Nature and History in Modern Italy Marco Armiero, Marcus Hall. 2010-08-31 Marco Armiero is Senior Researcher at the Italian National Research Council and Marie Curie Fellow at the Institute of Environmental Sciences and Technologies, Universitat Autònoma de Barcelona. He has published extensively on Italian environmental history and edited *Views from the South: Environmental Stories from the Mediterranean World*. -- **An Introduction to Old Frisian** Rolf Hendrik Bremmer. 2009 This is the first text book to offer a comprehensive approach to Old Frisian and includes a history of the Frisians during the Middle Ages, their society and literary culture. Covered are the phonology, morphology, word formation and syntax of Old Frisian, with a chapter on Old Frisian dialects and one on problems regarding the periodization of Frisian and the close relationship between (Old) Frisian and (Old) English. Included is a reader with a representative selection of twenty-one texts with explanatory notes and a full glossary. A bibliography and a select index complete the book.

Human Biodiversity Jonathan Marks. 2017-07-12 Are humans unique? This simple question, at the very heart of the hybrid field of biological anthropology, poses one of the false dichotomies—with a stereotypical humanist answering in the affirmative and a stereotypical scientist answering in the negative. The study of human biology is different from the study of the biology of other species. In the simplest terms, people's lives and welfare may depend upon it, in a sense that they may not depend on the study of other scientific subjects. Where science is used to validate ideas—four out of five scientists preferring a brand of cigarettes or toothpaste—there is a tendency to accept the judgment as authoritative without asking the kinds of questions we might ask of other citizens' pronouncements.

Segu Maryse Conde. 1996-09-01 "Condé's story is rich and colorful and glorious. It sprawls over continents and centuries to find its way into the reader's heart." —Maya Angelou "A wondrous novel" (The New York Times) by the winner of the 2018 New Academy Prize (The Alternative Nobel prize in literature) and author of *The Gospel According to the New World* The year is 1797, and the kingdom of Segu is flourishing, fed by the wealth of its noblemen and the power of its warriors. The people of Segu, the Bambara, are guided by their griots and priests; their lives are ruled by the elements. But even their soothsayers can only hint at the changes to come, for the battle of the soul of Africa has begun. From the east comes a new religion, Islam, and from the West, the slave trade. Segu follows the life of Dousika Traore, the king's most trusted advisor, and his four sons, whose fates embody the forces tearing at the fabric of the nation. There is Tiekoro, who renounces his people's religion and embraces Islam; Siga, who defends tradition, but becomes a merchant; Naba, who is kidnapped by slave traders; and Malobali, who becomes a mercenary and halfhearted Christian. Based on actual events, Segu transports the reader to a fascinating time in history, capturing the earthy spirituality, religious fervor, and violent nature of a people and a growing nation trying to cope with jihads, national rivalries, racism, amid the vagaries of commerce.

The UN's Role in Nation-Building: From the Congo to Iraq James Dobbins, Seth G. Jones, Keith Crane, Andrew Rathmell, Brett Steele. 2001-03-29 Reviews UN efforts to transform eight unstable countries into democratic, peaceful, and prosperous partners, and compares those missions with U.S. nation-building operations. The UN provides the most suitable institutional framework for nation-building missions that require fewer than 20,000 men—one with a comparatively low cost structure, a comparatively high success rate, and the greatest degree of international legitimacy.

Sexual Harassment of Women National Academies of Sciences, Engineering, and Medicine, Policy and Global Affairs, Committee on Women in Science, Engineering, and Medicine, Committee on the Impacts of Sexual Harassment in Academia. 2018-09-01 Over the last few decades, research, activity, and funding has been devoted to improving the recruitment, retention, and advancement of women in the fields of science, engineering, and medicine. In recent years the diversity of those participating in these fields, particularly the participation of women, has improved and there are significantly more women entering careers and studying science, engineering, and medicine than ever before. However, as women increasingly enter these fields they face biases and barriers and it is not surprising that sexual harassment is one of these barriers. Over thirty years the incidence of sexual harassment in different industries has held steady, yet now more women are in the workforce and in academia, and in the fields of science, engineering, and medicine (as students and faculty) and so more women are experiencing sexual harassment as they work and learn. Over the last several years, revelations of the sexual harassment experienced by women in the workplace and in academic settings have raised urgent questions about the specific impact of this discriminatory behavior on women and the extent to which it is limiting their careers. *Sexual Harassment of Women* explores the influence of sexual harassment in academia on the career advancement of women in the scientific, technical, and medical workforce. This report reviews the research on the extent to which women in the fields of science, engineering, and medicine are victimized by sexual harassment and examines the existing information on the extent to which sexual harassment in academia negatively impacts the recruitment, retention, and advancement of women pursuing scientific, engineering, technical, and medical careers. It also identifies and analyzes the policies, strategies and practices that have been the most successful in preventing and addressing sexual harassment in these settings.

