**Martin Luther on Holy Baptism** Martin Luther.2018 In a country where Baptist theology is the default for American Protestantism, Luther's teaching on Baptism is critically needed by pastors, seminary students, and small-group leaders. While Luther's catechisms address the topic of Baptism, his sermons on the subject are more comprehensive. As readers discover Luther's preaching on Baptism in Wittenberg from 1525 to 1539, they are immersed repeatedly in Scripture's clear word that God (Father, Son, and Holy Spirit) is truly present in Baptism. Luther also articulates the divinely sanctioned power of Baptism to forgive and remove sin, as well as its efficacy throughout the life of the baptized. *Martin Luther on Holy Baptism* equips readers to believe with certainty that God is the one who works life-saving miracles in Holy Baptism. **Secrets of the UFO** Don Elkins,Carla Rueckert.1977 A summary of the twenty five years of philosophical study that preceded the Ra contact. This study began with investigation into the metaphysical aspects of the UFO phenomenon. The progression from physical sightings to metaphysical implications is carefully traced in *SECRETS OF THE UFO* and serves as an introduction to the *LAW OF ONE* series. From the book: The information in this book is either nonsense or it is the most centrally important thing that you could possibly learn. It is allegedly the answer to the strange riddle of the UFO's. The information contained herein is not speculation or theory, but a condensation and edited arrangement of received communications from the UFOs. The obvious weakness of this contactee information is that evidential proof of its validity is not obtainable. Its strength lies in its sheer bulk and in the similarity of messages produced by sources widely scattered around the world. The last 25 years have produced millions of words of these communications allegedly originating within the UFOs. Approximately 15 million people in the U.S. have reported seeing UFOs, more than 2000 contact cases have been reported, and about 700 landings have left trace evidence. There is no longer any real doubt that UFOs exist. The question is: Who are they? And why are they here? It is quite possible that understanding them is the most important endeavor which we can undertake. A ufologist is a detective who is exploring the single largest mystery of our time. As he wends his way through the elaborate maze of red herrings, misinformation, cover-ups, fanatics, skeptics, true believers and nonbelievers, he may well find that his most valuable ally in his search is a good sense of humor. Or, as Groucho Marx said, 'Either he's dead or my watch has stopped ' -- Don Elkins and Carla L. Rueckert, 1976

**Love at Last Sight** Tyler Carrington.2019-01-16 *Love at Last Sight* opens with the seemingly simple question, How did single people meet and fall in love in new big cities like Berlin at the turn of the century?, but what emerges from this investigation of daily newspapers, diaries, serial novels, advice literature, police records, and court cases is a world of dating and relationships that was anything but simple. The murder of Frieda Kliem, a young, enterprising seamstress who was using newspaper personal ads to find a husband reveals the tremendous risk associated with modern approaches to love and dating in a big city filled with strangers, swindlers, and a pervasive set of middle-class normativities that parents, peers, and authorities used to discredit men and women looking for love and intimacy. The risk of fraud, censure, or worse was ever-present, especially for gay Berliners, single women, and the many petit-bourgeois who strove for the stability of middle-class life but were outsiders to the social power structures of society. Indeed, though the technologies and opportunities of the big city offered the best shot at finding love or intimate connection among the urban sea of strangers, availing oneself of them--making an acquaintance on the street, pursuing a missed connection from the streetcar, or using a matchmaking service or newspaper personal ad--meant putting one's livelihood, respectability, and life on the line. This was the romantic dilemma facing the vast majority of city dwellers at the turn of the century, and a great many chose to risk everything for some measure of connection and intimacy. This book explores the history of dating as a way of illuminating a core tension of modern, metropolitan life that emerged at the turn of the century and persists through the present day--

