

Explorations In History And Globalization

Planet Dialectics Wolfgang Sachs.1999-07 Here for the first time, his most seminal writings, including several hitherto unpublished articles, are brought together in a single volume.--BOOK JACKET.

Globalization in World History Peter N. Stearns.2019-08-15 In this third edition of *Globalization in World History*, Peter Stearns explores the roots of contemporary globalization, examining shifts in the global flow of people, goods, and ideas as early as 1000 CE. Exploring how four moments in history have accelerated the process of globalization, Stearns's narrative details how factors such as economics, migration, disease transmission, culture, the environment, and politics have influenced the nature of globalization as we understand it today. This revised edition includes: Updates to the whole study with appropriate recent references; New brief transition sections that focus attention on the Mongol period, debates over the role of the eighteenth century, and the partial retreat from globalization after World War I; A new final chapter that deals with the rise in attacks on globalization during the most recent decade, from populist objections to the implications of growing authoritarianism, raising the question of whether a new transition is taking shape around us today. Through an interdisciplinary approach that links political, sociological, and historical perspectives, Stearns provides a comprehensive overview of globalization and the historical factors that have shaped it. This book will be of interest to undergraduate and postgraduate students of world history, economic history, and political economy.

Free Trade and Social Welfare in Europe Lucia Coppolaro, Lorenzo Mechi. 2020-01-24 This book deals with the historical relationship between international trade liberalisation - one of the backbones of globalisation - and the development of social welfare. In Europe the issue has regularly been at the centre of the political debate for at least two centuries, and still nowadays it continues to inspire decisions of the highest order, as in the recent case of Brexit. Analysing a number of particularly meaningful episodes and moments, the eight chapters of this edited volume provide an overview of how the liberalisation/welfare nexus has been addressed in Europe since the end of the 19th century. Describing the oscillations from phases in which state, non-state and transnational actors saw the two elements as widely conflicting, to others in which more harmonious visions prevailed, the book uncovers the political complexity of the issue and contributes to clarifying its connections with the current economic situation, political balances and general social conditions.

Conceptualizing the World Helge Jordheim, Erling Sandmo. 2018-12-17 What is—and what was—“the world”? Though often treated as interchangeable with the ongoing and inexorable progress of globalization, concepts of “world,” “globe,” or “earth” instead suggest something limited and absolute. This innovative and interdisciplinary volume concerns itself with this central paradox: that the complex, heterogeneous, and purportedly transhistorical dynamics of globalization have given rise to the idea and reality of a finite—and thus vulnerable—world. Through studies of illuminating historical moments that range from antiquity to the era of Google Earth, each contribution helps to trace the emergence of the world in multitudinous representations, practices, and human experiences.

Globalization in World History Antony G. Hopkins. 2002 Globalisation will become a major theme of historical research during the next decade - this book will help to set a new agenda.

Globalization and Global History Barry K. Gills, William Thompson. 2012-11-12 Globalization and Global History argues that globalization is not an exotic and new phenomenon. Instead it emphasizes that globalization is something that has been with us as long as there have been people who are both interdependent and aware of that fact. Studying globalization from the vantage point of long-term global history permits theoretical and empirical investigation, allowing the authors collected to assess the extent of ongoing transformations and to compare them to earlier iterations. With this historical advantage, the extent of ongoing changes - which previously appeared unprecedented - can be contrasted to similar episodes in the past. The book is divided into three sections. The first focuses on how globalization has been written about from a historical perspective. The second part advances three different takes on how best to view globalization from a very long-term stance. The final section continues this interpretative thread by examining more narrow aspects of globalization processes, ranging from incorporation processes to systemic disruptions.

The Year 1000 Valerie Hansen. 2021-04-20 The World in the Year 1000 -- Go West, Young Viking -- The Pan-American Highways of 1000 -- European Slaves -- The World's Richest Man -- Central Asia Splits in Two -- Surprising Journeys -- The Most Globalized Place on Earth.

