Vidya Vahini Sri Sathya Sai Media Centre.2022-11-15 Baba has clarified that the word vidya used for this vahini (stream), means “that which (ya) illumines (vidh)”. It is this sense that is highlighted in expressions like Atma-vidya, Brahma-vidya, and even the name Vidya-giri (giri means hill or mountain) given to the campus of the Institute of Higher Learning at Prasanthi Nilayam. Baba makes us aware of the comparatively less beneficial lower learning, which deals with theories, inferences, concepts, conjectures, and constructions. The higher learning hastens and expands the universal urge to know and become truth, goodness, and beauty (sathyam, sivam, sundaram). Baba has come as Man among men on a self-imposed mission to correct the wrongs inflicted on mankind through the fanatically blind pursuit of lower learning. The human race has to voyage on an even keel; it is leaning too alarmingly toward the briny grave; the lower learning is lowering it into the bottomless pit. Only spiritual knowledge —that which illumines (vidya)— is the remedy. From His childhood days, Baba has stood forth as an educator, a guru, as the villagers loved to address Him. Without hesitation, He warned elders at Puttaparthi, teachers in the schools, and headmen of castes against cruelty to animals, exploitation of labour, usury, gambling, pedantry and illiteracy, hypocrisy, and pomp. Through quips and jests, parody and satire, songs and plays, the young teenaged teacher ridiculed and reformed society, which honoured or tolerated such evils. Through devotional songs (bhajans) sung in chorus by groups of men and women, He reminded them of the universal human values of truth, morality, peace, love, and nonviolence as early as 1943, when he was barely seventeen. These were the basic acquisitions that the Higher Learning (vidya) can confer on votaries. As Lord Krishna, He said to Arjuna, Among all the kinds of knowledge, I am the Atmic knowledge. Adhyaathma Vidhyaa, Vidhyaanaam. The world can be saved from suicide only through this Atmic knowledge. The search for truth and totality, for unity and purity, is the means; the awareness of the One is the consummation of the process. This message is the sum and substance of every discourse of His during the last five decades. This precious book provides us the chance to peruse nineteen essays that He wrote in answer to appeals for the elucidation of the principles that must guide us while rehabilitating education as an effective instrument for establishing peace and freedom in us and on Earth!

He is a Chartered Engineer by profession, working with top-class engineering companies for more than 25 years. Jay lives with his family in London, UK. Jay firmly believes that when there is spiritual progress in a society, all its people will lead contented and worthy lives. **South Asian Migrations in Global History** Neilesh Bose.2020-12-10 This collection explores how South Asian migrations in modern history have shaped key aspects of globalization since the 1830s. Including original research from colonial India, Fiji, Mexico, South Africa, North America and the Middle East, the essays explore indentured labour and its legacies, law as a site of regulation and historical biography. Including recent scholarship on the legacy of issues such as consent, sovereignty and skilled/unskilled labour distinctions from the history of indentured labour migrations, this volume brings together a range of historical changes that can only be understood by studying South Asian migrants within a globalized world system. Centering south Asian migrations as a site of analysis in global history, the contributors offer a lens into the ongoing regulation of labourers after the abolition of slavery that intersect with histories in the Global North and Global South. The use of historical biography showcases experiences from below, and showcases a world history outside empire and nation.

*Reconceptualising Power in Language Policy* Abhimanyu Sharma.2022-08-12 This book aims to expand the theoretical framework of and counter the Eurocentric narratives in language policy research, by comparing policies of EU and India and demonstrating the importance of taking a comparative perspective while studying language policies. This book challenges the notion of macro-level power in language policy research and offers evidence that, in democratic frameworks, macro-level power is not absolute. It is not uniform across policy domains, but rather susceptible to pressure, especially in the domains of healthcare and social welfare. This book makes three important contributions to the theory of language policy by: Arguing for the need to reconceptualise macro-level power Proposing ‘Categories of Differentiation’ as a new analytical tool for policy research Demonstrating that socio-political changes are reflected at the textual level This book is of interest to researchers working on language policies and those investigating language related legislation across different policy domains, to practitioners and policymakers in language policy, as well as to graduate students conducting comparative policy research. “This is a much valued and timely book making a strong case for the subject of language policy across Europe and India. The large comparative case studies of four distinctive states across Europe and India in a simple descriptive mode makes the reading of this book enjoyable. The domains of administration, legislation, healthcare and social welfare are undoubtedly novel ways to deal within the concept of language policy in a wider sense. The author uses discourse analysis to bring out the relationship between intention, explanation and interpretation of a phenomenon like language policy and its implementation. The social diversity as expressed in linguistic mapping is well captured in the novel idea of “categories of differentiation” both as a normative methodological tool and its historical-empirical manifestation.” — Asha Sarangi, Jawaharlal Nehru University, New Delhi.

