1848 Mike Rapport.2009-02-03 In 1848, a violent storm of revolutions ripped through Europe. The torrent all but swept away the conservative order that had kept peace on the continent since Napoleon's defeat at Waterloo in 1815—but which in many countries had also suppressed dreams of national freedom. Political events so dramatic had not been seen in Europe since the French Revolution, and they would not be witnessed again until 1989, with the revolutions in Eastern and Central Europe. In 1848, historian Mike Rapport examines the roots of the ferment and then, with breathtaking pace, chronicles the explosive spread of violence across Europe. A vivid narrative of a complex chain of interconnected revolutions, 1848 tells the exhilarating story of Europe's violent “Spring of Nations” and traces its reverberations to the present day.

Ever Yours Vincent van Gogh.2014 In addition to his many remarkable paintings and drawings, Vincent van Gogh (1853-1890) left behind a fascinating and voluminous body of correspondence. This highly accessible book includes a broad selection of 265 letters, from a total of 820 in existence, that focus on Van Gogh's relentless quest to find his destiny, a search that led him to become an artist; the close bond with his brother

Theo; his fraught relationship with his father; his innate yearning for recognition; and his great love of art and literature. The correspondence not only offers detailed insights into Van Gogh's complex inner life, but also re-creates the world in which he lived and the artistic avant-garde that was taking hold in Paris. The letters are accompanied by a general introduction, historic family photographs, and reproductions of 100 actual letters that contain sketches by Van Gogh. In sum, this book is the essential book on Van Gogh's letters, which every art and literature lover needs to own.

Marriage Alliance in Late Medieval Florence Anthony Molho.1994 Molho (European history, Brown U.) shows that the propertied families of late-medieval and early-modern Florence maintained their power and influence through arranged marriage and the dowry. While elsewhere in Europe the elite were toppling under the onslaught of commerce and personal freedom, in Florence they married carefully within a narrow and well-defined class, used dowries as both speculation and instruments of manipulation, and remembered every detail for a long time. Journey Toward the Cradle of Mankind Guido Gozzano.1996 Before leaving home he had engaged to send back dispatches to La Stampa; after appearing there, his letters from India were collected and issued posthumously as *Verso la cuna del mondo* (1917), now published in English for the first time. The extent of Gozzano's travels - to Ceylon, Goa, Agra, Jaipur - makes one wonder how the writer was able to visit all or even most of the places he so vividly describes.

Desdemona Toni Morrison.2024-06-13 'This is a remarkable, challenging and bravely original work.' The Guardian Ripped from the world by her husband's paranoia, Desdemona turns in death towards the memory of Barbary, the North African maid who raised her: together, they explore the contours of death, race, war, love and motherhood, in a moving elegy. Audacious with ambition, Desdemona is Toni Morrison's intimate reimagining of the fourth act of Shakespeare's Othello, mixing monologue with Rokia Traore's lyrical songs to re-examine the Bard's presentation of race and female suffering. Part-play, part-concert, part-quest into the afterlife, Desdemona is published in Methuen Drama's Modern Classics series, featuring a new introduction by Joyce Green MacDonald.

Censorship and Literature in Fascist Italy Guido Bonsaver.2007-01-01 The history of totalitarian states bears witness to the fact that literature and print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to shed light on important episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crack-down of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship.

Kinetic Garment Construction Rickard Lindqvist.2015-03-27 Fashion designers are presented with a range of methods and concepts for pattern cutting are presented, the main body of these methods, both traditional and contemporary, is predominately based on a theoretical approximation of the body that is derived from horizontal and vertical measurements of the body in an upright position: the tailoring matrix. As a consequence, there is a lack of interactive and dynamic qualities in methods connected to this paradigm of garment construction, from both expressional and functional perspectives. This work proposes and explores an alternative paradigm for pattern cutting that includes a new theoretical approximation of the body as well as a more kinetic method for garment construction that, unlike the prevalent theory and its related methods, takes as its point of origin the interaction between the anisotropic fabric and the biomechanical structure of the body. As such, the research conducted here is basic research, aiming to identify fundamental principles for garment construction. Based on some key principles found in the works of Geneviève Sevin-Doering and in pre-tailoring methods for constructing garments, the proposed theory for - and method of - garment construction was developed through concrete experiments by cutting and draping fabrics on live models. Instead of a static matrix of a non-moving body, the result is a kinetic construction theory of the body that is comprised of balance directions and key biomechanical points, along with an alternative draping method for dressmaking. This methodology challenges the fundamental relationship between dress, garment construction, and the body, working from the body outward, as opposed to the methods that are based on the prevalent paradigm of the tailoring matrix, which work from the outside toward the body. This alternative theory for understanding the body and the proposed method of working allows for diverse expressions and enhanced functional possibilities in dress.

The Swallows of Monte Cassino Frederika Randall.2013-10-14 The Strega Prize-winning author of *The Girl with a Leica* delivers a novel that hinges on one of the bloodiest World War II battles and those who fought it. In this highly original novel, Janeczek retells the four-month-long Battle of Monte Cassino from the point of view of the Maori, Gurkha, Polish, North African, small-town American and other Allied foot soldiers who fought and died under German fire near that 6th century Benedictine abbey. Twined through the battle is another story, a memory of the drowned and the saved in Janeczek's own family in wartime Eastern Europe, where Jews who did not go to Nazi death camps went to Soviet gulag camps, and sometimes survived, and even went on to fight at Monte Cassino. A powerful reflection on all the ways that rights can be taken from us. "Helena Janeczek's novel is this: a tattoo etched on the skin, and not painlessly. A vast design that brings together threads from all the various lives that converged in that legendary battle. The beauty of her tale lies in its structure, the way opposites converge: the chaos of battle and the silence of the defeated, ordinariness and the heroism of the powerless, carefully guarded memory and impetuous youth, the past perpetually intertwined with the present."

Ornament & Illusion C. Jean Campbell,Francesco De Carolis,Thomas Golsenne,Gianfranco Pocobene,Oliver Tostmann,Alison Wright.2015 The work of Carlo Crivelli (c.1435-c.1495), one of the most original artists of the Italian Renaissance, is well represented in the art museums of North America. Although much admired by collectors, artists, and designers in the 19th and early 20th centuries, he has until recently been largely written out of the history of early Renaissance art, is little known to the public, and outside of some rare instances in Italy, has never been the focus of a monographic exhibition. The book, accompanying an exhibition at the Isabella Stewart Gardner Museum, Boston, will reevaluate Crivelli's provincial status, presenting him as an experimental artist who provided an alternative to the influential new models of modern painting associated with Florence. He was an artist who aimed to dazzle through a repertoire of spectacular pictorial effects that combined luxuriant ornamental display with bravura illusionism the latter entailing a sophisticated, witty, and sometimes unsettling play with the limits of frames and fictive space.