Agricultural Transformation in a Global History Perspective Ellen Hillbom, Patrick Svensson. 2013-03-05 History teaches us that agricultural growth and development is necessary for achieving overall better living conditions in all societies. Although this process may seem homogenous when looked at from the outside, it is full of diversity within. This book captures this diversity by presenting eleven independent case studies ranging over time and space. By comparing outcomes, attempts are made to draw general conclusion and lessons about the agricultural transformation process.

The Year 1000 Valerie Hansen.2020-04-14 From celebrated Yale professor Valerie Hansen, a groundbreaking work of history showing that bold explorations and daring trade missions connected all of the world's great societies for the first time at the end of the first millennium. People often believe that the years immediately prior to AD 1000 were, with just a few exceptions, lacking in any major cultural developments or geopolitical encounters, that the Europeans hadn't yet reached North America, and that the farthest feat of sea travel was the Vikings' invasion of Britain. But how, then, to explain the presence of blonde-haired people in Maya temple murals at Chichén Itzá, Mexico? Could it be possible that the Vikings had found their way to the Americas during the height of the Maya empire? Valerie Hansen, an award-winning historian, argues that the year 1000 was the world's first point of major cultural exchange and exploration. Drawing on nearly thirty years of research, she presents a compelling account of first encounters between disparate societies, which sparked conflict and collaboration eerily reminiscent of our contemporary moment. For readers of Jared Diamond's *Guns, Germs, and Steel* and Yuval Noah Harari's *Sapiens*, *The Year 1000* is an intellectually daring, provocative account that will make you rethink everything you thought you knew about how the modern world came to be. It will also hold up a mirror to the hopes and fears we experience today.

Oceans in World History Rainer Buschmann.2006-09-08 This book explores cross-cultural encounters in the context of exploration, migration, and trade across the world's oceans. From the early migrations of Austronesian peoples to the increasing globalization of recent centuries, it examines trans-oceanic communication and exchange as a major motor of transformation in World History, providing readers with better appreciation of how oceans connect human societies, rather than separate them.

Maritime Exploration in the Age of Discovery, 1415-1800 Ronald S. Love.2006-09-30 A collection of essays that examine developments in maritime exploration from 1415 to 1800, discussing the impact those developments had on what people knew about the world and how it was explored.

Time, Globalization and Human Experience Paul Huebener,Susie O'Brien,Tony Porter,Liam Stockdale,Yanqiu Rachel Zhou.2016-11-03 This edited volume focuses on the intersection of time and globalization, as manifested across a variety of economic, political, cultural, and environmental contexts. Since David Harvey's influential characterization of globalization as time-space compression, ample research has looked at the spatial aspect of the phenomenon, yet few have focused on globalization's temporal aspects. Meanwhile, other publications have analysed problems of speed, acceleration, and the commodification of time, but while it often serves as the implicit or explicit backdrop for these studies of time, globalization is not investigated as a problem or a question in its own right. In response, this volume develops these conversations to consider how time shapes globalization, and how globalization affects our experience of time. The interplay between varying aspects of the human experiences of time and globalization requires the type of interdisciplinary approach that this volume takes. The contributors advance an understanding of global time(s) as an arena of contestation, with social, political, ecological, and cultural implications for human and other lives. In considering the diverse valences of time and globalization, they illuminate problems as well as possibilities. Topics covered include emerging infectious diseases, temporal sovereignty, worker exploitation and resistance, chronobiology, energy politics, activism and hope, and literary and cinematic representations of counter-temporalities, offering a rich and varied account of global times. This volume will be of great interest to students and researchers

from a range of disciplines, including anthropology, cultural studies, globalization, international relations, literary studies, political science, social theory, and sociology.