**Minhagim** Joseph Isaac Lifshitz,Naomi Feuchtwanger-Sarig,Simha Goldin,Jean Baumgarten,Hasia Diner.2019-12-16 Parallel to the Halakhic laws, the minhagim (customs) are dependent on local practices and the regional schools of sages and rabbis. The minhagim played a decisive role in the history of the Jewish communities and in the formation of traditions of religious rulings. They gave stability, continuity, and authority to the local institutions. The impact of Jewish custom on daily life cannot be overestimated. Evolving spontaneously as an ascending process, it presents undercurrents that emanate from the folk, gradually bringing about changes that eventually become part of the legislative code. It further reflects influences of social, cultural, and mythological tendencies and local historical elements of every-day life of the period. The aim of this volume is to examine the concept of minhag in the broadest sense of the word. Focusing on the relationship between various types of customs and their impact on every aspect of Jewish life, the volume studies the historical, anthropological, religious, and cultural development and function of rites and rituals in establishing the Jewish self-definition and the identity of the local communities that adhered to them. The volume's articles cover the subject of custom from three perspectives: an analysis of the theoretical and legal definition of custom, an analysis of the social and historical aspects of custom, and an anecdotal study of several particular customs. Customs are a wonderful historical prism by which to examine fluctuations and changes in Jewish life.

**Gerechte Intervention?** Stephanie Fenkart,Heinz Gärtner,Hannes Swoboda.2017-10 Bewaffnete Eingriffe in innerstaatliche Konflikte sind in den letzten Jahren immer wieder als *Ultima Ratio* genannt worden, um der internationalen Schutzverantwortung oder dem Recht auf Selbstverteidigung nachzukommen. Sie stehen jedenfalls im Spannungsfeld zwischen dem prinzipiellen Gewaltverbot und aktuellen Realitäten, die ihren Ausdruck im Konzept der *Responsibility to Protect* (R2P) finden. AutorInnen aus unterschiedlichen wissenschaftlichen Richtungen und Ländern setzen sich mit diesen und anderen Fragen auseinander und versuchen die Thematik aus mehreren Perspektiven und Blickwinkeln zu diskutieren.

**Communicology for the Human Sciences** Isaac E. Catt,Igor E. Klyukanov.2018 Winner of the National Communication Association 2018 Philosophy of Communication Division Top Edited Book Award This edited volume develops the philosophy of communication inspired by the scholarship of Richard L. Lanigan, with emphasis on communicology as a human science. Lanigan's syntheses of the philosophies of speech, language and discourse stemming from the works of Edmund Husserl, Maurice Merleau-Ponty, Michel Foucault, Julia Kristeva, Charles Sanders Peirce, Roman Jakobson, Umberto Eco, Pierre Bourdieu, Jurgen Reusch and Gregory Bateson, and many others offers a compelling framework for systematic analysis of human communication in all domains of lived experience. His work defines the theory and method of the human sciences in general and the discipline of communicology in particular. The focus in this collection is on the theoretical and methodological foundations for semiotic phenomenology whereby communication is recognized as constitutive of all human conscious experience and social relationships, involving gestural, nonverbal, discursive, performative, artistic, poetic and mass mediated forms. The volume is divided into five thematic sections: *Founding(s)*, which marks out primary influences on communicology conceived as a human science; *Tropologic(s)*, which reveals how abduction, adduction and semiosis are essential for understanding human conduct in multiple forms of expression; *Trans/formations*, which addresses problems of change in self-other relations advancing an ethical life; *Voicing Bodies/Embodied Voices*, which elaborates the reversible relations between body and voice, and voice and world; and *Horizons of Communicability*, which takes up operative intentionalities that typically escape human conscious experience. All chapters are original to this volume, written by leading international scholars in the philosophy of communication who cross several disciplinary boundaries in the human sciences.

