*Understanding by Design* Grant Wiggins, Grant P. Wiggins, Jay McTighe.2005 What is understanding and how does it differ from knowledge? How can we determine the big ideas worth understanding? Why is understanding an important teaching goal, and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes, standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design*. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and

expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage- and activity-based approaches to curriculum design fall short, and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum. Combining provocative ideas, thoughtful analysis, and tested approaches, this new edition of Understanding by Design offers teacher-designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.

**Families Caring for an Aging America** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Family Caregiving for Older Adults. 2016-11-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address

the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Changing Church and State Relations in Hong Kong, 1950-2000 Beatrice Leung, Shun-hing Chan.2003-08-01 The transition of the Churches from the traditional colonial setting of Hong Kong in the aftermath of World War II to the mature Christian community of post-industrial, post-colonial Hong Kong is analysed with considerable skill by Beatrice Leung Kit-fun and Shun-hing Chan... The

two authors add significantly to our understanding of the dilemmas which confronted not only the Churches in adjusting to the transition from British rule but the wider community as well. The book gave detailed account of Hong Kong's church-state relationship in metamorphosis. It should be an important text for students in both political science and China studies, and especially in the history of Hong Kong. A timely effort to fill a major gap in the study of Hong Kong society - church-state relations. Students of Hong Kong research will find it most informative and useful. But its relevance goes beyond Hong Kong - this is a major reference for those who are interested in the areas of sociology of religion, civil society, political science and East Asian studies. The book is the first piece of substantial research to analyze Church-State relations in Hong Kong during the critical period of the handover from British to Chinese governance. It is certainly an original contribution, in such scale, to raise the attention on an under-studied, controversial and important area which may critically affect the changing socio-political dynamics in Hong Kong. This manuscript is an informative, insightful, and timely study of Church-State relations in Hong Kong over the past 50 years.

**The Adult Learner** Malcolm S. Knowles, Elwood F. Holton III, Richard A. Swanson, Petra A. Robinson. 2020-12-21 How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of *The Adult Learner* has been

revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of The Adult Learner will provide basic instructor aids. For each chapter, there will be a PowerPoint presentation, learning exercises, and added study questions. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without.

With great erudition and strong arguments, Sturmberg lays out a plan which leads to a goal to which we all aspire - a health care system based on primary care and primary health care which expresses the historic values of medicine and adapts itself to the complexity of modern medicine. A must read for anyone who has the interests of primary care at heart.' - Ian R McWhinney, in the Foreword.