Globalization and Time Luchien Karsten.2013-05-07 The process of globalization has brought about countless changes in societies, communities, regions and economies across the globe. It has been analyzed from many perspectives as a result and much has been written to muddy the waters of our understanding of this important concept. In going back to the real origins of the global economy, this book demonstrates that understanding this phenomenon as a, 'battle against time' will bring a new clarity to the subject. The process of globalization was accompanied by the mastering of 'social time', thereby producing a progressive increase in the speed of business transactions, both in manufacturing and in services. The context is the development of international trade in western societies and the creation of business institutions to drive forward growth. The account takes a 'long view', beginning with early European exploration in the B.C. period, and ending with the establishment of multinational enterprises in the 20th century. Using an impressive range of sources this unique book will be valuable reading for students and academics involved with the study of international business, economic history, business history and politics, among other disciplines.

Globalization: A Very Short Introduction Manfred Steger.2013-04-04 'Globalization' has become one of the defining buzzwords of our time - a term that describes a variety of accelerating economic, political, cultural, ideological, and environmental processes that are rapidly altering our experience of the world. It is by its nature a dynamic topic - and this Very Short Introduction has been fully updated for a third edition, to include recent developments in global politics, the global economy, and environmental issues. Presenting globalization in accessible language as a multifaceted process encompassing global, regional, and local aspects of social life, Manfred B. Steger looks at its causes

and effects, examines whether it is a new phenomenon, and explores the question of whether, ultimately, globalization is a good or a bad thing. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Decolonizing Psychology Sunil Bhatia.2018 In *Decolonizing Psychology: Globalization, Social Justice, and Indian Youth Identities*, Sunil Bhatia explores how the cultural dynamics of neo-liberal globalization shape urban Indian youth identities and, in particular, he articulates how Euro-American psychological science continues to prevent narratives of self and identity in non-Western nations from entering the broader conversation.

Frontiers of Diversity Avery Plaw.2005 *Frontiers of Diversity* critically examines the explanatory and normative power of pluralism in contemporary philosophy, politics, economics and culture. Based on the papers presented at the First Global Conference on Critical Issues in Pluralism at Mansfield College, Oxford, it brings together for the first time essays examining pluralism's impact, both positive and negative, in each of these critical domains. These essays exhibit something of the fertility of the concept of pluralism, not only across the spectrum of fields, but at all levels of analysis, from individual to social to national and international, touching on specific cases from around the world. Through their diversity, the essays are intended to both promote cross-pollination between these domains of study and experience, and to encourage reflection on pluralism as a powerful cross-disciplinary approach for understanding the contemporary world.--BOOK JACKET.

Explorations in Comparative History B. Z. Kedar.2009 The present volume charts ways that may

allow a larger number of historians to experiment with the comparative method. It contains articles that deal with the history and problems of comparative history as well as studies that demonstrate the potential of symmetrical, asymmetrical, parallel and cross comparisons. The studies include comparisons of the Roman and Inca empires, of Muslim networks of renewal of the eighteenth century, of serfdom in Russia and slavery in the American South, of early modern European expansion and present-day globalization, of modern welfare states, and of multiple modernities. Comparative studies of feudalism exemplify some of the method's pitfalls. The volume concludes with a report by three faculty members on the problems encountered while teaching a course in comparative history.

Explorations in World History Niv Horesh.2023-07-31 This book provides an analysis of the latest research findings in the field of world history, and includes terse articulations of modernity vis-à-vis empire. In doing so, the author brings together insights from both the disciplines of history and international relations into world systems, emphasising economic aspects, and offering a road map for the evolution of the field of world history. The book achieves this by critically analysing the works of Peter Fibiger Bang, Christopher Alan Bayly, Walter Scheidel, Krishnan Kumar, Xin Fan, Christopher A. Ford and Diego Olstein. The author includes discussions such as how the Roman empire impacted all subsequent Western empires, both early and modern, and current debates in world history and politics such as China's rise.

A Global History of Globalization Andrea Colli.2018-03-22T00:00:00+01:00 The world's history is a history of global events. Events which shaped the making of the present. If you want to understand the present, you need to study history and to study it in depth, sorry. This book is about the making of today. It is a compelling narrative of the origins of all what worries our present: instability,

disequilibrium, fear, and uncertainty. It is the narrative of the fragility, but also of the strength of modern civilization, so great and so scary, so fascinating and so repulsive.

