How the Other Half Lives Jacob A. Riis.2011 Jacob Riis's famed 1890 photo-text addressed the problems of tenement housing, immigration, and urban life and work at the beginning of the Progressive era. David Leviatin edited this complete edition of *How the Other Half Lives* to be as faithful to Riis's original text and photography as possible. Uncropped prints of Riis's original photographs replace the faded halftones and drawings from photographs that were included in the 1890 edition. Related documents added to the second edition include a stenographic report of one of Riis's lantern-slide lectures that demonstrates

Riis's melodramatic techniques and the reaction of his audience, and five drawings that reveal the subtle but important ways Riis's photographs were edited when they were reinterpreted as illustrations in the 1890 edition. The book's provocative introduction now addresses Riis's ethnic and racial stereotyping and includes a map of New York's Lower East Side in the 1890s. A new list of illustrations and expanded chronology, questions for consideration, and selected bibliography provide additional support.

The Highest Mountain of Books in the World Rocio Bonilla. 2016
Lucas was convinced he was born to fly. He spent hours watching birds and airplanes in flight and tried to design his own sets of wings -- many times. But each time they failed. He wrote letters to Santa, pleading for help, but was disappointed with the toy wings and capes he received. Then one day, something magical happened, without him even knowing it. His mother put a book in his hands -- and Lucas began to fly. And fly. And fly. Both a delightful story and a celebration of the wonder of books and their power to transport us to places beyond our imagination. Ages 4 to 8. Hardcover picture book with dust jacket. Full color throughout. 42 pages. 8-3/4 inches wide by 11-3/4 inches high. Rocio Bonilla was born in Barcelona, Spain, and received her Bachelor of Fine Arts degree from the University of Barcelona. She has worked as a photographer, painter, and teacher, and now spends most of her time illustrating books and painting children's murals. As a mother of three, she is continually fascinated by the unique and extraordinary universes that children create, as well as their enormous willingness and generosity to share them with others.

Little Fox Edward van de Vendel.2020-08-25 Good parents everywhere know the tension of wanting our kids to be curious, to have rich experiences and friends...but to be perfectly safe while doing it. Little Fox knows all about it! His father (in classic picture book fashion) warns him of the danger everywhere. But Little Fox still frolics with butterflies, scavenges for food, and searches for new friends. Then one day he takes a tumble, bumps his head, and starts dreaming of things that reflect both the beauty he's seen and the scary things he's heard. Marije Tolman's ingenious illustrations use a fresh technique that feels like a movie and a dream, starring the cheerful, bright orange Little Fox on grainy mixed media landscapes of blue and green. And when Little Fox wakes up, he's perhaps a little wiser, but still every bit as curious and full of life. Praise for Little Fox □ A beautiful, fully realized dreamscape. A tender, brilliant tour de force from the Netherlands.—Kirkus Reviews, starred review

The Art of the Publisher Roberto Calasso.2015-11-03 An interior look at Roberto Calasso's work as a publisher and his reflections on the art of book publishing In this fascinating memoir, the author and publisher Roberto Calasso meditates on the art of

book publishing. Recalling the beginnings of Adelphi in the 1960s, he touches on the Italian house's defining qualities, including the considerations involved in designing the successful Biblioteca series and the strategy for publishing a wide range of authors of high literary quality, as well as the historic critical edition of the works of Nietzsche. With his signature erudition and polemical flair, Calasso transcends Adelphi to look at the publishing industry as a whole, from the essential importance of graphics, jackets, and cover flaps to the consequences of universal digitization. And he outlines what he describes as the most hazardous and ambitious profile of what a publishing house can be: a book comprising many books, a form in which all the books published by a certain publisher could be seen as links in a single chain—a conception akin to that of other twentieth-century publishers, from Giulio Einaudi to Roger Straus, of whom the book offers brief portraits. An essential book for writers, readers, and editors, *The Art of the Publisher* is a tribute to the elusive yet profoundly relevant art of making books.