Human Factors Considerations of Undergrounds in Insurgencies Us Army Special Operations Command. 2017-08-31 From the preface: The 1966 'Human Factors' edition focused on the contemporary threat of Maoist insurgencies, particularly in Southeast Asia, and also drew extensively on World War II resistance movements in Europe. Much of this information is still relevant and has been retained and integrated. In the post-Cold War world, the most important insurgencies tend to be ethnic and religious. Long-simmering conflicts, sometimes with roots in colonial policies, have become prominent; examples include the Liberation Tigers of Tamil Eelam (LTTE) in Sri Lanka, Euskadi Ta Askatasuna (Basque Homeland and Freedom or ETA) in Spain, the Hutu-Tutsi genocides, the Ushtia ⬠irimtare e Kosov⬠s (Kosovo Liberation Army, or KLA), and the Provisional Irish Republican Army (PIRA). Battle lines in these conflicts are often drawn along ethnic lines, even when land or politics are the immediate issues in contention. The other important new category is extremist religious

movements, most prominently Islamic groups, including regional insurgent movements like Hizbollah and Harakat al-Muqawamah al'Islamiyyah (Islamic Resistance Movement, or HAMAS) and global movements like Al Qaeda. These present a different profile of ideology, organizational forms, and psychology than either Cold War Maoists or post-colonial ethnic insurgencies (although the Palestinian cause could be considered a post-colonial issue). Globalization has also changed underground operations in numerous ways. Insurgencies, enabled by low-cost transportation, Internet based communications, and other information technologies, can more easily recruit, communicate, and operate across borders. It is correspondingly much more difficult to contain an insurgency in a region. Global media has led to development of new tactics, in particular new types of terrorism, designed to capture worldwide attention. Compared with what was available in the 1960s, there are orders of magnitude more academic research available relevant to this study's topics. We were able to draw on more recent work in psychology, political science, economics, sociology, organizational studies, and communications studies. Readers of this edition will, over the course of eleven chapters, get a wide exposure to basic concepts from a number of disciplines.

Governance Feminism Janet Halley,Prabha Kotiswaran,Rachel Rebouché,Hila Shamir.2018-03-13 Describing and assessing feminist inroads into the state Feminists walk the halls of power. Governance Feminism: An Introduction shows how some feminists and feminist ideas—but by no means all—have entered into state and state-like power in recent years. Being a feminist can qualify you for a job in the United Nations, the World Bank, the International Criminal Court, the local prosecutor's office, or the child welfare bureaucracy. Feminists have built institutions and participate in governance. The authors argue that governance feminism is institutionally diverse and globally distributed. It emerges from grassroots activism as well as statutes and treaties, as crime control and as immanent bureaucracy. Conflicts among feminists—global North and South; left, center, and right—emerge as struggles over governance. This volume collects examples from the United States, Israel, India, and from transnational human rights law. Governance feminism poses new challenges for feminists: How shall we assess our successes and failures? What responsibility do we shoulder for the outcomes of our work? For the compromises and strange bedfellows we took on along the way? Can feminism foster a critique of its own successes? This volume offers a pathway to critical engagement with these pressing and significant questions.

Freedom in the World 2015 Freedom House.2015-12-24 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

Public Health Behind Bars Robert Greifinger.2007-10-04 Public Health Behind Bars From Prisons to Communities examines the burden of illness in the growing prison population, and analyzes the impact on public health as prisoners are released. This book makes a timely case for correctional health care that is humane for those incarcerated and beneficial to the communities they reenter.