A Companion to the History of the Book Simon Eliot, Jonathan Rose. 2011-08-24 A COMPANION TO THE HISTORY OF THE BOOK A COMPANION TO THE HISTORY OF THE BOOK Edited by Simon Eliot and Jonathan Rose "As a stimulating overview of the multidimensional present state of the field, the Companion has no peer." Choice "If you want to understand how cultures come into being, endure, and change, then you need to come to terms with the rich and often surprising history Of the book ... Eliot and Rose have done a fine job. Their volume can be heartily recommended. " Adrian Johns, *Technology and Culture* From the early Sumerian clay tablet through to the emergence of the electronic text, this Companion provides a continuous and coherent account of the history of the book. A team of expert contributors draws on the latest research in order to offer a cogent, transcontinental narrative. Many of them use illustrative examples and case studies of well-known texts, conveying the excitement surrounding this rapidly developing field. The Companion is organized around four distinct approaches to the history of the book. First, it introduces the variety of methods used by book historians and allied specialists, from the long-established discipline of bibliography to newer IT-based approaches. Next, it provides a broad chronological survey of the forms and content of texts. The third section situates the book in the context of text culture as a whole, while the final section addresses broader issues, such as literacy, copyright, and the future of the book. Contributors to this volume: Michael Albin, Martin Andrews, Rob Banham, Megan L Benton, Michelle P. Brown, Marie-Francoise Cachin, Hortensia Calvo, Charles Chadwyck-Healey, M. T. Clanchy, Stephen Colclough, Patricia Crain, J. S. Edgren, Simon Eliot, John Feather, David Finkelstein, David Greetham, Robert A. Gross, Deana Heath, Lotte Hellinga, T. H. Howard-Hill, Peter

Kornicki, Beth Luey, Paul Luna, Russell L. Martin III, Jean-Yves Mollier, Angus Phillips, Eleanor Robson, Cornelia Roemer, Jonathan Rose, Emile G. L. Schrijver, David J. Shaw, Graham Shaw, Claire Squires, Rietje van Vliet, James Wald, Rowan Watson, Alexis Weedon, Adriaan van der Weel, Wayne A. Wiegand, Eva Hemmungs Wirtén.

An Economic History of Regional Industrialization Bas van Leeuwen, Robin C.M. Philips, Erik Buyst. 2020-10-22 This book offers a comprehensive study of regional industrialization in Europe and Asia from the early nineteenth century to the present. Using case studies on regional industrialization, the book provides insights into similarities and differences in industrialization processes between European, Eurasian and Asian countries. Important factors include the transition from traditional to modern industrial production, industrial policy, agglomeration forces, market integration, and the determinants of industrial location over time. The book is an invaluable reference that attempts to bridge the fields of economic history, political history, economic geography, and economics while contributing to the debates on economic divergence between Europe and Asia as well as on the role of economic integration and globalization.

A Brief History of Globalization Alex MacGillivray. 2006-01-10 Globalization is fast becoming the most over-used and least understood word in the world. The accelerating political, economic, cultural and environmental interconnections that it describes are powerful and controversial. But what does it really mean? Ever since Pythagoras first imagined the world as a sphere revolving around the sun, our planet has been shrinking. This book covers globalization from all angles: from 15th-century explorations to the rise of the multi-national corporation; from the Great Wall of China to the birth of the football World Cup. Opening the lid on the complex economics behind the controversies, MacGillivray gives equal play to technology and culture, politics and war. Alex MacGillivray is an

activist inquisitive enough to find out where globalization has come from, and a historian rash enough to say where it is going next. Rich in detail, wide-ranging in scope and even-handed in its assessment of the benefits and dangers of globalization, here is the full story of how a mysterious flat earth became a global village.

