Historical Dictionary of British Intelligence Nigel West.2014-02-18 British Intelligence is the oldest, most experienced organization of its kind in the world, the unseen hand behind so many world events, and glamorized by James Bond. Despite the change in role, from a global power controlling an Empire that covered much of the world, to a mere partner in the North Atlantic Treaty Organization (NATO) and the European Union, the country's famed security and intelligence apparatus continues largely intact, and recognized as "punching above its weight." Feared by the Soviets, admired and trusted by the Central Intelligence Agency (CIA), British Intelligence has provided the hidden dimension to the conduct of domestic and foreign policy, with the added mystique of Whitehall secrecy, a shroud that for years protected the identities of the shadowy figures who recruited the sources, broke the codes, and caught the spies. This second edition of *Historical Dictionary of the British Intelligence* covers the history through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 1,000 cross-referenced entries on specific operations, spies and their handlers, the moles and defectors, top leaders, and main organizations. This book is an excellent access point for students, researchers, and anyone wanting to know more about the British Intelligence.

Hollywood's West Peter C. Rollins,John E. O'Connor.2005-11-11 American historians such as Frederick Jackson Turner have argued that the West has been the region that most clearly defines American democracy and the national ethos. Throughout the twentieth century, the frontier thesis influenced film and television producers who used the West as a backdrop for an array of dramatic explorations of America's history and the evolution of its culture and values. The common themes found in Westerns distinguish the genre as a quintessentially American form of dramatic art. In *Hollywood's West*, Peter C. Rollins, John E. O'Connor, and the nation's leading film scholars analyze popular conceptions of the frontier as a fundamental element of American history and culture. This volume examines classic Western films and programs that span nearly a century, from *Cimarron* (1931) to Turner Network Television's recent made-for-TV movies. Many of the films discussed here are considered among the greatest cinematic landmarks of all time. The essays highlight the ways in which Westerns have both shaped and reflected the dominant social and political concerns of their respective eras. While *Cimarron* challenged audiences with an innovative, complex narrative, other Westerns of the early sound era such as *The Great Meadow* (1931) frequently presented nostalgic visions of a simpler frontier era as a temporary diversion from the hardships of the Great Depression. Westerns of the 1950s reveal the profound uncertainty cast by the cold war, whereas later Westerns display heightened violence and cynicism, products of a society marred by wars, assassinations, riots, and political scandals. The volume concludes with a comprehensive filmography and an informative bibliography of scholarly writings on the Western genre. This collection will prove useful to film scholars, historians, and both devoted and casual fans of the Western genre. *Hollywood's West* makes a significant contribution to the understanding of both the historic American frontier and its innumerable popular representations.

The Child Across the Street Kerry Wilkinson.2020-07-23 Wheeling my suitcase down the familiar, hedge-lined street, I smile at the sound of children playing in the park nearby. Suddenly, there's a screech of car brakes. I rush over to see a bent bike wheel sticking out of the ditch, and underneath, a little boy... As I turn the rusty key in the lock of the house I grew up in, memories flood back. None of them happy. I never told anyone why I left home twenty years ago, and all I want is to sort out Dad's funeral as quickly as possible. Now I'm trapped here, the only witness to a terrible incident that has left an eight-year-old boy fighting for his life. But after a lifetime trying to forget my past, I don't know if I can trust my memory, or be totally sure of what I saw today. Sorting through Dad's things one night - shopping lists in his curly handwriting, piles of old newspapers, dusty sports trophies - I think I hear the back door handle rattle. I tiptoe downstairs, past an open window I'm sure I locked. And a figure darts across the overgrown garden. Someone is watching me. Someone who knows I'm the only one who saw what happened to little Ethan... or could they know the real reason why I left? Either way, I'm certain that coming back was my biggest mistake. I can't leave, but the longer I stay, the more danger I'm in...

Generation Multiplex Timothy Shary.2009-01-27 When teenagers began hanging out at the mall in the early 1980s, the movies followed. Multiplex theaters offered teens a wide array of perspectives on the coming-of-age experience, as well as an escape into the alternative worlds of science fiction and horror. Youth films remained a popular and profitable genre through the 1990s, offering teens a place to reflect on their evolving identities from adolescence to adulthood while simultaneously shaping and maintaining those identities. Drawing examples from hundreds of popular and lesser-known youth-themed films, Timothy Shary here offers a comprehensive examination of the representation of teenagers in American cinema in the 1980s and 1990s. He focuses on five subgenres—school, delinquency, horror, science, and romance/sexuality—to explore how they represent teens and their concerns, how these representations change over time, and how youth movies both mirror and shape societal expectations and fears about teen identities and roles. He concludes that while some teen films continue to exploit various notions of youth sexuality and violence, most teen films of the past generation have shown an increasing diversity of adolescent experiences and have been sympathetic to the particular challenges that teens face.