The Daydreamer Ian McEwan. 2011-08-03 A delightful literary foray for adults and children alike, from the inexhaustible imagination of Booker Prize-winning, best-selling author Ian McEwan. In these seven exquisitely interlinked episodes, the grown-up protagonist Peter Fortune reveals the secret journeys, metamorphoses, and adventures of his childhood. Living somewhere between dream and reality, Peter experiences fantastical transformations: he swaps bodies with the wise old family cat; exchanges existences with a cranky infant; encounters a very bad doll who has come to life and is out for revenge; and rummages through a kitchen drawer filled with useless objects to discover some not-so-useless cream that actually makes people vanish. Finally, he wakes up as an eleven-year-old inside a grown-up body and embarks on the truly fantastic adventure of falling in love. Moving, dreamlike, and extraordinary, *The Daydreamer* marks yet another imaginative departure for Ian McEwan.

But the art of making friends isn't a skill that is taught in most schools. Teaching children how to be good friends and cultivate healthy friendships is the work of parents, teachers, coaches, ministers, and caring adults. In *How to Be a Friend: A Book about Friendship . . . Just for Me!*, author, Molly Wigand, introduces children to those values that make for good friendships—loyalty, trust, and honesty—and to how they can become a good friend to others.

Mountain Landscapes Massimo Sargolini, Roberto Gambino.2015-04 According with the Alps and Carpathian Conventions, the European Landscape Convention, and the Birds, and Habitats Directives the research project Access2Mountain, illustrated in this book, aims to promote the improvement of the accessibility in mountain areas, as a crucial factor for their social, economic and cultural sustainable development, with particular regard for tourism. In the meanwhile, it aims to enlight methods, models and tools for the containment and the reduction of negative impacts of traffic, infrastructures and tourist flows on the environment, landscape and natural-cultural heritage, particularly in the most sensitive areas of South-East Europe. The landscape vision becomes the way to approach the analysis, interpretation and design. It requires a trans-scale dimension, moving from the local level, to the environmental component, the interested context and the model region. The final output is a

Mussolini's Death March Nuto Revelli.2013-04-05 In his quest for military glory, Benito Mussolini sent the Italian Eighth Army to the Eastern Front to help fight the Russians, only to have his forces routed within little more than a month of the launch of the Soviet counteroffensives of the winter of 1942-1943. The Cuneense, a division of mountain troops, was hit especially hard, with only a small percentage of its troops straggling back to Italy; the rest were killed in action or died of frostbite or in captivity from malnourishment, overwork, and disease. All told, the Italians suffered roughly 75,000 dead, more than in their six-month campaign in Greece and Albania or in their three years in North Africa. Nuto Revelli, who fought in Russia himself, interviewed forty-three other survivors of the campaign for a book that has become a classic among Italian war memoirs. First published in Italian in 1966 as *La strada del davai*, Revelli's account, now available in English, vividly recaptures the experiences and sobering reflections of these men. It provides a chilling look at an experience that, in English-language writing, has been overshadowed by that of the main actors on the Eastern Front. When news of the rout reached Italy, the shock was devastating. In Revelli's home province of Cuneo, the recruiting territory of the annihilated Cuneense Division, some villages lost almost all men of military age. The resulting rage and bitterness later fueled the partisan war against the Germans and Italian fascists. The veterans of Mussolini's Death March speak candidly of nights in the open, of extreme cold, gnawing hunger, and eruptive madness. Thousands who survived the Soviet onslaught were taken prisoner and died on the so-called *davai* marches-named for Russian guards' command to keep prisoners moving-or later in the camps themselves. Even so, they developed a favorable impression of the Russian people, who provided hospitality in their small houses and aid to the wounded. Together, their

recollections provide an eye-opening look at a largely neglected aspect of World War II.

The Life and Work of Sigmund Freud Ernest Jones.2019-08-09

Ernest Jones's three-volume *The Life and Work of Sigmund Freud* was first published in the mid-1950s. This edited and abridged volume omits the portions of the trilogy that dealt principally with the technical aspects of Freud's work and is designed for the lay reader. Jones portrays Freud's childhood and adolescence; the excitement and trials of his four-year engagement to Martha Bernays; his early experiments with hypnotism and cocaine; the slow rise of his reputation and constant battles against distortion and slander; the painful defections of close associates; the years of international eminence; the onset of cancer and his stoicism in the face of an agonizing death. "One of the outstanding biographies of the age... It gives us an unmatched — and unretouched — portrait of Freud as a human being." — *The New York Times* "The definitive life of Freud and one of the great biographies of our time... Charged with intellectual excitement, it is a chronicle of heroic struggle and adventurous discovery." — *The Atlantic* "A landmark of literature, a remarkable appreciation of one of the remarkable spirits of the modern age." — *Scientific*