History of Globalization Tieting Su.2004 In this impressive book, Tieting Su questions the consensus that globalization is a defining characteristic of the world economic system in general and the world trading system in particular. Most studies have examined globalization as it stands today - this book charts its prehistory. World trade networks are put under the microscope along with trading blocs and business cycles in a book that is a valuable resource not only for students of economics, but also of politics and sociology.

Pathfinders: A Global History of Exploration Felipe Fernández-Armesto.2007-10-17 A brilliant and readable book...a rich study of humankind's restless spirit. —Candice Millard, New York Times Book Review Greeted with coast-to-coast acclaim on publication, Fernández-Armesto's ambitious history of world exploration sets a new standard. Presenting the subject for the first time on a truly global scale, Fernández-Armesto tracks the pathfinders who, over the past five millennia, lay down the routes of contact that have drawn together the farthest reaches of the world. The Wall Street Journal calls it impressive...a huge story [told] with gusto and panache. To the Washington Post, Pathfinders is propelled by an Argonaut of an author, indefatigable and daring. It's a wild ride. And in a front-page review, the Seattle Times hails its tart and elegant presentation...full of surprises. Fernández-Armesto's lively mind, pithy phrasing, and stunningly thorough and diverse knowledge are a constant pleasure. A plenitude of illustrations and maps in color and black and white augment this rich history. In Pathfinders we have a definitive treatment of a grand subject.

Globalization Jürgen Osterhammel, Niels P. Petersson. 2005 This excellent short book by German historians Jürgen Osterhammel and Niels P. Petersson provides a fascinating, accessible sketch of the development of globalization. The authors bridge the gap between academic historians and general readers. While they discuss, in summary, issues of terminology and research primarily of interest to the former, they do not lose the latter. Many will be surprised to learn that at least part of the foundation of globalization as we know it may have been laid as early as the thirteenth-century Mongolian empire. The authors divide the history of globalization into four major phases, and offer provocative insights into the forces at work in each phase. At a time when many people believe that the term globalization connotes an entirely new world condition, this book is an indispensable corrective. getAbstract recommends it to history buffs, journalists, and employees and executives at international companies.

Colonization Or Globalization? Silvia Nagy-Zekmi, Chantal J. Zabus. 2010 This book presents new scholarship on the subject of imperial expansion through colonization and globalization from a variety of postcolonial perspectives. The chapters in this volume, grouped in three sections, scrutinize imperial expansion within the context of national identities and imageries—deconstructing the modernist and utopian idea of a nation as a site of homogeneity, and reviewing the importance of the concept in the different phases of colonization. Hence the first section, entitled Neo-Imperial Traces or Premonitions in Modernism. The postclassical phase of colonialism is examined through the representation of the colonized and the once-colonized. Applying postcolonial theories and often moving beyond them, scholars scrutinize such textual and filmic representations as exemplified in Asia. These make up section 2, Interference of the Imperial Tradition in Asia, which allows for the rearticulations of cultural heritage in the region within the different and ever-renewed schemes of

imperial expansion Section 3, Reformulations of the Imperial Project, seeks to explore the questions surrounding inclusion in, and exclusion from, the realm of power as the founding principle of empire, suggesting that they are discursive and deliberate. Postcolonial societies inherit the trauma of colonialism that subjected people to a cultural displacement that is exacerbated by renewed efforts of imperial influence through globalization. Book jacket.

Intra-Asian Trade and Industrialization A.J.H. Latham, Heita Kawakatsu. 2009-05-08 Under the impressive editorship of A.J.H. Latham and comprising high quality essays on a topic of rising interest to scholars and policymakers, this volume makes some valuable contributions to regional and global dynamics of trade. With contributions from leading names in the field of economic history - such as D.A. Farnie - this book will be useful reading for scholars interested in global economic history, globalization and regional trade, and Asian studies.