Diversity in Disney Films Johnson Cheu.2013-01-10 Although its early films featured racial caricatures and exclusively Caucasian heroines, Disney has, in recent years, become more multicultural in its filmic fare and its image. From Aladdin and Pocahontas to the Asian American boy Russell in *Up*, from the first African American princess in *The Princess and the Frog* to Spanish-mode Buzz Lightyear in *Toy Story 3*, Disney films have come to both mirror and influence our increasingly diverse society. This essay collection gathers recent scholarship on representations of diversity in Disney and Disney/Pixar films, not only exploring race and gender, but also drawing on perspectives from newer areas of study, particularly sexuality/queer studies, critical whiteness studies, masculinity studies and disability studies. Covering a wide array of films, from Disney's early days and Golden Age to the Eisner era and current fare, these essays highlight the social impact and cultural significance of the entertainment giant. Instructors considering this book for use in a course may request an examination copy here.

Major Powers and the Korean Peninsula Titli Basu.2019 The Korean Peninsula, which constitutes one of the strategic pivots of Northeast Asian security, has remained a contested theatre for major powers. Denuclearisation of the Peninsula is unfolding as one of the most defining challenges in shaping regional security. The end state in the Peninsula and how it is to be realised is debated amongst the stakeholders. This book aims to situate some of the critical issues in the Korean theatre within the competing geopolitical interests, strategic choices and policy debates among the major powers. This volume is an endeavour to bring together leading Indian experts including former Indian ambassadors to the Republic of Korea, senior members from the defence and strategic community to analyse the developing situation in the Korean Peninsula. The Korean Peninsula has remained a contested theatre for the major powers. Brutal wars have been fought involving imperial Japan, Czarist Russia, the Union of the Soviet Socialist Republics (USSR), Qing China, the People's Republic of China, and the United States (US) which left the Peninsula conquered, colonised, and divided, starting with Chosun (Yi) Korea from 1392-1910 to colonial Korea from 1910-45 to divided Korea since 1945.1 Subsequently, the Korean War from 1950-53 defined the character of the Cold War in Northeast Asia. The strategic choices in the Korean theatre have been influenced by the competing geopolitical interests of regional stakeholders. In the post-Cold War era, the Peninsula remained a key variable in shaping the Northeast Asian security architecture since the Democratic People's Republic of Korea or North Korea continued to employ the strategic use of nuclear brinkmanship.

The Dark Lady's Mask Mary Sharratt.2016-04-19 From the author of *Ecstasy*, a novel of Renaissance England's first female poet, and her collaboration—and love affair—with William Shakespeare. Aemilia Bassano Lanier is beautiful and accomplished, but her societal conformity ends there. She frequently cross-dresses to escape her loveless marriage and to gain freedoms only men enjoy—and then a chance encounter with a ragged, little-known poet named Shakespeare changes everything. Their Italian idyll, though, cannot last. Will gains fame and fortune for their plays back in London and years later publishes the sonnets mocking his former muse. Not one to stand by in humiliation, Aemilia takes up her own pen in her defense, and in defense of all women. Named One of the Best Books of the Year by the St. Paul Pioneer Press “An absorbing bildungsroman that grapples with strikingly contemporary issues of gender and religious identification”—*New York Times Book Review* “An exquisite portrait of a Renaissance woman pursuing her artistic destiny in England and Italy, who may—or may not—be Shakespeare's Dark Lady.”—Margaret George, best-selling author of *The Splendor Before the Dark* “The idea of a smart, beautiful, artistic woman telling Shakespeare, ‘We shall write comedies, you and I’ is as heady as the elderflower wine Aemilia's household staff brews.”—*Washington Post* “Atmospheric, well-researched, carefully plotted...and, like Shakespeare's plays, chock-full of equal parts mirth and pith to please all.”—*Minneapolis Star Tribune*

Love, Theodosia Lori Anne Goldstein.2021-11-02 A Romeo & Juliet tale for Hamilton! fans. In post-American Revolution New York City, Theodosia Burr, a scholar with the skills of a socialite, is all about charming the right people on behalf of her father—Senator Aaron Burr, who is determined to win the office of president in the pivotal election of 1800. Meanwhile, Philip Hamilton, the rakish son of Alexander Hamilton, is all about being charming on behalf of his libido. When the two first meet, it seems the ongoing feud between their politically opposed fathers may be hereditary. But soon, Theodosia and Philip must choose between love and family, desire and loyalty, and preserving the legacy their flawed fathers fought for or creating their own. Love, Theodosia is a smart, funny, swoony take on a fiercely intelligent woman with feminist ideas ahead of her time who has long-deserved center stage. A refreshing spin on the Hamiltonian era and the characters we have grown to know and love. It's also a heartbreaking romance of two star-crossed lovers, an achingly bittersweet “what if.” Despite their fathers' bitter rivalry, Theodosia and Philip are drawn to each other and, in what unrolls like a Jane Austen novel of manners, we find ourselves entangled in the world of Hamilton and Burr once again as these heirs of famous enemies are driven together despite every reason not to be.