It also highlights the

engagement of prominent Indian figures, such as Nehru, Gandhi, Ambedkar, and Tagore, with Buddhist themes in their writings. Stressing upon the lasting legacy of Buddhism in independent India, the author explores the use of Buddhist symbols and imagery in nation-building and the making of the constitution, as also the recent efforts to resurrect Buddhist centers of learning such as Nalanda. With rich archival sources, the book will immensely interest scholars, researchers and students of modern Indian history, culture, archaeology, Buddhist studies, and heritage management.

**Reflections on the World of Human Inspirations** Gabriel Bekö. 2024-01-11 Inspiration is the initial spark that puts us on track towards our beliefs, attitudes, and actions. It partly defines who we are and whom we will become. But what are the sources of our inspirations, what governs them, how do they take shape in our lives and how are our lives shaped by them? Can they be right and wrong, and do we have the power to control them? This book provides an analysis of the historical, geographical, and cultural aspects of those countless moments that ignite our passions, guide our efforts, or cause the lack of both. Through the study of human inspirations, the author elaborates a variety of issues, including current societal, political, and global challenges, spirituality, human character, individualism, education, as well as the contrast between what used to be the political East and West, communism and capitalism. The book offers an intriguing look at the inflation of inspirations in our rapidly changing societies and its global implications. It fuses numerous fields to offer a refined view of the world and ourselves in it. Do advanced societies consist of advanced individuals, or is it time to reassess our values, redefine our principles, and seek inspirations that dare to question the status quo and introduce us to a category of dignity that moves us closer to a truly advanced world?

**India Infrastructure Report 2012** Idfc Foundation. 2016-04-08 Today, India's education sector remains a victim of poor policies, restrictive regulations and orthodoxy. Despite being enrolled in schools, children are not learning adequately. Increasingly, parents are seeking alternatives through private inputs in school and tuition. Students are dropping out from secondary school in spite of high financial returns of secondary education, and those who do complete it have inferior conceptual knowledge. Higher education is over-regulated and under-governed, keeping away serious private providers and reputed global institutes. Graduates from high schools, colleges and universities are not readily employable, and few are willing to pay for skill development. Ironically, the Right to Education Act, if strictly enforced, will result in closure of thousands of non-state schools, and millions of poor children will be left without access to education. Eleventh in the series, India Infrastructure Report 2012 discusses challenges in the education sector — elementary, secondary, higher, and vocational — and explores strategies for constructive change and opportunities for the private sector. It suggests that immediate steps are required to reform the sector to reap the benefits from India's 'demographic dividend' due to a rise in the working age population. Result of a collective effort led by the IDFC Foundation, this Report brings together a range of perspectives from academics, researchers and practitioners committed to enhancing educational practices. It will be an invaluable resource for policymakers, researchers and corporates.

**Water Security in India** Vandana Asthana, A. C. Shukla. 2014-10-23 Few people actively engaged in India's water sector would deny that the Indian subcontinent faces serious problems in the sustainable use and management of water resources. Water resources in India have been subjected to tremendous pressures from increasing population, urbanization, industrialization, and modern agricultural methods. The inadequate access to clean drinking water, increase in water related disasters such as floods and droughts, vulnerability to climate change and competition for the resource amongst different sectors and the region poses immense pressures for sustainability of water systems and humanity. Water Security in India addresses these issues head on, analyzing the challenges that contemporary India faces if it is to create a water-secure world, and providing a hopeful, though guarded, road-map to a future in which India's life-giving and life-sustaining fresh water resources are safe, clean, plentiful, and available to all, secured for the people in a peaceful and ecologically sustainable manner.