Criminally Queer Jens Rydström,Kati Mustola.2007 This book provides a coherent history of criminal law and homosexuality in Scandinavia from 1842 to 1999, a period during which same-sex love was outlawed or subject to severe legal restrictions in the Scandinavian penal codes. This was the case in most countries in Northern Europe, but the book argues that the development in Scandinavia was different, partly determined by the structure of the welfare state. Five experienced scholars of the history of homosexuality describe how same-sex desire has been regulated in their respective countries during the past 160 years. With backgrounds in history, sociology, and gender studies, the contributors represent an interdisciplinary approach. Their contributions present for the first time a comprehensive history of homosexuality in Scandinavia. Among other things, it includes the most extensive study yet written in any language about Iceland's gay and lesbian history. Also for the first time, the book discusses in detail same-sex sexuality between women. Female homosexuality was outlawed in Eastern Scandinavia, but not in the Western parts of this region. It also analyzes the modern tendency to include lesbian women in the criminal aspect of the medicalization of homosexuality and the growing influence of medical discourse on the law. Jens Rydström is lecturer in history, particularly gender history, at Stockholm University (Sweden) and the author of *Sinners and Citizens: Bestiality and Homosexuality in Sweden, 1880-1950*. He is currently working on the history of laws on registered partnership in the Nordic countries. Kati Mustola is a research fellow at the Department of Sociology of the University of Helsinki (Finland). She is currently involved in research on the situation of lesbians, gays, bisexuals, and transgender people in the workplace. She also specializes in Finnish lesbian and gay history. She has edited several books in lesbian and gay studies and for many years was responsible for the teaching of lesbian studies at the Christina Institute for Women's Studies at the University of Helsinki.

The Palgrave Handbook of Bondage and Human Rights in Africa and Asia Gwyn Campbell,Alessandro Stanziani.2020-01-14 In the West, human bondage remains synonymous with the Atlantic slave trade. But large slave systems in Africa and Asia predated, co-existed, and overlapped with the Atlantic system—and have persisted in modified forms well into the twenty-first century, posing major threats to political and economic stability within those regions and worldwide. This handbook examines the deep historical roots of unfree labour in Africa and Asia along with its contemporary manifestations. It takes an innovative *longue durée* perspective in order to link the local and global, the past and present. Contributors trace shifting forms of forced labour in the region since circa 1800, connecting punctual shocks such as environmental crisis, conflict, market instability, and crop failure to human security threats such as impoverishment, violence, migration, kidnapping, and enslavement. Together, these chapters illuminate the historical and contemporary dimensions of bondage in Africa and Asia, with important implications for the fight against modern-day bondage and human trafficking.

Normed Children Erik Schneider,Christel Balthes-Löhr.2018-11-30 Gender- and sex-related norms have an impact on us from the first to the last day of our lives. What are the effects of such norms on the education of children and adolescents? Conveyed via parents/family, school, and peers, they seem to be an inseparable part of human relations. After its favorable reception in German-speaking countries from 2014 onwards, this title is now available in English. The texts show that the traditional assumption of a dualistic, bipolar normativity of sex and gender leads to children being taught gender-typical behavior. The contributions in this volume explore the reasons for these practices and open the debate on the divergence between the prevailing norms and the plurality of different life plans. In addition, the book helps to disengage the topic of sex and gender from a hitherto narrowly circumscribed context of sexual orientation. The contributions point the way towards a culture of respect and mutual acceptance and show new methodological as well as theoretical approaches, e.g. by introducing the figure of the continuum, so that, in future research projects, more than just the two sexes and genders of female and male might be considered as a new normality.

Mafiacraft Deborah Puccio-Den.2022-01-14 The Mafia? What is the Mafia? Something you eat? Something you drink? I don't know the Mafia. I have never seen it. So said Mommo Piromalli, a 'Ndrangheta crime boss, to a journalist in the seventies. In *Mafiacraft*, Deborah Puccio-Den explores the Mafia's reliance on the force of silence, and undertakes a new form of ethnographic inquiry that focuses on the questions, rather than the answers. For Puccio-Den, the Mafia is not a stable social fact, but a cognitive event shaped by actions of silence. Rather than inquiring about what has previously been written or said, she explores the imaginative power of silence and how it gives consistency to special kinds of social ties that draw their strength from a state of indeterminacy. What methods might anthropologists use to investigate silence and to understand the life of the denied, the unspeakable, and the unspoken? How do they resist, fight, or capitulate to the strength of words, or to the force of law? In *Mafiacraft*, Puccio-Den's addresses these questions with a fascinating anthropology of silence that opens up new ground for the study of the world's most famous criminal organization.