100 Great War Movies Robert J. Niemi.2018-04-04 This book serves as a fascinating guide to 100 war films from 1930 to the present. Readers interested in war movies will learn surprising anecdotes about these films and will have all their questions about the films' historical accuracy answered. This cinematic guide to war movies spans 800 years in its analysis of films from those set in the 13th century Scottish Wars of Independence (*Braveheart*) to those taking place during the 21st-century war in Afghanistan (*Lone Survivor*). World War II has produced the largest number of war movies and continues to spawn recently released films such as *Dunkirk*. This book explores those, but also examines films set during such conflicts as the Napoleonic Wars, the American Civil War, World War I, the Vietnam War, and the wars in Afghanistan and Iraq. The book is organized alphabetically by film title, making it easy to navigate. Each entry is divided into five sections: Background (a brief discussion of the film's genesis and financing); Production (information about how, where, and when the film was shot); Synopsis (a detailed plot summary); Reception (how the film did in terms of box office, awards, and reviews) and Reel History vs. Real History (a brief analysis of the film's historical accuracy). This book is ideal for readers looking to get a vivid behind-the-scenes look at the greatest war movies ever made.

Duty of Care Jc Ryan.2019-04-08 It's Rome. It's August. It's early morning. It's going to be a perfect day. Rex and Digger, his former military dog

and best friend, are in Rome. They are at a trattoria not far from the famous Spanish Steps. Rex is hoping that Catia Romano, the woman he fell in love with four years ago, would make an appearance. It's been two years. Rex's memory stirs. He can see her auburn curls fall across her face, her blue eyes sparkling beneath her lashes, and he wonders if her smile still reaches them. But then her image fades from his mind's eye as his hand reaches for the vibrating phone, and within seconds he knows that his plan to see Catia will come to nothing, as he listens with growing alarm to Rehka, his IT expert in India, telling him that former CRC colleagues of his came to her apartment and wanted to know where they could find him. My cover is blown, my extended vacation is over, and John Brandt could be in perilous danger. John Brandt, the CEO of CRC, whom they all referred to as the Old Man, has been abducted, and CRC needs Rex's help. It's a matter of life and death. Do I have a duty of care? Just when he puts the phone down, Catia is there. Stunning as ever, breathtaking, more beautiful than in his most romantic dreams. His eyes flick to her hands, no rings. Damn! Come on Digger. He stood, grabbed Digger's leash, and walked away. Damn! Thus, begins another nerve-wracking quest for Rex and Digger to save someone. This time, someone from Rex's past. A past which he is trying to escape from.

Until two ladies are attacked at Stanley Market by members of the triad group, Sun Yee On. Without hesitation, Catia, Marissa, and Digger jump into action and rescue the women. Thus, their blissful holiday comes to a violent end. Now they're targets of the Chinese government who wants to keep secret the hellish scheme by the President of China to gain control of the world. THE SHANGHAI STRAIN is a full-length novel, a nail-biting thriller by best-selling author JC Ryan. It is the eleventh book in the electrifying Rex Dalton series.

Making Meaning David BORDWELL, David Bordwell.2009-06-30 David Bordwell's new book is at once a history of film criticism, an analysis of how critics interpret film, and a proposal for an alternative program for film studies. It is an anatomy of film criticism meant to reset the agenda for film scholarship. As such *Making Meaning* should be a landmark book, a focus for debate from which future film study will evolve. Bordwell systematically maps different strategies for interpreting films and making meaning, illustrating his points with a vast array of examples from Western film criticism. Following an introductory chapter that sets out the terms and scope of the argument, Bordwell goes on to show how critical institutions constrain and contain the very practices they promote, and how the interpretation of texts has become a central preoccupation of the humanities. He gives lucid accounts of the development of film criticism in France, Britain, and the United States since World War II; analyzes this development through two important types of criticism, thematic-explicatory and symptomatic; and shows that both types, usually seen as antithetical, in fact have much in common. These diverse and even warring schools of criticism share conventional, rhetorical, and problem-solving techniques--a point that has broad-ranging implications for the way critics practice their art. The book concludes with a survey of the alternatives to criticism based on interpretation and, finally, with the proposal that a historical poetics of cinema offers the most fruitful framework for film analysis.

The mother of one of the girls begs him to help and, unable to walk away, Max returns to Africa with a handpicked team of former comrades-in-arms.