Andre Gunder Frank and Global Development Patrick Manning, Barry K. Gills. 2013-07-03 This work focuses on the ideas and influence of Andre Gunder Frank, one of the founding figures and leading analysts of political economy at the global level. Through discussion of his work the contributors in this volume examine the shifting currents of the world economy and the accompanying controversies, advances, and regressions in the understanding of global patterns in present and past. Frank's publications from the 1960s to his death in 2005 enlivened and advanced debates on every continent. He analyzed Latin American dependency, long-term accumulation of capital, world systems, shifting dominance in the world economy, and social movements. His style of wide-ranging scholarship, shared by a growing number of analysts, demonstrated its relevance to the basic causes and effects of economic and social change. This collection provides a comprehensive overview of the legacy of Frank's work and takes stock of the recent and expected developments in global and

historical analysis of political economy. It will be of great interest to students and scholars of international political economy, international relations and political theory.

Another Global City P. Saunier.2008-07-21 This collection uses the transnational activities of municipal urban governments to historicize the origins and development of the global city, focusing on how urban problems were addressed with concepts that emerged from the world in between nations and cities.

Between Resistance and Expansion Peter Probst,Gerd Spittler.2004 Be it the vitality of African popular culture, the vitality of religious ideas or the vitality of artistic forms of expressions - invoking the notion of vitality has become a common practice in Africanist discourses. Most often, the purpose of invoking this notion is to emphasize the unexpected and astonishing power and strength of certain cultural fields in Africa. But what is really meant with the notion of local vitality beyond its metaphorical usage, beyond the underrated and unforeseen? The present volume brings together a number of essays exploring the answers to these questions from different perspectives and disciplines. Based upon an international conference on Local Vitality and the Globalization of the Local organized by the Humanities Collaborative Research Centre at the University of Bayreuth, Germany, the contributions discuss the various dimensions of vitality in the context of debates about identity and self-assertion, locality and appropriation, and rivalry and resista

Empires and Autonomy Stephen Streeeter,John Weaver,William D. Coleman.2010-01-01 Globalization is one of the most significant developments of our time. But which elements of contemporary globalization and forms of autonomy are novel and which are merely continuations of long-standing trends? This book brings together a distinguished group of scholars who focus on historical moments that involved the establishment or protection of autonomy, moments that

inevitably involved friction. By examining the dialectic between globalization and autonomy at historical junctures ranging from the Chinese occupation of Tibet in 1720 to the meeting between Reagan and Gorbachev that led to the end of the Cold War, this volume provides novel insights into the changes overtaking our contemporary world.

America in the World: United States History in Global Context Carl Guarneri.2007-01-09 This text examines how larger global processes have had a role in each stage of American development, how this country's experiences were shared by people elsewhere, and how America's growing influence ultimately changed the world. By examining American history through a global lens, Carl Guarneri creates a framework that situates specific American events within the larger realm of world history.

Doing Global History Roland Wenzlhuemer.2019-10-31 The field of Global History has experienced an unprecedented boom in the last two decades and carved itself deeply into the practice of historical research. Despite this, its conceptual foundations have rarely been explored. This introduction to what Global History is brings together theory and practice with 6 key concepts, delivered through 6 accessible case studies. Re-evaluating the central concerns and key approaches in the field, it offers an up-to-date discussion of the foundations of Global History, its guiding questions, and principal methods 'at work'. *Doing Global History* offers students valuable insights into the ways general concepts can be used and applied when doing historical research. The 6 concepts- connections, actors, structures, space, time and transit- and their accompanying examples will not only help readers to get a solid grasp of what global history means, but will stimulate further engagement in the field. Wenzlhuemer successfully shows that global history is best considered as a perspective, not a theory or paradigm, and guides the reader through ways it can be used in practice

to draw new and exciting conclusions. Tailored for classroom and student use, this book will be invaluable to advanced undergraduates and postgraduates of Global History.

