—statues, paintings, engravings, and photographs apparently exuding blood, sweat and tears in Spanish homes and churches in the early modern period and the revival of the phenomenon throughout Europe in the twentieth century. Of special interest is the third strand of the book: the transposition of medieval and early modern representations of the relations between humans and the divine into the modern art of photography. Christian presents a pictorial examination of the phenomenon with a large number of religious images, commercial postcards and family photographs from the first half of past century Europe.

Islam Unveiled Robert Spencer.2003-11-25 In Islam Unveiled, Robert Spencer dares to face the hard questions about what the Islamic religion actually teaches--and the potentially ominous implications of those teachings for the future of both the Muslim world and the West. Going beyond the shallow distinction between a true peaceful Islam and the hijacked Islam of terrorist groups, Spencer probes the Koran and Islamic traditions (as well as the history and present-day situation of the Muslim world) as part of his inquiry into why the world's fastest growing faith tends to arouse fanaticism. Islam Unveiled evaluates the relationship between Islamic fundamentalism and mainstream Islam; the fixation with violence and jihad; the reasons for Muslims' disturbing treatment of women; and devastating effects of Muslim polygamy and Islamic divorce laws. Spencer explores other daunting questions--why the human rights record of Islamic countries is so unrelievedly grim and how the root causes of this record exist in basic Muslim beliefs; why science and high culture died out in the Muslim world--and why this is a root cause of modern Muslim resentment. He evaluates what Muslims learn from the life of Muhammad, the man that Islam hails as the supreme model of human behavior. Above all, this provocative work grapples with the question that most preoccupies us today: can Islam create successful secularized societies that will coexist peacefully with the West's multicultural mosaic?

The Death of a Nation, Or, the Ever Persecuted Nestorians Or Assyrian Christians Abraham Yohannan.2023-07-18 This compelling work of history sheds light on the little-known story of the Nestorian Church, a Christian denomination that flourished in the Middle East and Central Asia from the fifth to the seventeenth centuries. Focusing on the church's struggles against persecution at the hands of various Muslim rulers and the Mongol conquerors of the region, the author provides a valuable corrective to the Eurocentric view of medieval history. Sacred Landscapes in Antiquity Ralph Haussler,Gian Franco Chiai.2020-07-31 From generation to generation, people experience their landscapes differently. Humans depend on their natural environment: it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities (such as droughts, famines, floods and landslides) need to be appeased. We presume that, in many societies, lakes, rivers, rocks, mountains, caves and groves were considered sacred. Individual sites and entire landscapes are often associated with divine actions, mythical heroes and etiological myths. Throughout human history, people have also felt the need to monumentalize their sacred landscape. But this is where the similarities end as different societies had very different understandings, beliefs and practices. The aim of this new thematic appraisal is to scrutinize carefully our evidence and rethink our methodologies in a multi-disciplinary approach. More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east. They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it. We see the role of performance, ritual, orality, textuality and memory in people's sacred landscapes. A diachronic view allows us to study how landscapes were 'rewritten', adapted and redefined in the course of time to suit new cultural, political and religious understandings, not to mention the impact of urbanism on people's understandings. A key question is how was the landscape manipulated, transformed and monumentalized - especially the colossal investments in monumental architecture we see in certain socio-historic contexts or the creation of an alternative humanmade, seemingly 'non-natural' landscape, with perfectly astronomically aligned buildings that define a cosmological order? Sacred Landscapes therefore aims to analyze the complex links between landscape, 'religiosity' and society, developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic, holistic, contextual and historical perspective.

Narrating the Past David K. Herzberger.1995-05-24 The relationship between fiction and historiography in Francoist Spain (1939-1975) is a contentious one. The intricacies of this relationship, in which fiction works to subvert the regime's authority to write the past, are the focus of David K. Herzberger's book. The narrative and rhetorical strategies of historical discourse figure in both the fiction and historiography of postwar Spain. Herzberger analyzes these strategies, identifying the structures and vocabularies they use to frame the past and endow it with particular meanings. He shows how Francoist historians sought to affirm the historical necessity of Franco by linking the regime to a heroic and Christian past, while several types of postwar fiction—such as social realism, the novel of memory, and postmodern novels—created a voice of opposition to this practice. Focusing on the concept of writing history that these opposing strategies convey, Herzberger discloses the layering of truth and meaning that lies at the heart of postwar Spanish narrative from the early 1940s to the fall of Franco. His study clearly reveals how the novel in postwar Spain became a crucial form of dissent from the past as it was conceived and used by the State. Making a decisive intervention in the debate about the ways in which narration determines both the meaning and truth of history and fiction, *Narrating the Past* will be of special interest to students and scholars of the politics, history, and literature of twentieth-century Spain.