How to Kill a Dragon Calvert Watkins.1995 In *How to Kill a Dragon* Calvert Watkins follows the continuum of poetic formulae in Indo-European languages, from Old Hittite to medieval Irish. He uses the comparative method to reconstruct traditional poetic formulae of considerable complexity that stretch as far back as the original common language. Thus, Watkins reveals the antiquity and tenacity of the Indo-European poetic tradition. Watkins begins this study with an introduction to the field of comparative Indo-European poetics; he explores the Saussurian notions of synchrony and diachrony, and locates the various Indo-European traditions and ideologies of the spoken word. Further, his overview presents case studies on the forms of verbal art, with selected texts drawn from Indic, Iranian, Greek, Latin, Hittite, Armenian, Celtic, and Germanic languages. In the remainder of the book, Watkins examines in detail the structure of the dragon/serpent-slaying myths, which recur in various guises throughout the Indo-European poetic tradition. He finds the signature formula for the myth--the divine hero who slays the serpent or overcomes adversaries--occurs in the same linguistic form in a wide range of sources and over millennia, including Old and Middle Iranian holy books, Greek epic, Celtic and Germanic sagas, down to Armenian oral folk epic of the last century. Watkins argues that this formula is the vehicle for the central theme of a proto-text, and a central part of the symbolic culture of speakers of the Proto-Indo-European language: the relation of humans to their universe, the values and expectations of their society. Therefore, he further argues, poetry was a social necessity for Indo-European society, where the poet could confer on patrons what they and their culture valued above all else: imperishable fame.

Modern Folk Devils Martin Demant Frederiksen, Ida Harboe Knudsen.2021-12-13 The devilish has long been integral to myths, legends, and folklore, firmly located in the relationships between good and evil, and selves and others. But how are ideas of evil constructed in current times and framed by contemporary social discourses? *Modern Folk Devils* builds on and works with Stanley Cohen's theory on folk devils and moral panics to discuss the constructions of evil. The authors present an array of case-studies that illustrate how the notion of folk devils nowadays comes into play and animates ideas of otherness and evil throughout the world. Examining current fears and perceived threats, this volume investigates and analyzes how and why these devils are constructed. The chapters discuss how the devilish may take on many different forms: sometimes they exist only as a potential threat, other times they are a single individual or phenomenon or a visible group, such as refugees, technocrats, Roma, hipsters, LGBT groups, and rightwing politicians. Folk devils themselves are also given a voice to offer an essential complementary perspective on how panics become exaggerated, facts distorted, and problems acutely angled. Bringing together researchers from anthropology, sociology, political studies, ethnology, and criminology, the contributions examine cases from across the world spanning from Europe to Asia and Oceania.

The different aspects of islamic culture UNESCO.1998-12-31 This volume, the first of six to be published, studies fundamental values of Islam, along with the nature of rights and the responsibilities in a general context. The authors analyse the development of social thought and morality in Islam, and ways in which they are enforced through the family and education. Particular attention is paid to the status of women, children, youth and the socially excluded. Several chapters broach specially Islamic approaches to economics, government and justice. A world religion since its inception in the seventh century A.D., Islam is today seeking vigorous answers to contemporary problems through its multi-faceted history. Issues of poverty and wealth, inequality and demands for political expression, and respect for diversity in a difficult world of conformity are dealt with in this series. The study is organized along thematic rather than chronological lines and thus it is not necessary to read the volumes in order. Volume II is in fact the first to have been published. Volume IV is forthcoming end 2002, volume V mid 2003 and volumes III and VI in 2004. Seneca the Elder and His Rediscovered >Historiae ab initio bellorum civilium< Maria Chiara Scappaticcio.2020-06-08 The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's *Historiae*. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's *Historiae* greatly contribute.