Globalization and the American Century Alfred E. Eckes, Thomas W. Zeiler. 2003-06-30

Revolutionary improvements in technology combined with the leadership elite's enthusiasm for de-regulation of markets and free trade to fuel American-style globalization. The nation rose to economic power after the Spanish-American War, and won both world wars and the Cold war, after which America's power and cultural influence soared as business and financial interests pursued the long-term quest for global markets. But, the tragic events of September 2001 and the growing volatility of global finance, raised questions about whether the era of American-led globalization was sustainable, or vulnerable to catastrophic collapse.

Political Competition and Economic Regulation Peter Bernholz, Roland Vaubel. 2007-06-07

Organized, readable, technically sound and comprehensive from both theoretical and empirical standpoints, this book summarizes a vast amount of institutional, historical and descriptive detail. Using case studies from the US, Canada, Germany and Switzerland as well as the European Union and the global economy, this is the first book of its kind to examine historical evidence on how competition among states - or the lack of it - affects regulation, especially labour market regulation. Edited by internationally respected scholars of economics and containing contributions from eminent economists, this book reveals important implications as to whether European political integration leads to more regulation and whether globalization restrains regulation. It will be of great interest to both economists and students engaged with political economy, public choice and regulation.

Globalistics and Globalization Studies George Modelski., Anton L. Grinin, Valentina M.

Bondarenko.,Ivan A. Aleshkovski,Alexey I. Andreev,Julia V. Zinkina,Oleg A. Alekseenko,Olga G. Leonova,David Christian,Tatyana L. Shestova,Craig G. Benjamin,Sergey V. Tsirel,William R. Thompson,Kentaro Sakuwa,Mikhail A. Kaverin,Sergey Yu. Malkov,Vladimir Maslov,Stanislav Ye. Bilyuga,Olga I. Davydova,Dmitry S. Malkov.,Lowell Gustafson,David Baker,Alexander V. Markov,Joseph Voros,Alexander D. Panov.2015-01-01 This yearbook is the fourth in the series with the title Globalistics and Globalization Studies. The subtitle of the present volume is Global History & Big History. The point is that today our global world really demands global knowledge. Thus, there are a few actively developing multidisciplinary approaches and integral disciplines among which one can name Global Studies, Global History and Big History. They all provide a connection between the past, present, and future. Big History with its vast and extremely heterogeneous field of research encompasses all the forms of existence and all timescales and brings together constantly updated information from the scientific disciplines and the humanities. Global History is transnational or world history which examines history from a global perspective, making a wide use of comparative history and of the history of multiple cultures and nations. Global Studies express the view of systemic and epistemological unity of global processes. Thus, one may argue that Global Studies and Globalistics can well be combined with Global History and Big History and such a multi-disciplinary approach can open wide horizons for the modern university education as it helps to form a global view of various processes.

Explorations in History and Globalization Cátia Antunes,Karwan Fatah-Black.2016-04-14 Considering the ways in which the 'global turn' is changing the theory and practice of historical disciplines, *Explorations in History and Globalization* engages with the concept and methodology of globalization, challenging traditional divisions of space and time to offer a range of perspectives on

how globalization has affected social, economic, political and cultural history. Each chapter covers a specific theme, discussing how globalization has shaped these themes and how they have contributed to globalization throughout history. Including topics such as ecological exchanges, trade, exchanges of knowledge, migration, empire and urbanization, this volume both explains historical trajectories through a global analytical framework and provides tools that students can employ when posing their own research questions about historical globalization. Containing suggestions for further reading and guidance on the ways in which primary source material can be used as a basis for global historical studies, this is the ideal volume for all students interested in the global exchanges between people throughout history.