**Leadership and Conflict in African Churches** Mkunga H. P. Mtingele.2017 *Leadership and Conflict in African Churches: The Anglican Experience* investigates the involvement of leadership and conflict in the African church. Mkunga H. P. Mtingele's previous work with the government as a state attorney and his leadership positions in the Anglican Church gave him sufficient exposure and experience to witness the increase of conflict arising from leadership, not only in the Anglican Church of Tanzania, but also in other denominations and organizations in Tanzania, Africa, and beyond. This

book highlights and encourages people to understand that conflict is a social phenomenon, endemic and inevitable part of life, the causes of which must be comprehended. This book intends to get rid of the negative perception which many people have that conflicts are an inherent menace, which should be avoided. Conflict is constructive or destructive depending on one's perception as well as the level it has reached. Tools of analysis used can be applicable to different situations both in secular and religious institutions, organizations, and governments. Leadership and Conflict in African Churches is intended to contribute to, and encourage, a wider debate on conflict about leadership. Scholars and general interest groups alike will find specific use in the areas of management, leadership, conflict resolution, theology, religious studies, and social research methodology disciplines.

**Karl Barth and the Study of the Religious Enlightenment** Michael Jimenez.2018 Encountering the Task of History analyzes the intellectual history of the eighteenth century provided by Karl Barth, most notably in his Protestant Theology in the Nineteenth Century. Barth anticipates the recent scholarship on the religious roots, impact, and significance of the Enlightenment, foreshadowing the later and now current challenges to the secularization paradigm. This volume seeks to establish a new vantage point through which to understand not only the wider shape of Barth's work itself but also his standing and contribution to public intellectual scholarship.

**Martin Luther in Context** David M. Whitford.2018-07-31 Martin Luther remains a popular, oft-quoted, referenced, lauded historical figure. He is often seen as the fulcrum upon which the medieval turned into the modern, the last great medieval or the first great modern; or, he is the Protestant hero, the virulent anti-Semite; the destroyer of Catholic decadence, or the betrayer of the peasant cause. An important but contested figure, he was all of these things. Understanding Luther's context helps us to comprehend how a single man could be so many seemingly contradictory things simultaneously. Martin Luther in Context explores the world around Luther in order to make the man and the Reformation movement more understandable. Written by an international team of leading scholars, it includes over forty short, accessible essays, all specially commissioned for this volume, which reconstruct the life and world of Martin Luther. The volume also contextualizes the scholarship and reception of Luther in the popular mind.

*Who Plans the Planning?* Lucius Burckhardt.2019-11-18 From the 1950s, Lucius Burckhardt (1925–2003) focused on planning, design, and construction in a democracy. His astute observations and critical analysis have had a fundamental effect on the design of our environment, on teaching in the architectural/planning professions, and on our understanding of what city means. His research, which – between mighty commercial interests and conflicting political aspirations focuses on the benefit for the entire population – is indispensable when and wherever buildings are planned, designed, built, and inhabited. With a new selection of texts, this book ploughs a furrow through Lucius Burckhardt’s theory of planning.

**The Role of Images and the Veneration of Icons in the Oriental Orthodox Churches** Christine Chaillot.2018 The aim of this book is to demonstrate the presence in the very ancient Eastern Churches of religious images of all kinds (icons, paintings, illuminations), including the representation of Christ, together with the veneration (not the adoration) of icons/images. Presented here are not only the iconographic but also the liturgical-and especially the Christological-dimensions of the icon on the basis of texts used by these four traditions down the centuries. In contrast to the Byzantine Orthodox world which, after a controversy on this subject, officially established the veneration of icons from the time of the Second Council of Nicaea (787) and in 843, these Churches did not experience Iconoclasm. Christine Chaillot is Swiss and Orthodox (Patriarchate of Constantinople). She has published several books on the Orthodox Churches and the Oriental Orthodox Churches. (Series: Studies on Oriental Orthodox Church History / Studien zur Orientalischen Kirchengeschichte, Vol. 55) [Subject: Religious Studies, Christian Studies, History, Iconography]