Godard On Godard Jean-luc Godard.1986-03-22 Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for *La Gazette du Cinéma* to his later writings for *Cahiers du Cinéma*, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

Worldwide Evil and Misery Robin Ruiter.2015-09-03 BANNED IN FRANCE This book is about the development of a New World Order that aims to suppress the whole of humanity. We are raised, by tradition, to trust our governments, and convinced that they care about us. This, however, is a big mistake. Below the surface of official politics lies a complicated social and intellectual process that is taking place. The world is governed by very different personages from what is imagined by those who are not behind the scenes. We are governed, our minds are molded, our tastes formed, our ideas-suggested, largely by men, that we have never heard of. In almost every act of our daily lives, whether in the sphere of politics or business, in our social conductor or our ethical thinking, we are dominated by the relatively small number of persons. Are the visible world leaders

just mere puppets directed by an invisible power from behind the scenes? Are there invisible hands controlling the world? Is there a conspiracy? Who are the conspirators? We are dealing with the rise of a new geo-political supranational power on the world scene. This geo-political power consists of the richest families on this planet. Together with the most powerful multinationals they rule and control all countries and all coalitions. The true aim of this elite group is complete control of Planet Earth. They consist of a small elite group formed by the most influential and powerful, anonymous, very exclusive family dynasties that live dispersed over the world. They keep their power and money betwixt them by intermarriage. They operate behind the scenes of the most important enterprises, media and the financial institutions, but also behind the political scenes. Through connections, money and violence these powerful double-crossing families slipped in with one ultimate goal: the establishment of a One World dictatorship. Their target is to force a New World Order on the whole of mankind. They have bought an enormous part of the world with its economic power and placed it under its control. With the help of their unimaginable financial reserves they currently dispose of a worldwide financial control system with which they can control the entire world economy and political system. They determine how the leading politicians of this world have to act. Over time these influential families have extended the scope of their power over the whole world. Their web reaches all corners of the world. Their tentacles are woven with all facets of human existence. Their influence is unimaginable and it reaches all the leading institutions and organizations in the fields of politics, education, religion, finances and mass media. Science has also been infiltrated by them and is financially dependent on them and thus subject to manipulation (think of the Rockefeller, Carnegie, and Guggenheim foundation). The New World Order they are planning will be a World Dictatorship. Conservatives will call it Socialism or Communism. Liberals will call it Fascism. The label makes little difference; it will be the Gulag Archipelago on a worldwide basis. This book is a very unique publication and reading it will undoubtedly change the way you look at both history and the world today. It completely turns everything on its head. Once you read it, all of a sudden you will see the world around you in infrared. You soon see things which are simply not possible to view with the range of standard vision. The contents of this book is highly controversial and uncompromising. It describes a monster that we, in all our ignorance, have created together. It also serves to give us an idea of what's in store for the near future, so we can better prepare for what's coming our way. In 2006 the first French edition of this book was banned in France.

Trap Door Reina Gossett, Eric A. Stanley, Johanna Burton.2017-12-15 Essays, conversations, and archival investigations explore the paradoxes, limitations, and social ramifications of trans representation within contemporary culture. The increasing representation of trans identity throughout art and popular culture in recent years has been nothing if not paradoxical. Trans visibility is touted as a sign of a liberal society, but it has coincided with a political moment marked both by heightened violence against trans people (especially trans women of color) and by the suppression of trans rights under civil law. *Trap Door* grapples with these contradictions. The essays, conversations, and dossiers gathered here delve into themes as wide-ranging yet interconnected as beauty, performativity, activism, and police brutality. Collectively, they attest to how trans people are frequently offered "doors"—entrances to visibility and recognition—that are actually "traps," accommodating trans bodies and communities only insofar as they cooperate with dominant norms. The volume speculates about a third term, perhaps uniquely suited for our time: the trapdoor, neither entrance nor exit, but a secret passageway leading elsewhere. *Trap Door* begins a conversation that extends through and beyond trans culture, showing how these issues have relevance for anyone invested in the ethics of visual culture. Prostitution and the Ends of Empire Stephen Legg.2014-08-25 Officially confined to red-light districts, brothels in British India were tolerated until the 1920s. Yet, by this time, prostitution reform campaigns led by Indian, imperial, and international bodies were combining the social scientific insights of sexology and hygiene with the moral condemnations of sexual slavery and human trafficking. These reformers identified the brothel as exacerbating rather than containing corrupting prostitutes and the threat of venereal diseases, and therefore encouraged the suppression of brothels rather than their urban segregation. In this book, Stephen Legg tracks the complex spatial politics surrounding brothels in the interwar period at multiple scales, including the local, regional, national, imperial, and global. Campaigns and state policies against brothels did not just operate at different scales but made scales themselves, forging new urban, provincial, colonial, and international formations. In so doing, they also remade the boundary between the state and the social, through which the prostitute was, Legg concludes, civilly abandoned.