Approaches to Global History Felipe Fernandez-Armesto. 2023-01-12 This volume brings together 25 defining texts in global history. These pieces cover approaches to the subject from antiquity to the present century and, taken together, show the development of the discipline, providing a solid historiographical, theoretical and methodological overview that will be invaluable for students. The collection gives a unique sense of how, at different times, in different cultural circumstances, students of the past have approached the problems of encompassing the world in a single narrative or theory. This is a reader with an implicit story to unfold. Felipe Fernandez-Armesto tracks how a global understanding of history originated in prophetic writings, how the “Renaissance discovery of the world” multiplied the opportunities for historians to think about history globally, how scientific investigations of change came to exert influence and inspire new thinking among global historians, how “culture wars” ensued between advocates of scientific and culturalist models and how changing contexts in the 20th century produced new thematic approaches to the world as a whole. Each part is introduced, setting it in context and explaining the impact of its subject matter on the

discipline, as well as the relations between the texts and their place in the overall development of global history.

What Is Global History? Sebastian Conrad.2017-08-29 The first comprehensive overview of the innovative new discipline of global history Until very recently, historians have looked at the past with the tools of the nineteenth century. But globalization has fundamentally altered our ways of knowing, and it is no longer possible to study nations in isolation or to understand world history as emanating from the West. This book reveals why the discipline of global history has emerged as the most dynamic and innovative field in history—one that takes the connectedness of the world as its point of departure, and that poses a fundamental challenge to the premises and methods of history as we know it. *What Is Global History?* provides a comprehensive overview of this exciting new approach to history. The book addresses some of the biggest questions the discipline will face in the twenty-first century: How does global history differ from other interpretations of world history? How do we write a global history that is not Eurocentric yet does not fall into the trap of creating new centrism? How can historians compare different societies and establish compatibility across space? What are the politics of global history? This in-depth and accessible book also explores the limits of the new paradigm and even its dangers, the question of whom global history should be written for, and much more. Written by a leading expert in the field, *What Is Global History?* shows how, by understanding the world's past as an integrated whole, historians can remap the terrain of their discipline for our globalized present.

The Mediterranean Response to Globalization before 1950 Sevket Pamuk,Jeffrey G. Williamson.2002-06-01 The studies in this exceptional volume explore the challenges and opportunities presented by globalization events prior to 1950, and identify how countries around the

Mediterranean responded to them. In addition to comparative assessments of regional performance, the volume offers detailed case studies of Spain, Italy, the Balkans, Turkey, Israel and Egypt.

Explorations In History And Globalization Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this

Downloaded from gws.ala.org on 2021-09-18 by guest

treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Explorations In History And Globalization PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly

navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords,

topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need.

Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Explorations In History And Globalization PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they

provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Explorations In History And Globalization free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Explorations In History And Globalization Books

1. Where can I buy Explorations In History And Globalization books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Explorations In History And Globalization book to read? Genres:

Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.).

Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.

4. How do I take care of Explorations In History And Globalization books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book

Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.

7. What are Explorations In History And Globalization audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.

EBSCO provides print books, e-books and collection development services to academic and research libraries worldwide. Books Pics is a cool site that allows you to download fresh books and magazines for free. Even though it has a premium version for faster and unlimited download speeds, the free version does pretty well too. It features a wide variety of books and magazines every day for your daily fodder, so get to it now! However, Scribd is not free. It does offer a 30-day free trial, but after the trial you'll have to pay \$8.99 per month to maintain a membership that grants you access to the sites entire database of books, audiobooks, and magazines. Still not a terrible deal! If your library doesn't have a subscription to OverDrive or you're looking for some more free Kindle books, then Book Lending is a similar service where you can borrow and lend books for your Kindle without going through a library. Amazon's star rating and its number of reviews are shown below each book, along with the cover image

and description. You can browse the past day's free books as well but you must create an account before downloading anything. A free account also gives you access to email alerts in all the genres you choose. Ebooks and Text Archives: From the Internet Archive; a library of fiction, popular books, children's books, historical texts and academic books. The free books on this site span every possible interest. Because it's a charity, Gutenberg subsists on donations. If you appreciate what they're doing, please consider making a tax-deductible donation by PayPal, Flattr, check, or money order. You can search for free Kindle books at Free-eBooks.net by browsing through fiction and non-fiction categories or by viewing a list of the best books they offer. You'll need to be a member of Free-eBooks.net to download the books, but membership is free.