**Sh#t Your Ego Says** James McCrae.2017-02-21 “Don’t read this book,” your Ego says. “Your life could change. And that scares me.” Sometimes our worst failures lead to our greatest transformation. In 2012, James McCrae left behind a comfortable life in Minnesota and a successful career in advertising to move to New York City and pursue his dreams of being a writer. Soon after he arrived, Hurricane Sandy ripped through the eastern seaboard. New York City was underwater, and James —jobless and running out of money —was suddenly homeless. Fleeing to the island of Culebra for refuge, James sat alone on Flamenco Beach while his greatest doubts and insecurities rose to the surface. What he discovered was his Ego —and it had a lot of sh#t to say. This story of adventure, redemption, and transformation reminds us that we all have two voices inside us: the Ego and the Higher Self. The Ego is our reactive, attached mind that tells us we’re victims of circumstance. The Higher Self is our source of intuition and imagination that reminds us we’re the creators of our reality. Sh#t Your Ego Says exposes the battle between these voices. With arresting honesty and candid, compelling prose, James takes you through practical strategies for overthrowing your Ego and reclaiming a life of creativity and freedom. Whether you’re looking to achieve meaningful career success, improve your relationships, or unlock your imagination, this book provides a no-nonsense roadmap to living with purpose.

**Indic Manuscript Cultures through the Ages** Vincenzo Vergiani,Daniele Cuneo,Camillo Alessio Formigatti.2017-12-18 This collection of essays explores the history of the book in pre-modern South Asia looking at the production, circulation, fruition and preservation of manuscripts in different areas and across time. Edited by the team of the Cambridge-based Sanskrit Manuscripts Project and including contributions of the researchers who collaborated with it, it covers a wide range of topics related to South Asian manuscript culture: from the material dimension (palaeography, layout, decoration) and the complicated interactions of manuscripts with printing in late medieval Tibet and in modern Tamil Nadu, to reading, writing, editing and educational practices, from manuscripts as sources for the study of religious, literary and intellectual traditions, to the creation of collections in medieval India and Cambodia (one major centre of the so-called Sanskrit cosmopolis), and the formation of the Cambridge collections in the colonial period. The contributions reflect the variety of idioms, literary genres, religious movements, and social actors (intellectuals, scribes, patrons) of ancient South Asia, as well as the variety of approaches, interests and specialisms of the authors, and their impassionate engagement with manuscripts.

*Diatoms in the Wetlands of Southern Iraq* Adil Y. Al-Handal, Maitham Al-Shaheen.2019-12-10 The authors document the diatom species composition and ecology in the two major water impoundments of Southern Iraq, the Mesopotamian Marshes and Shatt Al-Arab River. Based on light and scanning electron microscopy investigations, 293 taxa are documented, including the description of three new species. The taxa treated herein were collected from a variety of habitats over a period of 15 years. Diatom assemblages consist of a mixture of freshwater, brackish water and marine taxa. Many diatom taxa that have disappeared in recent years are also documented in this volume. One reason for their disappearance is the high salinization of the Mesopotamian Marshes and Shatt Al-Arab River areas resulting from extremely low freshwater discharge from Euphrates and Tigris Rivers which allowed the seawater front to reach these regions. Species belonging to previously recorded genera such as Eunotia and Diatoma are no longer present in this area. Therefore, this work also is a documentary record of the diatom flora of the wetlands of Southern Iraq during the

past 15 years and not only provides an insight into the present state of research but preserves records and findings from taxa no longer present in Southern Iraq, due to human driven ecological impacts.

**Plurinational Afrobolivianity** Moritz Heck. 2020-02-29 In Bolivia's plurinational conjuncture, novel political articulations, legal reform, and processes of collective identification converge in unprecedented efforts to 're-found' the country and transform its society. This ethnography explores the experiences of Afrodescendants in plurinational Bolivia and offers a fresh perspective on the social and political transformations shaping the country as a whole. Moritz Heck analyzes Afrobolivian social and cultural practices at the intersections of local communities, politics, and the law, shedding light on novel articulations of Afrobolivianity and evolving processes of collective identification. This study also contributes to broader anthropological debates on blackness and indigeneity in Latin America by pointing out their conceptual entanglements and continuous interactions in political and social practice.