**Global China** Pak Nung Wong, Yu-shek Joseph Cheng. 2015-03-26 After two decades since the disintegration of Soviet Union in 1991, the largest and the most populist socialist state — the People's Republic of China — does not only manage to stay intact, but has also emerged as the second largest economy in the world. Moreover, its political, diplomatic, military and cultural reaches have been extended to various parts of the world. There have been many factual and fictional discussions and debates in the public domains, on China's apparent rise either as a threat or an opportunity. This book will take on these discussions and debates to provide theory-informed empirical studies regarding a few research questions: How does the People's Republic of China manage to rise and achieve global reaches? How can we effectively conceptualize China's global reaches? What internal and external strategic and security measures have Chinese state adopted in order to maintain such vast and far-reaching constellations of domestic-external nexuses? We consider that the idea and concept of "Global China" is perhaps the most viable analytical instrument to capture such increasingly complex phenomena in association with the rise of China. **India Retold** Rajesh James, Sathyaraj Venkatesan. 2021-07-01 India Retold: Dialogues with Independent Documentary Filmmakers in India is an attempt to situate and historicize the engagement of independent documentary filmmakers with the postcolonial India and its discourses with a focus on their independent documentary practices. Structured as an interview collection, the book examines how these documentary

filmmakers, though not a homogeneous category, practice their independence through their ideology, their filmmaking praxis, their engagement with the everyday and their formal experiments. As a sparsely studied filmmakers, the book through meticulously tracing a wide ranging historical transitions (often marked by communal conflicts and the forces of globalization) not only details the ways in which independent filmmakers in India address the questions of postcolonial nation and its modernist projects but also explores their idiosyncratic views of these filmmakers which are characterized by a definitive departure from the logic of commercial films or state-sponsored documentary films. More important in many ways, these documentary filmmakers expose incongruences in national institutions and programs, embrace the voice of the underrepresented, and thus, imagine an alternative vision of the nation. During the last three years of the execution of the project, thirty Indian documentary filmmakers are interviewed in this book. Given the dearth of quality interviews and little theoretical engagement with documentary as a genre, this book would not only fill in the gap in scholarship but also would serve as an authentic guide for interested readers and for documentary filmmakers alike.

In this volume, working from a diverse range of perspectives—poststructuralism, liberalism, feminism, just war, securitization, and critical theory—leading scholars in the field of security studies consider the potential for ethical visions of security, and lay the ground for a new field: ethical security studies. These ethical 'visions' of security engage directly with the meaning and value of security and security practice, and consider four key questions: • Who, or what, should be secured? • What are the fundamental grounds and commitments of different security ethics? • Who or what are the most legitimate agents, providers or speakers of security? • What do ethical security practices look like? What ethical principles, arguments, or procedures, will generate and guide ethical security practices? Informed by a rich understanding of the intellectual and historical experience of security, the contributors advance innovative methodological, analytical, political and ethical arguments that represent the cutting edge of the field. This book opens a new phase of collaboration and growth that promises to have great benefits for the more humane, effective and ethical practice of security politics. Zhang, Rosemary Barberet.2011-05-03 The Routledge Handbook of International Criminology brings together the latest thinking and findings from a diverse group of both senior and promising young scholars from around the globe. This handbook is an excellent reference tool for undergraduate and graduate students with particular interests in research methods, international criminology, and making comparisons across countries.

**Prasnothara Vahini** Bhagawan Sri Sathya Sai Baba.1997-02-28 Prasna means "question", Uttara means "answer", and Vahini indicates "a stream". This book is the stream of the questions that have evoked answers from Bhagawan Sri Sathya Sai Baba. Among the tasks that Bhagawan has assumed while incarnating, He has declared as basic the one that He calls, "the clarification and purification of the religious scriptures of mankind." Every Vahini emanating from Him has done this service to some aspect or other of the spiritual upliftment of man. This Vahini is one of the earliest in the series, since it seeks to elucidate the fundamental concepts and precepts of religion, especially the technical words and expressions that seek to concretise them. Hitherto published as an Appendix to a single Vahini, the Gita Vahini, it is now placed in the hands of seekers as a key publication, helpful for readers of all the Vahinis. The Ancient Wisdom (Sanathana Dharma), the Perennial Path, has been communicated to posterity in words that have suffered distortion, devaluation, dilution and denigration through the efflux of time and the controversies among commentators. Varna, asrama, yoga, sanyasa, yajna, karma—these are interpreted by dialecticians and practitioners of varied schools and sects, in confusing and contradictory versions. Bhagawan has resolved these tangles. His exemplary love and patience sweeten not only every answer but every question too, for, He has, by posturing as the interrogator, made the clarifications full and fruitful.
