Simulation Of Beef Cattle Production Systems And Its Use In Economic Analysis Thomas H Spreen, David H Laughlin, Phillip Doren, Odell Walker.2019-07-11 Economic analysis of beef cattle production has been limited by the inability to fully describe the underlying production process. Except for confined feeding of cattle, beef cattle production is the process of growing cattle who consume forages. The animal and the forage possess attributes of both factors and products of production. The production of forage constitutes one production process, animal growth is another production process, and reproduction by female animals is a third production process. Cattle production involves all three processes in such a manner that each influences the outcome of the other. Each process is itself complex and analysis is further complicated when all three are considered simultaneously.

Ellen Polishuk, Forrest Pritchard. 2018-09-10 A totally modern, all-purpose handbook for today's agricultural dreamers—covering the challenges and triumphs of launching any successful farm—from two leading lights in sustainable farming Do you dream of starting your own farm but wonder where to begin? Or do you already have a farm but wish to become more sustainable to compete in today's market? Start Your Farm, the first comprehensive business guide of its kind, covers these essential questions and more: Why be a farmer in the 21st century? Do you have what it takes? What does sustainable really mean, and how can a small (as little as one acre) to midsize farm survive alongside commodity-scale agriculture? How do you access education, land, and other needs with limited capital? How can you reap an actual profit, including a return on land investment? How do you build connections with employees, colleagues, and customers? At the end of the day, how do you measure success? (Hint: Cash your lifestyle paycheck.) More than a practical guide, Start Your Farm is a hopeful call to action for anyone who aspires to grow wholesome, environmentally sustainable food for a living. Take it from Forrest Pritchard and Ellen Polishuk: Making this dream a reality is not for the faint of heart, but it's well within reach—and there's no greater satisfaction under the sun!