*Myth, Mind and Religion* Abraham Rotstein. 2018 The French anthropologist Claude Lévi-Strauss scoured the Amazon forest for the myths of its primitive peoples. He found that a certain logic governed the construction of these myths--his mythologique; he regarded this logic as innate in the human mind and thus universal. Despite this claim of universality, Lévi-Strauss deliberately sidestepped the myths of the biblical religions as well as the myths of modern societies. This proved to be a missed opportunity since these myths lend themselves very well to his mode of analysis. The apocalyptic narrative is the ongoing myth of Western society. It makes its first appearance in the Bible in the story of the Exodus and in the Passion of Christ. Its characteristic feature is its opening scenario of one or another form of unendurable oppression-- whether the Pharaoh in Egypt for the Jews or the bondage of the body for Christians. Lord and servant is the binary pair that prevails and through a process of inversion leads to the Kingdom of Heaven (celestial or terrestrial). The work of Augustine and Luther follow suit as surprisingly enough, do the Lutheran Hegel and the Hegelian Marx. In every case, the initial oppression is inverted and a sublime destination ensues. A demonic version of the same apocalyptic narrative appears in the 1930s. The Nazis point to their own tale of oppression of the German people and in the same fashion proclaim the Dritte Tausendjährige Reich. It is a terrible irony but perhaps Lévi-Strauss's mythologique may help us to see through the glass a little less darkly.

**Becoming a Priest** Szabolcs Anzelm Szuromi, Nicolás Álvarez de las Asturias. 2019-11-29 *Becoming a Priest* focuses on the period between the establishment of the Church by Christ and the middle of the 12th century, when the ecclesiastical discipline necessary to preserve the original meaning, purpose and duties of sacred ministers was established. The belief that the Holy Order is received "as a gift" obliges the Church to respect and protect the integrity of the ministry. Sources show how the non-obligatory nature and the high moral requirements of the priesthood guaranteed, ever more seriously, a person's suitability to every degree of the Holy Order. Gratian's *Decretum* (12th c.) already gives a well balanced and thought-out explication of the qualities of the applicants for, the formation of, and the degrees of the sacred ministry, including the roles of bishops and priests to recognize, select and train those who feel themselves called to the priesthood, and have been found suitable by the Church authorities. The *Decretum Gratiani* summarizes the essential basis for determining who is "worthy" to receive the ministry of Christ, and has been held as the authority in this regard for subsequent centuries. This present volume is the first extensive, and published, fruit of the International Canon Law History Research Center (Pázmány Péter Catholic University, Budapest). The primary aim of this center is to produce precise and accessible publications based on extensive research of sources and auxiliary materials. Our purpose is to make possible objective interpretation of those doctrinal and disciplinary texts which have emerged throughout the life and activity of the Church.

*Luther's Wittenberg World* Robert Kolb. 2018-05-01 In conversations about the Reformation, the name Martin Luther towers above all others. And rightly so. His work, vision, and writings set Christianity on a course of events that would forever change the way that most believers live and understand their faith. And yet, the Reformation was far more than Martin Luther. Around Luther were hundreds of people - fellow teachers and priests, politicians, artists, printers, and spouses - without whose activity and work the Reformation would have progressed much differently. These women and men make up Luther's Wittenberg world, and there is much to be learned from engaging their work. In this monumental work, Robert Kolb introduces us to those individuals. Engaging and informative essays on the social, political, and economic realities of the sixteenth century frame brief introductions to over two hundred supporting cast members whose lives played out around Martin Luther. Comprehensively illustrated, with maps, bibliographies, and other resources, *Luther's Wittenberg World* is a treasure.
